## **MANAGEMENT DISCUSSION AND ANALYSIS**

### **BUSINESS REVIEW**

The Group reported its unaudited results for the six months ended 30 June 2021 (“HY2021”) with a loss attributable to owners of the Company of approximately RMB39.8 million as compared to the net loss attributable to owner of the Company of approximately RMB1.6 million for the six months ended 30 June 2020 (“HY2020”).

The Group continued to adopt stable operation strategy and achieved steady growth in revenue. The revenue increased by 3.0% from approximately RMB702.5 million for HY2020 to approximately RMB723.3 million for HY2021. The growth benefited from recovery of consumer demand. However, the price of raw materials of animal feed ingredients such as corn and soybean meal increased and ocean freight for export increased in HY2021, the gross profit margin decreased from 8.5% for HY2020 to 4.8% for HY2021. Consequently, the gross profit decreased by RMB25.7 million to RMB34.4 million for HY2021. In addition, the Group recognized loss on disposal of under-utilised or obsolete property, plant and equipment of RMB4.6 million in HY2021. All these negative factors led to the significant increase in net loss attributable to the shareholders of the Company in HY2021.

### **PROSPECTS**

Being a company focusing on consumer products industry, our business is always affected by economic growth, consumers’ preference, industry cycle and animal epidemics. In 2021, with the continuation of COVID-19 pandemic, re-emergence of trade protectionism and global recession, the whole consumer industry is facing complicated external environment and greater challenges. Despite the challenges, with our products being consumer staples, the impact of all these uncertainties will be manageable.

With the continuation of COVID-19 pandemic, the Group has formulated a comprehensive and stringent prevention and control plan to safeguard the health of our employee, products safety as well as stable production and smooth sales. We are taking various effective measures to minimise the disruption on the daily operations and to assure the continuity of the business. Meanwhile, we will continue to be highly cautious on the latest development of the pandemic and strictly implement our prevention and control plan. With our stringent quality control and food safety systems, we will continue to provide customers with safe and high quality products.

The food industry will continue to face challenges with low growth rate and intense competition. To maintain the overall profitability and to enhance the competitiveness and resistance against market risk, the Group will focus on high value-added processed foods, safeguard the business relationship with the major customers and proactively explore new markets and new customers.

With the consumption upgrades, food safety and healthiness become the focus of consumers' attention, which is always our priority. Rabbit meat is healthier with far more protein, less fat and calorie levels compared to other meats. Rabbit meat segment is always the core and competitive business of the Group. The Group has established the whole industrial chain of rabbit meat from breeding, slaughtering to processing and is one of eight enterprises in the PRC which possesses the permit to export rabbit meat to overseas market. The Group is confident that the demands for rabbit meat will increase steadily with further improvement of living standards and more consumers tend to prefer a wider variety of nutritious foods. Therefore, the Group will continue to leverage on its leading position in the rabbit meat segment and offer consumers with healthy and safe products.

We will continue to optimise product portfolios, enhance cost management, promote brand building and expand new sales channels to strengthen the core competence and improve the overall performance of the Group.

The investment property was stated at cost less accumulated depreciation as the fair value cannot be reliably measured since there were no active market prices for similar properties.
