To: The Shareholders of IKKR

Dear Sir/Madam

PROPOSED RENEWAL OF AUTHORITY FOR THE PURCHASE BY IKKR OF ITS OWN SHARES

1. INTRODUCTION

At the One Hundred and Seventh (107th) AGM held on 23 May 2017, the Board obtained the shareholders' approval for the renewal of the Proposed Share Buy-back Authority. The approval for the renewal of the Proposed Share Buy-back Authority shall lapse at the conclusion of the forthcoming AGM, which has been scheduled to be held on 7 June 2018 unless the approval is renewed.

In connection thereto, the Company had on 13 April 2018 announced its intention to seek the shareholders' approval for the Proposed Share Buy-back Authority at the forthcoming 108th AGM of the Company. The Company has also made the same announcement to SGX-ST on the same date.

The purpose of this Statement is to provide you with the relevant information on the Proposed Share Buy-back Authority, to set out the recommendation of the Board and to seek your approval for the ordinary resolution pertaining to the Proposed Share Buy-back Authority to be tabled at forthcoming AGM of the Company.

SHAREHOLDERS ARE ADVISED TO READ THIS STATEMENT CAREFULLY BEFORE VOTING ON THE ORDINARY RESOLUTION PERTAINING TO THE PROPOSED SHARE BUY-BACK AUTHORITY.

2. DETAILS OF THE PROPOSED SHARE BUY-BACK AUTHORITY

The purchases authorised by the Proposed Share Buy-back Authority are subject to compliance with Section 127(1) of the Malaysian Companies Act 2016 and any prevailing laws, orders, requirements, guidelines, rules and regulations issued by the relevant authorities at the time of purchase including compliance with the twenty-five percent (25%) public shareholding spread as required by Bursa Securities and subject to compliance with the UK Companies Act 2006.

The maximum number of shares that may be bought back of up to ten percent (10%) of the issued and paid-up share capital of IKKR would include all shares which have been previously bought back and cancelled or retained as treasury shares. The renewal of the authority from the shareholders for the purchase by IKKR of its own shares will be effective immediately upon the passing of the Ordinary Resolution on the Proposed Share Buy-back Authority at the Company's 108th AGM to be held on 7 June 2018 until:

- i) the conclusion of the next AGM of the Company, following the forthcoming 108th AGM at which the proposed resolution would be passed, at which time the said authority would lapse unless renewed by an ordinary resolution passed at a general meeting, either unconditionally or subject to conditions;
- ii) the expiration of the period within which the next AGM of the Company is required to be held by law; or
- iii) revoked or varied by ordinary resolution passed by the shareholders in a general meeting,

whichever is the earlier.

3. SOURCE OF FUNDS

The Listing Requirements stipulates that the proposed purchase by a listed company of its own shares must be made wholly out of retained profits and/or the share premium account of the listed company. In compliance with the UK Companies Act 2006, IKKR proposes to allocate an amount not exceeding the audited retained profits of the Company for the purpose of the Proposed Share Buy-back Authority. Based on the latest audited financial statements as at 31 December 2017, the retained profits of the Company amounted to RM117.858 million (£21.821 million) (based on the exchange rate of RM5.4011 per £1 as at 30 April 2018). The funding for the Proposed Share Buy-back Authority is expected to be internally-generated and/or from borrowings. If borrowings are used, the Board will ensure that IKKR can repay the borrowings and that the repayments will not have a material effect on the Company's cash flow.

4. TREATMENT OF SHARES PURCHASED

Section 127(1) of the Malaysian Companies Act 2016 provides for shares purchased by a company pursuant to a share buy-back to be cancelled upon purchase, held as treasury shares or a combination of both. Shares purchased by a company and held as treasury shares may be distributed as share dividends, resold on the stock exchanges where those shares are listed in accordance with the rules of the relevant stock exchanges or subsequently cancelled.

Section 162D of the UK Companies Act 2006 provides that at any time, shares purchased by a company pursuant to a share buy-back and held as treasury shares may be resold or transferred for the purposes of, or pursuant to an employee's share scheme or cancelled.

The Company intends to retain the IKKR Shares to be purchased pursuant to the Proposed Share Buy-back Authority as treasury shares or cancel the purchased IKKR Shares or a combination of both. The purchased Shares may, at the discretion of the Board, be held as treasury shares and resold on Bursa Securities and/or other stock exchanges where the Shares are listed should the opportunity for the Company to realise gains from resale on the market arise.

5. RATIONALE FOR THE PROPOSED SHARE BUY-BACK AUTHORITY

The Proposed Share Buy-back Authority will provide IKKR with another option to utilise its financial resources more efficiently. The Proposed Share Buy-back Authority is expected to stabilise the supply and demand of the IKKR Shares as well as their market price. This will allow the Company to take preventive measures against speculation particularly when the Shares are undervalued, which may in turn stabilise their market price and enhance investors' confidence. In addition, the Company may realise potential gains from the resale of treasury shares.

The Proposed Share Buy-back Authority, irrespective of whether the purchased IKKR Shares are held as treasury shares or cancelled, will result in a lower number of the Shares being taken into account for the purpose of computing their EPS.

The cost of purchased IKKR Shares, whether held as treasury shares or cancelled, will be excluded from the shareholders' funds of the Company in the computation of its ROE. The purchase of the Shares by IKKR is expected to improve their EPS and the ROE of the Company, which in turn, is expected to have a positive impact on the share price.

6. POTENTIAL ADVANTAGES AND DISADVANTAGES OF THE PROPOSED SHARE BUY-BACK AUTHORITY

6.1 Advantages

The potential advantages of the Proposed Share Buy-back Authority are highlighted in Note 5 of this Statement.

6.2 Disadvantages

The Proposed Share Buy-back Authority will utilise the financial resources of IKKR and may divert the Company from pursuing future investment opportunities. If internally-generated funds are used for the purpose of the Proposed Share Buy-back Authority, the Company may also lose interest income that may otherwise be earned. However, this is mitigated if the market price of IKKR Shares increases higher than the cost of their purchase from the open market. IKKR stands to realise potential gains if the treasury shares are resold at prices higher than the purchase cost. If the market price is lower, it can be mitigated through potential future dividend income, as these Shares are kept for long term.

If IKKR were to borrow funds for the purpose of the Proposed Share Buy-back Authority, the Company would incur interest expenses on the borrowings.

As the funds to be allocated for the Proposed Share Buy-back Authority must be made out of retained profits, the amount available for distribution of dividend to the shareholders may decrease accordingly. Nevertheless, the Board is of the view that the Proposed Share Buy-back Authority is not expected to have any material disadvantage to the shareholders as well as the Group as it will only be implemented after careful consideration of the Group's financial resources and the resultant impact on the Group as well as the shareholders.

7. EFFECTS OF THE PROPOSED SHARE BUY-BACK AUTHORITY

7.1 Share Capital

The effects of the Proposed Share Buy-back Authority on the share capital of IKKR depend on the Company's decision to cancel or retain the purchased IKKR Shares.

Assuming that the number of IKKR Shares purchased is based on the maximum number allowed under the Proposed Share Buy-back Authority, and the purchased Shares are subsequently cancelled, the effects on the share capital of the Company would be as follows:

	Number of IKKR Shares	£	RM
Issued and paid-up share capital as at 31 December 2017 [#]	420,750,000	42,075,000	287,343,285
Cancellation of Purchased Shares	42,075,000*	4,207,500	^22,808,437
After the Proposed Share Buy-back	378,675,000	37,867,500	264,534,848

Notes:

[#] Based on the audited financial statements for financial year ended 31 December 2017.

[^] Based on the conversion rate of RM5.4209 to £1 as at LPD.

* Assuming that the number of shares bought back is based on the maximum number allowed pursuant to the Proposed Share Buy-back Authority, which includes the 17,540,800 shares which have been purchased by the Company previously and retained as treasury shares.

However, there should be no effect on the issued and paid-up share capital of the Company if the Shares so purchased are retained as treasury shares.

7.2 Working Capital

The Proposed Share Buy-back will reduce the working capital of the Company to the extent of the amount of funds utilised for the purchase of the Company's shares.

For shares so purchased which are retained as treasury shares, upon its resale, the working capital and cash flow of the Company will increase. The quantum of the increase in the working capital and cash flow will depend on the actual selling price of the treasury shares and the number of treasury shares resold.

7.3 Earnings

The effects of the Proposed Share Buy-back Authority on the EPS of the Group will depend on the purchase prices paid for the purchased IKKR Shares, the effective funding cost to the Group to finance the purchased Shares and any loss in interest income to the Group.

Assuming that the purchased IKKR Shares are retained as treasury shares and resold, the effects on the consolidated earnings of the Group will depend on the actual selling price, the number of treasury shares resold and the effective gain or loss and interest savings or costs arising from the exercise.

If the purchased Shares are cancelled, the Proposed Share Buy-back Authority will increase the consolidated EPS of the Group provided the income foregone and interest expense incurred per share purchased is less than the consolidated EPS before the share buy-back.

7.4 Net Assets

The effects of the Proposed Share Buy-back Authority on the net assets of the Group are dependent on the number of purchased IKKR Shares and the prices paid for them, and whether the Shares are retained as treasury shares or cancelled. The effective cost of funding and/or loss of potential interest income arising from the funds used to purchase the Shares will also affect the net assets of the Group.

The Proposed Share Buy-back will reduce the net assets per share if the purchase price per share is higher than the net assets per share at the relevant point in time. On the other hand, the net assets per share will increase if the purchase price per share is below the net assets per share at the relevant point in time.

Net assets per share will increase in the event that the Shares held as treasury shares are resold at a profit and vice-versa.

7.5 Dividends

The Proposed Share Buy-back Authority is not expected to have any impact on the policy of the Board in recommending dividends, if any, to the shareholders. Furthermore, any potential effect on the dividends to be declared in the future will be dependent on the dividend rate to be determined after taking into consideration the number of IKKR Shares cancelled pursuant to the Proposed Share Buy-back Authority.

The Directors proposed that a 2% interim dividend for the financial year ended 31 December 2017 be distributed to the shareholders during the year 2018. The interim dividend under the single tier system is £0.002 per share, on 403,209,200 ordinary shares.

There was no final dividend recommended for the financial year ended 31 December 2017.

Euston Technologies Sdn Bhd	22,662,066	5.62	-	-	22,662,066	5.98	-	-

Notes:

¹ Based on the following assumptions:

- (a) IKKR will purchase and cancel ten percent (10%) of the issued and paid-up share capital; and
- (b) The purchased IKKR Shares are from shareholders other than the Directors and Substantial Shareholders of IKKR.

As at LPD, none of the Directors of the Company holds any IKKR Shares.

8. IMPLICATIONS OF THE PROPOSED SHARE BUY-BACK AUTHORITY IN RELATION TO THE CODE

It is the intention of the Company to implement the Proposed Share Buy-back Authority in a manner that will not result in any of its shareholders having to undertake a mandatory offer pursuant to the Code.

9. PUBLIC SHAREHOLDING SPREAD

Based on the public shareholding spread of the Company as at LPD of 48.35%, assuming that the Proposed Share Buy-back Authority is implemented up to ten percent (10%) of the issued and paid-up share capital of the Company, and that the number of Shares held by the Substantial Shareholders of IKKR remain unchanged, the public shareholding spread of the Company is expected to be 45.00%.
