

**PRESS RELEASE  
(For Immediate Release)**

## ***INFORMATICS ACHIEVES 1-YEAR EDUTRUST CERTIFICATION***

SINGAPORE, 28 November 2014 – SGX Mainboard-listed Informatics Education Ltd (“Informatics”), today announced that its subsidiary, Informatics Academy Pte Ltd ("Informatics Academy"), which runs school operations in Singapore, has attained a 1-year EduTrust Certification, in its recent renewal application for this voluntary certification scheme administered by the Council for Private Education (CPE).

This attainment of Edutrust Certification allows Informatics Academy to enrol international students who require the issuance of Student Passes from the Immigration and Checkpoints Authority.

The EduTrust Certification programme reviews and audits a private education institution based on six criteria – (i) management commitment and responsibilities, (ii) corporate governance and administration, (iii) external recruitment agents, (iv) student protection and support services, (v) academic processes and assessment of students and (vi) quality assurance, monitoring and results.

CPE, the statutory board empowered with the legislative power to regulate the private education sector has affirmed that Informatics Academy has attained a minimum level of performance in key areas of management and the provision of educational services.

The Board of Informatics is committed to ensure that Informatics Academy will continuously strive to improve its existing management practices and service provisions. With new leadership at its helm, the Board of Informatics is confident that Informatics Academy will achieve higher standards of academic excellence. Informatics Academy will also be launching a new top up degree in Business Studies from University of South Wales which the CPE has just approved and has just signed an agreement with Oxford Brookes University to extend its partnership from the School of IT to the School of Business.

For further information on the CPE and EduTrust Certification, please refer to <http://www.cpe.gov.sg/>

### **About Informatics Education Ltd**

Informatics Education Ltd., founded in 1983, is one of the largest education and training institutes in Asia and the first private lifelong learning company to obtain a listing on SGX-Mainboard in May 1993. Over the years, Informatics together with its subsidiaries, Informatics Academy, Informatics Global Campus, NCC Education UK and regional country offices have a global network spanning across Asia, Middle East, Africa and Europe. It has built a strong track record for offering foundation programmes as well as undergraduate and postgraduate degrees in infocomm technology and business management.
