The directors are pleased to submit this annual report to the members of the Company together with the audited financial statements for the financial year ended 30 June 2017.

In the opinion of the directors,

(a) the accompanying financial statements of the Company and of the Group are drawn up so as to give a true and fair view of the financial position of the Company and of the Group as at 30 June 2017 and the financial performance, changes in equity and cash flows of the Group for the year ended on that date in accordance with the provisions of the Singapore Companies Act, Chapter 50 and Singapore Financial Reporting Standards; and

(b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

The Board of Directors has, on the date of this statement, authorised these financial statements for issue.

Directors

The directors of the Company in office at the date of this statement are as follows:

Chen Qiuhai (Executive Chairman and Chief Executive Officer)
Chang Feng-chang (Lead independent director)
Chua Ser Miang (Independent director)
Goi Kok Neng (Non-executive director)

Directors' interests

According to the Register of Directors' Shareholdings kept by the Company under Section 164 of the Singapore Companies Act, Cap. 50, particulars of interests of the directors who held office at the end of the financial year in the shares or debentures of the Company and its related corporations are as follows:

	Number of ordinary shares			
	Holdings registered in the name of director		Holdings in which director is deemed to have an interest	
The Company -	As at	**As at**	As at	**As at**
Yamada Green Resources Limited	01.07.2016	**30.06.2017**	01.07.2016	**30.06.2017**
Chen Qiuhai	–	**–**	60,271,015	**62,931,015**
Chang Feng-chang	–	**–**	270,000	**270,000**

By virtue of the provisions of Section 7 of the Singapore Companies Act, Cap. 50, Chen Qiuhai is deemed to have interests in all of the subsidiaries of the Company at the beginning and at the end of the financial year.

There are no changes to the above shareholdings as at 21 July 2017.

Directors' interests (Cont'd)

Share option scheme

At an Extraordinary General Meeting of the Company held on 29 April 2011, the shareholders approved the Yamada Green Resources Employee Share Option (the "Scheme") and Yamada Green Resources Performance Share Plan (the "Plan"). The Scheme and the Plan are administered by the Company's Remuneration Committee, or such other committee comprising Directors of the Company duly authorised and appointed by the board of directors to administer the Scheme and the Plan (the "Committee").

The principal features of the Scheme and the Plan are described below.

The Scheme

Under the Scheme,

- the executive directors and employees of the Group are eligible to participate in the Scheme. Executive directors and employees who are also controlling shareholders or their associates are not eligible to participate in the Scheme;

- the selection of, and the actual number of new ordinary shares to be offered under the Scheme to participants of the Scheme will be determined by the Committee, which will take into account of criteria such as employee's rank, performance, years of service and potential for future development, and contribution to the success and development of the Group;

- the Company has the flexibility to grant options at the subscription prices (i) at the market price of a share at the time of grant; and/or (ii) at an upfront discount of no more than 20% discount to the market price of a share at the time of grant;

- options granted with the subscription price set at or above the market price shall only be exercisable, in whole or in part, by a participant after the first anniversary of the date of offer of that option and in accordance with the vesting period and the conditions (if any) to be determined by the Committee on the date of offer of the relevant options;

- options granted with the subscription price set at a discount to the market price shall only be exercisable, in whole or in part, by a participant after the second anniversary of the date of offer of that option and in accordance with the vesting period and the conditions (if any) to be determined by the Committee on the date of offer of the relevant options; and

- provided always that all options shall be exercised before the fifth anniversary of the relevant date of offer of the option, or such earlier date as may be determined by the Committee, failing which all unexercised options shall immediately lapse and become null and void.

The Plan

Under the Plan,

- awards given to a particular employee will be determined at the discretion of the Committee, who will take into account of factors such as the selected employee's capability, scope of responsibility, skill and vulnerability to leaving the employment of the Group;

- the Committee may also set specific criteria and performance targets for each of its business units, taking into account of factors such as (i) the Company's and the Group's business goals and directions for each financial year; (ii) the selected employee's actual job scope and responsibilities; and (iii) the prevailing economic conditions;

Directors' interests (Cont'd)

Share option scheme (Cont'd)

The Plan (Cont'd)

- the selection of an employee and the number of shares which are the subject of each award to be granted to an employee in accordance with the Plan shall be determined by the Committee, which shall take into account criteria such as the selected employee's rank, job performance, years of service and potential for future development, contribution to the success and development of the Group and the extent of effort required to achieve the performance target within the performance period;

- the Committee shall have absolute discretion to decide whether a person who is participating in the Plan shall be eligible to participate in any other share option scheme or share award scheme implemented by the Company or any other company within the Group;

- new shares allotted and issued on the release of an award shall rank in full for all entitlements, including dividends or other distributions declared or recommended in respect of the then existing shares, the record date for which is on or after the relevant vesting date, and shall in all other respects rank pari passu with other existing shares then in issue; and

- the "aggregate market price" of the shares to be paid to a selected employee in lieu of allotment or transfer, shall be calculated in accordance with the following formula:-

  A = B x C

  Where:-

  A is the aggregate market price of the shares to be paid to the selected employee in lieu of all or some of the shares to be issued or transferred upon the release of an award;

  B is the market price of each share; and

  C is such number of shares to be issued or transferred to a selected employee upon the release of an award in accordance with the rules of the Plan.

- the aggregate number of shares to be issued pursuant to the Scheme and the Plan granted on any date, when added to the number of shares issued and/or issuable under the scheme or such other share-based incentive plans of the Company, shall not exceed fifteen per cent. (15%) of the total number of issued shares of the Company (excluding treasury shares) on the day preceding that date.

The Scheme and the Plan will continue in operation, for a maximum duration of 10 years commencing from its adoption by shareholders on 29 April 2011.

Share options

No options were granted during the financial year to take up unissued shares of the Company or any subsidiary.

No shares were issued during the financial year to which this report relates by virtue of the exercise of the options to take up unissued shares of the Company or any subsidiary.

There were no unissued shares of the Company under option at the end of the financial year.

Audit committee

The Audit Committee at the end of the financial year comprises the following members:

Chang Feng-chang (Chairman)
Chua Ser Miang
Goi Kok Neng

All members of the Audit Committee are non-executive directors.

The Audit Committee performs the functions set out in Section 201B (5) of the Singapore Companies Act, Cap. 50, the SGX Listing Manual and the Code of Corporate Governance. In performing those functions, the committee reviewed the following:

(i) overall scope of the external audit and the assistance given by the Company's officers to the auditors. It met with the Company's external auditor to discuss the results of their respective examinations;

(ii) the audit plan of the Company's independent auditor for the statutory audit;

(iii) the statement of financial position of the Company and the consolidated financial statements of the Group for the financial year ended 30 June 2017 as well as the independent auditor's report thereon;

(iv) met with the external auditor, other committees and management in separate executive sessions to discuss any matters that these groups believe should be discussed privately with the Audit Committee;

(v) reviewed legal and regulatory matters that may have a material impact on the financial statements, related compliance policies and programmes and any reports received from regulators;

(vi) reviewed the cost effectiveness and the independence and objectivity of the external auditor;

(vii) reviewed the nature and extent of non-audit services provided by the external auditor;

(viii) recommended to the Board of Directors the external auditor to be nominated, approved the compensation of the external auditor and reviewed the scope and results of the audit;

(ix) reported actions and minutes of the Audit Committee to the Board of Directors with such recommendations as the Audit Committee considered appropriate; and

(x) interested person transactions (as defined in Chapter 9 of the Listing Manual of the Singapore Exchange).

The Board of Directors are in the process of commissioning an independent internal control review pending the review of the Audit Committee.

The Audit Committee has full access to management and is given the resources required for it to discharge its functions. It has full authority and the discretion to invite any director or executive officer to attend its meetings. The Audit Committee also recommends the appointment of the external auditor and reviews the level of audit and non-audit fees.

The Audit Committee is satisfied with the independence and objectivity of the external auditor and has recommended to the Board of Directors that the auditor, Foo Kon Tan LLP, be nominated for re-appointment as auditor at the forthcoming Annual General Meeting of the Company.

Full details regarding the Audit Committee are provided in the Corporate Governance Report.

In appointing our auditors for the Company and its subsidiaries, the directors have complied with Rules 712 and 715 of the SGX Listing Manual.

Independent auditor

The independent auditor, Foo Kon Tan LLP, Public Accountants and Chartered Accountants, has expressed its willingness to accept re-appointment.

Other information required by the SGX-ST

Material information

Apart from the Service Agreement between a director and the Company, there is no material contract to which the Company or any of its subsidiaries, is a party which involve directors' interests subsisted or have been entered into during the financial year ended 30 June 2017.

Interested person transactions

There was no interested person transaction as defined in Chapter 9 of the SGX-ST Listing Manual conducted during the financial year except as disclosed under "Interested Person Transactions" in the "Statement of Corporate Governance" section of the annual report and on Note 29 to the financial statements.

On behalf of the Directors

INDEPENDENT AUDITOR'S REPORT

To the Members of Yamada Green Resources Limited

Report on the Audit of the Financial Statements

We were engaged to audit the financial statements of Yamada Green Resources Limited (the "Company") and its subsidiaries (collectively the "Group"), which comprise the statements of financial position of the Group and the Company as at 30 June 2017, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity, and consolidated statement of cash flows of the Group for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

Disclaimer of Opinion of the Group

We do not express an opinion on the accompanying consolidated financial statements of the Group. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these consolidated financial statements.

Opinion of the Company

In our opinion, the statement of financial position of the Company is prepared, in all material respects, in accordance with the provisions of the Singapore Companies Act, Chapter 50 (the "Act").

Basis for Disclaimer of Opinion

The Group

1. Complete set of books and records of the China subsidiaries and a Hong Kong subsidiary

As fully described in Note 2(a) to the financial statements, the finance books and records including IT/computer hardware belonging to all the subsidiaries in the People's Republic of China ("PRC") ("China subsidiaries") and a Hong Kong subsidiary ("Hong Kong subsidiary") within the Group were destroyed by the outbreak of fire ("Fire Incident") when the books and records were transported by a passenger van from the Group's Research and Development Centre ("R&D Centre") situated in Houyu Food Industry Zone of Minhou County, Fuzhou City, PRC to the Group's office premises situated at Tie Ling Economic and Technological Development Zone of Minhou County, Fuzhou City, PRC. We understand from management that the transfer of books and records was to have ready access to the books and records by both the finance staff and the then auditor.

On 5 September 2017, the Board of Directors of the Company ("the Board") made an announcement to take steps to reconstruct/reproduce (to the extent practicable) the books and records where BDO LLP can continue their audit work to resolve certain inconsistencies (see Other Matters section of our report). As fully explained in Other Matters section of our report, the intent of the follow-up work did not materialise due to BDO PRC was under a formal suspension as of 23 May 2017 issued by the Ministry of Finance of the PRC and the China Securities Regulatory Commission and the subsequent notice of resignation by BDO LLP on 6 October 2017. Nevertheless, the directors of the Company took steps to make sure the incoming auditors can take over and to perform a re-audit for the financial year ended 30 June 2017.

Given the hindsight that there was already a complete set of unaudited management accounts for the financial year ended 30 June 2017 provided to BDO PRC for which the audit had not been completed, the reproduced copy of the financial statements would likely show some distortions to the financial numbers in material respects. This is primarily because the reconstructed books and records were prepared on available information and data from relevant sources (customers, contractors, suppliers and banks) and notarised letter of confirmations of amounts owing between the counter-parties and the China subsidiaries. There were also significant cash transactions involved for sales made and services rendered by third parties. The manner in which the reproduced financial statements were reconstructed, management of the Group believed the basis of preparation is most appropriate.

Basis for Disclaimer of Opinion (Cont'd)

1. Complete set of books and records of the China subsidiaries and a Hong Kong subsidiary (Cont'd)

Our audit procedures, in so far as we were able to perform, relate mainly to the following:

- verified the supporting documents in photocopy obtained from third parties for the underlying transactions and balances that were reconstructed;

- physical site visits to all banks where we obtained bank confirmations and printed copy of bank statements provided by the banks directly to us;

- assessed and evaluated management experts like the independent professional valuers for the valuation of property, plant and equipment and biological assets as well as the use of legal counsel to obtain notarised letter with counter-parties;

- obtained confirmation of balances and transactions directly from customers, suppliers and contractors for selected balances to cross check with the notarised confirmation which include the facts of the receivables and payables; and

- conducted interview with certain suppliers, certain contractors and customers (including overseas customers) as to transactions entered into and the balances owing as at the reporting date.

During the reconstruction of the books and records, the directors of the Group also relied upon the documents provided by their counter-parties including the reprinting of bank advices and the bank statements from the banks for all the relevant periods, namely for the period from 1 July 2016 to 31 August 2017. Certain book entries were made based on available information from the counter-parties known to the management of the China subsidiaries, in particular, the off-setting of accounts between the China subsidiaries and counter-parties who acts as customer as well as supplier for the supply of mushrooms and bamboo shoots. The legal counsel performed certain authentication procedures to formalise the indebtedness. Certain cash transactions made with the counter-parties and offsetting arrangements were also accounted for as a basis of recognising cash sales generated and provision of services rendered by third parties.

Based on the matters referred to in the foregoing paragraphs, we were unable to determine the completeness and accuracy of the recording of the transactions that occurred during the financial year ended 30 June 2017 and balances as of the reporting date. Though there were possible alternative audit procedures as mentioned above that can be carried out, we were unable to satisfy the extent of audit evidence being gathered to ensure that there were sufficient appropriate audit evidence due to the destruction of documents. However, in the opinion of the Board who considered that the manner in which the assets were being determined and the liabilities assumed were duly accounted for has been appropriately prepared and the Board reiterates the fact that they were not aware of any irregularities found or known to them other than matters reported herein regarding the books and records being maintained by the China subsidiaries and the Hong Kong subsidiary. Regarding the matters referred by the then auditors, to the best of the ability of the Board, all information and explanations, where possible, have been reasonably provided by the Group to us.

The Board believes that, in so far as all known debtors and all known creditors are concerned, the amount owing to or by the China subsidiaries and the Hong Kong subsidiary have been reasonably resolved. Primarily, the deed of offset of certain receivables and most of the payables of the China subsidiaries were notarised before the PRC lawyers with facts on the transactions and balances remained outstanding as of the reporting date. There were no known pending legal matters as to the debts owing to or by the China subsidiaries whether before the Court in the PRC or by means of mediation process.

All assets were either impaired in full or reduced to their carrying amounts to reflect the recoverable amount of the assets that remained in the books as at the reporting date or be written off in profit or loss for the financial year ended 30 June 2017 as disclosed in the financial statements.

Basis for Disclaimer of Opinion (Cont'd)

2. Opening balances

In so far as to the opening balances of the financial figures for the financial year ended 30 June 2016 ("FY2016") to be carried and brought forward in the books, we were not able to ascertain the completeness and reliability of the information. This is because the management of the China subsidiaries and the Hong Kong subsidiary cannot produce the management accounts not limited to general ledger for FY2016. The management of the Group were aware of the matters arising on the opening balances though certain efforts were made to address the financial numbers at the end of reporting period. However, we were not able to ascertain the appropriateness and accuracy of the opening balances and there are no possible alternative procedures that can be performed to obtain sufficient appropriate audit evidence due to the limitations placed on the scope of our work.

3. Plantations - bamboo plantations

As shown in Note 5 to the financial statements, the fair value of biological assets - eucalyptus plantation was RMB 49,195,000 and moso bamboo plantations was RMB 127,737,000, and the carrying amount of biological assets - synthetic logs stood at RMB 7,380,000 as at the reporting period 30 June 2016. During the financial year ended 30 June 2017, we understand that there was no acquisition costs incurred for biological assets. All relevant information were obtained from the Company's announcements regarding the acquisitions of the leases to the bamboo plantations made between FY2013 to FY2016 for the total land area of 129,426 mu and the aggregate carrying amount of RMB 463,004,000 (see Note 11).

The Board also announced that there were reported typhoons in FY2016 in the Fujian province but the typhoon had no significant impact on these biological assets. However, the management was aware that the bamboo plantations were seriously affected by insect infestation, the extent of which, cannot be ascertained. The infestation had a significant impact on the ability to harvest the bamboos whether bamboo trees, winter shoots and/or spring shoots. The bamboos, when harvested, are to supply for use in the construction industry for buildings and renovation materials, in textile, paper and pulp industries.

The Board made an announcement that the leases to the moso bamboo plantations were disposed of in August 2017 but there was no proper authorisation by the Board [see Note 35(ii)].

The Board has initiated a due diligence exercise to review the cause of the non-compliance by the subsidiaries, namely, Nanping Lijiashan Forestry Co. Ltd (南平市李家山林业有限公司) and Sanming Shansheng Forestry Co. Ltd (三明山盛林业有限公司) for corporate governance purposes on the disposal of bamboo plantations. The Company engaged lawyers, professionals and experts to assist the Board to understand the underlying cause of this event and will then consider appropriate actions to be taken thereon. In the fact findings, the Board wishes to obtain explanation and information as well as circumstances leading to the disposal of the bamboo plantations and the proceeds of the disposition assets thereon.

- Extent of plant diseases and insect infestation on the bamboo plantation

  In March 2017, the Company appointed a professor from the Fujian Agricultural and Forestry University (福建农业大学) to investigate and analyse the current situation of moso bamboo forest in northern Fujian. The professor reported that the moso bamboo forest was affected by natural disasters which were harmful, and, if they were not detected and prevented early, significant losses would occur. He also indicated that the underlying cause of the natural disaster was mainly the plant diseases and insect infestation in the Fujian province and such outbreak was occurring frequently in the past few years. In his assessment, the plantations were poorly managed and cultivated prior to its disposition. He further analysed that the appropriate measure to control such an outbreak would require an extensive period of time and a long period to recover. Whether such land can remain fertile or suitable for bamboo harvesting will depend on the use of scientific research and the strengthening of the management and maintenance of the moso bamboo forest to minimise the loss from natural disasters.

Basis for Disclaimer of Opinion (Cont'd)

3. Plantations - bamboo plantations (Cont'd)

- Circumstances leading to the disposal of bamboo plantations

  Based on the fact findings, because of the extent of the damages caused by the plant diseases and insect infestation, the management of the China subsidiaries believed the appropriate measure was to realise the plantations as soon as possible. Within the allowed authority as the former legal representatives of the said subsidiaries, namely, Mr. 熊浦印 and Mr. 蔡继强 with the acknowledgement from Mr. Lin Wei Bin, the then director of the Company, proceeded to dispose the bamboo plantations with land area of 129,696 mu for a consideration sum of RMB 47,235,000 that was agreed with the buyers or assignees. The contracting parties to the contracts were 毛信贤 and 倪永长. The basis of the disposal was a willing buyer and willing seller basis where the legal representatives took the valuation reports as a basis to determine the offered price. The valuation reports were issued on 21 August 2017. The consideration sum for the two plantations was utilised to pay the existing debts owing to the contractors who were also the buyers and assignees to the leases. A balance of RMB 78,155 and RMB 16,394 was paid in cash to the buyers in the books of Nanping Lijiashan Forestry Co. Ltd (南平市李家山林业有限公司) and Sanming Shansheng Forestry Co. Ltd (三明山盛林业有限公司) respectively.

  On the basis as described above, in so far as the manner in which the reconstructed books and records was prepared, and the occurrence of unauthorised disposal of the bamboo plantations in August 2017, subsequent to the reporting date coupled with the offsetting arrangement in writing where the proceeds from the consideration sum received from the disposal of the bamboo plantations were used to settle the liabilities owing to contractors for the plantations maintenance work, and provision of related processing services on the cultivations, we were not able to ascertain whether there were any transactions which occurred during the financial year ended 30 June 2017 were not recorded, and recognised or derecognised in the books.

  Although certain information gathered during the course of the due diligence exercise provide some rationale for the disposal of the bamboo plantations, the extent of a complete and reliable information of the biological assets and the amount to be accrued in the books which, however, remained uncertain. The Board was aware of the financial implication of the unauthorised disposal of the bamboo plantations where the resultant loss cannot be accurately ascertained. The calculation was determined based on the available information gathered from the due diligence exercise. We further understand that all proceeds from the said disposal of the bamboo plantations had already been offset to settle the amounts owed to the contractor, who was responsible for payments to farmers for their contracting work on the plantations and all supplies provided including the amount owing to them and that there were no further obligations due to third parties thereon. Please refer to paragraph 4(ii) under Basis for Disclaimer of Opinion section of our report regarding the split accounting on the prepayments.

  Because of the lack of available records to account for the transactions as explained, we were not able to ascertain the existence and accuracy of the biological assets at the reporting date, the completeness and accuracy of recording of the disposal of the bamboo plantations and the impact on the financial assets and financial liabilities of these two subsidiaries, Nanping Lijiashan Forestry Co. Ltd (南平市李家山林业有限公司) and Sanming Shansheng Forestry Co. Ltd (三明山盛林业有限公司) and we were not able to obtain sufficient appropriate audit evidence due to the limitations placed on the scope of our work.

4(i). Valuation of bamboo and eucalyptus plantations and Prepayment of plantations

FRS 41 *Agriculture* requires a biological asset to be measured at the end of each reporting period at its fair value less costs to sell, and the agricultural produce harvested from an entity's biological assets to be measured at its fair value less costs to sell at the point of harvest. On 21 August 2017, the Company's independent valuers have issued their valuation reports on the fair values of the biological assets for the Group's bamboo plantations as at 30 June 2017. The fair values were derived based on the income approach technique which used the discounted cash flows method. Under this method, the values derived were based on the present value of the future economic benefits over a period of five years. However, as the bamboo plantations, due to the impact of the insect infestations, were deemed to be not commercially viable nor economically feasible for the plantations to remain in business, the basis and the assumptions from the income approach were no longer appropriate and, accordingly, the valuation of these biological assets as at 30 June 2017 cannot be relied upon. Instead, the appropriate basis of valuation should be at the market approach at that time when the disposal was made. However, no information could be obtained and made available to determine the appropriate fair value of the biological assets at 30 June 2017 and at the time of disposal of the bamboo plantations.

Basis for Disclaimer of Opinion (Cont'd)

4(i). Valuation of bamboo and eucalyptus plantations and Prepayment of plantations (Cont'd)

Included in the biological assets is an amount of RMB 7,380,000 relating to synthetic logs recorded as biological assets carried forward from FY2016 as shown in Note 5 to the financial statements. According to FRS 41 *Agriculture*, the synthetic logs, which are agricultural produce harvested from the Group's biological assets, should be classified as inventories instead. The synthetic logs are from eucalyptus trees which are converted from saw dust and processed into synthetic logs over a period of 3 to 5 months for use in mushroom cultivation. This should be measured under FRS 2 *Inventories*. The actual cost incurred of RMB 61,166,000 relating to the process costs incurred during the financial year ended 30 June 2016 should form part of inventories' costs and accounted for at the lower of cost and net realisable value instead of cost model under FRS 41 for which active market prices were not available. For biological assets, the measurement should be at fair value less costs to sell. In all respects, the lack of market value cannot be presumed as the said subsidiaries had annual valuation carried out to determine the fair value of the eucalyptus trees using the income approach basis.

Included in the prepayments for bamboo plantations of RMB 398,085,000 is an amount totalling RMB 11,680,000 which relates to costs incurred to bring the assets to its existing conditions for the plantations. The costs incurred relates to provision of services for maintenance and other operating expenses. In this connection, FRS 41 *Agriculture*, requires such costs to be capitalised as part of costs incurred under biological assets instead of prepayments during the period.

We were unable to determine the changes in fair value of the biological assets. The prepaid unexpired leases had been fully written off to profit or loss. The financial impact may be a loss of prepayments written off of RMB 334,548,000 as shown in Note 11 to the financial statements.

The disposition of the biological assets does not fall within the scope of FRS 105 *Non-current Assets Held for Sale and Discontinued Operations* during FY2017 as the Board was not aware of the disposal.

4(ii). Accounting for biological assets and bearer plants

The amendments to FRS 16 *Property, plant and equipment* and FRS 41 *Agriculture: Bearer Plants* require biological assets that meet the definition of a bearer plant to be accounted for in accordance with FRS 16 measured at using either the cost model or revaluation model for subsequent measurement, while the agricultural produce growing on bearer plants will remain within the scope of FRS 41 to be measured at fair value less costs to sell. Bearer plants are defined as living plants that are used in the production or supply of agricultural produce and of which there is only a remote likelihood that the plant will also be sold as agricultural produce.

Prior to the adoption of these amendments, the Group's biological assets which include both the bamboo trees and bamboo shoots were measured at fair value less costs to sell.

Upon the adoption of these amendments, biological assets that meet the definition of bearer plants (bamboo roots) should be measured at historical costs less accumulated depreciation and agricultural produce (bamboo trees and bamboo shoots) should be measured at fair value less cost to sell. The change in accounting policy must be applied retrospectively and the effects of the change are to be disclosed.

The Group did not adopt the amendments for the financial year ended 30 June 2017 because its moso bamboo plantations were disposed of in August 2017. Prior to its disposal, the Group had performed a valuation of the biological assets with a valuation date of 30 June 2017 for the purpose of FRS 41 based on discounted cash flows method which, however, also did not take into account the amendments to FRS 16 to determine and recognise the valuation for the bearer plant (bamboo roots) from the bamboo agricultural produce (bamboo trees and bamboo shoots) which are effective for the financial year ended 30 June 2017.

In addition, at the inception of the Group's acquisitions of the leases to the moso bamboo plantations since FY2013 referred to in Note 11 to the financial statements and the acquisitions of the leases to the eucalyptus plantations and the related biological assets, management did not separately account for the value of the leases (operating leases) of the plantations from the value of the biological assets (bamboo trees, bamboo shoots and eucalyptus trees). At inception of the leases to the plantations, management had accounted for the leases at their entirety as prepayments in the financial statements without any split accounting i.e. accounting for the values of the biological assets from the value of leases to the plantations at its inception. Consequently, we were also unable to determine the appropriateness of the carrying amounts of the opening balances of the prepayments of leases of RMB 386,405,000 (see Note 11) and related biological assets RMB 176,932,000 (see Note 5) as at 1 July 2016.

Basis for Disclaimer of Opinion (Cont'd)

4(ii). Accounting for biological assets and bearer plants (Cont'd)

As a result of the limitations and constraints from the reconstructed management accounts coupled with the disposal of the entire moso bamboo plantations in August 2017, we were unable to determine whether any adjustments might have been found necessary in respect of the consolidated financial statements, had the amendments to FRS 16 and FRS 41 *Agriculture: Bearer Plants* been applied retrospectively for the year ended 30 June 2017. Neither were we able to determine any adjustments that might be necessary to split account the aggregate value of leases (operating leases) of the bamboo plantations from the value of the bamboo produce - biological assets (bamboo trees and bamboo shoots) at the various inception dates and the relevant changes in fair value of the biological assets to the respective reporting dates thereon. Consequently, we were unable to satisfy ourselves of, or perform alternative audit procedures to ascertain the carrying values of the bearer plants and biological assets as at and for the year ended 30 June 2017 and its financial effect on prior years' financial statements and on the current year's retained earnings including the changes in fair values of these biological assets.

5. Financial assets and financial liabilities, and revenue and loss for the year

As described in the preceding paragraphs, the manner in which information was obtained and the way in which the reconstruction of the books and records were prepared and the extent of the documents and information gathered and the reliance on available information from counter-parties on off-setting arrangements for receivables and payables, and cash transactions involved in certain China subsidiaries and with third parties, to reproduce the financial statements, the Board is aware of the limitations that are being imposed in the process and, therefore, which affect the accuracy and the reliability of the financial statements of the China subsidiaries within the Group and the consolidated financial statements of the Group.

In the case of biological assets, there were cash transactions where the management of the China subsidiaries obtained relevant copies of monthly statement of accounts from the farmers showing the monthly transactions agreed between the parties. There were also certain cash transactions where the extent of such revenue cannot be known. This is because such transactions were normally entered with the contractors with no documentary evidences. Also, there may be operating costs as regard to cultivation and harvesting of the shiitake mushrooms and bamboo shoots that were settled in cash.

In the case of processed food products, including mushrooms, and vegetables and convenience food products (mainly konjac-based), there were certain transactions being offset and agreed between the parties i.e. the sales and purchases were made from the same counter-parties who acts as supplier and customer. There were also cash transactions entered as well. We understand that certain documents supporting these transactions were provided by the counter-parties. These transactions for sales made and purchases made totalled RMB 135,982,000 and RMB 294,416,000 for the financial year ended 30 June 2017 respectively.

In respect to trade payables as of the reporting date, management of the China subsidiaries through its legal counsel obtained the notarised letters from the suppliers to confirm the supplies and payments made during the year, and the closing balance at the reporting date. As shown in Note 20 to the financial statements, as at 30 June 2017, included in trade and other payables was an amount of RMB 29,349,000 where management of the China subsidiaries could not provide any information as to the nature of these liabilities.

The Group reported the revenue and the cost of sales for the financial year under review to be RMB 224,072,000 and RMB 396,703,000 respectively. On the basis of information and explanation as described above, we were unable to ascertain the veracity of the sales and cost of sales and impact on the loss for the financial year ended 30 June 2017.

On the basis as described above, in so far as the financial assets and financial liabilities of the respective China subsidiaries were concerned, we were unable to ascertain the completeness and accuracy of such balances.

6. Taxes

As at 30 June 2017, the Group reported tax liabilities of RMB 8,010,000. To the extent of the tax filing and administration, whether the tax liabilities and VAT were properly complied cannot be ascertained as we were not in the position to perform the necessary audit procedures due to the limitation of scope. Accordingly, we were unable to ascertain the manner and timing in which the current taxation of RMB 83,000, deferred taxation of RMB 3,711,000, VAT payable of RMB 3,720,000 and other government tax payable of RMB 496,000 were being reported.

Basis for Disclaimer of Opinion (Cont'd)

7. Land use rights

As at the reporting date, there was a land use right with a carrying amount of RMB 980,000 (see Note 6) in relation to the parcel of land located at No. 2 Shengfeng Road, Liantang Town, Pucheng County, Nanping City, Fujian Province in the PRC where the grant of the leases for two buildings may be subject to certain restrictions as to the intended use.

8(a). Property, plant and equipment written off to consolidated profit or loss

The management of the China subsidiaries did not reconstruct the full listing of property, plant and equipment which include leasehold buildings, motor vehicles, office equipment, plant and machinery, fixtures and fittings, farm equipment and fixtures and construction-in-progress. To the extent of the information gathered on the property, plant and equipment, there were certain unaccountable items of assets of property, plant and equipment and construction-in-progress totalled RMB 67,496,000 (see Note 4) which were written off and charged to the consolidated profit or loss.

8(b). Classification of property, plant and equipment and investment properties

As at the reporting date, the properties on leasehold land comprise own-use and on rentals. They are as follows:

Location	Description	Tenancy	Gross floor area sqm	NBV RMB' million
A parcel of land and 12 buildings located at No. 2 Shengfeng Road, Liantang Town, Pucheng County, Nanping City, Fujian Province, The PRC	Factory	Own-use	5,815.68	0.81
	Warehouse & Shophouse	On rental	7,810.00	2.24
	Subtotal		**13,625.68**	3.05
A parcel of land and 4 buildings located at No. 300 Houyu Jingxi Town, Minhou County, Fuzhou City, Fujian Province, The PRC	Factory & office building	On rental	31,291.09	106.58
	Subtotal		**31,291.09**	106.58
2 parcels of land and 6 buildings located at No. 2 Dongling Road, Minhou Economic and Technological Development Zone, Ganzhe Street, Minhou County, Fuzhou City, Fujian Province, The PRC	Factory & office building	Own-use	24,903.61	13.41
	Subtotal		**24,903.61**	13.41
A parcel of land and 2 buildings located at Luoan Food Industrial Park, Houfu Village Guilin Street, Zhangping City, Fujian Province, The PRC	Office building	Own-use	926.22	1.41
	Factory	Own-use	2,292.16	1.51
	Subtotal		**3,218.38**	2.92
20 Cecil Street, #06-02 GSH Plaza, Singapore	Office building	Own-use	48.00	7.97
	Subtotal		**48.00**	7.97
	Grand Total		**73,086.76**	133.93

As at 30 June 2017, leasehold buildings included in the property, plant and equipment at carrying amount was shown in Note 4 to the financial statements, which amounted to RMB 25,114,000. As shown in Note 8 to the financial statements, the investment properties at carrying amount was RMB 108,820,000. The historical cost of these investment properties was RMB 110,027,000. During the financial year, there were own-use properties under property, plant and equipment and one property under construction-in-progress transferred and classified as investment properties. The amounts were RMB 41,271,000 and RMB 37,193,000 respectively. The management of the China subsidiaries reported that these leasehold properties held for rental yield was shown in property, plant and equipment since previous financial years.

As at 30 June 2016, the carrying amount of the leasehold buildings included in the property, plant and equipment was RMB 88,264,000 (see Note 4). The carrying amount of the investment properties was RMB 30,356,000 (see Note 8) and the fair value as disclosed was RMB 37,557,000.

Basis for Disclaimer of Opinion (Cont'd)

8(b). Classification of property, plant and equipment and investment properties (Cont'd)

FRS 40 *Investment property* requires the accounting for property (land and/or buildings) which are held to earn rentals or for capital appreciation (or both) to be classified under investment properties.

No adjustment has been made to correct the carrying amount of the investment properties and the depreciation charged for FY2016 due to lack of available records and certain unknown items of property, plant and equipment being charged to profit or loss as described above. We were not able to obtain sufficient appropriate audit evidence due to the limitations placed on the scope of our work. We were not able to ascertain and determine the extent of the carrying amount of such leasehold buildings as well as the depreciation charged and the appropriateness of its classification under investment properties or property, plant and equipment at the reporting date for the current year and prior years' financial statements.

9. Inventories

We were unable to observe the counting of physical inventories having a carrying amount of RMB 20,988,000 as at 30 June 2017 as we were appointed as the Company's independent auditors only in 2018. There were no inventory listing made available to us. In the absence of alternative procedures, we were unable to obtain sufficient appropriate audit evidence to satisfy ourselves on the existence and valuation of the inventories as of 30 June 2017.

10. Unaccountable expenses

As shown in Note 24(d) to the financial statements, management of the Group charged unaccountable expenses of RMB 139,774,000 to consolidated profit or loss for which there were no supporting documents and/or available information. There were no appropriate audit evidence regarding these unaccountable expenses and we were not able to perform alternative procedures due to the limitation of scope. Consequently, we were unable to determine the appropriateness of these adjustments as reported in the consolidated profit or loss for the financial year ended 30 June 2017.

11. Internal controls and corporate governance

We were unable to obtain a copy of the draft internal audit report for the financial year ended 30 June 2017 which the directors of the Company have expressed that the said report has been destroyed by the fire. In view of the Fire Incident and the lack of corporate governance in reporting and communicating, and the matters described above, we were unable to evaluate whether the Company and the Group had operated within the appropriate internal control and corporate governance frameworks which may have, in certain extent, a pervasive effect, if any, on the financial statements. As of the date of this report, the Board is still in the process of commissioning an independent internal control review.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and Singapore Financial Reporting Standards ("FRSs"), and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

The management and directors draw attention to the books and records for the financial year ended 30 June 2017 as well as the prior years, that were burnt due to the Fire Incident. An assessment made by the police and fire bureau confirmed and certified that the fire was a normal incident.

INDEPENDENT AUDITOR'S REPORT

To the Members of Yamada Green Resources Limited

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Group's financial statements in accordance with Singapore Standards on Auditing and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements of the Group.

We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

Other Matters

Additional audit works to be performed by BDO LLP and update on Phase 1 Works - Suspension Notice issued to BDO China

On 5 September 2017, the Board made an announcement that the Group intended to provide more time for the Company's then external auditors, BDO LLP, to perform additional audit works in relation to certain inconsistencies in the Group's financial records and other audit queries which were raised by the then external auditors to the Audit Committee in the course of their audit for the Group's financial statements for the financial year ended 30 June 2017 ("FY2017"). Such additional audit works were envisaged to comprise additional field trips to verify, reconcile and/or confirm financial transactions with the Group and/or third parties.

On 27 September 2017, the Board made an announcement to give an update that in relation to the Phase 1 Works which was initially envisaged to be carried out by the Company's then external auditors namely BDO Singapore in collaboration with its PRC affiliate, BDO China, the progress was, however, temporarily halted, due to a formal suspension notice (the "Suspension Notice") issued by the Ministry of Finance of the PRC and the China Securities Regulatory Commission, which may be accessed online from the website of the China Securities Regulatory Commission. The notice states, *inter alia*, that BDO China is suspended from taking on "securities-related engagements" as of 23 May 2017 pending the implementation of certain rectification works. The Company's PRC legal advisers had advised that "securities-related engagements" include the provision of audit services for listed companies and also internal audit engagements. The suspension was lifted on 10 August 2017, with the period of suspension being from 23 May 2017 to 10 August 2017 (the "Suspension Period").

The Board of the Group took a serious view on this matter as audit work performed by BDO China for the Group's China subsidiaries was carried out during the Suspension Period, and this may have potentially serious implications for the Group. The Board is presently seeking advice, and waiting clarification from BDO LLP, as to *inter alia*, whether it would be appropriate for BDO LLP and/or BDO China to perform the Phase 1 Works in light of the Suspension Notice, and the extent of the implications, if any, on the Group in relation to the audit work performed by BDO China.

Report made by BDO LLP to Minister of Finance (of Singapore) ("MOF")

It was also announced that BDO LLP had, on 25 September 2017, informed the Board that it had made a confidential report (the "Report") to the MOF under Section 207(9A) of the Companies Act (Cap. 50) of Singapore ("Companies Act") on 21 September 2017.

Section 207(9A) of the Companies Act provides that, where an auditor of a public company or a subsidiary corporation of a public company, in the course of the performance of his duties as auditor, has reasons to believe that a serious offence involving fraud or dishonesty is being or has been committed against the company by officers or employees of the company, he shall immediately report the matter to the MOF.

Other Matters (Cont'd)

Report made by BDO LLP to Minister of Finance (of Singapore) ("MOF") (Cont'd)

The Company is not privy to the actual contents of the Report as the Report was not made available to the Company. Nonetheless, BDO LLP has confirmed that the Report relates to certain inconsistencies in the Group's financial records and other audit queries which were raised by BDO LLP in the course of their audit for the Group's financial statements for FY2017, as announced on 5 September 2017. As of the date of this report, there is no further development noted.

Fujian Provincial Department of Finance Notice regarding BDO LLP

The Company announced on 6 August 2018 that it has come to the Board's attention that the Fujian Provincial Department of Finance ("Fujian Provincial DOF") has issued a notice dated 24 July 2018 ("Notice") stating that BDO LLP had failed to comply with the requirements prescribed under Article 8 of the Interim Provisions of the Ministry of Finance of China On Accounting Firms Engaged in the Audit for an Overseas Listed Company with Mainland Chinese Subsidiaries 《会计师事务所从事中国内地企业境外上市审计业务暂行规定》(财会 (2015) 9号), when BDO LLP commenced its audit on the Group's China subsidiaries in the Fujian province in 2017. Further, the Notice also stated that BDO LLP has been ordered to take rectification measures within the prescribed period.

Agreed Upon Procedures performed by Deloitte & Touche Financial Advisory Services Pte Ltd

On 1 April 2018, the Board announced that Deloitte & Touche Financial Advisory Services Pte Ltd ("DTFAS") was appointed to perform Agreed Upon Procedures ("AUP") to carry out Phase 1 Works as defined in the announcement made on 5 September 2017.

The report from DTFAS concluded that there were no exception findings noted in respect of the Phase 1 Works being carried out. DTFAS highlighted that the work on the bank balances as at 30 June 2017 as defined in the scope of work of the AUP, were before unpresented cheques (i.e. cheques dated before 30 June 2017 but posted not until after 30 June 2017) and thus the bank account balances does not capture such items in transit as at 30 June 2017.

In regard to the review and comparison work done for transactions amounting to RMB 100,000 and above ("Material Transactions"), which involved:

a. DTFAS compared the available details (i.e. date, amount, payor and payee) of all Material Transactions, between the physical monthly bank statements, online monthly bank statements and the historical bank statements of the China subsidiaries for the financial year from 1 July 2016 to 30 June 2017. No exception was noted from the abovementioned comparison.

b. There was no comparison made for the four (4) dormant accounts under the name of Fujian Tianwang Foods Co., Ltd ("Fujian Tianwang Dormant Accounts") as there were only physical monthly bank statements available (which was extracted from Bank of China under Work Scope 2 – obtained physical monthly bank statements directly from all the banks where the China subsidiaries have bank accounts). As mentioned above, it appears to DTFAS after reviewing the physical monthly bank statements for these Fujian Tianwang Dormant Accounts that these were dormant during that period, as the only bank account that had a balance as at 30 June 2017 held an amount of USD 0.32.

FY2016 audit

The financial statements of the Company for the year ended 30 June 2016 was audited by another auditor who expressed an unmodified opinion on those statements on 29 September 2016.

The engagement partner on the audit resulting in this independent auditor's report is Yeo Boon Chye.

Net decrease in cash and cash equivalents		**(4,644)**	(16,076)
Cash and cash equivalents at beginning of year		**11,143**	27,440
Effect of foreign exchange rate changes on cash and cash equivalents		**129**	(221)
Cash and cash equivalents at end of year (Note 17)		**6,628**	11,143

* Per Note 18 to the financial statements, the transaction costs was reported to be RMB 4,110,000.

\# As reported, the bank borrowings obtained during the financial year ended 30 June 2016 was RMB 24,614,000 and repaid a sum of RMB 63,000,000. However, Note 21 to the financial statements only showed bank borrowings of RMB 3,455,000.

Note A

Property, plant and equipment

During the financial year ended 30 June 2017, the Group acquired property, plant and equipment with an aggregate cost of RMB 12,980,000 (2016 - RMB 22,645,000), of which RMB 4,626,000 (2016 - RMB Nil) was transferred from long term deposit. Cash payments of RMB 8,354,000 (2016 - RMB 22,645,000) were made to purchase property, plant and equipment.

Long term deposit

During the financial year ended 30 June 2016, cash payment of RMB 4,626,000 was made as a long term deposit paid for the acquisition of a leasehold property (see Note 12). A transfer to property, plant and equipment for the said amount was made upon completion of acquisition of the leasehold property during the financial year ended 30 June 2017.

The annexed notes form an integral part of and should be read in conjunction with these financial statements.

1 General information

The financial statements of the Company and of the Group for the year ended 30 June 2017 were authorised for issue in accordance with a resolution of the directors on the date of the Directors' Statement.

The Company was incorporated in Singapore on 8 February 2010 as a private limited company under the name Yamada Green Resources Pte. Ltd. On 28 September 2010, the Company was converted into a public company and assumed the present name of Yamada Green Resources Limited. The Company was listed on the SGX–ST on 8 October 2010.

With effect from 22 January 2018, the registered office of the Company is located at 7 Temasek Boulevard #43-03 Suntec Tower One, Singapore 038987. The principal place of business is at No.2 Dongling Road, Minhou Economic and Technological Development Zone, Ganzhe Street Minhou County, Fuzhou City, Fujian Province, The PRC.

The principal activity of the Company is that of an investment holding company. The principal activities of the subsidiaries are disclosed in Note 9 to the financial statements.

2(a) Fire incident

The Board of Directors of the Company announced on 4 September 2017, that they have been informed by the management on 31 August 2017 of a fire incident involving a transport vehicle which took place at approximately 2.30 p.m. on 30 August 2017. The fire incident was reported to the police and fire authorities who attended to the incident.

The incident vehicle was in the midst of transporting certain finance documents and IT/computer hardware from the Group's Research and Development Centre ("R&D Centre") situated in Houyu Food Industry Zone of Minhou County, Fuzhou City, PRC to the Group's office premises situated in the Tie Ling Economic and Technological Development Zone of Minhou County, Fuzhou City, PRC ("Office Premises"). The preliminary assessment of the management was that a large part of the FY2017 and FY2018 finance documents for the Company's subsidiaries, and part of the FY2010 to FY2016 finance documents of the Company's subsidiaries, were likely to have been affected or destroyed by the fire. The affected finance documents include certain payment and receiving vouchers, invoices and banking-related advice and documents. Affected IT/computer hardware comprise office computers which contain records, back-ups and information on finance and related documents.

The transportation of the said finance documents and IT/computer hardware was pursuant to the management's decision to consolidate the finance team and records at the Office Premises. The finance team and records were then split between two locations - namely the R&D Centre and the Office Premises. The consolidation of the finance operations at the Office Premises was intended to improve operational and audit efficiency, and allow both finance staff and the then external auditors, BDO LLP easier access to key management.

2(b) Going concern

Notwithstanding the Group has incurred total comprehensive loss for the year of RMB 777,699,000 (2016 - total comprehensive income RMB 37,038,000), current liabilities exceeded current assets of RMB 35,503,000 (2016 - current assets exceeded current liabilities of RMB 201,794,000) and net cash used in operating activities of RMB 28,145,000 (2016 - net cash generated from operating activities of RMB 71,698,000), the Group and the Company have a net tangible asset of RMB 204,249,000 (2016 - RMB 959,243,000) and RMB 304,868,000 (2016 - RMB 305,031,000) respectively.

The Company and the Group manage the liquidity risk by ensuring there are sufficient cash to meet all their normal operating commitments in a timely and cost-effective manner, having adequate amount of credit facilities (see Note 32.4).

The financial statements have been prepared on a going concern basis, which assumes that the Company and the Group will be able to meet their obligations as and when they fall due in the next 12 months.

2(c) Basis of preparation

The financial statements are prepared in accordance with Singapore Financial Reporting Standards ("FRS") including related Interpretations promulgated by the Accounting Standards Council ("ASC") of Singapore. The financial statements have been prepared under the historical cost convention, except as disclosed in the accounting policies below.

The financial statements are presented in Renminbi ("RMB") which is the Company's functional currency. All financial information presented in RMB has been rounded to the nearest thousand ("RMB'000") unless otherwise stated.

Significant judgements and accounting estimates

The preparation of the consolidated financial statements in conformity with FRS requires the use of judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the financial year. Although these estimates are based on management's best knowledge of current events and actions, actual results may differ from those estimates.

The critical accounting estimates and assumptions used and areas involving a high degree of judgement are described below.

Significant judgements in applying accounting policies

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amount recognised in the financial statements:

Revenue - Gross presentation

The Group assesses at the end of the balance sheet date whether the Group acts as a principal or an agent. To determine whether the Group acts as a principal, the Group considers factors such if the Group has primary responsibility for providing the goods or services to the customer, has latitude in establishing prices, either directly or indirectly and bears the customer's credit risks for the amount receivable from the customers. The Group has determined, based on an evaluation of the terms and conditions of the sales arrangements, that the Group acts as a principal and so accounts the revenue as gross presentation in the consolidated statement of profit or loss and other comprehensive income.

Classification of bamboo plantations as biological assets (see Note 5)

Amendments to FRS 16 Property, plant and equipment and FRS 41 Agriculture relating to Bearer Plants were effective for the financial year ended 30 June 2017.

- Bamboo trees

  Judgement may be needed to determine whether the bamboo plant is solely used to grow produce over their productive lives (i.e. bearer plants) or solely used to be grown to be harvested and sold as produce. Generally, the leases to the bamboo plantations are periods between 10-15 years. The bamboo shoots are expected to reach maturity for harvesting as described below.

  After harvesting, the root of the bamboo plant may be preserved to be grown into:

  (i) the next generation of bamboo shoots and be ready for harvesting every six months; and/or

  (ii) the next generation of the tree and be ready for harvesting in another three to five years' time.

  Management has applied judgement to classify the bamboo roots as biological assets rather than as bearer plants. Please refer to the "Disclaimer of Opinion" paragraph 4(ii) Accounting for biological assets and bearer plants.

2(c) Basis of preparation (Cont'd)

Significant judgements in applying accounting policies (Cont'd)

Classification of bamboo plantations as biological assets (see Note 5) (Cont'd)

- Eucalyptus trees

  Judgement may be needed to determine whether the eucalyptus plant is solely used to grow produce over their productive lives (i.e. bearer plants) or solely used to be grown to be harvested and sold as produce such as synthetic logs made from sawdust generated from the eucalyptus plantations (i.e. biological assets). Generally, the leases to the eucalyptus plantations are periods between 10-15 years. The eucalyptus plantations are expected to reach maturity for harvesting in their seventh to eighth year. After harvesting, the root of the eucalyptus plant is no longer of use.

  Hence, management has determined that it is appropriate to classify the eucalyptus plantations as biological assets.

Significant influence (see Note 10)

Significant influence is presumed to exist (or not exist) when an entity holds 20% or more (or less than 20%) of the voting rights of another entity, unless it can be clearly demonstrated otherwise.

The Group holds 45% interest in Fujian Tianwang Foods Co. Limited ("Tianwang") and its subsidiary, Sanming Sennong Forestry Co. Ltd ("Sennong"). One out of three members on the board of directors of Tianwang is represented by one of the directors of the Company.

Based on this, the Group considers that it has the power to exercise significant influence, being the power to participate in the financial and operating policy decisions of Tianwang and its subsidiary, Sennong (but not control or joint control).

Critical accounting estimates and key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Depreciation of property, plant and equipment (see Note 4)

Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives. Management estimates the useful lives of property, plant and equipment to be within 3 to 20 years. The carrying amounts of the Company's and the Group's property, plant and equipment as at 30 June 2017 are RMB 7,974,000 (2016 - RMB 9,000) and RMB 25,375,000 (2016 - RMB 163,206,000) respectively. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

If the actual useful lives of the Company's and the Group's property, plant and equipment differ by 10% from the management's estimates, the carrying amount of the Company's and the Group's property, plant and equipment will be approximately RMB 1,000 (2016 - RMB 1,000) and RMB 436,000 (2016 - RMB 809,000) lower respectively and RMB 1,000 (2016 - RMB 1,000) and RMB 357,000 (2016 - RMB 662,000) higher respectively.

Useful lives of plant and machinery (see Note 4)

Plant and machinery are depreciated on a straight-line basis over their estimated economic useful lives. Management estimates the useful lives of these assets to be 10 years. Changes in the expected level of usage and technological developments could impact the economic useful lives of these assets, therefore future depreciation charges could be revised. The carrying amount of the Group's plant and machinery at the end of the reporting period is disclosed in Note 4 to the financial statements.

If the actual useful lives of plant and machinery differ by 10% from the management's estimates, the carrying amount of the Group's plant and machinery will be approximately RMB 98,000 (2016 - RMB 140,000) lower and RMB 80,000 (2016 - RMB 115,000) higher.

2(c) Basis of preparation (Cont'd)

Critical accounting estimates and key sources of estimation uncertainty (Cont'd)

Biological assets (Eucalyptus, moso bamboo and bamboo shoots plantations) (see Note 5)

Eucalyptus, moso bamboo and bamboo shoots plantations included in the Group's biological assets are stated at fair value less costs to sell. The fair value of these biological assets is determined based on the present value of expected net cash flows from the biological assets discounted at a current market-determined pre-tax rate. The fair value of the biological assets is determined by an independent valuer. Changes in conditions of the biological assets could impact the fair value of the assets.

The carrying amount of the Group's biological assets (eucalyptus, moso bamboo and bamboo shoots plantations) as at 30 June 2017 was approximately RMB 68,117,000 (2016 - RMB 176,932,000). The independent valuers used highly subjective assumptions and estimates to determine the valuation of the biological assets. These assumptions and estimates involve inherent uncertainties and the application of judgements. As a result, if factors change and the valuation uses different assumptions and estimates, the fair value of the biological assets could be materially different.

Amortisation of land use rights (see Note 6)

Land use rights are amortised on a straight-line basis over their estimated useful lives. The Group has been granted rights of use of land of 41 to 50 years. The carrying amount of the Group's land use rights as at 30 June 2017 is RMB 23,473,000 (2016 - RMB 24,015,000). Changes in the expected level of usage could impact the economic useful lives of land use rights, therefore future amortisation charges could be revised.

If the actual useful lives of land use rights differ by 10% from the management's estimates, the carrying amount of the Group's land use rights will be approximately RMB 60,000 (2016 - RMB 60,000) lower and RMB 49,000 (2016 - RMB 49,000) higher.

Impairment of investments in subsidiaries (see Note 9)

Determining whether investments in subsidiaries is impaired requires an estimation to the recoverable amounts of the investments in subsidiaries. The recoverable amounts of the investments in subsidiaries are estimated using the "fair value less costs of disposal" approach. Fair value is based on the revalued net assets of subsidiaries. In deriving the revalued net assets of these subsidiaries, the fair values of the underlying assets are estimated based on their expected selling prices and the fair values of the underlying liabilities are based on the estimated cash outflows to settle the obligations. Management has evaluated the recoverability of the investment based on such estimates.

If present value of estimated future cash flows decrease by 10% from management's estimates, the Company's allowance for impairment will increase by RMB 1,421,000 (2016 - Nil).

Withholding tax on undistributed profits (see Note 13)

According to the New Corporate Income Tax Law ("CIT") and the Detailed Implementation Regulations, dividends distributed to the foreign investor by Foreign Invested Enterprises ("FIE") in the PRC, would be subject to withholding tax of 10% (5% for countries including Singapore which have entered into respective bilateral treaties with the PRC). The FIE's profits, arising in the financial year 2008 and beyond, to be distributed to the foreign investors as dividends shall be subject to withholding tax.

The management has considered the above tax exposure and has provided for deferred tax liability as at 30 June 2017 based on the assumption that the FIE will, in the foreseeable future, declare dividend payments to the Company and there will be withholding tax on dividends to be distributed out of the accumulated profits.

The carrying amount of the Group's deferred tax liability on undistributed profits as at 30 June 2017 was approximately RMB 3,711,000 (2016 - RMB 3,711,000).

2(c) Basis of preparation (Cont'd)

Critical accounting estimates and key sources of estimation uncertainty (Cont'd)

Determination of functional currency

The Group measures foreign currency transactions in the respective functional currencies of the Company and its subsidiaries. In determining the functional currencies of the respective entities in the Group, judgement is required to determine the currency that mainly influences sales prices of goods and services and of the country whose competitive forces and regulations mainly determines the sales prices of its goods and services. The functional currencies of the entities in the Group are determined based on the local management's assessment of the economic environment in which the entities operate and the respective entities' process of determining sales prices.

Income tax (see Notes 13 and 26)

The Group has exposures to income taxes in numerous jurisdictions. Significant judgement is involved in determining the group-wide provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

The accounting policies used by the Company and by the Group have been applied consistently to all periods presented in these financial statements.

2(d) Interpretations and amendments to published standards effective in 2016/2017

On 1 July 2016, the Group adopted the new or amended FRS that are mandatory for application for the financial year. Changes to the Group's accounting policies have been made as required, in accordance with the transitional provisions in the respective FRS.

The adoption of these new or amended FRS and INT FRS did not result in substantial changes to the accounting policies of the Group and the Company and had no material effect on the amounts reported for the current or prior financial years except for the following:

Reference	Description	Effective date (Annual periods beginning on or after)
Amendments to FRS 1	Disclosure Initiatives	1 January 2016
Amendments to FRS 16, FRS 41	Agriculture: Bearer plants	1 January 2016

Amendments to FRS 1 *Presentation of Financial Statements*

The amendments clarify, rather than significantly change, existing FRS 1 requirements. The amendments clarify:

- The materiality requirements in FRS 1
- That specific line items in the statement(s) of profit or loss and other comprehensive income ("OCI") and the statement of financial position may be disaggregated
- That entities should adopt a systemic order in which they present the notes to financial statements
- That the share of OCI of associates and joint ventures accounted for using the equity method must be presented in aggregate as a single line item, and classified between those items that will or will not be subsequently reclassified to profit or loss

2(d) Interpretations and amendments to published standards effective in 2016/2017 (Cont'd)

Amendments to FRS 1 *Presentation of Financial Statements (Cont'd)*

Furthermore, the amendments clarify the requirements that apply when additional subtotals are presented in the statement of financial position and the statement(s) of profit or loss and OCI. The amendments to FRS 1 are effective for annual periods beginning on or after 1 January 2016. As this is a disclosure standard, it will have no impact to the financial position of the Company and the Group and performance of the Group when applied in.

Amendments to FRS 16 Property plant and equipment and FRS 41 *Agriculture - Accounting for bearer plants*

The amendments distinguish bearer plants from other biological assets as bearer plants are solely used to grow produce over their productive lives. Bearer plants are seen as similar to an item of machinery in a manufacturing process and therefore will be classified as PP&E and accounted for under FRS 16.

Prior to the amendments, all biological assets were in the scope of FRS 41 and measured at fair value less costs to sell. Bearer plants will now be accounted for differently from all other biological assets.

Please refer to the "Disclaimer of Opinion" in paragraph 4(ii) Accounting for biological assets and bearer plants for the impact to the financial position of the Company and the Group.

2(e) FRSs issued but not yet effective

The Accounting Standards Council ("ASC") announced on 29 May 2014 that Singapore-incorporated companies listed on the SGX-ST will apply a new financial reporting framework identical to the International Financial Reporting Standards ("IFRS") for financial year ending 31 December 2018 onwards. Singapore-incorporated companies listed on the SGX-ST will have to assess the impact of IFRS 1 First-time adoption of IFRS when transitioning to the new reporting framework. The Group is currently assessing the impact of transitioning to the new reporting framework on its financial statements.

The following are the new or amended FRS and INT FRS issued that are not yet effective but may be early adopted for the current financial year:

Reference	Description	Effective date (Annual periods beginning on or after)
FRS 109	Financial Instruments	1 January 2018
FRS 115	Revenue from Contracts with Customers Clarifications to FRS 115 Revenue from Contracts with Customers	1 January 2018
FRS 116	Leases	1 January 2019
Amendments		
FRS 7	Disclosure Initiative	1 January 2017
FRS 40	Transfers of Investment Property	1 January 2018
FRS 102	Classification and Measurement of Share-based Payment Transactions	1 January 2018

2(e) FRSs issued but not yet effective (Cont'd)

FRS 109 *Financial Instruments*

FRS 109 *Financial Instruments* replaces the FRS 39 and it is a package of improvements introduced by FRS 109 which include a logical model for:

- Classification and measurement;
- A single, forward-looking "expected loss" impairment model; and
- A substantially reformed approach to hedge accounting.

FRS 109 is effective for annual periods beginning on or after 1 January 2018.

Overall, the Group does not expect a significant change to the measurement basis arising from the adoption of the new classification and measurement model under FRS 109 based on its initial assessment of the impact on the Group's financial statements.

Loans and receivables currently accounted for at amortised cost will continue to be accounted for using amortised cost model under FRS 109.

The Group currently has no financial liabilities held at fair value.

Impairment - The Group plans to apply the 12-month approach and record lifetime expected impairment losses on all trade receivables.

The Group is currently performing a detailed analysis under FRS 109 which will result in changes to the accounting policies relating to the impairment provisions of financial assets and liabilities. Management will consider whether the 12-month or lifetime expected credit losses on financial assets and liabilities should be recognised, which is dependent on whether there has been a significant increase in the credit risk of the assets and liabilities from initial recognition to the date of initial application of FRS 109.

Additional disclosures will also be made. It is currently impracticable to disclose any further information on the known or reasonably estimable impact to the Group's financial statements in the period of initial application as the management has yet to complete its detailed assessment. Management does not plan to early adopt the new FRS 109.

FRS 115 *Revenue Contracts with Customers*

FRS 115 Revenue from Contracts with Customers establishes a framework for determining when and how to recognise revenue. The objective of the standard is to establish the principles that an entity shall apply to report useful information about the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer. It established a new five-step model that will apply to revenue arising from contracts with customers. Under FRS 115, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods and services to a customer.

The standard replaces FRS 11 *Construction Contracts*, FRS 18 *Revenue*, INT FRS 113 *Customer Loyalty Programmes*, INT FRS 115 *Agreements for Construction of Real Estate*, INT FRS 118 *Transfer of Assets from Customers* and INT FRS 31 *Revenue - Barter Transactions involving Advertising Services*. The new standard applies to contracts with customers. However, it does not apply to insurance contracts, financial instruments or lease contracts, which fall into the scope of other standards.

FRS 115 is effective for annual periods beginning on or after 1 January 2018.

Management anticipates that the initial application of the new FRS 115 should not result in changes to the accounting policies relating to revenue recognition. However, additional disclosures for trade receivables and revenue may be required, including any significant judgement and estimation made. It is currently impracticable to disclose any further information on the known or reasonably estimable impact to the Group's financial statements in the period of initial application as the management has yet to complete its detailed assessment. Management does not plan to early adopt the new FRS 115.

2(e) FRSs issued but not yet effective (Cont'd)

FRS 115 *Revenue Contracts with Customers (Cont'd)*

The standard clarifies how to:

- Identify a performance obligation (the promise to transfer a good or a service to a customer) in a contract
- Determine whether a company is a principal (the provider of a good or service) or an agent (responsible for arranging for the good or service to be provided)
- Determine whether the revenue from granting a license should be recognised at a point in time or over time.

The amendments have the same effective date as the Standard, FRS 115, i.e. on 1 January 2018.

Management anticipates that the initial application of the new FRS 115 will result in changes to the accounting policies relating to sales of self-cultivated and processed food products. Additional disclosures will also be made, including any significant judgement and estimation made, if any. It is currently impracticable to disclose any further information on the known or reasonably estimable impact to the entity's financial statements in the period of initial application as the management has yet to complete its detailed assessment. Management does not plan to early adopt the new FRS 115.

FRS 116 *Leases*

FRS 116 *Leases* replaces accounting requirements introduced more than 30 years ago in accordance with FRS 17 Leases that are no longer considered fit for purpose, and is a major revision of the way in which lessees are required to recognise most leases on their balance sheets. Lessor accounting is substantially unchanged from current accounting in accordance with FRS 17. FRS 116 Leases will be effective for accounting periods beginning on or after 1 January 2019. Early adoption will be permitted, provided the entity has adopted FRS 115.

FRS 116 eliminates the lessee's classification of leases as either operating leases or finance leases and introduces a single lessee accounting model. Applying the new model, a lessee is required to recognise right-of-use ("ROU") assets and lease liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value.

The Group plans to adopt the standard when it becomes effective in 2019 and expects to apply the standard using the modified retrospective approach. The Group also expects the ROU assets recognised at date of initial application to be equal to their lease liabilities.

Until 2019, the approximate financial impact of the standard is unknown due to factors that impact calculation of lease liabilities such as discount rate, expected term of leases including renewal options and exemptions for short-term leases. The Group will continue to assess its portfolio of leases to calculate the impending impact of transition to the new standard.

In respect to leases relating to mushroom farmlands and eucalyptus plantations, since all leases relating to mushroom farmlands and eucalyptus plantations were subsequently disposed of in July/August 2017 (see Note 35), the Group does not expect a significant impact to the financial position and performance of the Group when applied in.

Amendments to FRS 7 *Statement of Cash Flows*

The amendments to FRS 7 *Statement of Cash Flows* required entities to reconcile cash flows arising from financing activities as reported in the statement of cash flows - excluding contributed equity - to the corresponding liabilities in the opening and closing statements of financial position and to disclose on any restrictions over the decisions of an entity to use cash and cash equivalent balances, in particular way - e.g. any tax liabilities that would arise on repatriation of foreign cash and cash equivalent balances. These amendments are effective on beginning or after 1 January 2017.

As this is a disclosure standard, it will have no impact to the financial position and performance of the Group when applied in.

2(e) FRSs issued but not yet effective (Cont'd)

Amendments to FRS 40 Transfers of Investment Property

Under the amendments to FRS 40 Transfers of Investment Property has been amended to state that an entity shall transfer a property to, or from, investment property when, and only when, there is evidence of a change in use. A change of use occurs if property meets, or ceases to meet, the definition of investment property. A change in management's intentions for the use of a property by itself does not constitute evidence of a change in use.

The amendments are effective on 1 January 2018. The Group does not expect that it will have a significant impact to the financial position and performance of the Group when applied in.

Amendments to FRS 102 Classification and Measurement of Share-based Payment Transactions

The amendments to FRS 102 Share-based Payment, clarifying how to account for certain types of share-based payment transactions. The amendments provide requirements on the accounting for:

(i) The effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments;

(ii) Share-based payment transactions with a net settlement feature for withholding tax obligations; and

(iii) A modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled.

Companies are required to apply the amendments for annual periods beginning on or after 1 January 2018. The Group does not expect that it will have a significant impact to the financial position and performance of the Group when applied in.

2(f) Singapore Financial Reporting Standards (International) ("SFRS(I)") not yet effective

The ASC announced on 29 May 2014 that Singapore incorporated companies listed on the Singapore Exchange will apply a new financial reporting framework identical to the International Financial Reporting Standards. The Group will adopt the new financial reporting framework on 1 July 2018 (effective for period beginning on or after 1 January 2018) and thereafter Singapore Financial Reporting Standards (International) ("SFRS(I)") which refer to Singapore Financial Reporting Standards (International) and SFRS(I) Interpretations issued by the ASC.

When the new financial reporting framework identical to IFRS ("IFRS-identical Financial Reporting Standards") is first applied, Singapore companies, currently reporting on Singapore Financial Reporting Standards ("SFRS"), are required to apply all the specific transition requirements in IFRS 1 First-time Adoption of IFRS.

When the Group adopts SFRS(I) in its 2018/2019 financial statements, the Group will apply SFRS(I) 1 with 1 July 2018 as the date of transition for the Group and the Company. SFRS(I) 1 generally requires that the Group applies SFRS(I) on a retrospective basis, as if such accounting policy had always been applied. If there are changes to accounting policies arising from new or amended standards effective in 2018/2019, restatement of comparatives may be required because SFRS(I) 1 requires both the opening balance sheet and comparative information to be prepared using the most current accounting policies. SFRS(I) 1 provides mandatory exceptions and optional exemptions from retrospective application, but these are often different from those specific transition provisions in individual FRSs applied to the FRS financial statements. The Group does not expect the application of the mandatory exceptions and the optional exemptions in SFRS(I) 1 to have a significant impact on the financial statements.

3 Significant accounting policies

Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the end of the reporting period. The financial statements of the subsidiaries used in the preparation of the consolidated financial statements are prepared for the same reporting date as the Company. Consistent accounting policies are applied to like transactions and events in similar circumstances.

All intra-group balances, incomes and expenses and unrealised gains and losses resulting from intra-group transactions and dividends are eliminated in full.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control and continue to be consolidated until the date that such control ceases.

Losses and other comprehensive losses are attributable to the non-controlling interest even if that results in a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- derecognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts as at that date when control is lost;
- derecognises the carrying amount of any non-controlling interest;
- derecognises the cumulative translation differences recorded in equity;
- recognises the fair value of the consideration received;
- recognises the fair value of any investment retained;
- recognises any surplus or deficit in profit or loss; and
- reclassifies the Group's share of components previously recognised in other comprehensive income to profit or loss or retained earnings, as appropriate.

A subsidiary is an investee that is controlled by the Group. The Group controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Thus, the Group controls an investee, if and only if, the Group has all of the following:

- power over the investee;
- exposure, or rights or variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

3 Significant accounting policies (Cont'd)

Consolidation (Cont'd)

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Acquisitions

Acquisition-related costs are expensed as incurred.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date.

On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree at the date of acquisition either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

The excess of (a) the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the (b) fair value of the identifiable net assets acquired is recorded as goodwill.

A change in the ownership interest

A change in the Group's ownership interests in subsidiaries that does not result in the Group losing control over the subsidiaries is accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

Disposals

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interest. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed off the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/ permitted by applicable FRSs).

The fair value of any investment retained in the former subsidiary at the date when the control is lost is regarded as the fair value on the initial recognition for subsequent accounting under FRS 39, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

3 Significant accounting policies (Cont'd)

Consolidation (Cont'd)

Transactions with non-controlling interest

Non-controlling interest represents the equity in subsidiaries not attributable, directly or indirectly, to owners of the Company, and are presented separately in the consolidated statement of comprehensive income and within equity in the consolidated statement of financial position, separately from equity attributable to owners of the Company.

Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is computed using the straight-line method to allocate the depreciable amount of the assets over the estimated useful lives as follows:

Leasehold properties	20 years
Motor vehicles	10 years
Office equipment	5 years
Plant and machinery	10 years
Fixtures and fittings	5 to 10 years
Farm equipment and fixtures	3 to 5 years

No depreciation has been provided for construction-in-progress.

The cost of property, plant and equipment includes expenditure that is directly attributable to the acquisition of the items. Dismantlement, removal or restoration costs are included as part of the cost of property, plant and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the asset. Cost may also include transfers from equity of any gains/losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Subsequent expenditure relating to property, plant and equipment that have been recognised is added to the carrying amount of the asset when it is probable that future economic benefits, in excess of the standard of performance of the asset before the expenditure was made, will flow to the Group and the cost can be reliably measured. Other subsequent expenditure is recognised as an expense during the financial year in which it is incurred.

For acquisitions and disposals during the financial year, depreciation is provided from the month of acquisition and to the month before disposal respectively. Fully depreciated property, plant and equipment, if any, are retained in the books of accounts until they are no longer in use.

Depreciation methods, useful lives and residual values are reviewed, and adjusted as appropriate at each reporting date as a change in estimates to ensure that the method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in profit or loss in the financial period the asset is derecognised.

Biological assets

Synthetic logs (including mycelia)

Synthetic logs were stated at cost less accumulated amortisation and any accumulated impairment losses. The cost of the synthetic logs included its purchase price and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Amortisation was provided using units of production method over a period of seven months.

The cost of synthetic logs transferred from eucalyptus trees is at its fair value less costs to sell at harvest.

3 Significant accounting policies (Cont'd)

Biological assets (Cont'd)

Eucalyptus trees and moso bamboo trees and bamboo shoots in plantations

Eucalyptus trees and moso bamboo trees and bamboo shoots in plantations were classified as biological assets and stated at fair value less costs to sell.

Gains or losses arising on initial recognition of plantations at fair value less costs to sell and from the change in fair value less costs to sell of plantations at the end of each financial year were included in profit or loss in the financial year in which they arose.

Biological assets that were expected to be realised in the next harvest within twelve months from the end of financial year were included as current assets.

Land use rights

Land use rights are initially measured at cost. Following initial recognition, land use rights are measured at cost less accumulated amortisation. The land use rights are amortised on a straight-line basis over the lease term of 41 to 50 years.

Intangible assets

E-commerce platform

The acquired e-commerce platform is initially capitalised at cost which includes the purchase price (net of any discounts and rebates) and other directly attributable costs of preparing the platform for its intended use. Direct expenditure which enhances or extends the performance of e-commerce platform beyond its specifications and which can be reliably measured is added to the original cost of the platform. Costs associated with maintaining e-commerce platform are recognised as an expense when incurred.

E-commerce platform is subsequently carried at cost less accumulated amortisation and accumulated impairment losses. These costs are amortised to profit or loss using the straight-line method over their estimated useful lives of 5 years.

During the financial year ended 30 June 2017, the cost incurred on the e-commerce platform has been written off to the income statement as the online sales business was not sustainable.

Government grant/subsidy

Government grant/subsidy is recognised at its fair value where there is reasonable assurance that the grant/subsidy will be received and all attaching conditions will be complied with. Where the grant/subsidy relates to an asset, the fair value is recognised as deferred capital grant on the consolidated statement of financial position and is amortised to profit or loss over the expected useful life of the relevant asset by equal annual instalments.

Investment properties

Investment properties include those portions of buildings that are held for long term rental yields and/or for capital appreciation and land under operating leases that are held for long-term capital appreciation or for a currently indeterminate use, and where an insignificant portion is held for the Group's own occupation.

Investment properties are initially recognised at cost and subsequently carried at cost less accumulated depreciation and accumulated impairment losses. Depreciation is calculated using a straight-line method to allocate the depreciable amounts over the estimated useful lives of 20 years. The residual values, useful lives and depreciation method of investment properties are reviewed, and adjusted as appropriate, at the end of each reporting period. The effects of any revision are included in the profit or loss when the changes arise.

3 Significant accounting policies (Cont'd)

Investment properties (Cont'd)

Investment properties are subject to renovations or improvements at regular intervals. The cost of major renovations and improvements is capitalised as addition and the carrying amounts of the replaced components are written off to profit or loss. The cost of maintenance, repairs and minor improvement is charged to profit or loss when incurred.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. On disposal or retirement of an investment property, the difference between any disposal proceeds and the carrying amount is recognised in profit or loss.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by ending of owner-occupation or commencement of an operating lease to another party. Transfers are made from investment property when, and only when, there is a change in use, evidenced by the commencement of owner occupation or commencement of development with a view to sell.

Investments in subsidiaries

In the Company's separate financial statements, investments in subsidiaries are stated at cost less allowance for any impairment losses on an individual subsidiary basis.

Investments in associates

An associate is an entity over which the Group has the power to participate in the financial and operating policy decisions of the investee but is not control or joint control of those policies.

The Group accounts for its investments in associates using the equity method from the date on which it becomes an associate. Investment in associates at company level are stated at cost.

On acquisition of the investment, any excess of the cost of the investment over the Group's share of the net fair value of the investee's identifiable assets and liabilities is accounted as goodwill and is included in the carrying amount of the investment. Any excess of the Group's share of the net fair value of the investee's identifiable assets and liabilities over the cost of the investment is included as income in the determination of the entity's share of the associate's profit or loss in the period in which the investment is acquired.

Under the equity method, the investment in associates are carried in the balance sheet at cost plus post-acquisition changes in the Group's share of net assets of the associates. The profit or loss reflects the share of results of operations of the associates. Distributions received from associates reduce the carrying amount of the investment. Where there has been a change recognised in other comprehensive income by the associates, the Group recognises its share of such changes in other comprehensive income. Unrealised gains and losses resulting from transaction between the Group and the associate are eliminated to the extent of the interest in the associates.

When the Group's share of losses in an associate equals or exceeds its interest in the associate, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss, on the Group's investment in associate. The Group determines at the end of each reporting period whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in profit or loss.

The financial statements of the associates are prepared as of the same reporting date as the Group unless it is impracticable to do so. When the financial statements of an associate used in applying the equity method are prepared as of a different reporting date from that of the Group (not more than three months apart), adjustments are made for the effects of significant transactions or events that occur between that date and the reporting date of the Group.

3 Significant accounting policies (Cont'd)

Investments in associates (Cont'd)

Upon loss of significant influence or joint control over the associate, the Group measures the retained interest at fair value. Any difference between the fair value of the aggregate of the retained interest and proceeds from disposal and the carrying amount of the investment at the date the equity method was discontinued is recognised in profit or loss.

The Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would have been required if that associate or joint venture had directly disposed of the related assets or liabilities.

When an investment in an associate becomes an investment in a joint venture, the Group continues to apply the equity method and does not remeasure the retained interest.

If the Group's ownership interest in an associate is reduced, but the Group continues to apply the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be required to be reclassified to profit or loss on the disposal of the related assets or liabilities.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted-average basis and includes all costs in bringing the inventories to their present location and condition. In the case of manufactured products, cost includes all direct expenditure and production overheads based on the normal level of activity.

Provision is made for obsolete, slow-moving and defective inventories in arriving at the net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs necessary to make the sale.

Financial assets

Financial assets, other than hedging instruments, can be divided into the following categories: financial assets at fair value through profit or loss, held-to-maturity investments, loans and receivables and available-for-sale financial assets. Financial assets are assigned to the different categories by management on initial recognition, depending on the purpose for which the assets were acquired. The designation of financial assets is re-evaluated and classification may be changed at the reporting date with the exception that the designation of financial assets at fair value through profit or loss is not revocable.

All financial assets are recognised on their trade date - the date on which the Company or the Group commit to purchase or sell the asset. Financial assets are initially recognised at fair value, plus directly attributable transaction costs except for financial assets at fair value through profit or loss, which are recognised at fair value.

Derecognition of financial instruments occurs when the rights to receive cash flows from the investments expire or are transferred and substantially all of the risks and rewards of ownership have been transferred.

An assessment for impairment is undertaken at least at the end of each reporting period whether or not there is objective evidence that a financial asset or a group of financial assets is impaired.

Financial assets and financial liabilities are offset and the net amount presented in the statements of financial position when, and only when, the Company or the Group currently has a legally enforceable right to set off the recognised amounts and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Non-compounding interest and other cash flows resulting from holding financial assets are recognised in profit or loss when received, regardless of how the related carrying amount of financial assets is measured.

3 Significant accounting policies (Cont'd)

Financial assets (Cont'd)

As at 30 June 2017, other than loans and receivables, the Company and the Group do not have financial assets at fair value through profit or loss and available-for-sale financial assets. The Company and the Group do not designate any held-to-maturity investments.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Company or the Group provides money, goods or services directly to a debtor with no intention of trading the receivables. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets.

Loans and receivables include trade and other receivables, related party balances and deposits held in bank. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. If there is objective evidence that the asset has been impaired, the financial asset is measured at the present value of the estimated future cash flows discounted at the original effective interest rate. Impairment losses are reversed in subsequent periods when an increase in the asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to a restriction that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised. The impairment or write back is recognised in profit or loss.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and bank deposits which are readily convertible to cash and which are subject to an insignificant risk of changes in value.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are deducted against the share capital account.

Financial liabilities

The Company's and the Group's financial liabilities include bank borrowings, trade and other payables and related party balances.

Financial liabilities are recognised when the Company or the Group becomes a party to the contractual agreements of the instrument. All interest-related charges are recognised as an expense in "Finance costs" in the profit or loss. Financial liabilities are derecognised if the Company's or the Group's obligations specified in the contract expire or are discharged or cancelled.

Financial assets and financial liabilities are offset and the net amount presented in the statements of financial position when, and only when, the Company or the Group currently has a legally enforceable right to set off the recognised amounts and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the amortisation process.

Borrowings are recognised initially at fair value of proceeds received less attributable transaction costs, if any. Borrowings are subsequently stated at amortised cost which is the initial fair value less any principal repayments. Any difference between the proceeds (net of transaction costs) and the redemption value is taken to the profit or loss over the period of the borrowings using the effective interest method. The interest expense is chargeable on the amortised cost over the period of the borrowings using the effective interest method.

3 Significant accounting policies (Cont'd)

Financial liabilities (Cont'd)

Borrowings which are due to be settled within twelve months after the end of the reporting period are included in current borrowings in the statements of financial position even though the original terms were for a period longer than twelve months and an agreement to refinance, or to reschedule payments, on a long-term basis is completed after the end of the reporting period. Borrowings to be settled within the Group's normal operating cycle are considered as current. Other borrowings due to be settled more than twelve months after the end of the reporting period are included in non-current borrowings in the statements of financial position.

Trade and other payables are initially measured at fair value and subsequently measured at amortised cost, using the effective interest method.

Dividend distributions to shareholders are included in current financial liabilities when the dividends are declared and payable.

Provisions

Provisions are recognised when the Company and the Group have a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Present obligations arising from onerous contracts are recognised as provisions.

The Group recognises the estimated costs of dismantlement, removal or restoration of items of property, plant and equipment arising from the acquisition or use of assets. This provision is estimated based on the best estimate of the expenditure required to settle the obligation, taking into consideration time value.

Changes in the estimated timing or amount of the expenditure or discount rate for asset dismantlement, removal and restoration costs are adjusted against the cost of the related property, plant and equipment, unless the decrease in the liability exceeds the carrying amount of the asset or the asset has reached the end of its useful life. In such cases, the excess of the decrease over the carrying amount of the asset or the changes in the liability is recognised in consolidated income statement immediately.

Dividends

Final dividends proposed by the directors are not accounted for in shareholders' equity as an appropriation of retained profits, until they have been approved by the shareholders in a general meeting. When these dividends have been approved by the shareholders and declared, they are recognised as a liability.

Interim dividends are simultaneously proposed and declared, because of the articles of association of the Company grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised directly as a liability when they are proposed and declared.

Borrowing costs

Borrowing costs are recognised in the profit or loss in the period they are incurred.

Leases

Where the Group is the lessee,

Operating leases

Rentals on operating leases are charged to profit or loss on a straight-line basis over the lease term. Lease incentives, if any, are recognised as an integral part of the net consideration agreed for the use of the leased asset. Penalty payments on early termination, if any, are recognised in the profit or loss when incurred.

Contingent rents are mainly determined as a percentage of revenue in excess of a specified amount during the month. They are charged to the profit or loss when incurred.

3 Significant accounting policies (Cont'd)

Leases (Cont'd)

Where the Group is the lessee (Cont'd),

Prepaid leases

The Group leases mushroom farmlands, eucalyptus plantations and bamboo plantations under operating leases and the leases run for a period of 20 years, 10 years and 10 to 15 years respectively. The upfront lump-sum payments made under the leases are amortised to profit or loss on a straight-line method over the term of the leases. The amortisation amount of mushroom farmlands, eucalyptus plantations and bamboo plantations are included in cost of sales, administrative expenses and other expenses line of the consolidated statement of profit or loss and other comprehensive income.

Where the Group is the lessor,

Operating leases

Assets leased out under operating leases are included in investment properties and are stated at cost less accumulated depreciation and impairment losses. Rental income (net of any incentives given to the lessees) is recognised on a straight-line basis over the lease term.

Income taxes

Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax is recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting or taxable profit or loss at the time of the transaction.

A deferred income tax liability is recognised on temporary differences arising on investments in subsidiaries except where the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax liability has been recognised in respect of certain of the temporary differences associated with undistributed earnings of certain subsidiaries of the Group. The Group has determined that not all the undistributed earnings of the subsidiaries will be distributed in the foreseeable future. Withholding tax is levied on dividends declared to foreign investors from foreign investment enterprises established in Mainland China. The Group made provision for deferred tax liabilities on withholding tax of the forecasted dividend payout of the earnings of its China subsidiaries.

A deferred income tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised.

Deferred income tax is measured:

(a) at the tax rates that are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the date of the financial position; and

(b) based on the tax consequence that will follow from the manner in which the Company and the Group expect, at the date of the financial position, to recover or settle the carrying amounts of its assets and liabilities.

Current and deferred income taxes are recognised as income or expense in profit or loss, except to the extent that the tax arises from a transaction which is recognised either in other comprehensive income or directly in equity.

3 Significant accounting policies (Cont'd)

Value-added tax

The Group's sales of goods in the PRC are subjected to Value-added tax ("VAT") at the applicable tax rate of 17% for PRC domestic sales. Input VAT on purchases can be deducted from output VAT subject to agreement by the tax authority. The Group's export sales are not subject to VAT.

Revenue, expenses and assets are recognised net of the amount of VAT except:

- Where the VAT incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the VAT is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and

- Receivables and payables that are stated with the amount of VAT included.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of "other receivables" or "other payables" in the consolidated statement of financial position.

Employee benefits

Defined contribution schemes

The Company and the Group participate in the defined contribution national pension schemes as provided by the laws of the countries in which they have operations. In particular, the Singapore incorporated company in the Group contributes to the Central Provident Fund, a defined contribution plan regulated and managed by the Government of Singapore. The subsidiaries in the PRC are required to provide certain staff pension benefits to their employees under existing PRC regulations. The contributions to national pension schemes are charged to profit or loss in the period as incurred to which the contributions relate.

Employee leave entitlements

No provision has been made for employee leave entitlements as any unconsumed annual leave will be forfeited.

Employee share option scheme ("ESOS Scheme")

The Company has existing share incentives schemes, namely, Yamada Green Resources Employee Share Option Scheme and Yamada Green Resources Performance Share Plan.

The Company issues equity-settled share-based payments to certain employees. The fair value of the employee services received in exchange for the grant of options is recognised as an expense in profit or loss with a corresponding increase in the share option reserve over the vesting period. The total amount to be recognised over the vesting period is determined by reference to the fair value of the options granted on the date of the grant. Non-market vesting conditions are included in the estimation of the number of shares under options that are expected to become exercisable on the vesting date. At the end of each reporting period, the Company revises its estimates of the number of shares under options that are expected to become exercisable on the vesting date and recognises the impact of the revision of the estimates in profit or loss, with a corresponding adjustment to the share option reserve over the remaining vesting period.

When the options are exercised, the proceeds received (net of transaction costs) and the related balance previously recognised in the share option reserve are credited to the share capital account, when new ordinary shares are issued, or to the "treasury shares" account, when treasury shares are re-issued to the employees.

In the Company's separate financial statements, the fair value of options granted to employees of its subsidiaries is recognised as an increase in the cost of the Company's investment in subsidiaries, with a corresponding increase in equity over the vesting period.

3 Significant accounting policies (Cont'd)

Employee benefits (Cont'd)

Employee share option scheme ("ESOS Scheme") (Cont'd)

Where the terms of an equity-settled transaction award are modified, the minimum expense recognised is the expense as if the terms had not been modified. If the original terms of the award are met, an additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

Key management personnel

Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the Company and the Group. Directors are considered key management personnel.

Related parties

A related party is defined as follows:

(a) A person or a close member of that person's family is related to the Company and the Group if that person:

  (i) has control or joint control over the Company;

  (ii) has significant influence over the Company; or

  (iii) is a member of the key management personnel of the Company or the Group or of a parent of the Company.

(b) An entity is related to the Company and the Group if any of the following conditions applies:

  (i) the entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);

  (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);

  (iii) both entities are joint ventures of the same third party;

  (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;

  (v) the entity is a post-employment benefit plan for the benefit of employees of either the Company or an entity related to the Company. If the Company is itself such a plan, the sponsoring employers are also related to the Company;

  (vi) the entity is controlled or jointly controlled by a person identified in (a);

  (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); or

  (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the reporting entity or to the parent of the reporting entity.

3 Significant accounting policies (Cont'd)

Impairment of non-financial assets

The carrying amounts of the Company's and the Group's non-financial assets (other than biological assets) subject to impairment are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

If it is not possible to estimate the recoverable amount of the individual asset, then the recoverable amount of the cash-generating unit to which the asset belongs will be identified.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level. Goodwill is allocated to those cash-generating units that are expected to benefit from synergies of the related business combination and represent the lowest level within the Company at which management controls the related cash flows.

Individual assets or cash-generating units that include goodwill and other intangible assets with an indefinite useful life or those not yet available for use are tested for impairment at least annually. All other individual assets or cash-generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of fair value, reflecting market conditions less costs to sell and value-in-use, based on an internal discounted cash flow evaluation. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist.

Any impairment loss is charged to profit or loss unless it reverses a previous revaluation in which case it is charged to equity.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount or when there is an indication that the impairment loss recognised for the asset no longer exists or decreases.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had been recognised.

A reversal of an impairment loss on a revalued asset is credited directly to equity under the heading revaluation surplus. However, to the extent that an impairment loss on the same revalued asset was previously recognised as an expense in profit or loss, a reversal of that impairment loss is recognised as income in profit or loss.

Revenue recognition

Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer. Revenue excludes relevant value-added tax and is arrived at after deduction of trade discounts and rebates. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

Sale of goods

Revenue from the sale of goods is recognised when significant risks and rewards of ownership are transferred to the buyer and the amount of revenue and the costs of the transactions can be measured reliably. Revenue excludes goods and services taxes or value-added taxes and is arrived at after deduction of trade discounts and rebates, if any. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

3 Significant accounting policies (Cont'd)

Revenue recognition (Cont'd)

Interest income

Interest income is recognised on a time-apportioned basis using the effective interest method.

Rental income

Rental and related income from investment properties are recognised on a straight-line basis over the lease term. Lease incentives given to tenants, if any, are recognised as an integral part of deriving total lease income. Penalty payments on early termination, if any, are recognised when incurred. Contingent rents are mainly determined as a percentage of tenant's revenue during the month. These leases are for terms of one to five years with options to review at market rates thereafter.

Government grant/subsidy

Cash grant/subsidy received from the government is recognised as income upon receipt.

Functional currency

Functional and presentation currency

Items included in the consolidated financial statements of the Company and of the Group are measured using the currency of the primary economic environment in which the Company and the Group operate in ("the functional currency"). The consolidated financial statements of the Group are presented in RMB, which is also the functional currency of the Company.

Conversion of foreign currencies

Transactions and balances

Transactions in a currency other than the functional currency ("foreign currency") are translated into the functional currency using the exchange rates at the dates of the transactions. Currency translation differences from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rates at the end of the reporting period are recognised in the profit or loss. However, in the consolidated financial statements, currency translation differences arising from borrowings in foreign currencies and other currency instruments designated and qualified as net investment hedges and net investment in foreign operations, are recognised in other comprehensive income and accumulated in the currency translation reserve.

Foreign exchange gains and losses that relate to borrowings are presented in the profit or loss. Foreign currency gains and losses are reported on a net basis as either other income or other operating expense depending on whether foreign currency movements are in a net gain or net loss position.

Non-monetary items measured at fair values in foreign currencies are translated using the exchange rates at the date when the fair values are determined.

Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the group of executive directors and the chief executive officer who make strategic decisions.

* No information available

(d) Included in additions of leasehold properties of RMB 8,894,000 during the financial year ended 30 June 2017, is a sum of RMB 4,626,000 relating to the deposits paid in 2016 for the acquisition of a new office unit located in GSH Plaza, Singapore (see Note 12).

(e) As at 30 June 2016, construction-in-progress was related to the construction of 研发综合实验楼 located at No. 300 Houyu Jingxi Town, Minhou County, Fuzhou City, Fujian Province, The PRC. The construction of the said asset was completed and was transferred to investment properties during the financial year ended 30 June 2017 [See Note 8(a)].

(f) During the financial year ended 30 June 2017, the impairment loss of RMB 924,000 (2016 - Nil) represents the write-down of the office unit located in GSH Plaza, Singapore. The recoverable amount was determined based on a valuation on 23 November 2018 carried out by a firm of independent professional valuers, Eidea Professional Services Company Limited, using the direct comparison method. The recoverable amount is based on fair value hierarchy level 2.

5 Biological assets

Biological assets comprise eucalyptus trees, moso bamboo trees and bamboo shoots in plantations and synthetic logs. Eucalyptus trees and moso bamboo trees and bamboo shoots are separated from land on which these assets are located. As the useful life of synthetic logs is less than one year, they are classified as current asset.

The Group	Note	Eucalyptus trees in plantations RMB'000	Moso bamboo trees and bamboo shoots in plantations RMB'000	Sub-total RMB'000	Synthetic logs RMB'000	Total RMB'000

Quantity of eucalyptus trees (in tonnes)	*****	*
Sales of eucalyptus trees (RMB'000)	**1,000**	*

* No information available

Recurring fair value measurement of the biological assets

Mature eucalyptus trees produce sawdust, which are used to produce synthetic logs. The fair value of the Group's biological assets as at 30 June 2017 and 2016 have been determined on the basis of valuations carried out at the respective year end dates by independent valuers having an appropriate recognised professional qualification and recent experience in the biological assets being valued. The fair value was determined based on income approach by using the present value of expected net cash flows from the eucalyptus trees and moso bamboo trees and bamboo shoots discounted at a current market-determined pre-tax rate. In estimating the fair value of the biological assets, the valuation conforms to International Valuation Standards and is based on the biological assets' highest and best use which is in line with current use, except for the production of synthetic logs from the sawdust of the eucalyptus trees. The synthetic logs are used for the cultivation of edible fungi which is one of the major business segments of the Group. There has been no change to the valuation technique during the financial year.

Details of the Group's biological assets and information about the fair value hierarchy at the end of the financial year are as follows:

The Group	**Level 1 RMB'000**	**Level 2 RMB'000**	**Level 3 RMB'000**	**Total RMB'000**
As at 30 June 2017				
Eucalyptus trees	**–**	**–**	**20,882**	**20,882**
Moso bamboo trees and bamboo shoots	**–**	**–**	**47,235**	**47,235**
	–	**–**	**68,117**	**68,117**
As at 30 June 2016				
Eucalyptus trees	–	–	49,195	49,195
Moso bamboo trees and bamboo shoots	–	–	127,737	127,737
	–	–	176,932	176,932

The Group categorises fair value measurement using a fair value hierarchy that is dependent on the valuation inputs used, where Level 3 consists of asset or liability with unobservable inputs.

5 Biological assets (Cont'd)

Moso bamboo trees and bamboo shoots

The valuation techniques and significant unobservable inputs used in determining the fair value measurement of moso bamboo trees and bamboo shoots, as well as the inter-relationship between key unobservable inputs and fair value, are set out in the table below:

Valuation techniques used	Significant unobservable inputs	Range of not easily observed input factors		Inter-relationship between key unobservable inputs and fair value
		2017	2016	
Income approach	Estimated average number of moso bamboo	**115 - 220 pieces/mu**	115 - 220 pieces/mu	The higher the average numbers of moso bamboo per mu, the higher the fair value.
	Estimated percentage of moso bamboo with qualified diameter at breast height ("DBH")	**98%**	98%	The higher the estimated percentage of moso bamboo with qualified DBH, the higher the fair value.
	Total estimated land rent, management and cultivation cost	**RMB 301.50/mu to RMB 705.82/mu**	RMB 152.50/mu to RMB 678.36/mu	The higher the land rent, management and cultivation cost, the lower the fair value.
	Estimated growth rate in cutting outsourcing cost	**1%**	1%	The higher the growth rate in bamboo shoots cutting outsourcing cost, the lower the fair value.
	Estimated average annual merchantable volume for spring bamboo shoots (kg/mu)	**212.42kg/mu**	199.01kg/mu to 200.65kg/mu	The higher the estimated average annual merchantable volume for spring bamboo shoots, the higher the fair value.
	Estimated average annual merchantable volume for winter bamboo shoots (kg/mu)	**33.60kg/mu**	29.47kg/mu to 29.79kg/mu	The higher the estimated average annual merchantable volume for winter bamboo shoots, the higher the fair value.
	Estimated moso bamboo tree cutting outsourcing cost	**RMB 103.00/mu to RMB 111.46/mu**	RMB 100/mu	The higher the moso bamboo tree cutting outsourcing cost, the lower the fair value.
	Estimated spring bamboo shoot cutting outsourcing cost	**RMB 48.00/mu to RMB 50.95/mu**	RMB 48/mu to RMB 49/mu	The higher the spring bamboo shoot cutting outsourcing cost, the lower the fair value.
	Estimated winter bamboo shoot cutting outsourcing cost	**RMB 42.00/mu to RMB 49.89/mu**	RMB 40/mu to RMB 47/mu	The higher the winter bamboo shoot cutting outsourcing cost, the lower the fair value.
	Growth rate in bamboo shoots unit price	**1%**	1%	The higher the growth rate in bamboo shoots unit price, the higher the fair value.
Discounted cash flow calculation	Discount rate	**17.53%**	13.97%	The higher the discount rate, the lower the fair value.

5 Biological assets (Cont'd)

Eucalyptus trees

The valuation techniques and significant unobservable inputs used in determining the fair value measurement of eucalyptus trees, as well as the inter-relationship between key unobservable inputs and fair value, are set out in the table below:

Valuation techniques used	Significant unobservable inputs	Range of not easily observed input factors		Inter-relationship between key unobservable inputs and fair value
		2017	2016	
Income approach	Operating cost on eucalyptus trees per mu	**RMB 77.50/mu to RMB 155.00/mu**	RMB 77.50/mu to RMB 155.00/mu	The higher the operating cost on eucalyptus trees, the lower the fair value.
	Transportation cost on eucalyptus trees	**RMB 80/ 100km/m^3**	RMB 80/ 100km/m^3	The higher the transportation cost on eucalyptus trees, the lower the fair value.
	Cutting cost on eucalyptus plantation	**RMB 100/m^3**	RMB 100/m^3	The higher the cutting cost on eucalyptus plantation, the lower the fair value.
	Estimated cutting area design and timber scaling cost	**RMB 9 /m^3**	RMB 9 /m^3	The higher the cutting area design cost and timber scaling cost, the lower the fair value.
	Estimated growth rate in cutting and transportation cost	**3%**	3%	The higher the growth rate in cutting and transportation cost, the lower the fair value.
	Estimated growth rate in cutting area design and timber scaling cost	**0%**	0%	The higher the growth cutting area design and timber scaling cost, the lower the fair value.
	Expected eucalyptus reserve (m^3/mu)	**7.60m^3 to 17.00m^3**	7.1m^3 to 17.3m^3	The higher the expected eucalyptus reserve, the higher the fair value.
	Estimated volume ratio for timber/log	**71%**	71%	The higher the expected eucalyptus volume ratio, the higher the fair value.
	Estimated volume ratio for fuelwood	**20%**	20%	The higher the estimated volume ratio for fuelwood, the lower the fair value.
	Growth rate in eucalyptus timber unit price	**1%**	1%	The higher the growth rate in eucalyptus timber unit price, the higher the fair value.
Discounted cash flow calculation	Discount rate	**20.53%**	14.97%	The higher the discount rate, the lower the fair value.

The eucalyptus trees and moso bamboo trees and bamboo shoots in plantations have not been insured against risks of fire, diseases and other possible risks.

6 Land use rights

The Group	Note	**30 June 2017 RMB'000**	30 June 2016 RMB'000

			108,820	30,356

* No information available

(b) Investment properties are carried at cost as at 30 June 2017. Fair value of investment properties as disclosed was determined by the independent professional valuers, Jones Lang LaSalle Corporate Appraisal and Advisory Limited on 30 June 2017. The valuers have considered valuation techniques including the depreciated replacement cost approach, direct comparable method and income capitalisation approach in arriving at the open market value as at the balance sheet date. The direct comparable method involves the analysis of comparable sales of similar properties and adjusting the sale prices to that reflective of the investment properties. The income capitalisation approach capitalises an income stream into a present value using revenue multipliers or single-year capitalisation rates. The discounted cash flow method involves the estimation and projection of an income stream over a period and discounting the income stream with an internal rate of return to arrive at the market value.

(c) Included in investment properties of RMB 108,820,000 as at 30 June 2017 is an amount totalling RMB 2,244,000 which relates to leasehold properties with a total gross floor area of approximately 7,810 sqm where there were no real estate title certificates.

(d) As at 30 June 2016, investment properties totalling RMB 20,554,000 of the Group had been pledged to financial institutions to secure bank facilities [see Note 21(a)].

(e) The investment properties are leased to non-related parties under cancellable operating leases.

8 Investment properties (Cont'd)

(f) The following amounts are recognised in profit or loss:

The Group	**30 June 2017 RMB'000**	30 June 2016 RMB'000

11 Prepayments (Cont'd)

The movement of prepaid lease of mushroom farmlands, eucalyptus plantations and bamboo plantations for the financial year ended 30 June 2017 are analysed as follows:

	Note	30 June 2017* RMB'000
Balance at beginning of year		**398,085**
Addition		**18**
Amortisation	25	**(47,435)**
Written off to profit or loss		**(334,548)**
Disposal		**(2,976)**
Unaccountable	24(d)	**(13,126)**
Balance at end of year		**18**

* Certain financial disclosures for FY2016 are not available.

Management has no information on the movement of the carrying amount of the prepaid lease of the plantations, prepaid maintenance cost and prepaid other operating expenses totalling RMB 398,085,000 as at 30 June 2016.

The remaining prepaid unexpired leases had been fully written off to profit or loss for the financial year ended 30 June 2017. The financial impact may be a loss of prepayments written off of RMB 334,548,000 as shown in the consolidated income statement.

Prepaid lease represents amounts paid in advance by the Group for leases of the following:

Leases	**Remaining lease period**	**Gross land area (mu)**	
		30 June 2017	30 June 2016
Mushroom farmlands	N/A	**519.5**	1,184
Eucalyptus plantations	7 to 8 years	**24,282**	31,782
Bamboo plantations	7 to 11 years	**129,426**	129,696

Arising from the Fire Incident on 30 August 2017 that led to the loss of financial records as described in Note 2(a) to the financial statements, certain adjustments were made to the financial books and records. These adjustments were related to prepaid leases amounted to RMB 13,126,000 where there is no information available and hence have been charged to the profit or loss under "Unaccountable expenses" for the financial year ended 30 June 2017. Refer Note 24(d) to the financial statements.

As at 30 June 2016, prepaid maintenance cost represented amounts paid by the Group for advance maintenance cost of eucalyptus plantations and bamboo plantations for a period of 1 year.

11 Prepayments (Cont'd)

All relevant information obtained from the Company's announcements regarding the acquisitions of the leases to the bamboo plantations made between financial year 2013 to 2016 for the total land area of 129,426 mu and aggregate carrying amounts of RMB 463,004,000 are as follows:

Subsidiary	Lease commencement date	RMB'000	Tenure	Size (Mu)	Location
Lijiashan (南平市李家山林业有限公司)	23-Apr-13	59,336^	15 years	11,032*	Yuantou Village, Shanxia Town, Pucheng County, Fujian Province, PRC
	5-May-14	78,901	10 years	22,543	Pucheng county, Fujian Province, PRC
	26-Jun-15	48,470	10 years	15,147	Pucheng county, Fujian Province, PRC
Shansheng (三明山盛林业有限公司)	9-Sep-14	234,500	10 years	67,000	Jiangle county, Fujian Province, PRC
	28-Jan-16	41,797	10 years	13,704	Jiangle county, Fujian Province, PRC
Total		463,004		129,426	

^ per the Company's announcement on 26 April 2013, approximately RMB 39,557,000 payable by 20 May 2013 and the balance of RMB 19,779,000 by 20 May 2021.

* Per the Company's announcement on 9 January 2019, it clarifies that the area of the plantations was inaccurately stated in the Company's announcement dated 26 April 2013 as 11,032 mu instead of 11,302 mu.

All relevant information obtained from the Company's announcements regarding the acquisitions of the leases to the eucalyptus plantations since financial year 2015 for the total land area of 24,282 mu and aggregate carrying amount of RMB 10,963,000 are as follows:

Subsidiary	Lease commencement date	RMB'000	Tenure	Size (Mu)	Location

Total		10,963		24,282	

Arising from the Fire Incident on 30 August 2017, management are unable to provide relevant information for the mushroom farmlands.

11 Prepayments (Cont'd)

The Board announced that there were reported typhoons in the financial year ended 30 June 2016 in the Fujian province but the typhoon had no significant impact on these biological assets. However, the management was aware that the bamboo plantations are somehow affected by insect infestation and the eucalyptus plantations are also affected by winter frost, the extent of the impact on these two plantations cannot be ascertained. The infestation had a significant impact on the ability to harvest the bamboos whether bamboo trees, winter shoots and/or spring shoots. The bamboos, when harvested, are to supply for use in construction industry for buildings and renovation materials, in textile, paper and pulp industries. For eucalyptus, the quality of the synthetics logs were also affected and the cultivated process need to be enhanced.

Subsequent to 30 June 2017, the Board made an announcement that the leases to the moso bamboo plantations were disposed of in August 2017 but there were no proper authorisation by the Board. The total lease area was 129,696 mu [see Note 35(ii)].

During the financial year ended 30 June 2017, the biological assets and its related prepaid leases at Zhangping Senwang Forestry Co., Ltd (漳平市森旺林业有限公司) and Zhangping Fengwang Agricultural Products Co., Ltd (漳平市丰旺农产品有限公司) with carrying amount of RMB 10,370,000 and RMB 2,192,000 respectively were disposed of for consideration sum of RMB 8,879,000 and RMB 1,930,000 respectively. This resulted in loss on disposal of biological assets of RMB 1,492,000 and RMB 261,000 respectively being reported.

	Note	**30 June 2017*** **RMB'000**
Sales proceeds		**10,809**
Less: Carrying value of prepaid leases		**(2,976)**
Less: Biological assets	5	**(9,586)**
Loss on disposal of biological assets		**(1,753)**

* In respect of FY2016, the loss of disposal of biological assets was RMB 2,706,000 for which certain financial disclosures are not available.

12 Long term deposit

The Company and Group	Note	**30 June 2017** **RMB'000**	30 June 2016 RMB'000
Deposit to acquire new office unit			
Balance at beginning of year		**4,626**	4,626
Transfer to property, plant and equipment on completion of acquisition	4	**(4,626)**	–
Balance at end of year		**–**	4,626

On 18 March 2016, the Company entered into a Sales and Purchase Agreement to acquire a new office unit at GSH Plaza, which is located in Singapore. The Company had made the payment for the purchase price by instalments according to the payment schedule stipulated in the Sales and Purchase agreement. As at 30 June 2016, the deposits paid for non-current assets were unsecured, interest-free and non-refundable.

During the financial year ended 30 June 2017, the deposit paid for the acquisition of a new office unit was transferred to leasehold property under property, plant and equipment [see Note 4(d)] upon completion of acquisition.

13 Deferred taxation

(a) Deferred tax assets

The Group	**30 June 2017 RMB'000**	30 June 2016 RMB'000
Balance at beginning and end of year	**2,005**	2,005

(b) Deferred tax liabilities

The Group	**30 June 2017 RMB'000**	30 June 2016 RMB'000
Balance at beginning and end of year	**3,711**	3,711

On 22 February 2008, the State Administration of Taxation of China issued a circular Caishui [2008] No.001, which imposes withholding tax on distribution of dividends from post 1 January 2008 profits to foreign investors. Accordingly, no deferred tax liabilities arise from undistributed profits of the Company's China subsidiaries accumulated up till 31 December 2007. Provision for deferred tax liabilities however, would be required on profits accumulated from 1 January 2008 onwards.

The deferred tax liabilities relate to the PRC withholding tax on the portion of the distributable profits to be derived from the Group's subsidiaries in the PRC which is expected to be distributed out as dividends to its shareholders. The Group has provided for withholding tax based on the dividends that would be required to be proposed or paid by certain subsidiaries under business conditions to meet its operational needs and shareholders' expectation.

14 Inventories

	153,215	136,421	**21,043**	38,565
Advances to suppliers	**–**	–	**24,497**	65,493
Total trade and other receivables	**153,215**	136,421	**141,775**	130,428

Trade receivables are due within 30 to 90 days (2016 - 30 to 90 days) and do not bear any interest. All trade receivables are subject to credit risk exposure. However, the Group does not identify specific concentrations of credit risk with regards to trade receivables, as the amounts recognised resemble a large number of receivables from various customers.

The non-trade amounts due from related parties, a subsidiary and an associate represent advances which are unsecured, non-interest bearing and repayable on demand. The amount owing by the associate has been fully settled during the financial year ended 30 June 2017.

VAT receivable relates to the percentage of qualifying purchases at the time the vendor invoices are processed.

Advances to suppliers relate to advance payments to villagers' committees for the purchase of synthetic logs and advance payments for the purchase of raw materials for processed food.

Trade and other receivables are denominated in the following currencies:

	The Company		The Group	
	30 June 2017	30 June 2016	**30 June 2017**	30 June 2016
	RMB'000	RMB'000	**RMB'000**	RMB'000

Japanese yen	**–**	–	**76**	1,513
Singapore dollar	**16,881**	67	**29**	67
United States dollar	**–**	–	**43,410**	23,743
	153,215	136,421	**141,775**	130,428

The directors of the Company are unable to provide the historical default rates, and accordingly, take the position as no impairment is necessary in respect of trade receivables not past due or past due but not impaired.

Other receivables of RMB 43,941,000 (2016 - RMB 103,531,000) (excluding VAT receivable) are neither past due nor impaired.

Impairment on trade and other receivables is made on specific debts, if any, for which the directors of the Group are of the opinion that debts are not recoverable.

Arising from the Fire Incident on 30 August 2017 that led to loss of financial records as described in Note 2(a) to the financial statements, certain adjustments were made to the financial books and records. These adjustments of RMB 54,469,000 (2016 - Nil) were related to account balances and transactions where there is no information available and hence have been charged to the profit or loss under "Unaccountable expenses" for the financial year ended 30 June 2017. Refer Note 24(d) to the financial statements.

Per ACRA registered records, the gross issued and paid up capital as at 30 June 2017 is S$ 69,312,309 (2016 - S$ 62,466,567).

18 Share capital (Cont'd)

Rights issue

On 18 September 2015, the Company has allotted and issued 270,333,587 new ordinary shares ("rights issue") at an issue price of S$ 0.07 per share, pursuant to its renounceable non-underwritten rights issue undertaken by the Company on the basis of 1 rights share for every 2 existing ordinary shares of the Company.

Total proceeds received amounted to approximately RMB 84,366,000 (equivalent to S$ 18,923,369), less transaction costs of approximately RMB 4,110,000 (equivalent to S$ 921,882) of which 40% of the proceeds is to provide funds to pursue strategic investment and acquisition opportunities as and when they arise and the remaining balance of 60% is for general corporate and working capital purposes.

Share consolidation

On 18 November 2015, the Company has completed a share consolidation to consolidate every five ordinary shares in the capital of the Company held by shareholders into one ordinary share, so as to comply with the Minimum Trading Price ("MTP") requirement as implemented by the SGX-ST as an additional continuing listing requirement. The issued share capital as at 30 June 2016 comprised 162,200,151 consolidated shares after disregarding any fractions of consolidated shares arising from the share consolidation exercise.

Placement shares

During the financial year ended 30 June 2017, the Company issued 14,598,013 new ordinary shares under placement shares for a consideration of RMB 21,087,000 (equivalent to S$ 4,274,430), less transaction costs of RMB 223,000 (equivalent to S$ 45,300). The said shares were issued to an individual, who has interest in an entity which is a customer and supplier to the Group (see Note 29). Consequent to the share placement, the said individual becomes a substantial shareholder of the Company.

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to vote per share at meetings of the Company. All shares rank equally with regard to the Company's residual assets.

19 Other reserves

(a) Share-based payment reserve

This share-based payment reserve comprises of the ordinary shares transferred by Sanwang International Holdings Limited ("Sanwang"), the former ultimate holding company, to an ex-key management personnel in accordance to the employment agreement with the Company.

(b) Statutory reserve

According to the PRC Company Law, the subsidiaries in PRC are required to transfer between 10% and 50% of their profits after taxation to statutory common reserve until the common reserve balance reaches 50% of the registered capital. For the purpose of calculating the transfer to this reserve, the profits after taxation shall be the amount determined under the PRC accounting standards. The transfer to this reserve must be made before the distribution of dividends to shareholders.

Statutory common reserve can be used to make good previous years' losses and for conversion to capital, if any, provided that the balance remains not less than 25% of the registered capital.

The Group	**30 June 2017 RMB'000**	30 June 2016 RMB'000
Statutory common reserve		
Balance at beginning of year	**71,135**	65,338
Movement during the year	**–**	5,797
Balance at end of year	**71,135**	71,135

20 Trade and other payables

	The Company		The Group	
	30 June 2017	30 June 2016	**30 June 2017**	30 June 2016

Trade payables	**–**	–	**153,228**	2,517
Trade amount owing to:				
- an associate	**–**	–	**246**	–
- other related parties	**–**	–	**648**	–
- a party which a substantial shareholder of the Company has interest in	**–**	–	**440**	–
Unaccountable balances	**–**	–	**59**	–
	–	–	**154,621**	2,517
Other payables	**184**	–	**1,068**	4,630
VAT payable	**–**	–	**3,720**	3,688
Government tax payable	**–**	–	**496**	542
Non-trade amount owing to:				
- a party who is a substantial shareholder of the Company	**–**	–	**7,850**	–
Advances from customers	**–**	–	**3,681**	200
Accruals	**2,825**	1,036	**3,723**	3,037
Unaccountable balances	**–**	–	**29,290**	–
	3,009	1,036	**49,828**	12,097
	3,009	1,036	**204,449**	14,614

The carrying amount of trade payables, due to their short duration, approximates their fair values.

Other payables comprise mainly outstanding payment to the contractors and accrual for social insurances.

The non-trade amount owing to a party who is a substantial shareholder of the Company represents advances which are non-interest bearing and are repayable on demand.

Accruals relate to liabilities for employee benefit costs and professional fees.

Unaccountable balances relate to amount balances and transactions where there is no information available.

Trade and other payables are denominated in the following currencies:

	The Company		The Group	
	30 June 2017	30 June 2016	**30 June 2017**	30 June 2016

		5,223	2,455	**5,223**	3,455

(a) The bank loan of RMB 1,000,000 had been repaid on 30 March 2017. The loan was secured by, inter-alia:

- a personal guarantee by a director of the Company, Chen Qiuhai; and
- legal charges on the Group's leasehold properties of RMB 63,855,000 [see Note 4(c)], land use rights of land area 16,400.68 sqm (see Note 6) and investment properties of RMB 20,554,000 [see Note 8(d)] belonging to a subsidiary, Wangsheng.

Interest was charged at 5.87% (2016 - 5.87%) per annum.

(b) The term loan of S$ 1,062,000 (RMB 5,223,000; 2016 - S$ 496,000 or RMB 2,455,000) is repayable over 150 monthly instalments commencing from 13 July 2016 with a principal payment of S$ 6,677 plus any applicable interest.

The loan is secured by a first ranking mortgage in the amount of S$ 1,630,000 (RMB 7,971,000) on its legal charges on a leasehold property - an office unit in GSH Plaza, Singapore [see Note 4(c)] belonging to the Company.

The Company has financial covenants attached to this term loan which relate to restriction of limits imposed on certain ratios to be maintained. During the financial year ended 30 June 2017, there are no known instances of any breach of loan covenants.

As at the end of the reporting period, the applicable floating interest rate is 3.0% (2016 - 3.0%) per annum below the applicable Enterprise Base Rate. The effective interest rate of the term loan ranges from 2.25% to 2.45% (2016 - 2.25%) per annum.

Bank borrowings are denominated in the following currencies:

	The Company		The Group	
	30 June 2017	30 June 2016	**30 June 2017**	30 June 2016
	RMB'000	RMB'000	**RMB'000**	RMB'000

26 Taxation

The Group	**30 June 2017 RMB'000**	30 June 2016 RMB'000
Current taxation		
- Current financial year	**387**	8,759
- Over provision in respect to prior years	**(735)**	(66)
	(348)	8,693

The tax (credit)/expense on the results of the financial year varies from the amount of income tax determined by applying the relevant statutory rate of income tax on Group's results as a result of the following:

The Group	**30 June 2017 RMB'000**	30 June 2016 RMB'000
(Loss)/profit before taxation	**(778,047)**	45,731
Income tax calculated at the applicable tax rate in PRC where the Group's taxable income is mainly derived	**(194,512)**	11,433
Tax effect of share of results of associates	**(244)**	(1,258)
Tax effect on non-taxable income	**(604)**	(39,832)
Tax effect on non-deductible expenses	**148,538**	38,382
Foreign withholding tax	**–**	210
Over provision in respect to prior years	**(735)**	(66)
Effect of different tax rates	**(1,251)**	(121)
Others, including unreconciled items	**48,460**	(55)
	(348)	8,693

Applicable tax rate

The subsidiaries are subject to the Enterprise Income Tax Law of the PRC adopted by the National People's Congress and came into force on 1 January 2008. The income tax rate applicable to the following entities within the Group in its country of jurisdiction is as follows:

	Tax rate
The Company	17%
Wangsheng	25%
Yuanwang	25%
Kangzhimei	25%
Fengzhiqiu	16.5%
Fengwang	According to the approval issued by Zhangping State Tax Bureau dated 9 March 2012, Fengwang has obtained full tax exemption for income tax from Fujian tax authority for income derived from cultivation, preliminary processing of agricultural products up to 6 October 2028.
Senwang	According to the approval issued by Zhangping State Tax Bureau dated 12 April 2012, Senwang has obtained full tax exemption for income tax from Fujian tax authority for income derived from cultivation of agricultural products up to 31 May 2031.
Lijiashan	According to the approval issued by Pucheng State Tax Bureau dated 9 January 2015, Lijiashan has obtained full tax exemption for income tax from Pucheng tax authority for income derived from cultivation of agricultural products up to 31 December 2015. The full tax exemption has been renewed to 31 December 2018.
Shansheng	According to the approval issued by Jiangle State Tax Bureau dated 25 November 2014, Shansheng has obtained full tax exemption for income tax from Jiangle tax authority for income derived from cultivation of agricultural products up to 21 July 2034.

26 Taxation (Cont'd)

Non-deductible expenses included in the tax reconciliation of the Group relate mainly to the write offs of prepayments, intangible assets, unaccountable expenses and gain/loss from changes in fair value of biological assets which are not tax deductible.

Non-taxable income relates to certain types of income exempted from tax.

The effective tax rate of the Group is 19% for the financial year ended 30 June 2016.

27 (Loss)/earnings per share

The Group	**30 June 2017 RMB'000**	30 June 2016 RMB'000
Net (loss)/profit attributable to equity holders of the Company	**(777,699)**	37,038

	30 June 2017 '000	30 June 2016 '000
Weighted average number of ordinary shares outstanding for the purpose of diluted earnings per share	**175,758**	154,545

The Group	**30 June 2017 RMB'000**	30 June 2016 RMB'000
Basic (loss)/earnings per share (cents)	**(442.5)**	24.0
Diluted (loss)/earnings per share (cents)	**(442.5)**	24.0

In 2017, the weighted average number of shares outstanding during the period is the number of ordinary shares at the beginning of the period, adjusted by the number of ordinary shares issued in share placement (see Note 18) during the period multiplied by a time-weighting factor. The time-weighting factor is the number of days that the shares are outstanding as a proportion of the total number of days in the period.

In 2016, the weighted average number of shares outstanding during the period is the number of ordinary shares at the beginning of the period, adjusted by the number of ordinary shares issued in under rights issue and share consolidation (see Note 18) during the period multiplied by a time-weighting factor. The time-weighting factor is the number of days that the shares are outstanding as a proportion of the total number of days in the period.

Basic (loss)/earnings per share

Basic (loss)/earnings per share amounts are calculated by dividing the net (loss)/profit attributable to ordinary equity holders of the Company (for the purpose of basic (loss)/earnings per share) by the weighted average number of ordinary shares outstanding during the financial year.

Diluted (loss)/earnings per share

Diluted (loss)/earnings per share amounts are calculated by dividing net (loss)/profit attributable to ordinary equity holders of the Company (for the purpose of diluted (loss)/earnings per share) by the weighted average number of ordinary shares outstanding during the financial period/year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares, if any. Dilutive potential ordinary shares are deemed to have been converted into ordinary shares at the beginning of the year or if later, the date of the issue of the potential ordinary shares.

In the current and previous financial year, diluted (loss)/earnings per share are the same as basic (loss)/earnings per share as the Group does not have any dilutive potential ordinary shares and issuance of ordinary shares for less than the average market price of the ordinary shares.

28 Dividends

The Company	**2017 RMB'000**	2016 RMB'000
Dividends proposed		
- Ordinary dividends:		
First and final tax exempt (one-tier) dividend of RMB Nil (2016 - RMB 0.008) cents per share	**–**	1,298
Dividends paid		
- Ordinary dividends:		
First and final tax exempt (one-tier) dividend of RMB 0.00792 (2016 - RMB 0.006) cents per share paid in respect of the previous financial year	**1,401**	4,849

The first and final tax-exempt dividend of RMB 0.006 per ordinary share paid out during the financial year ended 30 June 2016 was based on the number of issued and paid up share capital of the Company before share consolidation exercise on 18 November 2015 (see Note 18).

On 11 October 2016, the Board of Directors of the Company recommended a first and final tax-exempt dividend of approximately RMB 0.008 per ordinary share amounting to RMB 1,298,000 based on 162,200,151 ordinary shares to be paid in respect of the financial year ended 30 June 2016.

Pursuant to the announcement dated 8 July 2016 on the results of the share placement, all 14,598,013 placement shares were allotted and issued by the Company on 27 July 2016 (see Note 18). These placement shares rank *pari passu* in all respects with the then existing shares for any dividends, rights, allotments or other distributions which fall on or after the date of issue of right shares. As a result of this share placement, the final tax-exempt dividend paid amounted to approximately RMB 1,401,000 based on 176,798,164 ordinary shares in respect of the financial year ended 30 June 2017.

29 Related party transactions

In relation to the related party information disclosed elsewhere in the financial statements, the following are significant transactions with related parties at mutually agreed amounts:

The Group	**30 June 2017 RMB'000**	30 June 2016 RMB'000
Purchases from a party which a substantial shareholder of the Company has interest in	**2,548**	–
Purchases from a party related to a director of the Company	**1,271**	–

Dividend income from a subsidiary	**–**	4,200

30 Commitments

(i) Operating lease commitment (non-cancellable)

Where Group is the lessee

At the end of the reporting period, the Group was committed to making the following lease payment under non-cancellable operating leases:

The Group	**30 June 2017 RMB'000**	30 June 2016 RMB'000
Not later than one year	**96**	30,703
Later than one year and not later than five years	**–**	–
Later than five years	**–**	23,332
	96	54,035

As at 30 June 2017, the non-cancellable operating lease commitment relates to the rental of office premises located at 105, Cecil Street, #22-00 The Octagon, Singapore 069534.

As at 30 June 2016, the non-cancellable operating lease commitments were related to the operating lease commitments of mushroom farmlands, eucalyptus plantations and bamboo plantations and exclude the advance lease prepaid as disclosed in the financial statements.

(ii) Capital commitments

The Group's capital commitments contracted but not provided for in the consolidated financial statements are as follows:

The Group	**30 June 2017 RMB'000**	30 June 2016 RMB'000
Acquisition of property, plant and equipment	–	7,721
Purchase of synthetic logs	**2,756**	12,120
	2,756	19,841

31 Statement of operations by segments

Management has determined the operating segments based on the reports reviewed by the chief operating decision-maker.

A segment is a distinguishable component of the Group that is engaged with either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

Management monitors the operating results of the segments separately for the purposes of making decisions about resources to be allocated and of assessing performance. Segment performance is evaluated based on operation profit or loss which is similar to the accounting profit or loss.

31 Statement of operations by segments (Cont'd)

Income taxes are managed by the management of respective entities within Group.

The accounting policies of the operating segments are the same of those described in the summary of significant accounting policies. There is no asymmetrical allocation to reportable segments. Management evaluates performance on the basis of profit or loss from operation before tax expense.

There is no change from the prior periods in the measurement methods used to determine reported segment profit or loss.

Allocation basis and transfer pricing

Segment results include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly income tax expense.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transaction with third parties, if any.

Business segments

The Group is organised into the following business segments, namely:

Self-cultivated edible fungi and moso bamboos

The self-cultivated edible fungi segment comprises the shiitake mushroom cultivated at the Group's cultivation bases.

The self-cultivated moso bamboos comprises the spring bamboo shoots, winter bamboo shoots and bamboo trees.

The eucalyptus trees comprises the excess harvested eucalyptus trees which are not in use as synthetic logs for production of edible fungi.

Processed food products

The processed food products segment comprises processed vegetable products and dietary fibre food products (including konjac-based processed food products).

Corporate

Corporate comprises the Company, which principal activity is that of investment holding company.

31 Statement of operations by segments (Cont'd)

(d) Information about major customers

The revenue from one customer of the Group's processed food products segment amounted to approximately RMB 65,279,000 (2016 - RMB 74,135,000) and accounted for 29% (2016 - 23%) of the Group's revenue.

32 Financial risk management objectives and policies

The Group does not have written risk management policies and guidelines. The Board of Directors meets periodically to analyse and formulate measures manage risks. The Group's activities expose it to credit risks, market risks (including foreign currency risks, interest rate risks and market price risks) and liquidity risks. The Group's overall risk management strategy seeks to minimise adverse effects from the volatility of financial markets on the Group's financial performance.

Generally, the Group employs a conservative strategy regarding its risk management. The Group does not hold or issue derivative financial instruments for trading purposes.

As at 30 June 2017 and 30 June 2016, the Group's financial instruments mainly consisted of cash and bank balances, financial assets and financial liabilities.

32.1 Foreign currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Group operates and sells its products in other countries other than PRC and transacts in foreign currencies. As a result, the Group is exposed to movements in foreign currency exchange rates arising from normal trading transactions, primarily with respect to United States Dollar. However, the Group does not use any financial derivatives such as foreign currency forward contracts, foreign currency options or swaps for hedging purposes.

The Company's currency exposures based on the information provided to key management is as follows:

The Company	Note	**Singapore dollar RMB'000**	**United States dollar RMB'000**	**Total RMB'000**
2017

* Less than RMB 1,000

32.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Company's and the Group's financial instrument will fluctuate because of the changes in market interest rates.

The Company's and the Group's exposure to interest rate risk arises primarily from cash placed with financial institutions and bank borrowings. The table below sets out the carrying amount, by maturity, of the Company's and the Group's financial instruments that are exposed to interest rate risk:

The Company	**Within 1 year RMB'000**	**1-2 years RMB'000**	**2-3 years RMB'000**	**More than 3 years RMB'000**	**Total RMB'000**
2017					
Floating rate					
Bank borrowings	**(380)**	**(380)**	**(380)**	**(4,083)**	**(5,223)**
Cash and bank balances	**2,131**	**–**	**–**	**–**	**2,131**
2016					
Floating rate					
Bank borrowings	(512)	(512)	(512)	(919)	(2,455)
Cash and bank balances	6,292	–	–	–	6,292

32 Financial risk management objectives and policies (Cont'd)

32.2 Interest rate risk (Cont'd)

2016					
Floating rate					
Bank borrowings	(1,512)	(512)	(512)	(919)	(3,455)
Cash and bank balances	11,143	–	–	–	11,143

32.3 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the Company or the Group to incur a financial loss. The Group's exposure to credit risk arises primarily from trade receivables. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group performs ongoing credit evaluation of its counterparties' financial condition.

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

The Group does not have any significant credit exposure to any single counterparty or any group of counterparties except for one (2016 - one) trade receivable from third party amounting to approximately 45% (2016 - 82%) of total trade receivables as at the end of the financial year.

The Company does not have any significant credit exposure to any single counterparty or any group of counterparties having similar characteristics other than the amount owing by a subsidiary.

Trade and other receivables that are neither past due nor impaired are creditworthy debtors with good payment record with the Group. Cash and bank balances and derivatives that are neither past due nor impaired are placed with or entered into with reputable financial institutions or companies with high credit ratings and no history of default.

As the Group and the Company do not hold any collateral as at the reporting date, the Group's and the Company's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised on the statements of financial position.

The Company's and the Group's objective is to seek continual growth while minimising losses incurred due to increased credit risk exposure.

32.4 Liquidity risk

Liquidity or funding risk is the risk that the Company or the Group will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or other financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value.

32 Financial risk management objectives and policies (Cont'd)

32.4 Liquidity risk (Cont'd)

The Company's and the Group's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Company's and the Group's objective is to maintain a balance between continuity of funding and flexibility through the use of stand-by credit facilities.

The table below analyses the maturity profile of the Company's and the Group's financial liabilities based on contractual undiscounted cash flows over the remaining contractual maturities:

The Company	Less than 1 year RMB'000	Between 1 to 5 years RMB'000	More than 5 years RMB'000	Total RMB'000
As at 30 June 2017				
Trade and other payables	**3,009**	**–**	**–**	**3,009**
Bank borrowings	**528**	**2,283**	**3,654**	**6,465**
	3,537	**2,283**	**3,654**	**9,474**
As at 30 June 2016				
Trade and other payables	1,036	–	–	1,036
Bank borrowings	556	2,250	305	3,111
	1,592	2,250	305	4,147
The Group				
As at 30 June 2017				
Trade and other payables (less VAT and government tax)	**200,233**	**–**	**–**	**200,233**
Bank borrowings	**528**	**2,283**	**3,654**	**6,465**
	200,761	**2,283**	**3,654**	**206,698**
As at 30 June 2016				
Trade and other payables (less VAT and government tax)	10,384	–	–	10,384
Bank borrowings	1,556	2,250	305	4,111
	11,940	2,250	305	14,495

As at 30 June 2017, the unutilised bank credit facilities of the Group totalled RMB 32,482,000.

32.5 Market price risk

Price risk is the risk that the value of a financial instrument will fluctuate due to changes in market prices.

The Group's exposure to price risk arises from changes in bamboo and mushroom prices. The Group does not enter into derivative or other contracts to manage the risk of a decline in bamboo and mushrooms prices. The Group reviews its outlook of bamboo and mushroom prices regularly in considering the need for active financial risk management.

32 Financial risk management objectives and policies (Cont'd)

32.6 Risk management strategy related to agricultural activities

The Group is exposed to the following risks relating to its eucalyptus trees and moso bamboo plantations:

Regulatory and environmental risks

The Group is subject to laws and regulations in Fujian province, China in which it operates in. The Group has established environmental policies and procedures aimed at compliance with local environmental and other laws.

Supply and demand risk

The Group is exposed to risks arising from fluctuations in the price and sales volume of bamboo and mushrooms. When possible, the Group manages this risk by aligning its harvest volume to market supply and demand. Management performs regular industry trend analyses for projected harvest volumes and pricing.

Climate and other risk

The Group's eucalyptus trees and moso bamboo plantations are exposed to the risk of damage from climatic changes, diseases, forest fires and other natural forces. The Group has extensive processes in place aimed at monitoring and mitigating those risks, including regular forest health inspections and industry pest and disease surveys.

Since 2016, the moso bamboo forest was affected by natural disasters which were harmful, and, if they were not detected and prevented early, significant losses would occur. The underlying cause of the natural disaster was mainly the plant diseases and insect infestation in the Fujian province and such outbreak was occurring frequently in the past few years. The appropriate measure to control such an outbreak would require an extensive period of time and a long period to recover. Whether such land can remain fertile or suitable for bamboo harvesting will depend on the use of scientific research and the strengthening of the management and maintenance of the moso bamboo forest to minimise the loss from natural disasters.

Similarly, the eucalyptus forest has been affected by the winter frost since November 2016. The severe winter has an impact on the quality of the cultivated synthetic logs where the quality of the harvested mushroom produced is affected.

32.7 Fair value measurements

The table below presents assets and liabilities measured and carried at fair value and classified by level of the following fair value measurement hierarchy:

(a) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);

(b) inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and

(c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

There were no transfers into or out of fair value hierarchy levels for financial years ended 30 June 2017 and 2016.

32 Financial risk management objectives and policies (Cont'd)

32.7 Fair value measurements (Cont'd)

Valuation policies and procedures

The Group's Chief Financial Officer ("CFO"), who is assisted by the financial controllers (collectively referred to as the "CFO office") oversees the Group's financial reporting valuation process and is responsible for setting and documenting the Group's valuation policies and procedures. In this regard, the CFO office reports to the Audit Committee.

For all significant financial reporting valuations using valuation models and significant unobservable inputs, it is the Group's policy to engage external valuation experts who possess the relevant credentials and knowledge on the subject of valuation, valuation methodologies and FRS 113 *Fair Value Measurement* guidance to perform the valuation.

For valuations performed by external valuation experts, the appropriateness of the valuation methodologies and assumptions adopted are reviewed along with the appropriateness and reliability of the inputs (including those developed internally by the Group) used in the valuations.

In selecting the appropriate valuation models and inputs to be adopted for each valuation that uses significant non-observable inputs, external valuation experts are requested to calibrate the valuation models and inputs to actual market transactions (which may include transactions entered into by the Group with third parties as appropriate) that are relevant to the valuation if such information are reasonably available. For valuations that are sensitive to the unobservable inputs used, external valuation experts are required, to the extent practicable to use a minimum of two valuation approaches to allow for cross-checks.

Significant changes in fair value measurements from period to period are evaluated for reasonableness. Key drivers of the changes are identified and assessed for reasonableness against relevant information from independent sources, or internal sources if necessary and appropriate.

The CFO office documents and reports its analysis and results of the external valuations to the Audit Committee on a yearly basis. The Audit Committee performs a high-level independent review of the valuation process and results and recommends if any revisions need to be made before presenting the results to the Board of Directors for approval.

33 Capital management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern and maintains an optimal capital structure so as to maximise shareholders' value.

The Company and the Group manage its capital structure and make adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company and the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the years ended 30 June 2017 and 2016.

The capital structure of the Group consists of equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings as disclosed in Notes 18 and 19 to the financial statements.

As disclosed in Note 19(b) to the financial statements, the subsidiaries are required by relevant laws and regulations of the PRC to contribute and to maintain a non-distributable PRC statutory reserve fund whose utilisation is subject to approval by the relevant PRC authorities. This externally imposed capital requirement has been complied with by the subsidiaries for the financial years ended 30 June 2017 and 2016.

The Group monitors capital based on a gearing ratio. The gearing ratio is calculated as net debt divided by total capital. Net debt is calculated as trade and other payables plus bank borrowings less cash and cash equivalents.

Total capital is calculated as equity plus net debt.

33 Capital management (Cont'd)

	Note	The Company		The Group	
		30 June 2017	30 June 2016	**30 June 2017**	30 June 2016

35 Events subsequent to the reporting date

(i) Disposal of eucalyptus plantations

In July /August 2017, the Group had entered into sale and purchase contracts with buyers, who were also the subcontractors for the subsidiaries' eucalyptus plantations for maintenance and pest control services, for the disposal of eucalyptus plantations totalling gross area of 24,282 mu with an aggregate consideration totalling RMB 14,103,000. Consequently, the corresponding unexpired leases were also terminated.

The consideration sums for the disposal of eucalyptus plantations were set off against the amounts owed to the buyers totalling RMB 14,002,000. According to the sale and purchase contracts, the disposal transaction was purely by way of offsetting of accounts. The net amount after the offsetting of RMB 101,000 was paid in cash.

The disposal transactions were completed between July 2017 and August 2017.

(ii) Disposal of moso bamboo trees and bamboo shoots plantations

The Company had on 21 August 2018 made announcements in relation to the disposal of moso bamboo plantations but there were no proper authorisation by the Board.

On 23 August 2017, the Group entered into sale and purchase contracts with the buyers, who were also the subcontractors for the subsidiaries' moso bamboo plantations for maintenance and pest control services, for the disposal of moso bamboo plantations totalling gross area of 129,696 mu with an aggregate consideration totalling RMB 47,235,000. Consequently, the corresponding unexpired leases were also terminated.

The consideration sums for the disposal of moso bamboo plantations were set off against the amounts owed to the buyers totalling RMB 47,330,000. According to the sale and purchase contracts, the disposal transaction was purely by way of offsetting of accounts. The net amount after the offsetting of RMB 95,000 was paid in cash.

The disposal transactions were completed on 23 August 2017.
