REVIEW OF GROUP'S PERFORMANCE

The Group registered revenue of S\$67.1 million for FY2020, a decrease of S\$4.3 million, or 6.0%, from the S\$71.4 million recorded for FY2019.

The decline in the Group's turnover was mainly attributed to a decrease in contribution from the Engineering, Procurement and Construction segment of \$\$3.9 million, or 6.7%, as a result of a delay in execution of a few major projects. Revenue from the Operations and Maintenance segment decreased by \$\$0.4 million, or 3.0%, due to heightened competition and the general slowdown in the economy.

Cost of contract works decreased by \$\$1.9 million, or 3.1%, from \$\$61.6 million in FY2019 to \$\$59.7 million in FY2020, in tandem with the decrease in revenue.

Gross profit decreased by \$\$2.4 million, or 24.1%, from \$\$9.8 million in FY2019 to \$\$7.4 million in FY2020, mainly due to the decrease in gross profit of \$\$2.8 million from the Engineering, Procurement and Construction segment, in line with the decrease in revenue. This was offset by an increase in gross profit of \$\$0.4 million from the Operations and Maintenance segment.

Gross profit margin decreased by 2.7 percentage points from 13.7% in FY2019 to 11.0% in FY2020, mainly due to the decrease in gross profit margin from the Engineering, Procurement and Construction segment, partially offset by an increase in gross profit margin from the Operations and Maintenance segment.

Administrative expenses decreased by \$\$0.3 million, or 4.7%, from \$\$6.1 million in FY2019 to \$\$5.8 million in FY2020, in line with the decrease in group turnover.

Finance costs increased by \$\$0.04 million, or 45.4%, from \$\$0.10 million in FY2019 to \$\$0.14 million in FY2020, mainly due to additional finance costs arising from the lease liabilities.

As a result of the above, profit before tax for the Group decreased by 76.6%, from \$\$2.8 million in FY2019 to \$\$0.7 million in FY2020.

REVIEW OF GROUP'S FINANCIAL POSITION

Current assets decreased by 3.0% from S\$40.8 million as at 31 March 2019 to S\$39.6 million as at 31 March 2020, mainly due to a decrease in trade and other receivables and contract assets, which was partially offset by an increase in cash and cash equivalents.

Trade and other receivables decreased by 29.6% from \$\$16.3 million as at 31 March 2019 to \$\$11.5 million as at 31 March 2020, mainly due to lower billings towards the end of FY2020 as a result of delay in execution of a few major projects.

Contract assets decreased by 35.4% from S\$15.4 million as at 31 March 2019 to S\$10.0 million as at 31 March 2020, mainly due to decrease in work done for certain major projects towards the end of FY2020.

Financial assets at fair value through profit or loss was disposed during the financial year ended 31 March 2020.

Non-current assets increased by 2.0% from \$\$11.2 million as at 31 March 2019 to \$\$11.4 million as at 31 March 2020, mainly due to the increase in the right-of-use assets of \$\$2.1 million arising from the adoption of SFRS(I) 16 *Leases*, partially offset by the decrease in property, plant and equipment of \$\$1.9 million.

Current liabilities decreased by 7.4% from \$\$22.7 million as at 31 March 2019 to \$\$21.0 million as at 31 March 2020, mainly due to a decrease in trade and other payables of \$\$4.2 million and income tax payable of \$\$0.4 million, partially offset by an increase in contract liabilities of \$\$2.9 million.

Non-current liabilities increased by 33.7% from S\$2.6 million as at 31 March 2019 to S\$3.5 million as at 31 March 2020, arising from the recognition of lease liabilities of S\$1.1 million following the adoption of SFRS(I) 16 *Leases*, which was partially offset by repayments of borrowings and lease liabilities during the financial year.

REVIEW OF GROUP'S CASH FLOWS

Net cash from operating activities amounted to S\$10.3 million due to operating cash flow before movements in working capital of S\$1.9 million, adjusted for net cash inflow from working capital changes of S\$8.9 million and income tax paid of S\$0.5 million.

Net cash inflow from working capital of \$\$8.9 million was a result of (a) decrease in trade and other receivables of \$\$4.8 million due to prompt collections; (b) decrease in contract assets of \$\$5.4 million due to the number of projects executed during the year; and (c) increase in contract liabilities of \$\$2.9 million as a result of advance billings, offset by a decrease in trade and other payables of \$\$4.2 million due to prompt payments to suppliers.

Net cash inflow from investing activities amounted to \$\$0.3 million, mainly due to the receipt of proceeds from the disposal of financial assets at fair value through profit or loss.

Net cash outflow used in financing activities amounted to \$\$1.2 million, mainly due to the dividend payment of \$\$0.7 million, repayment of borrowings and lease liabilities of \$\$0.4 million, and interest payment of \$\$0.1 million.

As a result of the above, overall cash and cash equivalents increased by \$\$9.3 million to \$\$18.2 million in FY2020.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

No forecast or prospect statement was previously made to shareholders.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The Covid-19 pandemic has had a pervasive impact across many sectors, including the water and waste management industry in which the Group operates.

The pandemic's disruptions to the Group's operations include:

- A temporary interruption in the supply chain in the last quarter of the financial year ended 31 March 2020, due to delayed shipments of raw materials from China following the country's implementation of pandemic-containment safety measures;
- A halt in Singapore operations for the Engineering, Procurement, and Construction segment, following the enforcement of Circuit Breaker lockdown measures starting in April 2020, though the Group has been able to continue activities for the Operations and Maintenance segment during the Circuit Breaker period as these are considered essential services as designated by the Singapore government; and

• Disruption in manpower due to pandemic's effect on the foreign worker community in Singapore, and the subsequent counter- measures put in place by the Singapore government, which include movement restrictions and quarantine measures.

The Group's supply chain has since been restored and we have been able to progressively resume our operations. We will continue to manage our manpower such that we are able to successfully execute our projects while ensuring safety and health of our staff. Overall, we expect the Covid-19 pandemic to impact the Group's financial performance for the upcoming financial year ending 31 March 2021, though we are unable to fully ascertain the full impact at this point. We will continue to assess the impact of the pandemic on the Group and update shareholders as and where there are material developments.

Looking ahead, we believe that ensuring sustainable water supply for Singapore will continue to be an ongoing and important focus of the government. With large-scale projects such as the Deep Tunnel Sewerage System ("DTSS") continuing to be a priority, we expect the public sector water and waste management industry to remain a stable source of business opportunities for the Group. The Group recently secured a sub-contract through its wholly-owned subsidiary, Sanli M&E Engineering Pte. Ltd., for the Mechanical, Electrical and Instrumentation Control and Automation portion of the Tuas Water Reclamation Plant Contract 4A – Biosolids and Digesters, which is a component of the DTSS Phase 2 project. While competition within our sector will continue to be stiff, the Group is encouraged by this recently secured sub-contract and is optimistic that its established track record and expertise in this field will allow it to continue securing more projects.

Moving forward, the Group retains a cautiously optimistic outlook on its operations. In line with the Group's renewed leadership as announced on SGXNet on 21 April 2020, the Group will focus on strengthening the abilities of its team, as well as driving innovation through technology, with the aim of enhancing the Group's capabilities to take on larger projects.
