FOR IMMEDIATE RELEASE

LMS Compliance Forges Strategic "Dual Carbon" Partnership to Expand ESG Footprint in China and Southeast Asia

- **Tri-partite MOU signed between LMS Compliance, Shenzhen GDR Carbon Asset, and LMS Compliance subsidiary Anchor Center For R&D and Certification**
- **Partnership focuses on internationalisation of non-CCER carbon assets, zero-carbon industrial parks, and compliance with global regulations, including CBAM and CORSIA**
- **Establishes "Shanghai, Shenzhen, and Singapore" tri-city linkage to leverage combined expertise in carbon accounting, ESG assurance, and digital management**

Singapore, 13 April 2026 – LMS Compliance Ltd. ("**LMS Compliance**" or the "**Company**", and together with its subsidiaries, the "**Group**") is pleased to announce that it has signed a non-binding Strategic Cooperation Memorandum of Understanding (MOU) on 9 April 2026 relating to "Dual Carbon" Business with Anchor Center For R&D and Certification (美安康质量检测技术 (上海) 有限公司) ("**ACC Shanghai**"), its 75%-owned Chinese subsidiary, and Shenzhen GDR Carbon Asset Co., Ltd. (深圳嘉德瑞碳资产股份有限公司) ("**GDR**").

The partnership aims to explore collaborative opportunities under China's "Dual Carbon" strategy, leveraging AI technologies and establishing a "Shanghai, Shenzhen, and Singapore" tri-city connection. The MOU aligns with the Group's broader strategy to expand its Environmental, Social, and Governance (ESG) assurance platform across the region.

LMS COMPLIANCE LTD.
(Company Registration Number: 202225544C)

Strategic Tri-City Linkage

The collaboration establishes a dedicated Joint Working Group to facilitate coordination across Shanghai, Shenzhen, and Singapore. ACC Shanghai, an indirect subsidiary of the Company following the completion of the acquisition of Anchor Technology Holdings Co., Limited in July 2025, will coordinate joint market development with GDR within the Chinese market. GDR, a listed entity on the New Third Board, is a leading enterprise in the carbon-neutral industrial chain, specialising in carbon asset development, trading, and digital management platforms. Through this partnership, GDR will leverage LMS Compliance's international network, whilst LMS Compliance and ACC Shanghai will utilise GDR's extensive domestic resources and qualifications.

Scope of Cooperation

The three parties will drive project-based synergies across several key areas:

- **Internationalisation of Non-CCER Carbon Assets:** Connecting domestic voluntary emission reductions to international trading systems, including those in Southeast Asia.
- **International Compliance Services:** Jointly providing carbon footprint accounting and compliance services for stringent international regulations, including the Carbon Border Adjustment Mechanism (CBAM), the EU Battery Act, and Carbon Offsetting and Reduction Scheme for International Aviation (CORSA).
- **Zero-Carbon Industrial Parks and Methodology Development:** Developing energy efficiency technologies and organisational carbon reduction methodologies to support zero-carbon industrial parks.
- **Agricultural Exports Certification:** Integrating domestic and international certification requirements to create export platforms for agricultural products.
- **ESG Consulting:** Offering ESG consulting, rating, and improvement services grounded in compliance requirements.

LMS COMPLIANCE LTD.
(Company Registration Number: 202225544C)

MOU Validity

The MOU is valid for two years from the date of signing and establishes a formal framework for specific project-based contracts. This development complements LMS Compliance's recent dual accreditations as a Validation and Verification Body (VVB) by the Singapore Accreditation Council (SAC) and the Department of Standards Malaysia (DSM).

Executive Director and CEO of LMS Compliance, Dr. Louis Ooi commented:

“This MOU marks a significant step in our strategic expansion across Asia, bridging our robust ESG capabilities in Singapore and Malaysia with the vast potential of the Chinese market. By partnering with Shenzhen GDR Carbon Asset and leveraging our newly acquired capabilities through ACC Shanghai, we are well-positioned to deliver integrated, cross-border ESG and carbon compliance solutions. This tri-city linkage will empower businesses to navigate complex international frameworks like CBAM and CORSIA with confidence.”

About LMS Compliance

LMS Compliance Ltd. is a laboratory testing and certification services provider based in Malaysia with an established track record of more than 15 years. The Group's operations

LMS COMPLIANCE LTD.
(Company Registration Number: 202225544C)

comprise: (1) Testing and Assessment, (2) Certification, (3) Trading, (4) Software as a Service (SaaS), and (5) Assurance, Validation & Verification.

The Group's testing and assessment services include chemical, microbiology, nucleic acid and physical analyses for its clients across a gamut of sectors, from food and healthcare to industrial and green-tech, assisting them to achieve compliance with industry standards as well as product safety. In this regard, LMS Compliance has three accredited laboratories across Malaysia with the capability to conduct a range of accredited and non-accredited tests.

For its certification segment, the Group provides audit and management system certification services. The certification audits provided by the Group include ISO 9001 – 2015 Quality Management Systems certification, ISO 22000 – 2018 Food Safety Management System certification and ISO 45001 - 2018 Occupational Health & Safety Management System certification.

On the Group's trading segment, the Group trades and distributes a broad range of analytical instruments, testing equipment, chemicals, glassware, and laboratory consumable items.

The Group also markets and distributes its in-house developed Conformity Assessment Technology, which includes a digital laboratory information management system to help customers streamline and digitalise laboratory operations, a one-stop ISO certification platform that enhances the efficiency of the certification process for businesses, and a digital product that provides global real-time surveillance and access to data (such as safety and hygiene information about products or premises) through QR code.

Lastly, the Group's newly launched Assurance, Validation & Verification segment provides comprehensive ESG data collection, impact assessment, reporting, and advisory services, along with specialised ISO audits, to aid clients in meeting stringent ESG disclosure requirements.
