5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.

The Group adopted the new/revised SFRS(I)s that are effective for annual periods beginning on or after 1 January 2019. Changes to the Group's accounting policies have been made as required, in accordance with the transitional provisions in the respective SFRS(I)s, SFRS(I) interpretations and amendments to SFRS(I)s.

The following are the new or amended SFRS(I)s, and SFRS(I) Interpretations that are relevant to the Group:

Description	Effective for annual periods beginning on or after
SFRS(I) 16 Leases SFRS(I) INT 23 Uncertainty over Income Tax Treatments Amendments to SFRS(I) 9 Prepayment Features with Negative Compensation	1 January 2019 1 January 2019 1 January 2019
Amendments to SFRS(I) 1-28 Long-term Interests in Associates and Joint Ventures Annual Improvements to SFRS(I)s 2015-2017 Cycle	1 January 2019 1 January 2019

The adoption of the above SFRS(I)s, SFRS(I) Interpretations and amendments to SFRS(I) did not have any significant impact on the financial statements of the Group except for the following:

Adoption of SFRS(I) 16 Leases

SFRS(I) 16 requires lessees to recognise most leases on the statement of financial position. The standard includes two recognition exemptions for lessees – leases of 'low value' assets and short-term leases. SFRS(I) 16 is effective for annual periods beginning on or after 1 January 2019. At commencement date of a lease, a lessee will recognise a liability to make a lease payments (i.e. the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e. the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

The Group adopts SFRS(I) 16 using the modified retrospective approach with the cumulative effect of initially applying the standard as an adjustment to the opening retained earnings at the date of initial application, 1 January 2019.

5. Changes in the accounting policies and methods of computation (cont'd)

In addition, the Group elects the following practical expedients:

- not to reassess whether a contract is, or contains a lease at the date of initial application and to apply SFRS(I) 16 to all contracts that were previously identified as leases
- to apply the exemption not to recognise right-of-use asset and lease liabilities to leases for which the lease term ends within 12 months as of 1 January 2019
- to apply a single discount rate to a portfolio of leases with reasonably similar characteristics

On the adoption of SFRS(I) 16, the Group recognised right-of-use assets, lease liabilities and its related tax impact arising primarily from its non-cancellable operating lease commitments with adjustments made to the statement of financial position of the Group as at 1 January 2019. The differences from the statement of financial position of the Group as previously reported are as follow:

	Group	Company 01-Jan-19

Income Statement Review – Second Quarter Ended 30 June 2019 ("2Q2019") vs Second Quarter Ended 30 June 2018 ("2Q2018")

The Group recorded revenue of S\$27.5 million in 2Q2019 that represented a decrease of 6.9% from S\$29.6 million achieved in 2Q2018. This was attributable to lower construction activities during the quarter for the Specialised Engineering and General Construction business segments. Gross profit margin improved from 9.9% to 13.2% with better margins from specialised engineering projects. As a result, gross profit increased by S\$0.7 million or 23.3% despite the drop in revenue.

Other operating income decreased 19.1% due to lower rental income earned by the Group. Other income/(expense) comprised foreign exchange differences and fair value gain or loss on derivatives amounted to a loss of \$\$0.2 million for the current quarter versus \$\$0.5 million in 2Q2018. This arose mainly from a lower fair value loss adjustment on interest rate swap entered into by the Group to hedge against interest rate movements on a long term loan. The Group does not apply hedge accounting.

Operating expenses remain relatively constant with administrative and other operating costs declining by 5.1% and 6.7% respectively.

Finance costs increased by S\$0.3 million with more borrowings and higher interest rates for the current quarter.

Share of results of joint ventures for 2Q2019 was a loss of S\$16,000 as compared to a profit of S\$0.3 million in 2Q2018 as the joint venture development, The Wisteria, obtained its Temporary Occupancy Permit ("TOP") in July 2018 and the remaining income from the sale of residential units had been fully recognised in the previous financial year.

After taking into account the share of non-controlling interest, the Group had a loss attributable to equity holders of the Company of S\$2.9 million for 2Q2019.

Income Statement Review – Half Year Ended 30 June 2019 ("1H2019") vs Half Year Ended 30 June 2018 ("1H2018")

Group revenue recorded for 1H2019 was S\$48.1 million as compared to S\$70.3 million in 1H2018 with lower revenue from the General Construction and Specialised Engineering business segments. Gross profit was S\$6.0 million with a gross profit margin of 12.5% compared with 9.5% achieved in 1H2018 with better margins from specialised engineering projects.

Other operating income decreased by 15.2% due to lower rental income and other income/(expense) was a gain of S\$0.1 million in 1H2019 compared to a loss of S\$0.4 million in 1H2018.

Operating expenses remain relatively constant with administrative costs and other operating costs declining by 6.3% and 1.8% respectively.

Finance costs increased by S\$0.6 million with more borrowings and higher interest rates.

Share of results of joint ventures for 1H2019 was S\$24,000 as compared to S\$1.0 million in 1H2018 as explained above.

Income tax expense of S\$0.2 million was due to under provision of current and deferred taxes in respect of prior years.

The Group had a loss attributable to equity holders of the Company of S\$6.9 million for 1H2019.

Statement of Financial Position and Cash Flow Review

Pursuant to the adoption of SFRS(I) 16 Leases, the Group recognised right-of-use assets presented under noncurrent assets for its leases previously classified as operating leases (excluding short-term leases and leases for which the underlying assets are of low value) of S\$2.8 million as at 30 June 2019. Correspondingly, lease liabilities (current and non-current) of S\$3.0 million were recognised as at 30 June 2019. Please refer to paragraph 5 for more details.

Loans to a joint venture decreased by S\$4.9 million as the Group received partial repayment from its joint venture.

Non-current contract assets increased by S\$1.5 million due to an increase in retention receivable from customers.

Trade receivables increased by \$6.8 million due to progress billings done at the end of the period which remained outstanding from customers.

Current trade and other payables decreased by S\$2.3 million due to settlement of balances subsequent to the last financial year end. Contract liabilities increased by S\$8.7 million as there were excess of progress billings over revenue recognised on projects.

Current loans and borrowings increased by S\$1.4 million due to an increase in trade finance facilities utilised to pay suppliers. Additional loans of S\$3.2 million were obtained from non-controlling interests for the Group's property development project. After offsetting against repayment of the existing borrowings, the non-current borrowings increased by S\$2.5 million.

For the financial period ended 30 June 2019, the Group used cash amounting to S\$7.9 million in operations mainly due to difference in timing in collection of construction revenue and payment of construction costs.

Net cash of S\$4.7 million was generated from investing activities for the current period with the cash inflow arising mainly from the loan repayment from a joint venture.

Net cash generated from financing activities of S\$3.4 million was mainly due to additional loans of S\$3.2 million from non-controlling interests and bank borrowings of S\$1.4 million, offset by repayment of S\$1.2 million for long term borrowings, finance leases and lease liabilities.

The Group's cash position remains healthy at S\$55.7 million as at 30 June 2019.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

The Group made an announcement of Profit Guidance on 30 July 2019 which states that the Group expects to report a net loss for the second quarter ended 30 June 2019 based on a preliminary review of the unaudited financial results.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

On 12 July 2019, the Ministry of Trade and Industry announced that based on advance estimates, the Singapore economy grew by 0.1 per cent on a year-on-year basis in the second quarter of 2019, slower than the 1.1 per cent growth in the previous quarter. The construction sector grew by 2.2 per cent on a year-on-year basis in the second quarter, extending the 2.7 per cent expansion in the previous quarter. Growth of the sector was supported by an increase in public sector construction activities.

According to the media release published by the Building and Construction Authority of Singapore's on 14 January 2019, the projected total construction demand in 2019 should range between S\$27 billion and S\$32 billion, supported by infrastructure projects and the redevelopment of past en-bloc sales sites and new industrial developments.

Although construction demand is expected to increase, local construction firms also see increased competition from overseas players from countries such as People's Republic of China, Japan and South Korea. Besides, the construction sector is expected to face headwinds from uncertainties in the global economy which may dampen construction demand in the buildings sector as well as rising material and labour costs. As such the Group expects the business to remain challenging and competition to be stiff among the industry players.

On the redevelopment of Goh & Goh Building, the Group is still in discussions with the relevant authorities to optimise the potential of the development site.

The Group will continue to focus on its core businesses by leveraging its strong track record to secure more projects, as well as enhancing cost effectiveness and efficiency optimisation in the management of on-going projects. The Group will also explore for business opportunities both locally and in the region to maintain and sustain its long term growth.

As at the date of this announcement, the Group has an order book of approximately S\$210 million in respect of construction projects, predominantly in Singapore and Malaysia.
