Notice on Generator Step Up Transformer Return to Service

The Unit 3 of PT Paiton Energy ("Paiton") has resumed to operation on 8 September 2018 at 11.17 pm. Paiton has replaced the Unit 3 Generator Transformer and therefore the Unit 3 has resumed operating in normal condition. As a result, the force majeure event is over.

The interim payments from Paiton's insurance package, which covers the cost of transformer replacement, have been received. The final payment is still in process and expected to be fully paid by the end of December 2018.
