IT Services

Wipro continued its momentum in winning large deals with our customers as described below:

- A large, US-based healthcare company has selected Wipro for the consolidation and transformation of its Commercial Claims Operations. This strategic partnership will provide the client with significant savings through best-in-class execution, transformation, process remodelling, and automation.
- The global leader in sustainable stainless steel, Outokumpu, has signed a five-year deal of Application Management Services with Wipro to drive agile and application cloud transformation.
- Wipro has entered a five-year engagement with Insignia Financial Limited, an ASX-listed Top 200 company and one of Australia's leading financial services providers. Through this partnership, Wipro and Insignia Financial will focus on delivering innovative solutions, including efficient processes around technology and operations capabilities, superior end-customer outcomes as well as cost optimization.
- Wipro has won a multi-year engagement with a global communications agency to build their future model for ERP and digitization. Wipro's delivery centres in UK and India will build and scale operations to enhance the company's capacity.
- Wipro has won a multi-year contract with one of Australia's largest financial services firms to provide application and infrastructure support services. Wipro will support the client's technology transformation, improve efficiency and enhance customer experience.

Digital Services Highlights

We continue to see increasing traction in digital oriented and other strategic deals as illustrated below:

- A leading Mobility Technology company has selected Wipro as an extension of their global engineering team to support them on the development of software defined vehicle applications.
- A US-based multinational company has awarded Designit a managed services contract to provide a team of designers who will work with the company's user experience team.
- A global, athletic apparel and footwear company has selected Designit to re-imagine the customer experience and logistics of all its new retail store openings in North America.
- A US-based multinational financial services corporation has selected Wipro to manage and transform the customer's global application landscape with industry-leading practices and deliver enhanced consumer experiences.

About Non-GAAP Financial Measures

This press release contains non-GAAP financial measures within the meaning of Regulation G and Item 10(e) of Regulation S-K. Such non-GAAP financial measures are measures of our historical or future performance, financial position or cash flows that are adjusted to exclude or include amounts that are excluded or included, as the case may be, from the most directly comparable financial measure calculated and presented in accordance with IFRS.

The table on page 9 provides IT Services Revenue on a constant currency basis, which is a non-GAAP financial measure that is calculated by translating IT Services Revenue from the current reporting period into U.S. dollars based on the currency conversion rate in effect for the prior reporting period. We refer to growth rates in constant currency so that business results may be viewed without the impact of fluctuations in foreign currency exchange rates, thereby facilitating period-to-period comparisons of our business performance. Further, in the normal course of business, we may divest a portion of our business which may not be strategic. We refer to the growth rates in both reported and constant currency adjusting for such divestments in order to represent the comparable growth rates.

This non-GAAP financial measure is not based on any comprehensive set of accounting rules or principles and should not be considered a substitute for, or superior to, the most directly comparable financial measure calculated in accordance with IFRS and may be different from non-GAAP measures used by other companies. In addition to this non-GAAP measure, the financial statements prepared in accordance with IFRS and the reconciliation of these non-GAAP financial measures with the most directly comparable IFRS financial measure should be carefully evaluated.
