

Mapletree Pan Asia Commercial Trust

4Q and FY24/25 Financial Results

25 April 2025

Important Notice

This presentation is for information only and does not have regard to your specific investment objectives, financial situation or your particular needs. This presentation does not constitute an invitation, offer or solicitation of any offer to sell or subscribe for, acquire or purchase any units in Mapletree Pan Asia Commercial Trust ("MPACT" and units in MPACT ("Units")).

The past performance of the Units and MPACT is not indicative of the future performance of MPACT or MPACT Management Ltd. ("Manager"). The value of Units and the income derived from them, if any, may rise or fall. The Units are not obligations of, deposits in, or guaranteed by the Manager, DBS Trustee Limited (as trustee of MPACT) (the "Trustee") or any of their respective related corporations or affiliates. An investment in the Units is subject to investment risks, including the possible loss of the principal amount invested. Investors have no right to request the Manager to redeem their Units while the Units are listed. It is intended that unitholders may only deal in their Units through trading on Singapore Exchange Securities Trading Limited (the "SGX-ST"). Listing of the Units on the SGX-ST does not guarantee a liquid market for the Units.

This presentation may also contain forward-looking statements and financial information, including those that involve risks and uncertainties. Such forward-looking statements and financial information involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of MPACT or the Manager, or industry results, to be materially different from any future results, performance or achievements, expressed or implied by such forward-looking statements and financial information. Such forward-looking statements and financial information are based on numerous assumptions regarding the Manager's present and future business strategies and the environment in which MPACT or the Manager will operate in the future. Actual future performance, outcomes and results may differ materially from these forward-looking statements and financial information. Because these statements and financial information reflect the Manager's current views concerning future events, these statements and financial information necessarily involve risks, uncertainties and assumptions. These forward-looking statements speak only as of the date of this presentation. No assurance can be given that future events will occur, that projections will be achieved, or that assumptions are correct.

Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital, occupancy rate, construction, development risks, capital availability, competition from similar developments, shifts in expected levels of property rental income, changes in operating expenses (including employee wages, benefits and training costs), property expenses, governmental, public policy changes and the continued availability of financing. You are cautioned not to place undue reliance on these forward-looking statements, which are based on the Manager's current view of future events.

Nothing in this presentation should be construed as financial, investment, business, legal or tax advice and you should consult your own independent professional advisors. Neither the Manager nor any of its affiliates, advisers or representatives shall have any liability whatsoever (in negligence or otherwise) for any loss howsoever arising, whether directly or indirectly, from any use, reliance or distribution of this presentation or its contents or otherwise arising in connection with this presentation. This presentation shall be read in conjunction with MPACT's financial results for the Fourth Quarter and Financial Year ended 31 March 2025 in the SGXNET announcement dated 25 April 2025.

The directors of the Manager (including those who may have delegated detailed supervision of this presentation) have taken all reasonable care to ensure that the facts stated and opinions expressed in this presentation which relate to MPACT and/or the Manager are fair and accurate and that there are no other material facts not contained in this presentation the omission of which would make any statement in this presentation misleading. The directors of the Manager jointly and severally accept responsibility accordingly.

Where any information has been extracted or reproduced from published or otherwise publicly available sources or obtained from a named source, the sole responsibility of the directors of the Manager has been to ensure through reasonable enquiries that such information is accurately extracted from such sources or, as the case may be, reflected or reproduced in this presentation.

- Where "Hong Kong" or "HK" is mentioned, it refers to the Hong Kong Special Administrative Region.
- Due to rounding differences, figures throughout this presentation deck may not add up, and percentages may not total 100%.

1. Include MPACT's 50% effective interest in The Pinnacle Gangnam.

Key Highlights (cont'd)

Financial Performance

4Q FY24/25 vs 4Q FY23/24

- **VivoCity showed continued strength:** Maintained strong performance despite impact from ongoing asset enhancement initiative ("AEI"), partially offsetting overseas headwinds
- **Lower operating and finance costs:** Achieved savings through lower utility rates and strategic debt reduction

FY24/25 vs FY23/24

- **Singapore's strength and accretive divestment of Mapletree Anson:** Provided stability against overseas headwinds and forex pressures
- **Sustained stability from Singapore:** VivoCity spearheaded Singapore's growth in gross revenue and NPI
- **Overseas contributions:** Tempered by persistent SGD strength

Capital Management

- **Long-term financing secured at competitive interest rate:** Issued S\$200 mil of seven-year green notes at 3.104% p.a.
- **Capital discipline in market volatility:** Upholding financial stability with sub-40% gearing

Portfolio Performance

- **Agile leasing strategies:** Delivered 89.6% portfolio committed occupancy despite market pressures
- **Achieved full-year portfolio rental uplift:** Demonstrating core market strength led by VivoCity
- **Stable portfolio valuation:** Singapore's uplift offset adjustments in overseas assets
- **Navigating heightened macro uncertainties:** Strategic focus on preserving occupancy while actively pursuing targeted opportunities to address challenges

VivoCity

- **Steady trajectory towards long-term success:** Tenant sales exceeded S\$1 billion milestone for third consecutive year despite increased downtime
- **Basement 2 AEI on track:** Phase 1 nearing completion with majority of food kiosks fully operational; Phase 2 retail area expansion progressing on schedule

Festival Walk

- **Shopper traffic and tenant sales performance continued to outperform market:** Overcoming broader spending shifts, including currency-driven outbound travel and cross-border consumption trend

Financial Performance

4Q FY24/25 vs 4Q FY23/24: VivoCity's Strong Performance Despite AEI Cushioned Portfolio Against Overseas Headwinds

Lower utility expenses and strategic debt reduction improved operating and finance costs

S\$'000 unless otherwise stated	4Q FY24/25	4Q FY23/24	Variance	
Gross Revenue ¹	222,894	239,222	▼ 6.8%	Gross revenue lower year-on-year (“yoy”), mainly attributed to: <ul style="list-style-type: none"> Reduced contribution from Singapore properties due to divestment of Mapletree Anson on 31 July 2024; and Lower overseas contributions. Singapore’s gross revenue stable yoy (excluding Mapletree Anson), spearheaded by: <ul style="list-style-type: none"> VivoCity’s strong performance despite impact from ongoing AEI. Lower property operating expenses mainly due to: <ul style="list-style-type: none"> Divestment of Mapletree Anson and lower utility expenses.
Property Operating Expenses ¹	(53,349)	(56,087)	▼ 4.9%	
Net Property Income ¹	169,545	183,135	▼ 7.4%	
Net Finance Costs ¹	(51,123)	(56,434)	▼ 9.4%	Finance costs improved 9.4% yoy: <ul style="list-style-type: none"> Net proceeds from Mapletree Anson’s divestment deployed towards debt reduction, partially offset by higher interest rates on HKD and JPY borrowings. DPU lower yoy, largely due to: <ul style="list-style-type: none"> Lower overseas contributions; Mitigated by: <ul style="list-style-type: none"> Singapore’s stable contribution (excluding Mapletree Anson); Lower property operating expenses; and Lower net finance costs resulting from reduced borrowings post-divestment.
Amount Available for Distribution to Unitholders	103,620	120,522	▼ 14.0%	
Distribution per Unit (Singapore cents)	1.95	2.29	▼ 14.8%	

1. Gross revenue, property operating expenses, NPI and net finance costs do not include contribution from The Pinnacle Gangnam. MPACT will share profit after tax of The Pinnacle Gangnam based on its 50% effective interest.

4Q FY24/25 vs 4Q FY23/24: VivoCity's 6.5% NPI Growth Anchored Overall Singapore Stability

Singapore's 1.4% rise in Contribution to NPI (excluding Mapletree Anson¹) moderated against the effects of diverging overseas currents

Contribution to Gross Revenue
(S\$ million)

Contribution to NPI
(S\$ million)

MBC, SG VivoCity, SG Other SG properties Festival Walk, HK China properties Japan properties The Pinnacle Gangnam, KR

1. Mapletree Anson contributed S\$9.5 million of gross revenue and S\$7.8 million of NPI in 4Q FY23/24.

FY24/25 vs FY23/24: Singapore Stability and Accretive Divestment

Injected Resilience

Singapore's higher gross revenue (excluding Mapletree Anson) alongside lower finance costs from debt reduction provided resilience; DPU impacted by overseas headwinds, forex and absence of one-off property tax refund

S\$'000 unless otherwise stated	FY24/25	FY23/24	Variance	
Gross Revenue ¹	908,841	958,088	▼ 5.1%	Gross revenue lower yoy, mainly due to: <ul style="list-style-type: none"> Reduced contributions from Singapore properties due to Mapletree Anson's divestment on 31 July 2024. Lower overseas contributions further dampened by a stronger SGD against JPY, RMB and HKD. Singapore's gross revenue was higher yoy (excluding Mapletree Anson), mainly led by: <ul style="list-style-type: none"> VivoCity's stronger performance despite impact from the ongoing AEI. Lower property operating expenses due to: <ul style="list-style-type: none"> Divestment of Mapletree Anson and lower utility expenses; Partially offset by refund of property tax relating to VivoCity (S\$3.0m) recorded in FY23/24 that was absent in FY24/25, higher property tax and staff cost. Portfolio NPI lower yoy. <ul style="list-style-type: none"> On a constant currency basis, gross revenue and NPI would have been 4.6% and 5.6% lower yoy respectively instead.
Property Operating Expenses ¹	(225,304)	(230,159)	▼ 2.1%	
Net Property Income ¹	683,537	727,929	▼ 6.1%	
Net Finance Costs ¹	(218,382)	(225,482)	▼ 3.1%	Finance costs improved 3.1% yoy: <ul style="list-style-type: none"> Strategic debt reduction post-divestment successfully shielded against higher interest rates on SGD, HKD and JPY borrowings. DPU lower yoy, largely due to: <ul style="list-style-type: none"> Overseas headwinds and adverse forex movements; and Absence of one-off property tax refund in FY24/25; Mitigated by: <ul style="list-style-type: none"> Singapore's higher contributions on a comparable basis; and Improved finance costs after repayment of debts with divestment proceeds. DPU would be 8.6% lower yoy if NPI were held on a constant currency and excluding the one-off property tax refund for VivoCity recorded in FY23/24.
Amount Available for Distribution to Unitholders	423,022	468,569	▼ 9.7%	
Distribution per Unit (Singapore cents)	8.02	8.91	▼ 10.0%	

1. Gross revenue, property operating expenses, NPI and net finance costs do not include contribution from The Pinnacle Gangnam. MPACT will share profit after tax of The Pinnacle Gangnam based on its 50% effective interest.

FY24/25 vs FY23/24: Singapore Continued to Cushion Against Overseas Volatility

Singapore's Contribution to Gross Revenue and NPI up 1.0% and 1.1% respectively on a comparable basis

1. The Singapore properties recorded a -S\$19.7 million variance in gross revenue for FY24/25 as compared to FY23/24. Excluding the S\$25.1 million of higher gross revenue from Mapletree Anson due to its full year contribution in FY23/24, the Singapore properties posted S\$5.4 million higher gross revenue in FY24/25 as compared to FY23/24.
2. The Singapore properties recorded a -S\$18.0 million variance in NPI for FY24/25 as compared to FY23/24. Excluding the S\$19.7 million of higher NPI from Mapletree Anson due to its full year contribution in FY23/24 and S\$3.0 million of one-off property tax refund for VivoCity in FY23/24, the Singapore properties posted S\$4.7 million higher NPI in FY24/25 as compared to FY23/24.

Steady Portfolio Valuation as Singapore Offsets Overseas Headwinds

Singapore's valuation uplift driven by VivoCity and MBC

Overseas valuation primarily affected by revised market expectations in Greater China

MPACT Portfolio	89.6	90.0	96.1²

1. For comparison purposes, the committed occupancy for Other SG Properties (excluding Mapletree Anson) was 97.6% as at 31 March 2024.
2. For comparison purposes, the committed occupancy for MPACT Portfolio (excluding Mapletree Anson) was 96.0% as at 31 March 2024.

FY24/25: Portfolio Rental Uplift Demonstrates Core Market Strength

VivoCity leads robust rental reversions across Singapore properties

Focus on cashflow stability amid ongoing overseas complexities and anticipated rise in uncertainties

	Number of Leases Committed	Retention Rate by Lettable Area (sq ft) (%)	Lettable Area Renewed/Re-Let ('000 sq ft) ¹	Rental Reversion ^{1,2} (%)
MBC, SG	10	71.4	283.7	2.2
VivoCity, SG	101	76.8	291.2	16.8
Other SG properties ³	26	83.0	65.9	7.4
Festival Walk, HK	48	58.4	155.8	-6.9
China properties	36	50.5	231.3	-9.3
Japan properties	47	25.8	433.8	-7.2
The Pinnacle Gangnam, KR	5	22.6	15.6	26.9
MPACT Portfolio	273	46.7	1,477.4	3.6

1. On committed basis for all leases with expiries in FY24/25 only.

2. Rental reversion is calculated based on the change in the average effective fixed rental rates of the new leases compared to the average effective fixed rents of the expiring leases. It takes into account rent-free periods and step-up rental rates over the lease term (if any) and excludes short-term leases that are less than or equal to 12 months where rental rates are not reflective of prevailing market rents that are on normal lease tenure basis.

3. Mapletree Anson was divested on 31 July 2024 and has been excluded.

Balanced Lease Expiry Profile (as at 31 March 2025)

Commitment to Sustainability

Reaffirming Our Commitment to Sustainability

12 material factors mapped to United Nations Sustainable Development Goals (“SDGs”)

Underpinned by four ESG pillars

Building a Resilient Business

1. Economic Performance
2. Strong Partnerships

Safeguarding Against the Impact of Climate Change

3. Energy and Climate Change
4. Quality and Sustainable Products and Services
5. Water Management
6. Waste Management

Enhancing Social Value in Our Workplace and Community

7. Health and Safety
8. Employee Engagement and Talent Management
9. Diversity and Equal Opportunity
10. Community Impact

Upholding High Ethical Standards

11. Ethical Business Conduct
12. Compliance with Laws and Regulations

MPACT is committed to achieving higher ESG standards and delivering long-term value to our stakeholders

- Strive to provide unitholders with relatively attractive ROI through regular and steady distributions, and to achieve long-term stability in DPU and NAV per unit
- Engage with tenants on green lease provisions
- Maintain 100% green-certified portfolio
- Maintain landlord's FY24/25 energy intensity from FY23/24's baseline
- Increase total installed solar capacity to 3,900kWp by 2030
- Reduce energy intensity by 40% from FY11/12 by 2030
- Maintain a diverse and relevant learning & professional development programme
- Achieve zero incidences resulting in employee permanent disability or fatality
- Achieve a minimum of 40 training hours for each employee
- Continue to commit to fair employment practices
- Maintain zero incidences of non-compliance with anti-corruption laws and regulations
- Achieve no material incidences of non-compliance with relevant laws and regulations

Net Zero by 2050: Building a Climate-Resilient Portfolio

Methodical approach to decarbonisation from baseline assessment, target setting, pathway identification to strategic implementation

Roadmap to Building a Climate-Resilient Portfolio

Refine Sustainability Disclosures

- Broaden coverage of sustainability and climate reporting
- Improve performance in sustainability benchmarks

Formulate Decarbonisation Pathway & De-risk Portfolio

- Set intermediate net zero targets
- Conduct quantitative climate risk assessment

Compensate & Neutralise

- Invest in nature-based solutions
- Procure carbon credits for residual emissions

Lay the Foundation

- Implement an environmental data management system to track carbon emissions
- Establish carbon baseline
- Roll out sustainability policies across the value chain

Enhance Stakeholder Engagement on ESG

- Train employees
- Engage tenants, investors, shoppers and suppliers

Leverage on Decarbonisation Drivers

- Improve asset performance
- Expand solar power generation capacity
- Procure renewable energy
- Introduce embodied carbon framework

CSR Activities held in 4Q FY24/25

China: Tenants at Sandhill Plaza create micro water landscapes while learning about the importance of conserving water resources

China: Gateway Plaza engages tenants with a water-themed quiz in support of World Water Day

Singapore: ARC hosts exhibition with interactive games to raise environmental awareness

Japan: JPY80,000 food donation drive benefits vulnerable members of the community via the Ota Ward Council of Social Welfare

Outlook

Looking Forward: Navigating through Uncertainty

Market environment facing unprecedented uncertainty

- The escalation of global trade tensions has created an unprecedented volatile environment, heightening downside risks across markets. In this landscape of policy unpredictability, businesses will hesitate to make long-term planning and investment decisions, potentially driving an enduring period of instability.
- Business confidence and consumer sentiment are expected to weaken, with implications extending across all sectors. Concurrently, the trajectory of the Fed's rate-cutting cycle remains unclear, adding another layer of complexity to the overall outlook.

MPACT's strategic positioning with Singapore providing a relative point of stability

- Amid these challenging conditions, Singapore continues to serve as MPACT's relative point of stability, with its high committed occupancies and positive rental reversions providing resilience.
- The Manager has strengthened MPACT's financial position through the accretive divestment of Mapletree Anson and disciplined allocation of proceeds towards debt reduction. These measures have enhanced MPACT's capacity to withstand approaching headwinds.

Focused and agile management approach to safeguard occupancy and cashflow; adapting to evolving market conditions

- In navigating an environment of increased uncertainties, the Manager maintains its steadfast focus on preserving occupancy levels to safeguard rental income, while implementing prudent cost management measures. Asset enhancement initiatives will continue to be selectively implemented.
- While maintaining commitment to MPACT's long-term objectives, the Manager will adapt to evolving market conditions, adopting targeted measures for tenant retention and actively seeking portfolio optimisation opportunities, including the review of the portfolio composition in Japan.

Appendix 1: Market Information

Singapore Retail – Market Overview

Slowing GDP growth and weakening sentiment amid escalating trade policy uncertainty

Limited new supply and support from tourism could provide some support to occupancy and rental levels

Key Retail Malls and Submarkets

- The HarbourFront/Alexandra micro-market, part of the Greater Southern Waterfront precinct, is slated for urban transformation under the Urban Redevelopment Authority (“URA”)’s Master Plan 2019. This initiative will create a major gateway for “Future Live, Work and Play”.
- VivoCity, with its lettable area of close to 1.1 million square feet, is a key development in this HarbourFront/Alexandra precinct. This iconic mall is directly connected to the HarbourFront MRT station, and enjoys exceptional connectivity to Sentosa and the HarbourFront Centre.
- VivoCity is further poised to benefit from the upcoming direct connectivity to the Marina Bay MRT station, scheduled for completion in 2026, and the planned development for the Greater Southern Waterfront area.

Average Rent

Suburban

94.1%

▲ 0.1 pp from last quarter

- Singapore’s GDP grew 3.8% yoy in 1Q 2025, down from 5.0% in 4Q 2024. On a qoq seasonally adjusted basis, the economy contracted 0.8%, reversing from the previous quarter’s 0.5% expansion. The Ministry of Trade and Industry has cut Singapore’s growth forecast for 2025 to 0-2% from 1-3% amid US-China tariff tension, while the central bank has reduced the pace of SGD’s traded-weighted appreciation as inflation eases and economic risks rise. Global consumer and business confidence are dampening amid trade policy uncertainty, impacting retail sales and businesses’ investment plans. Regional exports have become uneven as trade frontloading effects diminish, although AI-related electronics showed some resilience.
- Retail sales excluding motor vehicles fell 0.5% yoy during January-February 2025. February retail sales declined yoy with the majority of sectors showing declines, retreating from January’s growth, partly due to the timing difference of Chinese New Year.
- Approximately 0.7 million square feet of new retail space is expected from 2025 to 2027, averaging 0.2 million square feet per year. This is lower than the past five-year annual average of 0.3 million square feet.
- While retailers continue to face pressures from a tight labour market and rising operating costs, the moderating pace of SGD’s appreciation and the launch of new tourist attractions in 2025 could boost visitor arrivals and retail spending. The limited new supply is also expected to provide some support to occupancy and rental levels despite broader market headwinds.

Singapore Office – Market Overview

Tenants expected to exercise increased caution and postpone expansion plans until the impact of US trade policies become clearer

Key Office Districts

- Rising rents and tight vacancies in the CBD over the past few years have resulted in a move towards a decentralised business operation model.
- Our office assets are predominantly in the HarbourFront/Alexandra precincts. In the longer term, with the gradual completion of projects under the Greater Southern Waterfront master plan, the myriad of new land uses, as well as refreshed supporting amenities and facilities, will position the precinct as the gateway to “Future Live, Work and Play”.

Average Rent

Islandwide

\$6.49

per sq ft per month
▼ 1.9% qoq

Occupancy

Islandwide

89.4%

▲ 0.4 pp
from last quarter

- In 4Q 2024, overall islandwide vacancy rate decreased by 0.4 pp qoq to 10.6%, while rents decreased by 1.9% qoq. CBD Grade A rents registered a marginal increase of 0.2% to S\$11.68, whereas City Fringe Grade A rents experienced a slight decrease of 0.2% to S\$8.13 per square foot per month over the same period.
- Approximately 2.6 million square feet of new office space is expected from 2025 to 2027. This averages 0.9 million square feet per year, higher than the past five-year annual average of 0.5 million square feet.
- Given the ongoing macroeconomic challenges and considerable uncertainties resulting from US’ sweeping tariffs, occupiers are expected to exercise increased caution and postpone expansion plans until the impact of these trade policies becomes clearer.
- Nevertheless, the flight-to-quality trend remains prominent in Singapore’s office sector, with newer office developments in prime locations better positioned to weather the uncertainties and market fluctuations.

Singapore Office – Market Overview (cont'd)

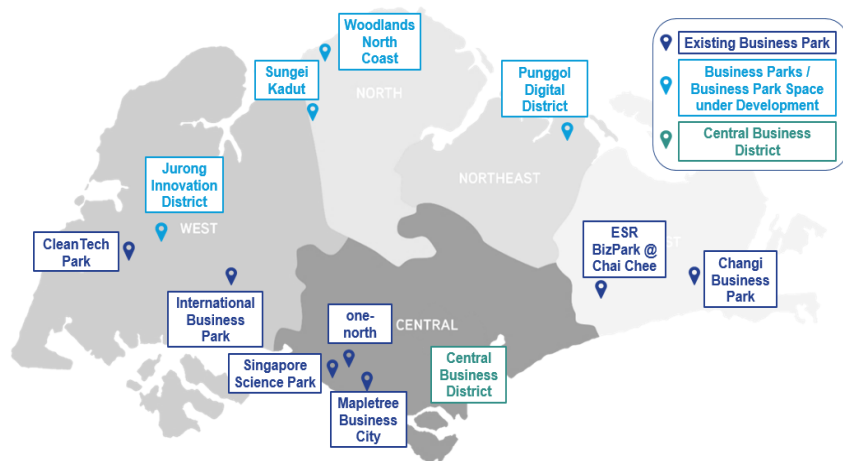

Planned New Supply (2025 – 2027)

Submarket	Property	Area ('000 sq ft)	Expected Completion

Core CBD	Solitaire On Cecil	173.2	2026
Suburban	Jurong Gateway Hub	435.0	2027
Core CBD	Newport Tower	262.6	2027

Singapore Business Parks – Market Overview

Volatile business environment and upcoming supply likely to weigh on the sector's near-term performance although higher-quality assets in better locations should show more resilience

Existing and Planned Business Park Clusters

- Business parks are campus-like business spaces that occupy at least five hectares of land. The campuses typically have lush greenery, a full suite of amenities and facilities and high-quality building designs. These spaces are generally occupied by businesses that are engaged in advanced technology, research and development in high value-added and knowledge intensive activities.
- Mapletree Business City, located in the Central Region, and features Grade A building specifications within an integrated business hub with a full suite of contemporary amenities.

Planned New Supply (2025 – 2027)

Submarket	Property	Area ('000 sq ft)	Expected Completion
Rest of Island (North-East Region)	Punggol Digital District	988.5	1Q 2025
Rest of Island (North-East Region)	Punggol Digital District	1,015.9	1Q 2025
Central Region	1 Science Park Drive	967.3	2025
Rest of Island (West Region)	International Business Park	212.3	2026

Average Rent

Central Region

\$S\$4.73

per sq ft per month

▲ 9.5%
from last quarter

Occupancy

Central Region

90.3%

▲ 1.3 pp
from last quarter

- In 4Q 2024, vacancy rate in the Central Region declined by 1.3 pp to 9.7% while rents increased 9.5% qoq. This rental uptick was primarily driven by tenants from high-value and knowledge industries. However, the overall Islandwide vacancy rate increased by 0.7 pp to 22.1%, while rents recorded a modest growth of 1.0% to S\$4.24 per square foot per month, marking a slight reprieve from the 6.9% qoq decline observed in 3Q 2024.
- Approximately 3.2 million square feet of space is expected to be delivered from 2025 to 2027, averaging 1.1 million square feet per year, higher than the past five-year annual average of 0.7 million square feet. The Central Region will account for 30% of this new supply, with the remaining 70% from the Rest of Island submarket.
- Global trade tensions have led to increased downside risks on global trade and economic growth. Furthermore, continued hybrid work arrangements, tighter foreign employment policies and ongoing costs pressures are expected to weigh on demand for business park space, with occupiers remaining cautious regarding new take-ups and expansion plans. Nevertheless, higher-quality assets in better locations should show relative resilience.

Hong Kong Retail – Market Overview

Retail recovery affected by macro headwinds and changing domestic consumption patterns

Key Retail Areas

- Festival Walk is directly linked to the Kowloon Tong station, the interchange for the local underground Kwun Tong Line of the Mass Transit Railway of Hong Kong. With its direct connection to the MTR, Festival Walk is easily accessible from the north-eastern part of the New Territories, the whole of Kowloon Peninsula, Hong Kong Island and across the border from the Shenzhen area of China.
- Festival Walk also offers excellent direct access via private transport, providing 830 car parking spaces that are open 24 hours a day, seven days a week.

Average Rent

Kowloon East

HKD249

per sq ft per month

▲ 1.2% qoq

Occupancy

Kowloon East

85.4%

▼ 0.3 pp

from 2022

- Hong Kong's economy expanded 2.4% yoy in 4Q 2024, outpacing the 1.9% growth recorded in 3Q 2024. For the full 2024, the economy grew by 2.5%, driven by a recovery in exports amid improved external demand, with composite CPI at 1.7%. Looking ahead, the Hong Kong economy is expected to grow at 2-3% for 2025, with underlying inflation remaining moderate at 1.5% and labour market remaining largely stable.
- While inbound tourism continued to show recovery, visitor arrivals have yet to rebound to levels recorded prior to the 2018 social incidents and COVID-19 pandemic. Nonetheless, this gradual tourism recovery has provided some support to the retail sector, as retail rents across Hong Kong rose 1.3% qoq and 2.5% yoy in 1Q 2025.
- Approximately 4.1 million square feet of new retail space is scheduled for completion in 2025. Following the recent addition of 0.6 million square feet from the Kai Tak Sports Centre in Kowloon East last quarter, two additional developments totalling 0.7 million square feet are set to enter the Kowloon East market. This new supply is likely to exert downward pressure on rents in both the Kowloon East and Kowloon Tong submarkets.
- Several factors are expected to support Hong Kong's economic growth in 2025, including China's monetary easing policies and anticipated increases in tourism and financial services exports facilitated by easier cross-border travel and improving financial conditions. However, this outlook faces headwinds from escalating trade tensions, persisting high interest rates and changing domestic consumption patterns.

Hong Kong Retail Sales Performance

Monthly retail sales declined yoy for January and February 2025 mainly due to softer consumer confidence, decrease in high-spending Mainland China visitors and difference in Chinese New Year timing

Source: Hong Kong Census and Statistics Department

Hong Kong Visitor Arrivals

Tourist arrivals rose 2.6% qoq in 1Q 2025 but remained below pre-2018 social incidents and pre-COVID-19 levels; outbound travel declined qoq likely due to post-holiday seasonal effects, higher travel costs during the festive period and reduced discretionary spending

Beijing Office Market – Market Overview

Some moderation in new supply expected, but a protracted US-China trade conflict is expected to soften demand and investment sentiment

Key Office Districts

- Eight major office submarkets in Beijing
- The Lufthansa district of Beijing, where Gateway Plaza is located, is one of the most established international commercial zones in Beijing.
- Lufthansa has a strong presence of international schools, western supermarkets, international dining options and shopping malls.
- Coupled with its good accessibility to the Beijing International Airport, the Lufthansa district is a popular area for expats and multinational companies (MNCs).

Average Rent

Lufthansa (Grade A)

RMB235

per sq m per month
▼ 1.4% qoq

Occupancy

Lufthansa (Grade A)

▼ 0.6 pp
from last quarter

- China's economy exceeded market expectations in 1Q 2025 as GDP grew 5.4% yoy. This continued momentum was driven by broad stimulus measures that boosted the economy. On a quarterly basis, the economy grew by 1.2%. Although China has set an official GDP growth target of 5% for 2025, this is expected to be affected by the escalating trade tension with US and an uncertain external environment. Consumer prices for the quarter dropped by 0.1% yoy.
- Beijing's overall vacancy improved 0.4 pp qoq in 1Q 2025, supported by positive absorption, while rents decreased 3.2% to RMB244 per square metre per month over the same period. Although rental rates continued a downward trajectory, the pace of decline has moderated over the last two quarters with 3Q 2024 and 4Q 2024 recording qoq reductions of 5.4% and 3.9%, respectively. Due to limited new leasing activities and ongoing tenant relocations, vacancy rate of the Lufthansa submarket inched up 0.6 pp to 23.6% on a qoq basis and rents contracted 1.4% over the same period. On a yoy basis, 1Q 2025 rents fell by 10.9%.
- Approximately 1.7 million square metres of new supply is projected from 2025 to 2027, averaging 0.6 million square metres per year. About 25% of the new supply will be in the CBD, and there is no new supply expected in the Lufthansa submarket.
- Although the US-China trade war has introduced significant volatility, the impact on the real estate market may not be felt immediately. However, a protracted conflict would inevitably heighten economic uncertainty, softening demand and investment sentiment across the market.

Beijing Office Market – Market Overview (cont'd)

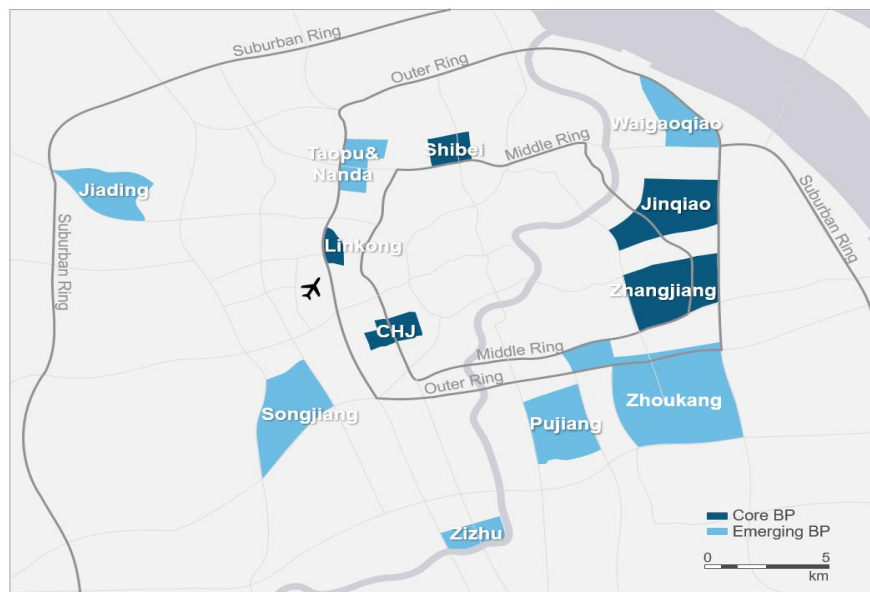

Planned New Supply (2025 – 2027)

Submarket	Property	Area ('000 sq m)	Expected Completion

Shanghai Business Parks – Market Overview

Continued occupancy and rental pressure expected across all submarkets in Shanghai

Core and Emerging Business Parks

- There are five core business parks (Zhangjiang, Caohejing, Jinqiao, Linkong and Shibei) as well as other emerging business parks in Shanghai.
- Predominantly located in decentralised locations, which are increasingly popular among corporates. Rents are typically around half the level of traditional offices.
- At Zhangjiang Science City where Sandhill Plaza is located, biomedical, semi-conductors and technology companies have clustered to create an innovation hub.

Average Rent

- In 1Q 2025, the Shanghai business park market added four new projects with a total GFA of 265,205 square metres. This influx, combined with soft demand, drove overall vacancy rate up by 1.7 pp qoq.
- Overall Shanghai business park rental rate in 1Q 2025 declined by 3.4% qoq to RMB3.81 per square metre per day, as landlords continued to implement rental reductions to support occupancy levels in anticipation of upcoming supply. On a yoy basis, 1Q 2025 rents fell by 14.5%.
- Approximately 5.0 million square metres of new supply is projected from 2025 to 2027, averaging 1.7 million square metres per year. This pipeline is expected to exert continued downward pressure on both occupancy and rental rates across Shanghai's submarkets.

Greater Tokyo Office – Market Overview

Cost-conscious companies increasingly considering more affordable alternatives

Map of Office Markets

- Greater Tokyo Area's office market comprises Tokyo 23 wards (which includes the Tokyo Central 5 wards), Chiba City and Yokohama City.
- Tokyo's five central wards are home to the largest agglomeration of office buildings and headquarters of many global enterprises.
- For companies seeking to establish subsidiaries or satellite offices outside Tokyo for business continuity, Yokohama is a preferred choice as it offers an attractive standard of living and good array of amenities, while Chiba offers cost advantages.

Planned New Supply (2025 – 2027)¹

Submarket	Property	Area (tsubo)	Expected Completion
Tokyo 5 wards	Mitamachi Terrace	16,790.0	3Q 2025
Tokyo 5 wards	Takanawa Gateway City District 3 & 4	7,865.0	4Q 2025
Tokyo 5 wards	World Trade Center Building (Main Building)	24,800.0	1Q 2027

- Japan's GDP grew 2.2% on an annualised basis in 4Q 2024, slower than initially reported as weaker consumption weighed on the economy. This translates into a quarterly expansion of 0.6% in price-adjusted terms. The Bank of Japan held its policy rate at 0.5% in March 2025, with markets now focused on potential tightening at the upcoming monetary policy meeting scheduled for 30 April-1 May 2025.
- Tokyo's office market experienced strong absorption of new supply in 1Q 2025, keeping the vacancy level of the Tokyo 5 wards stable within the 3% range. Office upgrades remain a priority for firms expanding headcount. 1Q 2025 rents rose 1.2% qoq to JPY 29,425 per tsubo per month in Tokyo 5 wards, while Tokyo 18 wards and Yokohama recorded modest declines of 0.7% and 0.4% qoq respectively due to limited leasing activities as the newer and better-located buildings approach full occupancy. Rents in Chiba rose 4.3% qoq although this was largely driven by take-ups in properties with higher rental levels rather than broad market improvement.
- Despite the anticipated new supply in Tokyo 5 wards in 2025, robust demand from expanding companies is expected to continue to drive down vacancy levels. Meanwhile, cost-conscious companies are increasingly considering more affordable alternatives in Yokohama and Chiba. However, external risks from escalating global trade friction could impact business confidence and investment decisions.

1. For presentation purposes, this list only includes the relatively more significant new properties. Smaller individual properties have been excluded.

Seoul Office – Market Overview

Vacancy pressures from new CBD supply but construction delays could provide some buffer

Map of Major Office Submarkets

- The Seoul office market comprises three core business districts: CBD, GBD (where The Pinnacle Gangnam is located) and YBD. Most of the office stock is in the CBD, followed by GBD and YBD.
- Located in Gangnam-gu, Seoul, The Pinnacle Gangnam is a 20-storey freehold office building with six underground floors and 181 parking lots. It has direct access to an underground subway station (Gangnam-gu Office Station) and is within 10 minutes by car from Gangnam's high-end retail district (Cheongdam) and from COEX Convention & Exhibition Center.

Planned New Supply (2025 – 2027)

- South Korea's 1Q 2025 GDP contracted 0.1% yoy. On a quarterly basis, GDP shrank 0.2%, reversing from the 0.1% gain in the last quarter of 2024. The decline was mostly due to a fall in construction, as well as weaker-than-expected domestic demand and exports due to prolonged political uncertainties and deteriorating trade conditions.
- Seoul's Grade A office vacancy rate across the major business districts rose 1.3 pp qoq to 3.8% in 1Q 2025. This stemmed from corporate relocations to more cost-effective areas and new supply entering CBD and YBD. Despite higher vacancy, Grade A office rents rose 1.5% qoq, driven by lease renewals influenced by rising reinstatement and fit-out costs.
- While upcoming supply in CBD and global trade headwinds are likely to exert vacancy pressure, construction delays averaging two to three years for the new developments could provide some buffer.
