CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements that involve a number of risks and uncertainties. Although our forward-looking statements reflect the good faith judgment of our management, these statements can be based only on facts and factors of which we are currently aware. Consequently, forward-looking statements are inherently subject to risks and uncertainties. Actual results and outcomes may differ materially from results and outcomes discussed in the forward-looking statements.

Forward-looking statements can be identified by the use of forward-looking words such as "may," "will," "should," "anticipate," "believe," "expect," "plan," "future," "intend," "could," "estimate," "predict," "hope," "potential," "continue," or the negative of these terms or other similar expressions. Such forward-looking statements are based on our management's current plans and expectations and are subject to risks, uncertainties and changes in plans that may cause actual results to differ materially from those anticipated in the forward-looking statements. You should be aware that, as a result of any of these factors materializing, the trading price of our common stock may decline. These factors include, but are not limited to, the following:

- the availability and adequacy of capital to support and grow our business;
- economic, competitive, business and other conditions in our local and regional markets;
- actions taken or not taken by others, including competitors, as well as legislative, regulatory, judicial and other governmental authorities;
- competition in our industry;
- changes in our business and growth strategy, capital improvements or development plans;
- the availability of additional capital to support development; and
- other factors discussed elsewhere in this annual report.

The cautionary statements made in this quarterly report are intended to be applicable to all related forward-looking statements wherever they may appear in this report.

We urge you not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We undertake no obligation to publicly update any forward looking-statements, whether as a result of new information, future events or otherwise.

HOTAPP INTERNATIONAL, INC.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. The Company History and Nature of the Business

Hotapp International, Inc., formerly Fragmented Industry Exchange, Inc., (the "Company" or "Group") was incorporated in the State of Delaware on March 7, 2012 and established a fiscal year end of December 31st. The Company's initial business plan was to be a financial acquisition intermediary which would serve buyers and sellers for companies that are in highly fragmented industries. The Company determined it was in the best interest of the shareholders to expand its business plan. On October 15, 2014, through a sale and purchase agreement (the "Purchase Agreement") the Company acquired all the issued and outstanding stock of HotApps International Pte Ltd (the "HIP") from Singapore eDevelopment Limited ("SeD"). HIP owned certain intellectual property relating to instant messaging for portable devices (the "HotApp"). HotApp is a cross-platform mobile application that incorporates instant messaging and ecommerce. It provides a messaging and calling services for HotApp users (text, photo, audio). HotApp can be used on any mobile platform (i.e. IOS Online or Android).

Pursuant to a Purchase Agreement, the Company issued SeD 1,000,000 shares of common stock and 13,800,000 shares of newly created convertible preferred stock. See Note 5 for further description.

As of June 30, 2017, details of the Company's subsidiaries are as follows:

Subsidiaries	Date of Incorporation	Place of Incorporation	Percentage of Ownership
1st Tier Subsidiary:			
HotApps International Pte Ltd ("HIP")	May 23, 2014	Republic of Singapore	100% by Company
2nd Tier Subsidiaries:			
HotApps Call Pte Ltd	September 15, 2014	Republic of Singapore	100% owned by HIP
HotApps Information Technology Co Ltd	November 10, 2014	People's Republic of China	100% owned by HIP
HotApp International Limited*	July 8, 2014	Hong Kong (Special Administrative Region)	100% owned by HIP

* On March 25, 2015, HotApps International Pte Ltd acquired 100% of issued share capital in HotApp International Limited.

The financial statements have been prepared using accounting principles generally accepted in the United States of America applicable for a going concern, which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. Since inception, the Company has incurred net losses of $4,944,990 and has net working capital deficit of $522,096 at June 30, 2017. Management has concluded that due to the conditions described above, there is substantial doubt about the entities ability to continue as a going concern through August 14, 2018. We have evaluated the significance of the conditions in relation to our ability to meet our obligations and believe that our current cash balance along with our current operations will not provide sufficient capital to continue operation through 2017. Our ability to continue as a going concern is dependent upon achieving sales growth, the management of operating expenses and the ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due, and upon profitable operations.

Our majority shareholder has advised us not to depend solely on it for financing. We have increased our efforts to raise additional capital through equity or debt financing from other sources. However, we cannot be certain that such capital (from our shareholders or third parties) will be available to us or whether such capital will be available on terms that are acceptable to us. Any such financing likely would be dilutive to existing stockholders and could result in significant financial operating covenants that would negatively impact our business. If we are unable to raise sufficient additional capital on acceptable terms, we will have insufficient funds to operate our business or pursue our planned growth.

These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

Note 2. Summary of Significant Accounting Policies

Basis of presentation

The condensed consolidated balance sheet at December 31, 2016 was derived from audited financial statement but does not include all disclosures required by accounting principles generally accepted in the United States of America. The other information in these condensed financial statements are unaudited but, in the opinion of management, reflect all adjustments necessary for a fair presentation of the results for the periods covered. All such adjustments are of a normal recurring nature unless disclosed otherwise. These condensed financial statements, including notes, have been prepared in accordance with the applicable rules of the Securities and Exchange Commission and do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. These condensed financial statements should be read in conjunction with the financial statements and additional information as contained in our Annual Report on Form 10-K for the year ended December 31, 2016.

Basis of consolidation

The consolidated financial statements of the Group include the financial statements of Hotapp International, Inc. and its subsidiaries. All inter-company transactions and balances have been eliminated upon consolidation.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and revenues, cost and expenses in the financial statements and accompanying notes. Significant accounting estimates reflected in the Group's consolidated financial statements include revenue recognition, the useful lives and impairment of property and equipment, valuation allowance for deferred tax assets and share-based compensation.

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and highly liquid investments, which are unrestricted from withdrawal or use, or which have original maturities of three months or less when purchased.

Foreign currency risk

Because of its foreign operations, the Company holds cash in non-US dollars. As of June 30, 2017, cash and cash equivalents of the Group include, on an as converted basis to US dollars $51,697, $59,940 and $18,790 in Hong Kong Dollars ("HK$"), Reminbi ("RMB") and Singapore Dollars ("S$"), respectively.

The Renminbi ("RMB") is not a freely convertible currency. The State Administration for Foreign Exchange, under the authority of the People's Bank of China, controls the conversion of RMB into foreign currencies. The value of the RMB is subject to changes in central government policies and to international economic and political developments affecting supply and demand in the China Foreign Exchange Trading System market.

Concentration of credit risk

Financial instruments that potentially expose the Group to concentration of credit risk consist primarily of cash and cash equivalents. The Group places their cash with financial institutions with high-credit ratings and quality.

Fixed assets, net

Property and equipment are stated at cost less accumulated depreciation. Depreciation is calculated on a straight-line basis over the following estimated useful lives:

Office equipment	3 years
Computer equipment	3 years
Furniture and fixtures	3 years
Motor vehicles	10 years

Fair value

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Group considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability.

Revenue recognition

The Group recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed or determinable, and collectability is reasonably assured. The Group currently has $103,936 revenue from its services rendered on projects, and plans to derive its revenue from membership subscription services, offering the platform for Enterprise Collaboration with integration. Revenue is currently recognized under contract accounting due to the significant software production required, and the percentage-of-completion method is used in accordance with ASC 605-35. The Company is recognizing the percentage-of-completion based on input measures that measured directly from expenses incurred, and management reviews the progress to completion. In case of the 3% iGalen revenue sharing, revenue is recognized in accordance with ASC 985-605-25.

Research and development expenses

Research and development expenses primarily consist of (i) salaries and benefits for research and development personnel, and (ii) office rental, general expenses and depreciation expenses associated with the research and development activities. The Company's research and development activities primarily consist of the research and development of new features for its mobile platform and its self-developed mobile games. Expenditures incurred during the research phase are expensed as incurred.

Income taxes

Current income taxes are provided for in accordance with the laws of the relevant tax authorities. Deferred income taxes are recognized when temporary differences exist between the tax bases of assets and liabilities and their reported amounts in the consolidated financial statements. Net operating loss carry forwards and credits are applied using enacted statutory tax rates applicable to future years. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more-likely-than-not that a portion of or all of the deferred tax assets will not be realized. The components of the deferred tax assets and liabilities are individually classified as current and non-current based on their characteristics.

The impact of an uncertain income tax position on the income tax return is recognized at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained. Interest and penalties on income taxes will be classified as a component of the provisions for income taxes. The Group did not recognize any income tax due to uncertain tax position or incur any interest and penalties related to potential underpaid income tax expenses for the years ended December 31, 2016 or 2015, respectively.

Uncertainties exist with respect to the application of the New EIT Law to our operations, specifically with respect to our tax residency. The New EIT Law specifies that legal entities organized outside of the PRC will be considered residents for PRC income tax purposes if their "de facto management bodies" as "establishments that carry on substantial and overall management and control over the operations, personnel, accounting, properties, etc. of the Company." Because of the uncertainties that have resulted from limited PRC guidance on the issue, it is uncertain whether our legal entities outside the PRC constitute residents under the New EIT Law. If one or more of our legal entities organized outside the PRC were characterized as PRC residents, the impact would adversely affect our results of operations.

Foreign currency translation

The functional and reporting currency of the Company is the United States dollar ("U.S. dollar"). The financial records of the Company's subsidiaries located in Singapore, Hong Kong and the PRC are maintained in their local currencies, the Singapore Dollar (S$), Hong Kong Dollar (HK$) and Renminbi ("RMB"), which are also the functional currencies of these entities.

Monetary assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency at the rates of exchange ruling at the balance sheet date. Transactions in currencies other than the functional currency during the year are converted into functional currency at the applicable rates of exchange prevailing when the transactions occurred. Transaction gains and losses are recognized in the statement of operations.

The Company's entities with functional currency of Renminbi, Hong Kong Dollar and Singapore Dollar, translate their operating results and financial positions into the U.S. dollar, the Company's reporting currency. Assets and liabilities are translated using the exchange rates in effect on the balance sheet date. Revenues, expenses, gains and losses are translated using the average rate for the year. Translation adjustments are reported as cumulative translation adjustments and are shown as a separate component of comprehensive income (loss).

For the six months ended June 30, 2017, the Company recorded other comprehensive loss from translation loss of $121,667 in the consolidated financial statements.

Operating leases

Leases where the rewards and risks of ownership of assets primarily remain with the lessor are accounted for as operating leases. Payments made under operating leases are charged to the consolidated statements of operations on a straight-line basis over the lease periods.

Comprehensive income (loss)

Comprehensive income (loss) include gains (losses) from foreign currency translation adjustments. Comprehensive income (loss) is reported in the consolidated statements of operations and comprehensive loss.

Loss per share

Basic loss per share is computed by dividing net loss attributable to shareholders by the weighted average number of shares outstanding during the period.

The Company's convertible preferred shares are not participating securities and have no voting rights until converted to common stock. As of June 30, 2017, no shares of preferred stock are eligible for conversion into voting common stock.

Recent accounting pronouncements not yet adopted

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (Topic 606) (ASU 2014-09), which amends the existing accounting standards for revenue recognition. In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, which delays the effective date of ASU 2014-09 by one year. The FASB also agreed to allow entities to choose to adopt the standard as of the original effective date. We do not expect the adoption of this guidance to have a significant effect on our consolidated financial statements.

In November 2015, the FASB issued Accounting Standards Update No. 2015-17, Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes (ASU 2015-17), which simplifies the presentation of deferred income taxes by requiring deferred tax assets and liabilities be classified as noncurrent on the balance sheet. The updated standard is effective for us beginning on January 1, 2017. We do not expect the adoption of this guidance to have a significant effect on our consolidated financial statements.

On Feb. 25, 2016, the Financial Accounting Standards Board (FASB) released Accounting Standards Update No. 2016-02, Leases (Topic 842) (the Update). The new leasing standard presents dramatic changes to the balance sheets of lessees. Lessor accounting is updated to align with certain changes in the lessee model and the new revenue recognition standard. The Company does not expect the adoption of ASU No. 2016-02 to have a material impact on its financial statements.

Note 5. SHARE CAPITALIZATION

The Company is authorized to issue 1 billion shares of common stock and 15 million shares of preferred stock. The authorized share capital of the Company's common stock was increased from 500 million to 1 billion on May 5, 2017. Both share types have a $0.0001 par value. As of June 30, 2017 and 2016, the Company had issued and outstanding, 506,898,576 and 5,909,687 of common stock, respectively and 0 and 13,800,000 shares of preferred stock, respectively.

Common Shares:

On July 13, 2015, SED acquired 777,687 shares of the Company common stock by converting outstanding loans made to the Company into common stock of the Company at a rate of $5.00 per share (rounded to the nearest full share). After such transactions SED owned 98.17% of the Company.

On March 27, 2017, the Company entered into a Loan Conversion Agreement with SeD, pursuant to which SeD agreed to convert $450,890 of debt owed by Company to SeD into 500,988,889 common shares at a conversion price of $0.0009. The captioned shares were issued on June 9, 2017, and SeD owned 99.979% of the Company after such transactions.

Preferred Shares:

Pursuant to the Purchase Agreement, dated October 15, 2014, the Company issued 1,000,000 shares of common stock to SED. Such amount represented 19% ownership in the Company. Pursuant to the Purchase Agreement, dated October 15, 2014, the Company issued 13,800,000 shares of a class of preferred stock called Perpetual Preferred Stock ("Preferred Stock") to SED. The Preferred Stock has no dividend or voting rights. The Preferred Stock is convertible to common stock of the Company dependent upon the number of commercial users of the Software. For each 1,000,000 commercial users of the Software (without duplication), SED shall have the right to convert 1,464,000 shares of Perpetual Preferred Stock into 7,320,000 shares of Common Stock, so that there must be a minimum of 9,426,230 commercial users in order for all of the shares of the Perpetual Preferred Stock to be converted into common stock of the Company (13,800,000 shares of Preferred Stock convertible into 69,000,000 shares of common stock).

On March 27, 2017, SeD and the Company entered into a Preferred Stock Cancellation Agreement, by which SeD agreed to cancel its 13,800,000 shares Perpetual Preferred Stock issued by the Company. On June 8, 2017, a Certificate of Retirement for 13,800,000 shares of the Perpetual Preferred Stock has been filed to the office of Secretary of State of the State of Delaware.

Other than the conversion rights described above, the Preferred Stock has no voting, dividend, redemption or other rights.

Background

Hotapp International, Inc., formerly Fragmented Industry Exchange Inc., (the "Company" or "Group") was incorporated in the State of Delaware on March 7, 2012 and established a fiscal year end of December 31st. The Company's initial business plan was to be a financial acquisition intermediary which would serve buyers and sellers for companies that are in highly fragmented industries. The Company determined it was in the best interest of the shareholders to expand its business plan. On October 15, 2014, through a sale and purchase agreement (the "Purchase Agreement") the Company acquired all the issued and outstanding stock of HotApps International Pte Ltd (the "HIP") from Singapore eDevelopment Limited ("SeD"). HIP owned certain intellectual property relating to instant messaging for portable devices (the "HotApp"). HotApp is a cross-platform mobile application that incorporates instant messaging and ecommerce. It provides a messaging and calling services for HotApp users (text, photo, audio). HotApp can be used on any mobile platform (i.e. IOS Online or Android).

As of June 30, 2017, details of the Company's subsidiaries are as follows:

Subsidiaries	Date of Incorporation	Place of Incorporation	Percentage of Ownership
1st Tier Subsidiary:			
HotApps International Pte Ltd ("HIP")	May 23, 2014	Republic of Singapore	100% by Company
2nd Tier Subsidiaries:			
HotApps Call Pte Ltd	September 15, 2014	Republic of Singapore	100% owned by HIP
HotApps Information Technology Co Ltd	November 10, 2014	People's Republic of China	100% owned by HIP
HotApp International Limited*	July 8, 2014	Hong Kong (Special Administrative Region)	100% owned by HIP

* On March 25, 2015, HotApps International Pte Ltd acquired 100% of issued share capital in HotApp International Limited.

The Group has relied significantly on SeD as its principal sources of funding during the year. The Board has, in the meantime, reviewed and approved the restructuring of HotApp, by which has since reduced by half its personnel resources as compared to 2015. HotApp has revamped its business model and technology platform to focus on business-to-business ("B2B") services, built around enterprise communications and workflow. Its product line will target these industries: (i) network and direct marketing; (ii) enterprise Voice-over-IP; (iii) enterprise messaging; (iv) real estate; (v) social media; (vi) e-commerce; (vii) investor relations; (viii) healthcare and wellness; and (ix) hospitality, combining HotApp applications with hotel-room management. This strategic shift is intended to create commercial value with a sharper focus.

Our Business

HotApp, our software application, is a community communications ecosystem (the "Platform"), connecting users who wish to seek out both local and global communities ("Users" or "Communities") and equipping them with necessary tools to communicate effectively across borders. HotApp will monetize the relationship between brands, Online-2-Offline ("O2O") operators and service providers (collectively, "Enterprises") and the HotApp Communities, and in the process mediate something of value to both parties.

With our Platform, users can discover and build their own communities and create valuable content. Our Platform tools empower these communities to share their thoughts and words across multiple channels. As these communities grow, they provide the critical mass that attracts enterprises. Enterprises in turn enhance user experience with premium contents, all of which are facilitated by the transactions of every stakeholder via e-commerce.

Trends in the Market and Our Opportunity

According to a November 2016 forecast by eMarketer, a leading research company for digital business professionals, more than one-quarter of the world's population will be using mobile messaging apps by 2019. eMarketer also projected that mobile phone messaging apps would be used by more than 1.4 billion people in 2016, an increase of almost 16% from 2015. The Asia-Pacific region is home to more than 50% of all chat app users worldwide, with more than 805 million consumers in 2016.

In addition to the substantial opportunities in consumer messaging market, Enterprise Messaging and Collaboration Services and Apps are widely deployed in Small Medium Enterprises (SMEs) and Large Enterprise as an alternative to Email and Intranet. This emerging need in Enterprise Messaging and Collaboration offers a huge opportunity for IT service providers in offering development, integration and white label services for SMEs and Corporations. According to Statista, global messaging platform service providers are expected to bring in US$1.8 billion revenue riding on the growth in growing demand of Enterprise Messaging.

Based upon the above trends, we believe significant opportunities exist for:

- Enterprise deploying messaging platform to effective engage different stakeholders.

- Continuing growth in demand for OTT Services encapsulated within a single mobile app with a clear intent and objectives fulfilling the communication need for specific communities and industries.

- Enterprises to increase usage of OTT Services, such as adoption of Enterprise messaging Apps alongside with using of email, video and audio conferencing, collaboration through cloud services, as a new medium for different stakeholder engagement including customers, to promote and market their products and services (Collaboration Framework). HotApp's approach in white labelling for the enterprises will augment and fill this demand in the market. White label refers to packaging HotApp solution under brand name of clients with some content being customized only for clients.

- Industries such as Network Marketing and Hospitality and Franchising businesses are utilizing OTT Services to reach out effectively to their marketing network on a global basis.

Our Plan of Operations and Growth Strategy

We believe that we have significant opportunities to further enhance the value we deliver to our Users. We intend to pursue the following growth strategy:

- Position HotApp as an open platform to be ready for integration with third party technology partnerships such as Payment Services, Loyalty Programs, and e-commerce.

- Engage Mobile App Integration Opportunities for Enterprises globally through "Powered by HotApp" initiatives, enabling Offline businesses to go On Line (O2O) with HotApp technology support. Powered by HotApp, is a business initiative from HotApp International, that offers modules in HotApp technology for service and customization, targeting vertical industry such as Hospitality and Real Estate Agencies.

- Identify Strategic Partnership Opportunities globally through "*Powered by HotApp* " initiatives, enabling Offline businesses to go On Line (O2O) with HotApp technology support.

- Establish community and business partnerships (collectively, "HotApp Partnerships") to expand our user base and engagement.

Liquidity and Capital Resources

At June 30, 2017, we had cash of $144,720 and working capital deficit of $522,096. Cash had increased during the six months ended June 30, 2017 primarily due to the receipt of payment for the revenue earned.

We had a total stockholders' deficit of $485,106 and an accumulated deficit of $4,944,990 as of June 30, 2017 compared with a total stockholders' deficit of $498,315 and an accumulated deficit of $4,628,976 as of December 31, 2016. This difference is primarily due to the net loss incurred during the period and the issuance of 500,988,889 shares of common stock by debt conversion.

For the six months ended June 30, 2017, we recorded a net loss of $316,014. We made a positive adjustment of $18,067 due to depreciation, a positive adjustment of $2,680 due to deposits written off, a positive adjustment of $131 due to loss on disposal of fixed asset, and a negative adjustment of $108,421 due to foreign currency transaction gain. We had a positive change of $27,071 due to prepaid expenses and a positive change of $7,036 due to accrued taxes payable and franchise fees. We had a negative change of $40,003 due to accounts payable and accrued expenses. As a result, we had net cash used in operating activities of $522,467 for the six months ended June 30, 2016.

For the six months ended June 30, 2017, we spent $9,092 on the acquisition of fixed assets, resulting in net cash used in investing activities of $9,092 for the period.

For the six months ended June 30, 2016, we received $93,768 on the disposal of fixed assets, resulting in net cash provided by investing activities of $92,100 for the period.

For the six months ended June 30, 2017, we had net cash provided by financial activities of $514,091 due to advances from an affiliate amounting to $514,091.

For the six months ended June 30, 2016, we did not pursue any financing activities.

As of June 30, 2017, we have fixed operating office lease agreements for Guangzhou's office amounting to $11,393 from 2017 to 2018, Hong Kong's offices minimum lease commitments of $29,399 from 2017 to 2019.

We will need to raise additional capital through equity or debt financing. However, we cannot be certain that such capital (from SED or third party) will be available to us or whether such capital will be available on a term that is acceptable to us. Any such financing likely would be dilutive to existing shareholders and could result in significant financial and operating covenants that would negatively impact our business. If we are unable to raise sufficient additional capital on acceptable terms, we will have insufficient funds to operate our business and pursue our business plan.

Consistent with Section 144 of the Delaware General Corporation Law, it is our current policy that all transactions between us and our officers, directors and their affiliates will be entered into only if such transactions are approved by a majority of the disinterested directors, are approved by vote of the stockholders, or are fair to us as corporation as of the time it is authorized, approved or ratified by the board. We will conduct an appropriate review of all related party transactions on an ongoing basis.

Critical Accounting Policies

Our discussion and analysis of the financial condition and results of operations are based upon the Company's financial statements, which have been prepared in accordance with generally accepted accounting principles in the United States ("GAAP"). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We believe that the estimates, assumptions and judgments involved in the accounting policies described below have the greatest potential impact on our financial statements, so we consider these to be our critical accounting policies. Because of the uncertainty inherent in these matters, actual results could differ from the estimates we use in applying the critical accounting policies. Certain of these critical accounting policies affect working capital account balances, including the policies for revenue recognition, allowance for doubtful accounts, inventory reserves and income taxes. These policies require that we make estimates in the preparation of our financial statements as of a given date.

Within the context of these critical accounting policies, we are not currently aware of any reasonably likely events or circumstances that would result in materially different amounts being reported.

Revenue recognition

The Group recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed or determinable, and collectability is reasonably assured. The Group currently has $103,936 revenue from its services rendered on projects, and plans to derive its revenue from membership subscription services, offering the platform for Enterprise Collaboration with integration. Revenue is currently recognized under contract accounting due to the significant software production required, and the percentage-of-completion method is used in accordance with ASC 605-35. The Company is recognizing the percentage-of-completion based on input measures that measured directly from expenses incurred, and management reviews the progress to completion. In case of the 3% iGalen revenue sharing, revenue is recognized in accordance with ASC 985-605-25.

Research and development expenses

Research and development expenses primarily consist of (i) salaries and benefits for research and development personnel, and (ii) office rental, general expenses and depreciation expenses associated with the research and development activities. The Company's research and development activities primarily consist of the research and development of new features for its mobile platform and its self-developed mobile games. Expenditures incurred during the research phase are expensed as incurred.

Income taxes

Current income taxes are provided for in accordance with the laws of the relevant tax authorities. Deferred income taxes are recognized when temporary differences exist between the tax bases of assets and liabilities and their reported amounts in the consolidated financial statements. Net operating loss carry forwards and credits are applied using enacted statutory tax rates applicable to future years. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more-likely-than-not that a portion of or all of the deferred tax assets will not be realized. The components of the deferred tax assets and liabilities are individually classified as current and non-current based on their characteristics.

Uncertainties exist with respect to the application of the New EIT Law to our operations, specifically with respect to our tax residency. The New EIT Law specifies that legal entities organized outside of the PRC will be considered residents for PRC income tax purposes if their "de facto management bodies" as "establishments that carry on substantial and overall management and control over the operations, personnel, accounting, properties, etc. of the Company." Because of the uncertainties resulted from limited PRC guidance on the issue, it is uncertain whether our legal entities outside the PRC constitute residents under the New EIT Law. If one or more of our legal entities organized outside the PRC were characterized as PRC residents, the impact would adversely affect our results of operations.
