- b. increase in trade bills payables to banks of RMB 1.70 million relative to 31 December 2015; and
- c. the increase was partially offset by decrease in trade payables and trade bills payables RMB 3.75 million.

Commentaries on balance sheet and cash flow (cont'd)

Group's balance sheet:

Current liabilities of the Group as at 30 June 2016 exceeded its current assets by RMB 104.28 million attributable to the continuing losses in prior years. Despite the negative working capital, the Group believes that it will be able to repay its current liabilities as and when it fall due. As a substantial part of the Group's current liabilities are owed to its principal supplier and strategic partner, Anhua Group and to its associated company, Anyang Jiulong of RMB 211.49 million, the Group has obtained continued financial support from Anhua and Anyang Jiulong, which had agreed to defer payments of trade payables owing to them till Anyang Jiutian is able to settle its other liabilities.

With the continued financial support from Anhua Group and Anyang Jiulong, the Board believes that the Group will be able to operate as a going concern, despite the negative working capital.

The Board is not aware of any other material information which has not been disclosed.

Company's balance sheet:

Company's net assets decreased by RMB 2.99 million as at 30 June 2016 due largely to head office expenses.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.
