Business Update

Global Economy

- Rise in trade barriers → shifts in global trade
- Geopolitical conflicts escalated
- Sluggish China's economic recovery

Despite elevated risks, economy better than expected

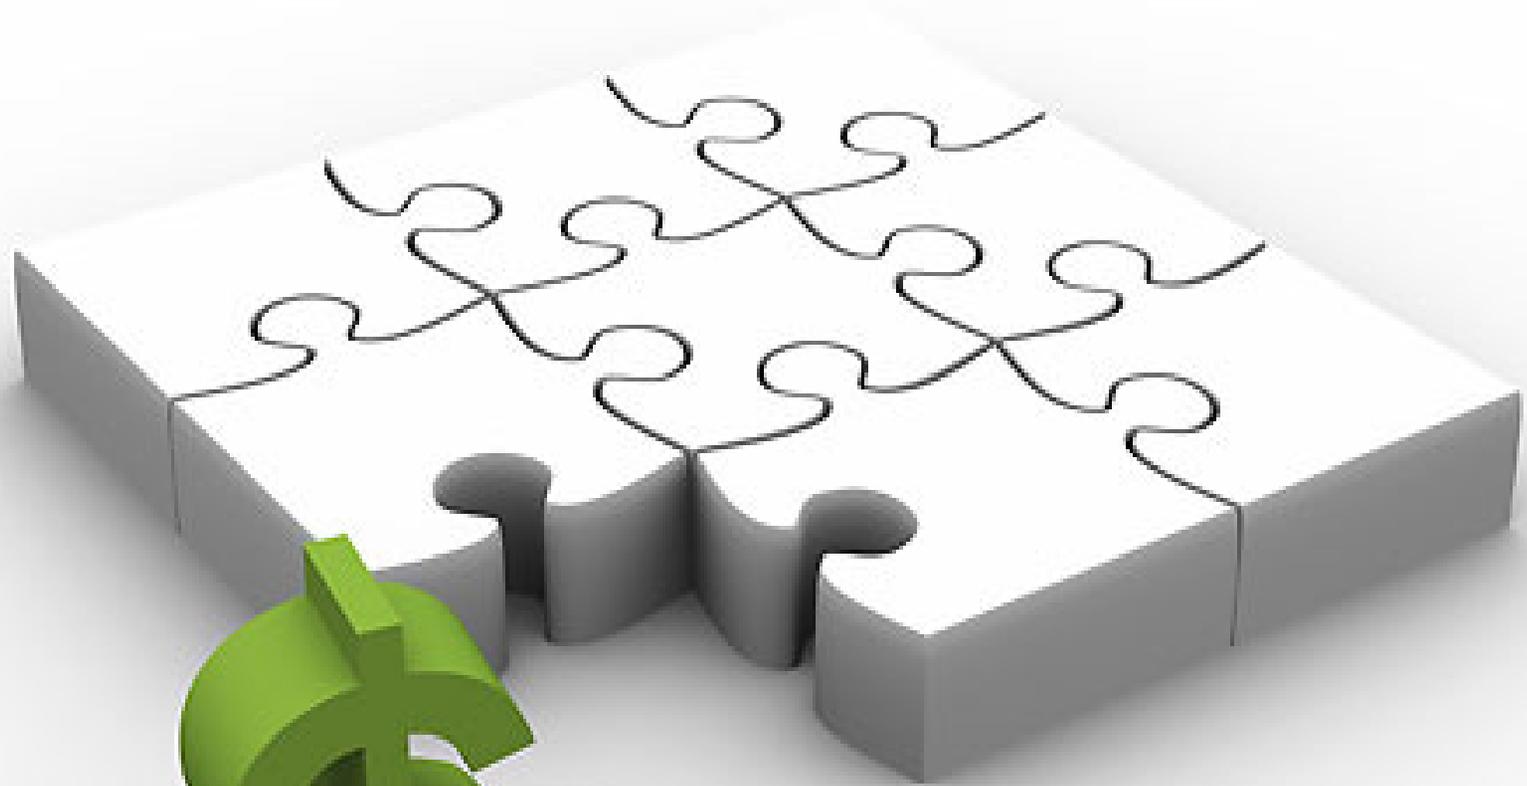

Chemical Industry

- Industry faced trade flow disruption caused by US tariffs
- => Business confidence waning
- => Decrease in demand for chemicals
- Over-supply => chemical prices remain weak

Megachem

- Minimal impact of US tariffs due to insignificant sales to US market
- Indirect impact stemmed from customers' difficulty in inventory planning
- Megachem's business remains resilient
- Following the fire incident in July 2023, warehouse reconstruction is nearing completion.

External volatility hindering Growth

Sales

2H 23

- fire incident in July 23 but minimal disruption to sales

2024

- Sales gained momentum

1H 25

- Frontloading of inventory in response to US tariffs

2H 25

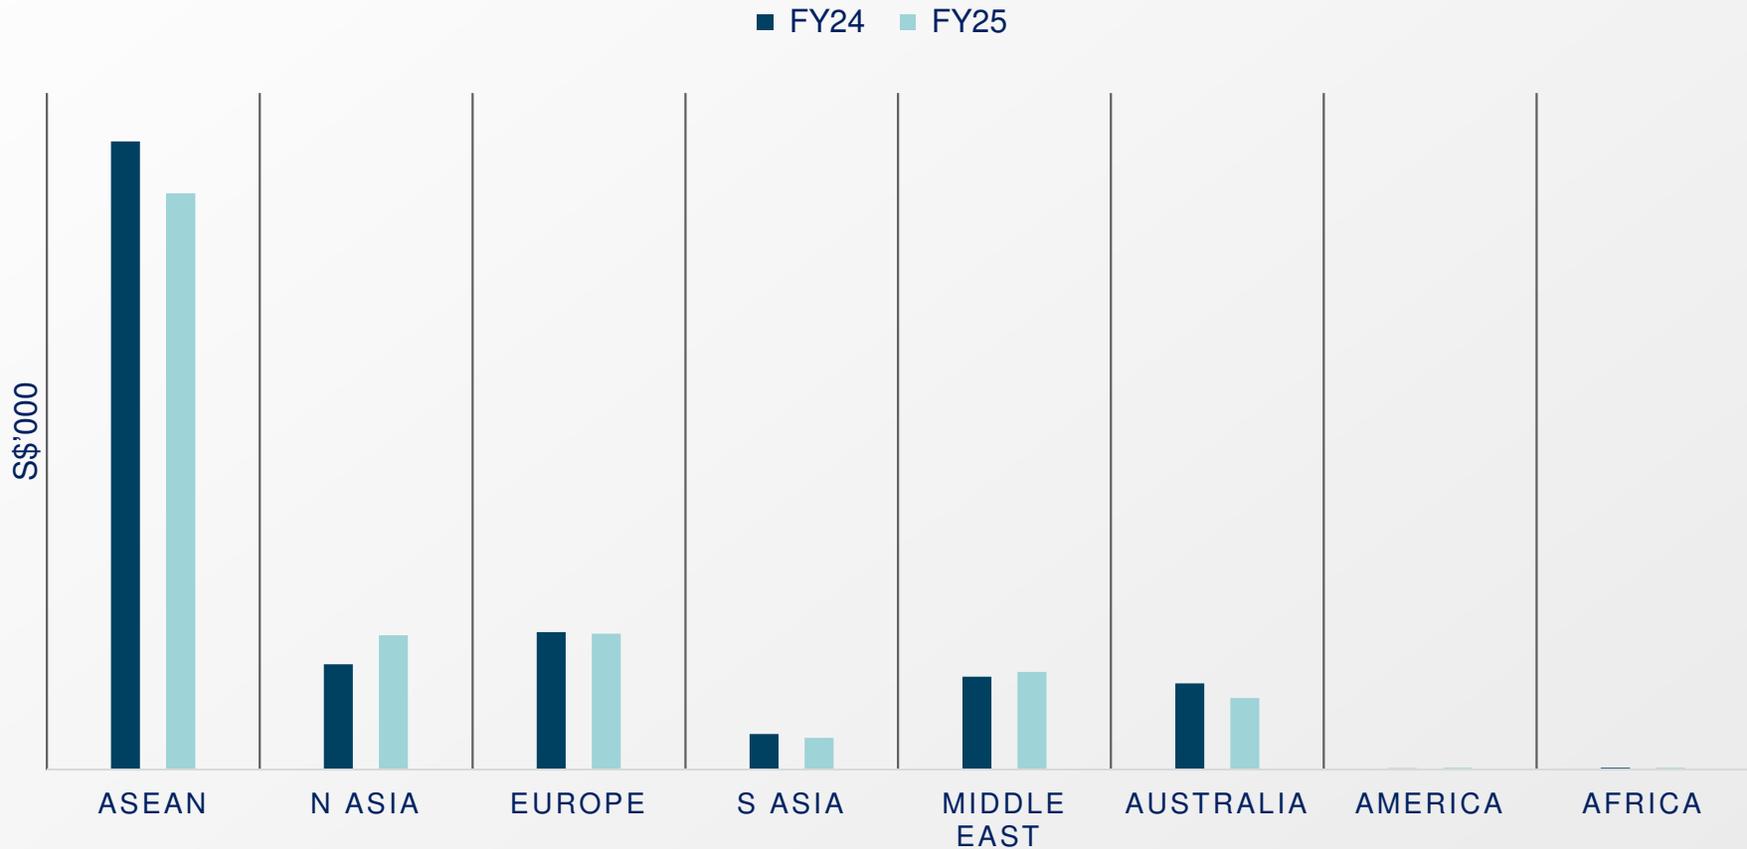

- US tariffs posed challenges to customers' production and inventory planning
- Over-supply in chemical industry => chemical prices remain soft.

Sales

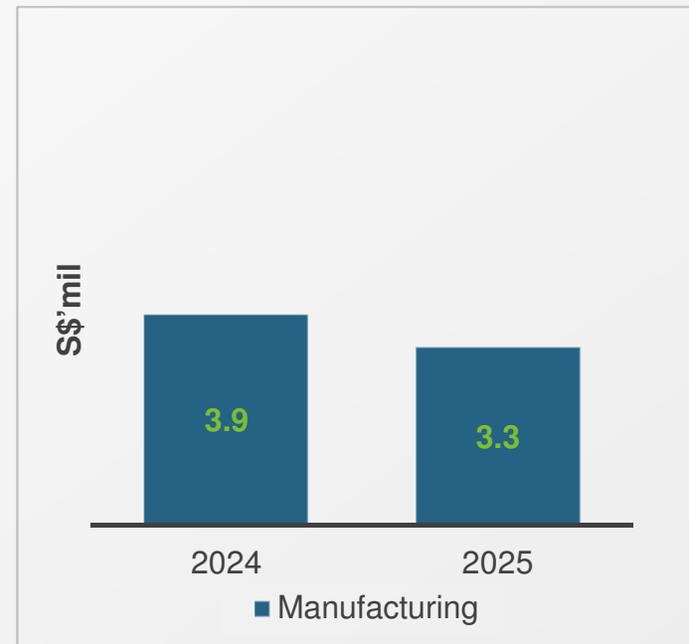

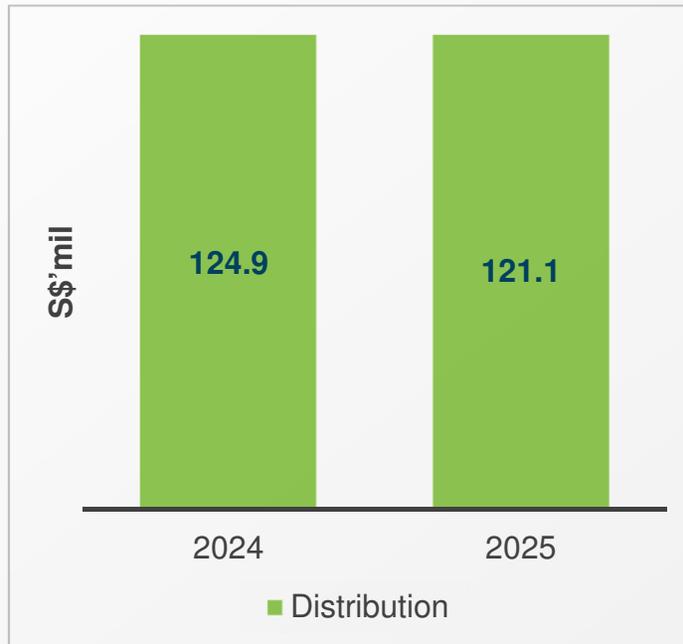

- 2023 : Inventory destocking & weaker prices => sales fell
- 2024 : Inventory level normalised => demand for chemicals recovered.
- 2025 : rise in trade barriers, geopolitical risks, economic uncertainties => growth disrupted
- Strong recovery after each crisis => resilience of our business model

Sales Breakdown by Geographic Segments

- Weaker demand evident in ASEAN and Australia markets.
- China and Middle-east bucked the trend.

Sales breakdown by Business Segments

- Both distribution and manufacturing activities experienced lower demand.

Note : Sales revenue from manufacturing activity comprises mainly fees for custom-blending services

Gross Profit

- Gross profit and margin increased in 2025 due mainly to lower allowance for inventory impairment

Expenses

- Total expenses decreased S\$5.2 mil or 15.1% to S\$29.2 mil.
- Excluding FY24 expenses arising from the fire incident, total expenses was lower by S\$1.1 mil or 3.6%

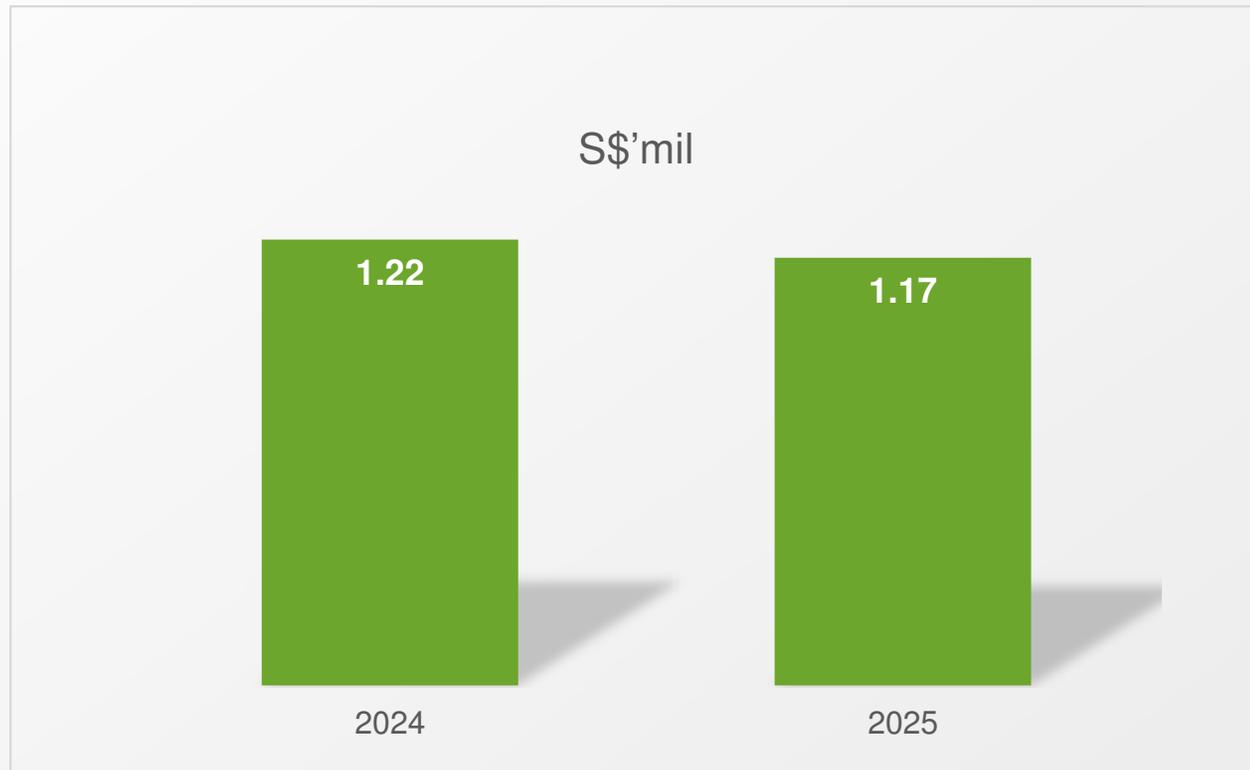

| S\$'mil | FY24 | FY25 | Var | Var % | Remarks |
|--------------------|------|------|--------|---------|--|
| Demolition cost | 1.0 | - | (1.0) | (100%) | Related to the fire incident in 2023. |
| Insurance expenses | 0.6 | 0.7 | 0.1 | 15.2% | Higher insurance premium |
| Professional fees | 1.0 | 0.8 | (0.2) | (19.1%) | Mainly related to the fire incident. |
| Waste disposal | 2.78 | 0.01 | (2.77) | (99.6%) | Related to the fire incident |
| Warehouse charges | 3.4 | 3.3 | (0.1) | (1.5%) | Higher reliance on 3 rd party warehouses following the fire |
| Finance cost | 1.9 | 1.4 | (0.5) | (26.1%) | Lower interest rates |
| FX | 0.7 | 0.5 | (0.2) | (28.3%) | Increased currency volatility |
| Staff cost | 17.0 | 16.6 | (0.4) | (2.1%) | Lower performance-linked rewards |

Other Income

- Other income decreased by S\$10.1 mil mainly due to insurance claim received in 2024 for the fire incident in 2023.

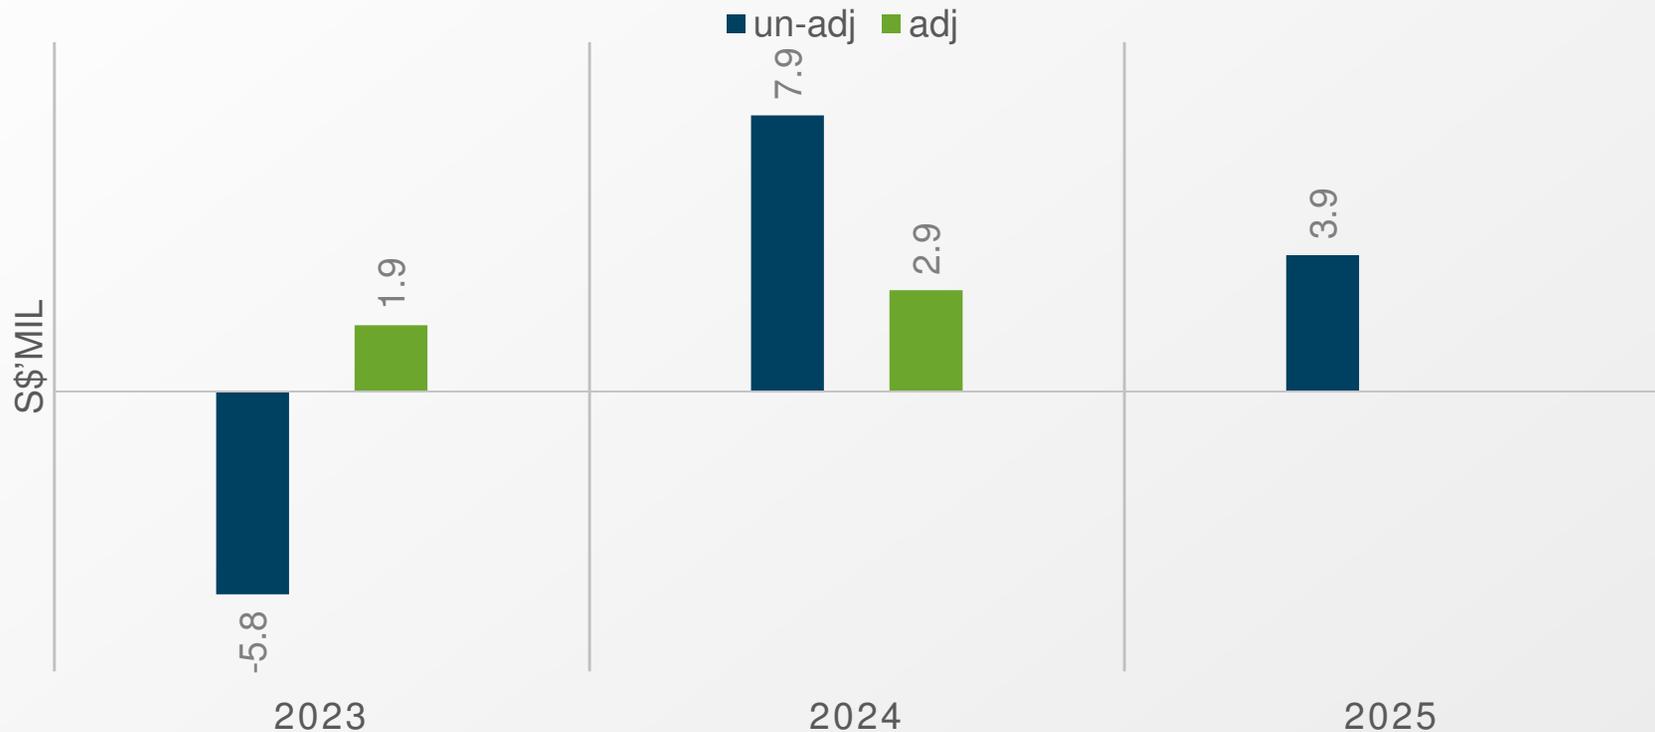

| S\$'mil | FY2024 | FY2025 | Var | Remarks |
|---------------------------|--------|--------|--------|--|
| Insurance claim | 9.7 | 0.02 | (9.7) | Insurance claim in FY24 relating to the fire incident. |
| Gain on disposal of asset | 0.62 | 0.04 | (0.58) | Sale of property in Malaysia in FY24 |

Share of Associate's Profit

- Marginally lower profit contribution from our associated company in Thailand.

Net Profit After Tax

- Excluding impact of the fire, NPAT in FY24 would have been \$2.9 million. Effectively NPAT in FY25 was S\$1.0 million or 31.1% higher.
- This is attributed to higher gross profit and lower expenses.

Note : adjusted NPAT is NPAT excluding impact of the fire incident in 2023.

FY2026 Outlook

Outlook FY2026

Global Economy

- Lower interest rates => Positive stimulus for the economy.
- US protectionist trade policies, geopolitical conflicts, fragile job market as well as fears of an AI bubble
=> growth may be derailed.

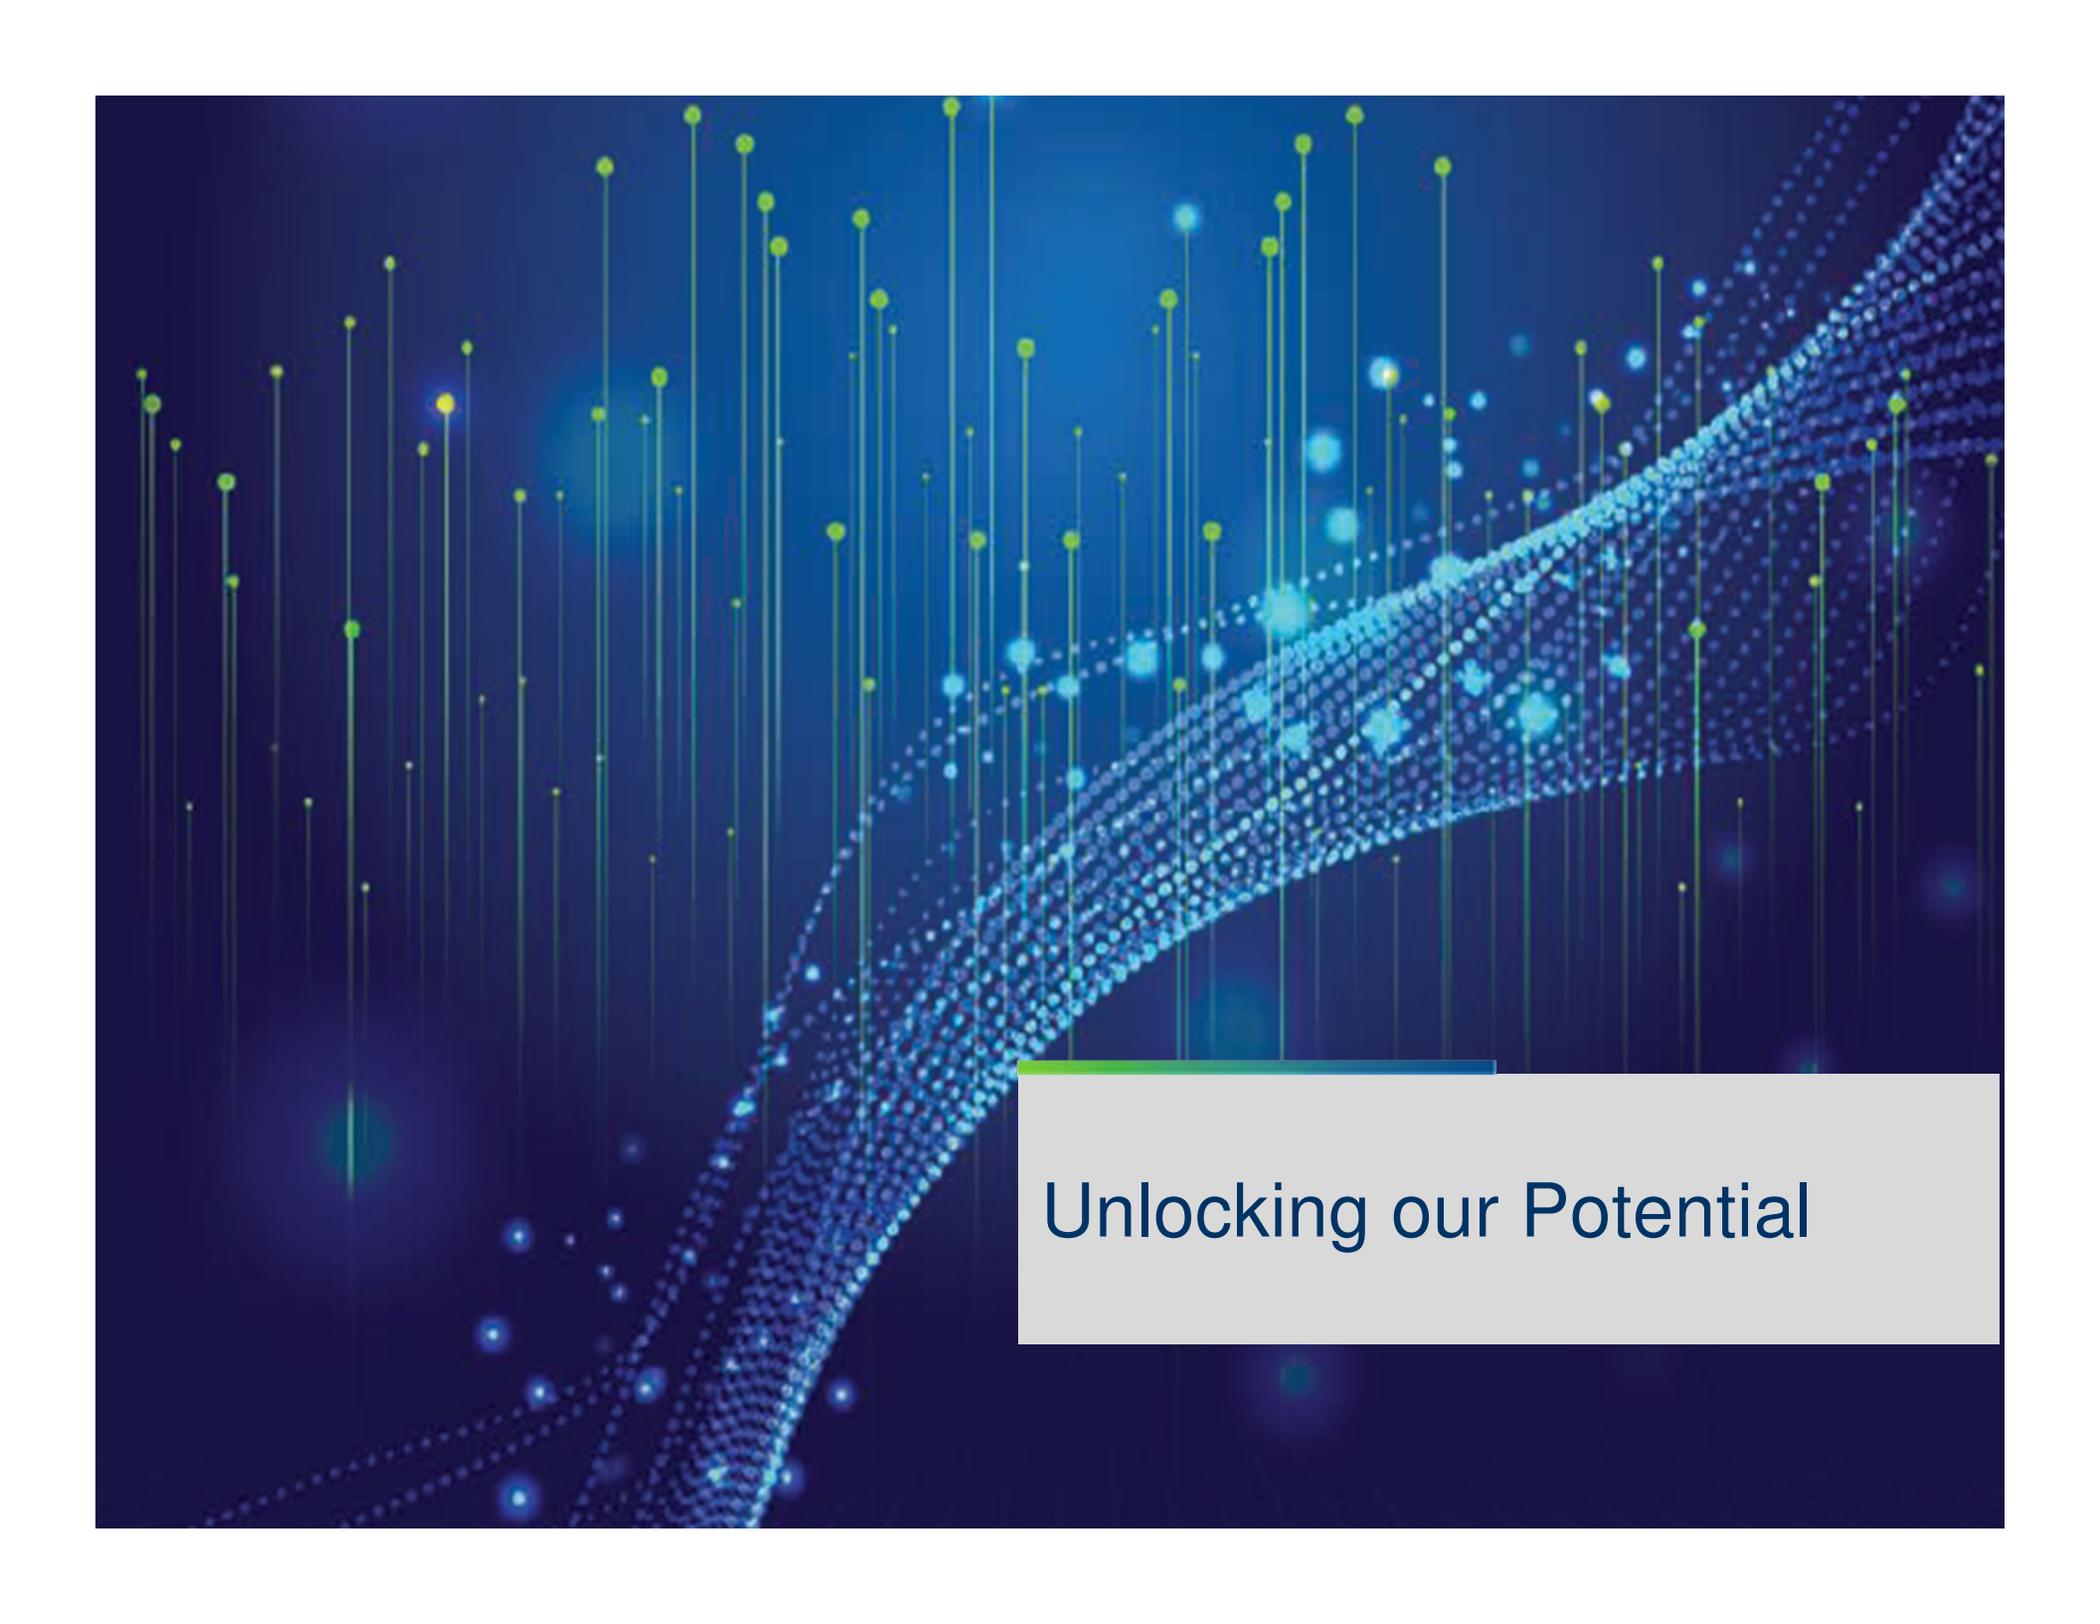

Chemical Industry

- If the current oversupply and trade complexities do not ease, the industry growth may moderate.
- Growth in industry primarily dependent on continued growth in manufacturing activities.

Megachem

- Correlation between the overall economy and Megachem's business
- Resilient economy provides support to Megachem's business
- Accelerate our long-term growth with a customer and Asia-centric focus
- Respond to external adversities with operational and financial discipline.

Sustainable Chemistry in Motion

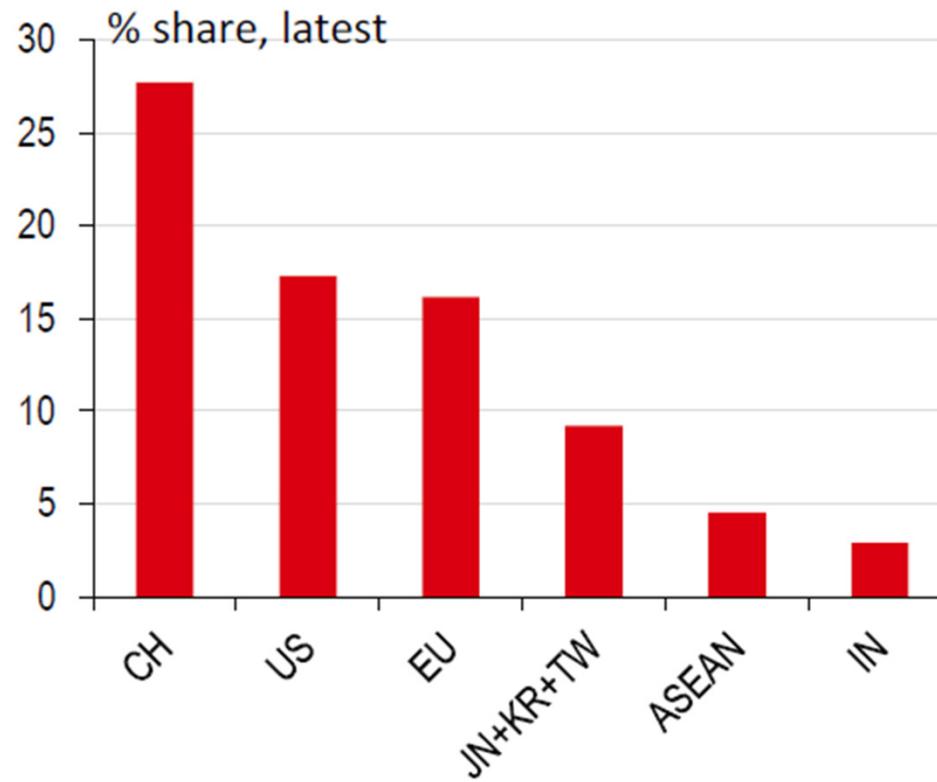

The background is a dark blue gradient with a complex pattern of vertical and diagonal lines. Some lines are thin and light green, while others are thicker and composed of small blue dots, creating a sense of depth and movement. The overall effect is that of a digital or data-driven environment.

Unlocking our Potential

Unlocking our Potential

China, EU, ASEAN, India, has about 50% share of global manufacturing output
Megachem has presence in these markets

Chart 1: Global manufacturing output

Our Pillars of Growth

High Growth Markets

- ASEAN countries such as Malaysia, Indonesia and Vietnam
- Tariff advantage, lower cost
- The young population and booming middle class will become one of the key growth drivers.
- Rapid growth in foreign investment and production output

High Growth Industries

- Electronics, automotive, life-science, material science
- Specialty chemicals are being developed for lightweight materials for electric vehicles, electronics and robotics.
- Potential surge in specialty chemicals demand used in life-science eg pharmaceuticals, personal care products on the back of aging population globally
