JARDINE CYCLE & CARRIAGE LIMITED 2016 HALF YEAR FINANCIAL STATEMENTS AND DIVIDEND ANNOUNCEMENT

Highlights

- Underlying earnings per share down 15%
- Lower rupiah earnings at Astra
- Contribution from Direct Motor Interests up 13%

“The challenges affecting Astra’s businesses in the first half are likely to persist for the remainder of the year, although steady performances are expected from its consumer finance and automotive operations. Elsewhere, it is anticipated that competitive pressures will continue to affect the Group’s Direct Motor Interests and Other Interests.”

CHAIRMAN'S STATEMENT

Overview

The Group's underlying profit declined in the first six months of the year due to a reduced contribution from Astra. Lower earnings in Astra's financial services and heavy equipment and mining businesses were only partly offset by increases in its automotive, agribusiness, and infrastructure, logistics and other businesses. The Group's Direct Motor Interests and Other Interests produced improved contributions.

Performance

The Group's revenue for the first half declined by 6% to US\$7.7 billion with lower revenue within Astra's heavy equipment and mining and agribusiness activities, while the revenue contribution from Astra's Toyota sales operations was also reduced following the introduction of a two-tiered distribution model at the beginning of the year.

Underlying profit attributable to shareholders was 8% lower at US\$332 million and earnings per share were 15% lower at US¢83, the greater decline reflecting the effects of the rights issue undertaken in 2015. Profit attributable to shareholders at US\$328 million, after accounting for a small non-trading loss, was 9% lower than the previous year.

Astra contributed US\$249 million to the Group's underlying profit, as a 12% decline in its rupiah results was translated into a 15% fall in US dollars. The rupiah was on average 3% weaker than in the first half of the previous year. The Group's Direct Motor Interests contributed an underlying profit of US\$78 million, 13% up on the previous year, while the Group's Other Interests contributed US\$15 million, 29% higher.

At 30th June 2016, the Group had consolidated net cash of US\$355 million, excluding borrowings within Astra's financial services subsidiaries. The US\$100 million improvement over the net cash at the end of December 2015 was due largely to strong operating cashflows and lower capital expenditure. Net debt within Astra's financial services subsidiaries was US\$3.4 billion at the end of June, compared to US\$3.2 billion at the end of last year.

The Board has declared an interim one-tier tax exempt dividend of US¢18 per share (2015: US¢18 per share).

Group Review

Astra

Astra reported a net profit equivalent to US\$530 million under Indonesian accounting standards, 12% down in its reporting currency. The group's net income for the period fell, despite higher automotive profits that benefited from new model launches, as weak commodity prices adversely affected its heavy equipment, mining contracting and agribusiness operations, and a significant increase in loan-loss provisions at Permata Bank led to a lower contribution from financial services.

Automotive

The group's overall automotive sales improved slightly during the period largely due to the new model introductions, which also had a positive effect on margins.

The wholesale market for cars increased by 1% to 532,000 units. Astra's car sales were 4% higher at 273,000 units, resulting in an increase in market share from 50% to 51%. The group launched six new models and five revamped models during the period.

The wholesale market for motorcycles decreased by 7% to 3.0 million units. Astra Honda Motor's domestic sales were 1% higher at 2.2 million units, resulting in its market share increasing from 67% to 73%. Astra Honda Motor launched three new models and seven revamped models during the period.

Net income at Astra Otoparts, the group's component business, was little changed at US\$11 million with increased revenue from its OEM, after-market and export segments largely offset by higher operating costs and a foreign exchange translation loss in its associated companies.

Financial Services

Net income from the group's financial services businesses decreased 40% to US\$93 million. Higher earnings at Federal International Finance and Toyota Astra Financial Services were more than offset by a decline in the contribution from the group's other financial services businesses, particularly Permata Bank.

The consumer finance businesses saw a 13% increase in the amount financed, which rose to US\$2.7 billion, including balances financed through joint bank financing without recourse. The car-focused Astra Sedaya Finance reported net income 15% lower at US\$32 million, whereas Toyota Astra Financial Services recorded net income 8% higher at US\$12 million. Motorcycle-focused Federal International Finance's net income was up 22% at US\$60 million, benefiting from an improved market share and product diversification.

The amount financed through the group's heavy equipment-focused finance operations decreased by 11% to US\$140 million. Surya Artha Nusantara Finance, which specialises in small and medium heavy equipment financing, reported net income 46% lower at US\$3 million.

Astra's 45%-held joint venture, Permata Bank, reported a net loss of US\$62 million compared with a net income of US\$64 million in the first half of 2015. The decline was due to a significant increase in loan-loss provisions as non-performing loans rose to 4.6% from 2.7% at the end of 2015. In order to strengthen its capital base, the bank completed a rights issue in June which raised some US\$400 million.

The group's general insurance company, Asuransi Astra Buana, recorded net income 17% lower at US\$30 million, primarily due to reduced investment earnings.

During the first six months, the group's life insurance joint venture with Aviva plc, Astra Aviva Life, acquired more than 50,000 individual life customers and more than 100,000 participants for its corporate employee benefits programmes, compared with 28,500 and 186,000, respectively, in the whole of 2015.

Heavy Equipment and Mining

United Tractors, which is 60%-owned, reported net income 46% lower at US\$138 million, which reflected lower business volumes and the impact from the stronger rupiah on translation of its US dollar monetary assets. In its construction machinery business, revenue declined 6% as Komatsu heavy equipment sales fell by 25% to 1,036 units, while parts and service revenue also declined. The contract mining operations of Pamapersada Nusantara recorded a 22% decrease in revenue. Contract coal production declined 4% to 50 million tonnes and contract overburden removal was down 9% at 339 million bank cubic metres. United Tractors' mining subsidiaries reported 58% higher coal sales at 4.5 million tonnes.

General contractor Acset Indonusa which is just over 50%-held by United Tractors, reported an increase in net income from US\$0.4 million to US\$2 million. It secured new contracts worth US\$178 million in the first half, compared with US\$228 million in 2015 as a whole. To support its business growth, Acset completed a rights issue in June raising about US\$40 million.

Agribusiness

Astra Agro Lestari, which is 80%-owned, reported net income up 78% to US\$59 million, despite lower sales volume and crude palm oil prices, due to the benefit of a stronger rupiah on translation of its US dollar monetary liabilities. Crude palm oil sales were 9% lower at 502,000 tonnes, while average crude palm oil prices achieved were 4% lower at Rp7,342/kg compared with the prior year. Olein sales were 5% lower at 184,000 tonnes. Astra Agro Lestari completed a US\$300 million rights issue in June to strengthen its balance sheet.

Infrastructure, Logistics and Others

Net income from infrastructure, logistics and others increased by 156% to US\$13 million, mainly due to higher earnings from its toll roads, used vehicles and logistics businesses.

The 72.5km Tangerang-Merak toll road, operated by 79%-owned Marga Mandalasakti, reported a 4% increase in traffic volumes to 23 million vehicles. Construction continues at the wholly-owned 40.5km Jombang-Mojokerto (previously named Kertosono-Mojokerto) toll road near Surabaya. The 14.7km section 1 began operation in October 2014, and has reported an increase in traffic volumes to 0.3 million vehicles. Further stages are expected to be operational during 2016 and 2017, subject to the timely completion of land acquisitions. The 72.6km Semarang-Solo toll road, in which Astratel acquired a 25% interest in July 2015, now has operational the 22.8km of sections 1 and 2. In April 2016, a consortium in which Astratel has a 25% interest, was awarded the concession right for the greenfield 30.0km Serpong-Balaraja toll road. Taken together with Astratel's 40% interest in the greenfield 11.2km Kunciran-Serpong toll road on Jakarta's outer ring road, the group has an interest in 226.8km of toll roads.

PAM Lyonnaise Jaya, which operates the western Jakarta water utility system, experienced a 4% improvement in sales volume to 80 million cubic metres.

Serasi Autoraya's revenue increased by 4% and net income increased by 63% to US\$3 million. Higher used vehicle sales and logistics volumes outweighed the effect of an 8% decline in contracted vehicles in its car leasing and rental business.

Construction of the 91%-sold Anandamaya Residences, the group's 60%-owned luxury residential development project located in Jakarta's Central Business District, is on schedule for completion in 2018 together with the group's adjacent grade A office tower, Menara Astra.

Information Technology

Astra Graphia, 77%-owned, which is active in the area of document information and communication technology solutions and is the sole distributor of Fuji Xerox office equipment in Indonesia, reported a 3% decline in net income to US\$7 million, despite increased revenue.

Direct Motor Interests

The Group's Direct Motor Interests produced a profit of US\$78 million, 13% up on the previous year. In Vietnam, Truong Hai Auto Corporation's earnings increased due to higher unit sales, although margins declined due to competitive pressures. Profits in the Singapore Motor Operations also rose, benefiting from increases in sales of passenger cars and used cars. In Malaysia, Cycle & Carriage Bintang's contribution was slightly lower as an increase in unit sales was offset by lower margins due to a change in sales mix and the effect of the weaker ringgit when translated to US dollars on consolidation. In Indonesia, Tunas Ridean's contribution was up due to improved profit from motor vehicles and its 49%-owned associate, Mandiri Tunas Finance.

Other Interests

The Group's Other Interests comprising 24.9%-held Siam City Cement Public Company Limited ("SCCC") in Thailand and 23%-held Refrigeration Electrical Engineering Corporation ("REE") in Vietnam, contributed US\$15 million, 29% higher than the previous year. This was mainly due to the incorporation of a half year's results of SCCC, compared to three months in 2015 following the acquisition of the shareholding interest in April of that year.

SCCC announced a profit equivalent to US\$73 million for the first six months, down 8% in its reporting currency due to reduced domestic cement prices and lower sales volumes, partly offset by lower energy costs. As REE has yet to announce its second quarter results, its contribution is based on its first quarter performance, which was down due to lower contributions from its power and water utility activities. REE's second quarter results are not expected to have a material impact to the Group and will be accounted for in the third quarter.

Outlook

The challenges affecting Astra's businesses in the first half are likely to persist for the remainder of the year, although steady performances are expected from its consumer finance and automotive operations. Elsewhere, it is anticipated that competitive pressures will continue to affect the Group's Direct Motor Interests and Other Interests.

Jardine Cycle & Carriage Limited
Notes to the financial statements for the six months ended 30th June 2016

1 Basis of preparation

The financial statements are consistent with those set out in the 2015 audited accounts which have been prepared in accordance with International Financial Reporting Standards ("IFRS"). There have been no changes to the accounting policies described in the 2015 audited accounts except for the adoption of the following amendments:

Amendments to IFRS 11	Accounting for Acquisitions of Interests in Joint Operations
Amendments to IAS 1	Disclosure Initiative: Presentation of Financial Statements
Amendments to IAS 16 and IAS 38	Clarification of Acceptable Methods of Depreciation and Amortisation
Amendments to IAS 16 and IAS 41	Agriculture: Bearer Plants
Annual Improvements to IFRSs	2012 – 2014 Cycle

The adoption of these amendments did not have any impact on the results of the Group except for the adoption of IAS 16 'Property, Plant and Equipment' and IAS 41 'Agriculture'. These IASs provide definition to a bearer plant and require bearer plants to be accounted for in the same way as property, plant and equipment in IAS 16, because their operation is similar to that of manufacturing. Consequently, the amendments include them within the scope of IAS 16, instead of IAS 41. The produce growing on bearer plants will remain within the scope of IAS 41. The adoption of these amendments has been accounted for retrospectively and the comparative financial statements have been restated. The adoption has resulted in a decrease in the profit attributable to shareholders for the six months ended 30th June 2015 by US\$2.8 million and a decrease in the shareholders' funds as at 31st December 2015 by US\$100.8 million.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. Estimates and judgments used in preparing the financial statements are regularly evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The resulting accounting estimates will, by definition, seldom equal the related actual results.

The exchange rates used for translating assets and liabilities at the balance sheet date are US\$1=S\$1.3489 (2015: US\$1=S\$1.4144), US\$1=RM4.0212 (2015: US\$1=RM4.2945), US\$1=IDR13,180 (2015: US\$1=IDR13,795), US\$1=VND22,310 (2015: US\$1=VND22,495) and US\$1=THB35.2080 (2015: US\$1=THB36.1000).

The exchange rates used for translating the results for the period are US\$1=S\$1.3765 (2015: US\$1=S\$1.3499), US\$1=RM4.0546 (2015: US\$1=RM3.6550), US\$1=IDR13,419 (2015: US\$1=IDR13,009), US\$1=VND22,303 (2015: US\$1=VND21,579) and US\$1=THB35.4380 (2015: US\$1=THB33.0007).

Corporate Profile

Jardine Cycle & Carriage ("JC&C") is a leading Singapore-listed company and a member of the Jardine Matheson Group. It has an interest of just over 50% in Astra International ("Astra"), a premier listed Indonesian conglomerate, as well as Direct Motor Interests and Other Interests in Southeast Asia. Together with its subsidiaries and associates, JC&C employs some 245,000 people across Indonesia, Vietnam, Singapore, Thailand, Malaysia and Myanmar.

Astra is the largest independent automotive group in Southeast Asia, with further interests in financial services, heavy equipment and mining, agribusiness, infrastructure, logistics and others, and information technology. JC&C's Direct Motor Interests operate in Singapore, Malaysia and Myanmar under the Cycle & Carriage banner, and through Tunas Ridean in Indonesia and Truong Hai Auto Corporation in Vietnam. JC&C's Other Interests comprise interests in market leading businesses in the region through which JC&C gains exposure to key economies by supporting such businesses in their long term development.

Jardine Matheson is a diversified business group focused principally on Asia. Its businesses comprise a combination of cash generating activities and long-term property assets. In addition to its 75% shareholding in the Company, the Jardine Matheson Group's interests include Jardine Pacific, Jardine Motors, Jardine Lloyd Thompson, Hongkong Land, Dairy Farm and Mandarin Oriental. These companies are leaders in the fields of engineering and construction, transport services, motor vehicles, insurance broking, property investment and development, retailing, restaurants and luxury hotels.
