## **REIT Management Leads Growth with Well Located Asset**

Within a year from its IPO, IREIT is continuing the commitment to growth with its ABBA acquisition strategy; A property in B City and B property in A City. Berlin is a leading German city with a population of about 3.5 million<sup>2</sup> serving as Germany's capital and cultural center. It is one of the top five investment and rental markets in Germany.

IREIT was attracted to the Berlin Property due to the strong principal tenant, Deutsche Rentenversicherung Bund ("DRB"), a federal pension fund and the largest of the 16 federal pension institutions in Germany, and the opportunity for rental and value growth in this increasingly popular location.

Post-acquisition, IREIT is poised to take advantage of the very strong office and investment market in Berlin. According to Debenham Tie Leung Limited ("DTZ"), the Berlin office sector continues to experience yield compression. Amidst healthy demand and supply dynamics, office vacancy rate in the first quarter of 2015 ("Q1 2015") in Berlin has dropped to 6.3%, its lowest in the last 10 years. In addition, weighted average office rent in Berlin has increased to €14.1 per sq m in Q1 2015, representing a 5-year compounded annual growth rate of 2.9% per annum.

IREIT's Chief Investment Officer, Ms Adina Cooper noted, "Berlin has a growing high technology sector, which has been driving the office market in recent years. In addition to our tenant being a very strong federal pension fund, we believe the future value of our asset shall be derived from an increased demand for this asset by the expanding technology sector and public sector in this part of Berlin."

The property is located six kilometres east of Berlin's city centre and near the Media Spree area, which is popular with internet, media and technology companies. In the vicinity, there are international tenants such as Coca-Cola, Mercedes, and BASF.

## **Attractive Net Property Income ("NPI") Yield with Strong Principal Tenant**

The NPI is 7.1% which compares favourable to NPI of IREIT's existing portfolio.

The principal tenant, DRB occupies 98.8% of the Berlin Property's total lettable area on a lease expiring in June 2024 and contributes 99.6% to the Berlin Property's gross rental income. DRB is directly backed by the German government and has a "AAA" credit rating. Post-acquisition, the Berlin Property will significantly change and diversify IREIT's tenant profile mix.

### **Large and Stable Portfolio**

Mr Sella said, “This acquisition will catapult IREIT’s growth due to the considerable size of the asset. This high quality asset is in a good and centrally located area in Berlin. This is a significant acquisition for us as it demonstrates our ability to acquire a quality asset at an attractive yield that will enhance our portfolio and strengthen IREIT’s long term growth and distribution income to our unitholders. Acquiring this asset is in line with our strategy and our commitment to grow IREIT.”

With this acquisition, IREIT’s total portfolio value will increase significantly to €438.0 million (S\$661.4 million) from €290.6 million (S\$438.8 million). This freehold asset will add a net lettable area of 79,097 sq m to IREIT’s existing portfolio, bringing it to a total of 200,603 sq m with 3,441 parking spaces. When completed, this property will be the largest asset in IREIT’s portfolio.

### **Funding of Acquisition**

Mr Choo Boon Poh, Chief Financial Officer of IREIT said, “As part of our strategy, we intend to fund the acquisition through a mix of equity and debt. IREIT has announced a rights issue to raise gross proceeds of approximately S\$88.7 million. The balance of the funding for the acquisition will be through a bank loan facility, from which it intends to draw down a gross amount of approximately €102.0 million.<sup>3</sup>”

Further details regarding the acquisition and the rights issue are made available in the announcement of IREIT Global dated 30 June 2015.

### **Advisors**
