# UNAUDITED FINANCIAL STATEMENTS FOR SIX MONTHS ENDED 30 SEPTEMBER 2020, TWELVE MONTHS ENDED 30 SEPTEMBER 2020 AND EIGHTEEN MONTHS ENDED 30 SEPTEMBER 2020

#### **Change of Financial Year End**

On 14 February 2020, the Company announced a change of financial year end from 31 March to 30 September. The unaudited financial statements of the Company and its subsidiaries (the "Group") presented in this announcement cover a 6-month period from 1 April 2020 to 30 September 2020 ("6M-Sept2020") and an 18-month period from 1 April 2019 to 30 September 2020 ("18M-Sept2020") for compliance and statutory purposes.

For the purposes of providing a more meaningful comparison and better understanding of the financial results of the Group, the Company also included the unaudited financial statements for a 12-month period from 1 October 2019 to 30 September 2020 ("12M-Sept2020") and a 12-month period from 1 October 2018 to 30 September 2019 ("12M-Sept2019") as comparative figures.

1(a)(i) An income statement (for the group), together with a comparative statement for the corresponding period of the immediately preceding financial year.

1(d) (ii) Details of any changes in the company's share capital arising from rights issue, bonus issue, share buy-backs, exercise of share options or warrants, conversion of other issues of equity securities, issue of shares for cash or as consideration for acquisition or for any other purpose since the end of the previous period reported on. State also the number of shares that may be issued on conversion of all the outstanding convertibles, as well as the number of shares held as treasury shares, if any, against the total number of issued shares excluding treasury shares of the issuer, as at the end of the current financial period reported on and as at the end of the corresponding period of the immediately preceding financial year.

#### **Employee Shares Option Scheme**

The Company did not allot and issue any new ordinary shares pursuant to the Employees Shares Option Scheme ("YSH ESOS 2012") during the year ended 30 September 2020. As at 30 September 2020, the outstanding share options granted under the YSH ESOS 2012 were for a total of 14.49 million (31 March 2019: 14.49 million) ordinary shares.

#### Performance Share Plan

Pursuant to the Yoma Performance Share Plan ("Yoma PSP"), during the 18 month period ended 30 September 2020, the Company (a) allotted and issued 9.15 million new ordinary shares to certain employees of the Group; (b) forfeited awards comprising 2.65 million ordinary shares; and (c) granted new awards comprising 9.63 million ordinary shares to certain employees of the Group under the Yoma PSP. As at 30 September 2020, the total number of ordinary shares awarded under the Yoma PSP was 9.63 million (31 March 2019: 11.80 million).

#### **Private Placement**

In December 2019, the Company allotted and issued 332.50 million new ordinary shares of \$\$0.45 each pursuant to a private placement and raised gross proceeds of US\$108.57 million. As at 30 September 2020, the Company had fully utilized the gross proceeds.

#### Total number of issued shares

As a result, the total number of issued shares of the Company increased from 1,895,820,441 as at 31 March 2019 to 2,237,469,260 as at 30 September 2020.

1(d) (iii) To show the total number of issued shares excluding treasury shares as at the end of the current financial period and as at the end of the immediately preceding year.

Total number of issued shares as at 30 September 2020 – 2,237,469,260

Total number of issued shares as at 31 March 2019 - 1,895,820,441

The Company had no treasury shares as at 30 September 2020 and 31 March 2019.

1(d) (iv)A statement showing all sales, transfers, disposal, cancellation and/or use of treasury shares as at the end of the current financial period reported on.

2. Whether the figures have been audited or reviewed, and in accordance with which auditing standard or practice.

The figures have not been audited nor reviewed by the Company's independent auditor.

Yoma Strategic Holdings Ltd (Company Registration No.: 196200185E)

3. Where the figures have been audited or reviewed, the auditor's report (including any qualifications or emphasis of a matter).

NA.

4. Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.

Save as disclosed in paragraph 5 below, the Group has consistently applied the same accounting policies and methods of computation in the financial statements for the current reporting period as compared to its audited financial statements for the financial year ended 31 March 2019.

5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.

The Group adopted the new/revised SFRS(I)s that are effective for annual periods beginning on or after 1 January 2019. Changes to the Group's accounting policies have been made as required, in accordance with the transitional provisions in the respective SFRS(I)s, SFRS(I) Interpretations and amendments to SFRS(I)s.

The following are the new or amended SFRS(I)s, and SFRS(I) Interpretations, that are relevant to the Group:

- SFRS(I) 16 Leases
- SFRS(I) INT 23 Uncertainty Over Income Tax Treatments
- Amendments to SFRS(I) 9 Prepayment Features with Negative Compensation
- Amendments to SFRS(I) 1-12 Income tax consequences of payments on financial instruments classified as equity
- Amendments to SFRS(I) 1-23 Borrowing costs eligible for capitalisation
- Amendments to SFRS(I) 1-28 Long-term Interests in Associates and Joint Ventures

The adoption of the above SFRS(I)s, SFRS(I) Interpretations and amendments to SFRS(I)s did not have any significant impact on the financial statements of the Group except for the following:

#### Adoption of SFRS(I) 16

SFRS(I) 16 is effective for financial years beginning on or after 1 January 2019. The Group has applied the simplified transition approach and will not restate comparative amounts for the financial year prior to first adoption.

SFRS(I) 16 has resulted in almost all leases being recognised on the statement of financial position, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term leases and leases of low value assets. The accounting for lessors has not changed significantly.

Right-of-use assets included in property, plant and equipment, are measured using the cost model and are carried at cost less accumulated depreciation and accumulated impairment loss, if any, subsequent to initial recognition. The carrying amount for lease liabilities subsequent to initial recognition would take into account interest on the lease liabilities, lease payments made and any reassessment or lease modifications.

The adoption of SFRS(I) 16 resulted in adjustments to the statement of financial position of the Group as at 1 April 2019. On adoption of SFRS(I) 16, the Group chose to measure the right-of-use assets at amounts equal to the lease liabilities, adjusted by the amounts of any prepaid or accrued lease payments relating to those leases recognised in the statement of financial position immediately before 1 April 2019. Accordingly, the adoption of SFRS(I) 16 does not result in any adjustment to the opening balance of retained profits as at 1 April 2019.

The differences from the statement of financial position as previously reported at 31 March 2019 are as follows:

	01.04.2019
	US\$'000
Increase in property, plant and equipment as a result of recognition of right-of-use assets	24,863
Increase in development properties as a result of recognition of right-of-use assets	22,872
Increase in lease liabilities	(45,450)
Decrease in other assets	(2,285)
Net impact in net assets	-

#### Borrowing costs relating to development properties

In March 2019, the International Financial Reporting Standards Interpretation Committee ("IFRS IC") issued the finalised agenda decision on the capitalisation of borrowing costs that the developer in the fact pattern submitted should not capitalise borrowing costs in relation to the construction of the development properties that are ready for its intended sale (i.e. ready for launch). The Group has adopted the IFRS IC finalised agenda decision and expensed-off the interest costs incurred after the project launch for sale. This represents a change in the Group's accounting policies for borrowing costs and has been applied retrospectively in accordance with SFRS(I) 1-8 Accounting Policies, Changes in Accounting Estimates and Errors.

#### **INCOME STATEMENT**

#### Six months ended 30 September 2020

Despite the negative impact of COVID-19, the Group's total revenue for the six month period ended 30 September 2020 ("6M-Sept2020") increased by 25.3% to US\$51.18 million as compared to US\$40.83 million in the six month period ended 30 September 2019 ("6M-Sept2019"). The increase in the Group's total revenue was mainly due to the increase in revenue generated by the real estate development and automotive and heavy equipment segments. Set out below is the breakdown of revenue by business segment:-

	6M-Sept2020		6M-Se	pt2019
		As a percentage		As a percentage
	US\$'million	of total revenue	US\$'million	of total revenue
Real estate development	18.57	36.4%	8.54	20.9%
Real estate services	3.71	7.2%	4.37	10.7%
Automotive & heavy equipment	12.27	24.0%	9.13	22.4%
Financial services	3.76	7.3%	3.42	8.4%
Consumer	12.51	24.4%	14.98	36.7%
Investments	0.36	0.7%	0.39	0.9%
Total	51.18	100.0%	40.83	100.0%

Revenue generated from the real estate development segment increased to US\$18.57 million in 6M-Sept2020 as compared to US\$8.54 million in 6M-Sept2019. Revenue for both periods came mainly from City Loft units at StarCity. As at 30 September 2020, 646 units had been sold compared to 382 units as at 30 September 2019. Revenue is recognised over time based on a percentage of completion ("POC") basis with each building having a different completion progress. Construction was at the initial phase in 6M-Sept2019 and hence the number of buildings under construction and the percentage of completion in 6M-Sept2019 were much lower than in 6M-Sept2020. The POC

progress, combined with the additional units sold, resulted in a higher revenue from the City Loft project in 6M-Sept2020 as compared to 6M-Sept2019. The initial 3 buildings had been completed in August 2020 and units commenced the hand over to buyers, and the percentage of completion for next 3 City Loft buildings ranged from approximately 25% to 65%. Unrecognised revenue in relation to the sales of City Loft units in all these buildings amounted to approximately US\$12.41 million as at 30 September 2020. Higher revenue from Yoma Central resulting from the sales of additional Peninsula Residences units and the increase in the construction progress during 6M-Sept2020 also contributed to the higher revenue in this segment.

Real estate services revenue comprised mainly leasing revenue from the Group's investment properties in Myanmar, estate management fee income generated from Pun Hlaing Estate and StarCity and fee income as the operator of Pun Hlaing Golf and Country Club. Leasing revenue declined in 6M-Sept2020 primarily as a result of reduced rental rates at Pun Hlaing Estate and StarCity. The revised rental rates helped to achieve a gradual increase in occupancy levels, particularly from short-stay residents who were seeking refuge during COVID-19 whilst also retaining existing tenants in the current market environment. Furthermore, the Group recognised a negative operator fee income of US\$0.41 million (which is based on a share of the profit in Hlaing River Golf and Country Club Co. Limited ("HRGCCL")) as a result of the fair value loss recognised in HRGCCL's 6M-Sept2020 income statement due to the depreciation of USD against MMK as explained in the below paragraphs.

Revenue from the Group's automotive & heavy equipment segment increased substantially by 34.4% to US\$12.27 million in 6M-Sept2020 as compared to US\$9.13 million in 6M-Sept2019. Revenue from New Holland tractors and JCB construction equipment, was higher by 20.8% in 6M-Sept2020 as compared to 6M-Sept2019. The increase was due to successful government tenders, package promotions for popular tractor models and a ramp-up in activities in the agricultural sector ahead of a mild monsoon season. These factors offset the negative COVID-19 impact from border closures and falling crop prices during 6M-Sept2020. As a result, 198 tractors were sold in 6M-Sept2020 as compared to 134 in 6M-Sept2019. Revenue from Volkswagen vehicles and Ducati motorbikes also increased in 6M-Sept2020 as compared to 6M-Sept2019 when the Volkswagen business had just commenced operations.

Financial services revenue was generated by Yoma Fleet, which is in the vehicle leasing and rental business. Revenue in 6M-Sept2020 stood slightly higher at US\$3.76 million as compared to US\$3.42 million in 6M-Sept2019.

The Group recorded lower revenue of US\$12.51 million in its consumer segment in 6M-Sept2020 as compared to US\$14.98 million in 6M-Sept2019. The decrease in revenue in 6M-Sept2020 was caused by an approximately 30% decrease in the revenue generated by the KFC and YKKO restaurants as a result of the COVID-19 impact from dine-in restrictions, stay at home notices and citywide curfews during the lockdown period in April, May and September 2020. This reduction in revenue was mitigated by the revenue of KOSPA being consolidated for the entire 6M-Sept2020 period as compared to only 3 months in 6M-Sept2019 after it became the Group's subsidiary in July 2019.

Gross profit margin of 32.3% in 6M-Sept2020 was lower than the 37.3% recorded in 6M-Sept2019. The decrease of gross profit margin in 6M-Sept2020 was mainly due to the decrease in consumer revenue which generates higher gross profit margins than other segments. This was partially offset by an improved gross profit margin in the automotive & heavy equipment segment due to the sales of higher margin tractors.

In 6M-Sept2020, the Group recorded other losses of US\$16.46 million as compared to other losses of US\$23.58 million in 6M-Sept2019. Other losses in both periods were mainly caused by fair value losses in investment properties that were offset by other gains such as interest income and currency translation differences. In 6M-Sept 2019, a fair value loss of US\$31.57 million was recognised for the Group's retail mall in Dalian while in 6M-Sept2020 fair value losses mainly related to the Group's investment properties in Myanmar that amounted to US\$12.11 million. Investment properties in Myanmar are held by subsidiaries which have a functional currency of MMK. However, the valuation of certain investment properties at the end of each financial year is determined in USD mainly due to (i) the rental being charged in USD and (ii) the selling prices of comparable properties in the Myanmar market being mostly determined in USD per square foot. As compared to 31 March 2019, USD had depreciated more than 13% against the MMK as at

30 September 2020. As a result, the fair value of the Group's investment properties was lower as at 30 September 2020 due to currency translation losses of approximately US\$33.73 million when translating the USD fair value of the investment properties in the MMK books of the respective subsidiaries. In accordance with SFRS(I) 1-21 The Effects of Changes in Foreign Exchange Rates, the effect of currency translation on non-monetary assets such as investment properties measured at fair value is recognized as part of the fair value remeasurement in profit or loss. The breakdown of the fair value loss of US\$12.11 million recorded in 6M-Sept2020 can be further analysed as follows:-

Effect of currency translation
Fair value gain in USD
Net fair value loss including effect of currency translation

US\$'million
33.73
(21.62)
12.11

In addition, the Group incurred impairment losses on agriculture assets of US\$5.63 million in 6M-Sept2020.

Included in finance expenses, net were the following items:-

Interest expenses on borrowings
Interest expenses on lease liabilities and deferred trade payables
Finance fee
Currency translation losses on borrowings, net

The Group

1.94	2.13						
1.18	1.37						
1.17 3.04							
12.93	18.51						

Interest expenses on borrowings decreased in 6M-Sept2020 as compared to 6M-Sept2019 due to a reduction in average borrowings outstanding during the reporting period and a lower interest rate environment as a result of falling USD LIBOR and MMK borrowing rates. Following the adoption of SFRS(I)16 *Leases*, the Group also recognised US\$1.94 million of interest expenses on leases liabilities which had increased as compared to 6M-Sept2019 mainly due to an increase in the number of restaurants in the consumer segment. Currency translation losses on borrowings in 6M-Sept2020 was lower mainly due to the weakening of USD against MMK and CNY in 6M-Sept2020 as compared to 6M-Sept2019.

Administrative expenses stood at US\$24.42 million in 6M-Sept2020 as compared to US\$27.94 million in 6M-Sept2019. Administrative expenses were mainly made up of staff costs, short-term leases of premises and the depreciation of property, plant and equipment. The decrease in administrative expenses was a result of cost control measures imposed during the COVID-19 period, including staff salary reductions, lower overheads and fewer professional fees incurred during 6M-Sept2020.

The Group recorded a share of losses of joint ventures of US\$1.24 million in 6M-Sept2020 as compared to share of profit of US\$0.17 million in 6M-Sept2019. This share of losses was mainly due to higher losses in BYMA where construction works at Yoma Central were impacted by COVID-19 and in Yoma Micropower where borrowing costs were higher due to additional funding secured for the rollout. These shares of losses were mitigated by the improvement in the Mitsubishi Motors joint venture where 483 vehicles were sold in 6M-Sept2020 as compared to 117 vehicles in 6M-Sept2019.

In 6M-Sept2020, the Group recognised a higher share of losses of associated companies of US\$6.71 million as compared to US\$1.85 million in 6M-Sept2019 which was the result of a higher share of losses in Memories Group due

to currency translation losses on its borrowings and impairment losses made on its operating assets following the impairment assessment performed by Memories Group in view of the COVID-19 impact on the tourism industry.

As a result of the above, the Group recorded a net loss attributable to equity holders of the Company of US\$44.59 million in 6M-Sept2020 as compared to US\$57.48 million in 6M-Sept2019.

#### Twelve months ended 30 September 2020

The Group's total revenue for the 12-month period ended 30 September 2020 ("12M-Sept2020") increased by 13.6% to US\$103.36 million as compared to US\$91.01 million in the previous corresponding 12-month period ended 30 September 2019 ("12M-Sept2019"). Set out below is the breakdown of revenue for 12M-Sept2020:

	12M-S	ept2020	12M-Sept2019		
	12101 3	As a	12111 30	As a

Investments	0.78	0.8%	0.82	0.9%	
Total	103.36	100.0%	91.01	100.0%	

Revenue generated from the real estate development segment increased more than 90% to US\$31.73 million in 12M-Sept2020 as compared to US\$16.20 million in 12M-Sept2019. For a large part of 12M-Sept2019, revenue from this segment came mainly from the POC recognition from previous sales of uncompleted development properties in Pun Hlaing Estate, StarCity Zone C and Yoma Central during the construction period. In November 2018, the Group launched City Loft at StarCity and sold 382 units in 12M-Sept2019. However, as construction of the initial 3 buildings in City Loft only started in April 2019, the total revenue recognized on a POC basis for City Loft was only US\$3.69 million in 12-Sept2019. During 12M-Sept2020, the Group continued to launch additional buildings in City Loft following strong demand from the market and achieved sales of an additional 264 units. The total revenue recognized for all the sold units in City Loft based on POC amounted to US\$23.20 million in 12M-Sept2020, and the remaining unrecognized revenue for City Loft stood at more than US\$12 million as at 30 September 2020. Furthermore, in 12M-Sept2020, the POC revenue recognized from the sales of Peninsula Residences units at Yoma Central was US\$5.24 million whereas it was only US\$2.75 million in 12M-Sept2019.

Real estate services revenue in 12M-Sept2020 was lower at US\$8.26 million as compared to US\$23.73 million in 12M-Sept2019. This decrease was mainly due to lower operator fee income (which is based on a share of the profit in Hlaing River Golf and Country Club Co. Limited ("HRGCCL") generated in 12M-Sept2020 as a result of the fair value loss recognised in HRGCCL's 12M-Sept2020 income statement due to the depreciation of USD against MMK as explained in the above paragraphs. On the contrary, in 12M-Sept2019 HRGCCL recognised a fair value gain in its income statement which generated a higher operator fee income for the Group in 12M-Sept2019. Without the impact of the operator fee income, the leasing revenue from the Group's investment properties in Myanmar and the estate management fee revenue generated from Pun Hlaing Estate and StarCity dropped slightly to US\$8.64 million in 12M-Sept2020 as compared to US\$9.41 million in 12M-Sept2019 due to a reduction in rental rates that was implemented to maintain occupancy levels.

Revenue from the Group's automotive & heavy equipment segment increased slightly to US\$23.80 million in 12M-Sept2020 as compared to US\$20.68 million in 12M-Sept2019. Revenue from New Holland tractors and JCB construction equipment was marginally lower at US\$17.10 million in 12M-Sept2020 as compared to US\$18.33 million in 12M-Sept2019. Revenue in the tractors business was affected by monsoon in both periods and more so at the beginning of 12M-Sept2020 with the negative COVID-19 impact from border closures and falling crop prices. 337 tractors were sold in 12M-Sept2020 as compared to 399 in 12M-Sept2019. Although the number of tractors sold fell by more than 15%, revenue decreased by less than 7% due to more higher value tractors being sold in 12M-Sept2020. The drop in revenue from the heavy equipment business was offset by the increase in revenue generated from the sales of Volkswagen vehicles and Ducati motorbikes where a total revenue of US\$5.76 million was recorded for 12M-Sept2020 as compared to US\$1.49 million in 12M-Sept2019. The Volkswagen business was in operation for the full period in 12M-Sept2020 and the total number of Volkswagen vehicles and Ducati motorbikes sold was 154 units and 72 units, respectively, as compared to 28 units and 32 units, respectively, in 12M-Sept2019.

Financial services revenue was generated by Yoma Fleet Limited. In 12M-Sept2020 revenue of US\$7.27 million was recorded as compared to US\$6.74 million in 12M-Sept2019. As at 30 September 2020, the total number of vehicles on lease was 1,352 as compared to 1,108 as at 30 September 2019. However, finance leases comprised 50.5% of Yoma Fleet's portfolio as at 30 September 2020 as compared to 38.3% as at 30 September 2019. Finance leases record a lower amount of revenue and higher margin as compared to operating leases. This resulted in revenue growth being not proportionate to the increase in the total number of vehicles on lease.

The Group recorded higher revenue of US\$31.52 million in its consumer segment in 12M-Sept2020 as compared to US\$22.84 million in 12M-Sept2019. The increase in the revenue was mainly due to the consolidation of YKKO and KOSPA for the entirety of 12M-Sept2020 as compared to 12M-Sept2019 when YKKO and KOSPA were consolidated in March 2019 and July 2019, respectively. This was partially mitigated by the COVID-19 impact on its restaurants business from dine-in restrictions, stay at home notices and citywide curfews during the lockdown period in April, May and September 2020.

Gross profit margins in 12M-Sept2020 were 32.0% while they were 49.8% in 12M-Sept2019 when there was a higher amount of operator fee income in the real estate services segment. Operator fee income has minimal corresponding direct cost of sales and therefore contributed relatively high gross profit margins. Other factors affecting the Group's gross profit margins included lower gross profit margins recorded in the real estate development segment due to lower margin products in StarCity as compared to Pun Hlaing Estate and in the consumer segment due to the (1) higher cost of packaging and delivery; and (2) logistic business having much lower margins than the restaurants business. These drops in gross profit margins were partially mitigated by improved gross profit margins in the automotive & heavy equipment segment due to the sales of higher margin tractors and automotive vehicles.

In 12M-Sept2020, the Group recorded net other losses of US\$11.62 million as compared to net other gains of US\$8.96 million in 12M-Sept2019. In 12M-Sept2020, net other losses included a fair value loss of US\$12.11 million on the Group's investment properties in Myanmar where the fair values of these investment properties were affected by the depreciation of USD against MMK during the period, as explained in paragraph above and the impairment loss made on the Group's agriculture assets of US\$5.63 million. These fair value and impairment losses were offset by a gain on disposal of US\$3.64 million in relation to the Group's investment in edotco and a fair value gain of US\$1.38 million on the Group's investment in a private equity fund. In 12M-Sept2019, net other gains included a fair value gain on the Group's investment properties in Myanmar amounting to US\$26.32 million, most of which came from newly added investment properties which previously carried low historical construction and/or land costs, a fair value gain of US\$8.47 million on the Group's investment in edotco and currency translation gains of US\$5.56 million. These gains were offset by a fair value loss of US\$31.57 million incurred on the disposal group held-for-sale in relation to the Group's investment in the retail mall in Dalian, China.

Included in finance expenses, net were the following items:-

Interest expenses on borrowings
Interest expenses on lease liabilities and deferred trade payables
Finance fee
Currency translation (gain)/losses on borrowings, net

The Group

30.09.2020	30.09.2019						
19.89	22.05						
4.17	2.51						
2.51	2.21						
(4.97) 2.83							
21.60	29.60						

Interest expenses on borrowings decreased in 12M-Sept2020 as compared to 12M-Sept2019 due to a reduction in average borrowings outstanding during the period and a lower interest rate environment as a result of falling USD LIBOR and MMK borrowing rates. Following the adoption of SFRS(I)16 *Leases*, the Group also recognised US\$4.11 million of interest expenses on leases liabilities in 12M-Sept2020. Given that the Group adopted SFRS(I)16 in April 2019, interest expenses on lease liabilities in 12M-Sept2019 was only for a period of six months and amounted to US\$1.97 million. Currency translation gains on borrowings in 12M-Sept2020 was mainly due to the weakening of USD against THB for the period while the currency translation losses in 12M-Sept2019 was mainly due to the weakening of USD against THB for that period.

Administrative expenses were mainly made up of staff costs, short-term leases of premises and the depreciation of property, plant and equipment and stood at US\$55.12 million for 12M-Sept2020 and US\$50.26 million for 12M-Sept2019. The increase in administrative expenses was mainly due to the consolidation of YKKO and KOSPA for the entirety of 12M-Sept2020 as compared to 12M-Sept2019 when YKKO and KOSPA were consolidated in March 2019 and July 2019, respectively.

The Group recorded a higher share of losses of joint ventures of US\$1.81 million in 12M-Sept2020 as compared to US\$0.90 million in 12M-Sept2019. The share of losses in 12M-Sept2020 increased mainly due to the higher losses recorded at Yoma Micro Power (which was a result of the higher borrowing costs due to the financing required for expansion) and BYMA (which was a result of the negative COVID-19 impact where construction works at Yoma Central were delayed). These higher shares of losses were offset by an improvement in the results of the Mitsubishi Motors joint venture which sold 793 vehicles in 12M-Sept2020.

Share of losses of associated companies improved to US\$5.48 million for 12M-Sept2020 as compared to US\$8.20 million in 12M-Sept2019. The higher share of losses in 12M-Sept 2019 was mainly due to (1) the dilutive effects of Memories Group issuing additional shares for new acquisitions which reduced the Group's effective interest in the net assets of Memories Group; and (2) the incurrence of market entry costs by Access Myanmar Distribution Company Limited ("AMDC") which launched two new whiskeys during 12M-Sept2019 under the Seagram's brand umbrella. In 12M-Sept2020, the share of profits from Wave Money of US\$6.15 million also offset the shares of losses from Memories Group and Seagram MM (restructured from AMDC). The share of losses in Memories was higher in 12M-Sept2020 due to impairment losses made on its operating assets following the impairment assessment performed by Memories Group in view of the COVID-19 impact on the tourism industry.

As a result of the above, the Group incurred a net loss attributable to equity holders of the Company of US\$60.53 million in 12M-Sept2020 as compared to US\$36.85 million in 12M-Sept2019.

#### **Eighteen months ended 30 September 2020**

Due to the change of the financial year end from 31 March to 30 September, the compliance results for the financial period covers an eighteen-month period from 1 April 2019 to 30 September 2020 ("18M-Sept2020). Given the difference in the number of months and the seasonality of the Group's various businesses, the financial results of 18M-Sept2020 are not meaningfully comparable to those of 12 months ended 31 March 2019 ("FY2019"). For the purposes of providing a more meaningful comparison and better understanding of the financial results of the Group, the Company also included the unaudited financial statements for a 12-month period from 1 October 2019 to 30 September 2020 ("12M-Sept2020") and a 12-month period from 1 October 2018 to 30 September 2019 ("12M-Sept2019") as comparative figures.

The performance review of the Group's results for the first 6-month period from 1 April 2019 to 30 September 2019 had been included in the Group's announcements for the quarters ended 30 June 2019 and 30 September 2019. For the performance review of the Group for the remaining 12-month period from 1 October 2019 to 30 September 2020, please refer to the above section.

#### STATEMENT OF FINANCIAL POSITION

Net assets attributable to equity holders stood at US\$599.31 million as at 30 September 2020 as compared to US\$554.51 million as at 31 March 2019. The increase was due to the increase of share capital resulting from the issuance of 332.50 million of placement shares for gross proceeds of US\$108.57 million and the gain of US\$18.25 million arising from the dilution of the Group's 20% interest in Yoma Fleet as a result of the issuance of new shares to non-controlling interests that was recognised directly in the Group's retained profits. This increase was offset by the reduction in retained profits due to the net loss of US\$118.01 million recorded in 18M-Sept2020.

Assets of disposal group classified as held-for sale and liabilities directly associated with disposal group held-for-sale relate to the Group's investment in the retail mall in Dalian which are held through the Group's subsidiaries, Wayville Investments Limited ("Wayville") and Xun Xiang (Dalian) Enterprise Co., Ltd. ("Xun Xiang"). As at 30 September 2020, included in the Group's assets was the retail mall with fair value of US\$32.24 million. The borrowing in Xun Xiang was fully repaid as at 30 September 2020.

Non-current assets increased from US\$677.13 million as at 31 March 2019 to US\$757.96 million as at 30 September 2020. The increase was mainly due to the increase in property, plant and equipment of US\$117.37 million as a result of the recognition of right-of-use assets following the adoption of SFRS(I) 16 and the reclassification of costs related to the hotel/serviced apartments building at Yoma Central from development properties to "Construction-in-progress" within property, plant and equipment. This increase in property, plant and equipment was mitigated by the decrease in the value of investment properties from US\$310.36 million as at 31 March 2019 to US\$273.38 million as at 30 September 2020 as the Group reclassified the retail mall in Dalian to "Assets of disposal group classified as held-for-sale".

Current assets increased from US\$524.75 million as at 31 March 2019 to US\$552.99 million as at 30 September 2020. The increase was mainly due to the increase in development properties from US\$276.94 million to US\$299.47 million in relation to the additional construction costs incurred for the Yoma Central project, which totaled to US\$239.07 million as at 30 September 2020, and City Loft at StarCity. The increase was partially offset by the recognition of costs relating to sold residential units primarily at City Loft at StarCity and The Peninsula Residences at Yoma Central in profit or loss.

Current liabilities as at 30 September 2020 was US\$173.73 million as compared to US\$196.43 million as at 31 March 2019. The decrease was mainly due to the repayment of current bank borrowings.

Non-current liabilities increased from US\$303.86 million as at 31 March 2019 to US\$375.51 million as at 30 September 2020. The major movements in the non-current liabilities were as follows:-

- increase in lease liabilities of US\$52.24 million following the adoption of SFRS(I) 16;
- decrease in shareholders' loan from non-controlling interests of US\$17.81 million as a result of the reclassification of the shareholders' loan to equity in Yoma Central; and
- increase in non-current borrowings of US\$56.12 million, mainly due to additional borrowings of US\$67.50 million drawn down by Yoma Central that was partially offset by the repayment of bank borrowings.

#### **CASHFLOW STATEMENT**

Cash and bank balances stood at US\$46.42 million as at 30 September 2020 as compared to US\$29.88 million as at 31 March 2019. Included in the cash and bank balances as at 30 September 2020 were bank balances amounting to US\$10.94 million (31 March 2019: US\$14.39 million) which were restricted for use in debt service reserve accounts in relation to certain loans. In 18M-Sept2020, the Group increased its cash from financing activities which amounted to US\$144.83 million to fund mainly its investing activities.

Myanmar has been experiencing its second wave of COVID-19 transmission since September, which has led to Yangon seeing an increase in the number of positive cases. In response, the Myanmar Government implemented stricter COVID-19 response measures, including restricting movements between townships, stay home orders and prohibitions on dine-in for restaurants. Authorities are now easing some of the measures, and economic activities are gradually recovering.

Myanmar held its second democratic general election on 8 November 2020. The election results showed that the National League for Democracy (NLD) party won a majority of the seats in Parliament, surpassing the number of seats that they won in the 2015 election, and will form the next Government. The results reflect Daw Aung San Suu Kyi's broad support in the country and will allow the ruling party to continue its economic and constitutional reforms.

With the easing of the COVID-19 measures and the successful conclusion to the election, the Group is cautiously optimistic on the outlook for Myanmar's economy as the Government is expected to focus on various growth initiatives and attracting foreign investment during its next five-year term. Furthermore, the impact of the COVID-19 response is expected to provide the catalyst for a more rapid pace of economic transformation, which bodes well for the Group's businesses.

The Group's real estate business continues to see momentum. Star Villas Phase 2 will launch in the coming months following the success of Star Villas Phase 1 at StarCity. The Group is also looking to enhance and expand the development plan for StarCity to transform it into a commercial and activity hub. There are also plans for more City Loft projects in other locations in Yangon. Yoma Central has commenced its leasing activities and is in advanced negotiations with anchor tenants for its office and retail spaces.

Yoma Strategic Holdings Ltd (Company Registration No.: 196200185E)

In line with the trend of more people opting for cashless transactions, Wave Money continues to gain traction on digital payment solutions and has reached its target of 1.3 million digital MAUs in November 2020, ahead of its targeted timeline.

Meanwhile, Yoma F&B and Yoma Motors are expected to see some slowdown in their businesses until dine-in restrictions are lifted and the registration offices for motor vehicles are reopened, respectively.

The effects of Covid-19 will likely pose uncertainties going forward. Nevertheless, the Group will continue to monitor the evolving situation of the pandemic and shall adjust and react proactively with appropriate countermeasures to minimise the impact to the Group, including preserving cash, cost management measures and the deferment of non-essential operating and capital expenditures. The Board and the Group's senior management have also voluntarily extended the 25 per cent reduction in directors' fees and salaries for another six months. Furthermore, the Group has put in place various temporary funding arrangements to bolster its liquidity position and to provide for certain investments at its projects, in particular in relation to Yoma Central.

#### Strategic Updates

- The long stop date for the completion of the proposed acquisition of Wave Money from the Telenor Group has been extended to 31 January 2021.
- The Group is working with Ayala Corporation to complete its subscription of the second tranche placement shares within the next six months.

The Company will update shareholders in relation to the above announcements released on 12 and 13 November 2020 respectively as and when appropriate.
