ANNEX A

Aztech Global Ltd.

Annual General Meeting 2023

28 April 2023 | SGT 10am

Aztech

With reference to AR2022, I refer to

- (i) Note 29 – in particular to the fair value loss on derivative financial instruments amounting to S\$56,553,000; and
- (ii) Note 9 – As at end of reporting period, the settlement dates for the derivative financial instruments range from 4 days to 2 months (2021: 15 days to 9 months). The Group and the Company did not apply fair value hedging for the financial years ended 31 December 2022 and 31 December 2021.

What is the nature of the fair value loss on the derivative financial instruments since according to Note 9, the Group and the Company did not apply fair value hedging?

Company’s response

Under note 9, the derivative financial instruments are currency forward contracts held by the Group and the Company as at 31 December 2022.

The Group did not apply fair value hedging as it is not mandatory for companies to apply hedge accounting. If hedge accounting is applied, it will be subject to several qualifying criteria under SFRS (I) 9 Financial instruments.

The fair value loss on the derivative financial instruments for the year in Note 29 represents the changes in fair value of the currency forward contracts the Group held during the year.

Majority of these contracts had been settled as at 31 December 2022 with only 2.5% of the contracts settled on 31 January 2023.

Thank You

28 April 2023
