NOTES TO THE CONDENSED FINANCIAL STATEMENTS

FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2022

1. CORPORATE INFORMATION

Debao Property Development Limited (the “Company”) is listed on the Mainboard of the Singapore Exchange Securities Trading Limited (the “Singapore Exchange” or “SGX-ST”) and incorporated and domiciled in Singapore. The address of its registered office and principal place of business is at 80 Raffles Place, #32-01, UOB Plaza 1, Singapore 048624

The principal activity of the Company is that of investment holding. The principal activities of its subsidiary corporations, associated companies and a joint venture are disclosed in Note 9 to the financial statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

The condensed financial statements for the nine months ended 30 September 2022 have been prepared in accordance with SFRS(I) 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance of the Group since the last annual financial statements for the year ended 31 December 2021.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.2.

The condensed financial statements are presented in RenMinBi (RMB) and all values in the tables are rounded to the nearest thousand (RMB ‘000), except when otherwise indicated.

Going concern assumption

The COVID-19 outbreak and the measures taken to contain the spread of the pandemic have created a high level of uncertainty to global economic prospects and this has negatively impacted the Group’s operations and its financial performance for the financial year.

As at 30 September 2022, the Group had net assets of RMB 379,759,000 (2021: RMB 497,077,000) and the Group had incurred net loss of RMB 22,449,000 (2021: net loss of RMB 22,133,000) for the period then ended.

Notwithstanding the above, the financial statements have been prepared on a going concern basis as the Directors believe that the Group can continue as a going concern based on the following factors: -

- (a) The Group is confident in obtaining the lenders’ approval for roll over of all the loans, which are due in the financial year ending 31 December 2022;
- (b) The Group’s ability to sell the development properties at the current market selling price and the timing of the receipt of proceeds estimated by management and thus able to generate positive cashflows from operations;
- (c) The ongoing litigation cases do not have any significant adverse impact on the Group’s core operations;
- (d) The Group’s controlling shareholder has provided an undertaking to provide continuing financial support to the Group for the next 12 months after reporting date; and
- (e) The Group is able to generate positive cash flow from operations for the next twelve months and with the satisfactory outcome of (a) to (d) above, the Group would have sufficient cash to meet its obligations as and when they fall due for the next twelve months.

If the Group is unable to continue in operational existence for the foreseeable future, the Group may be unable to discharge its liabilities in the normal course of business and adjustments may have to be made to reflect the situation that assets may need to be realised other than in the normal course of business and at amounts which could differ significantly from the amounts at which they are currently recorded in the balance sheet. In addition, the Group may have to reclassify non-current assets and liabilities as current assets and liabilities. No such adjustments have been made to these financial statements.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS

FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2022

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.2 Adoption of new and amended standards and interpretations

The accounting policies adopted are consistent with those of the previous financial year except in the current financial period, the Group has adopted all the new and revised standards which are mandatorily effective for annual financial periods beginning on or after 1 January 2022. The adoption of these standards did not have any material effect on the financial performance or position of the Group.

- Amendments to SFRS(I) 3, SFRS(I) 1-16 and SFRS(I) 1-37

The Group has not early applied new and revised SFRSs that have been issued but are not yet mandatorily effective for the year beginning 1 January 2022.

2.3 SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

In preparing the condensed financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2021.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

2.4 SEASONAL OPERATIONS

The Group's businesses are not affected significantly by seasonal or cyclical factors during the financial period.

3. REVENUE FROM CONTRACTS WITH CUSTOMERS (CONT'D)

(b) Contract assets and liabilities

	30-Sep-22	31-Dec-21
	RMB'000	RMB'000
<i>Over time:</i>		
Contract assets – construction contracts	<u>19,254</u>	<u>19,254</u>
<i>Point in time:</i>		
Contract liabilities – sales of properties	<u>99,921</u>	<u>99,921</u>

Contract assets primarily relate to the Group's rights to consideration for work completed but not billed at the reporting date arising from construction contracts. Contract assets are transferred to trade receivables when the rights become unconditional. This usually occurs when the Group invoices the customer.

Contract assets increased due to the timing differences between the agreed payment schedule and the progress of the construction work.

Contract liabilities are in relation to advance consideration received from customers. The contract liabilities are recognised as revenue when the Group fulfills its performance obligations under contract when control of properties transfers to the customer.

Revenue recognised in relation to contract liabilities

	30-Sep-22	Group 31-Dec-21
	RMB'000	RMB'000
Revenue recognised in current period that was included in the contract liability balance at the beginning of the year		
- Sales of development properties	<u>19,254</u>	<u>18,650</u>

(c) Assets recognised from costs to fulfill contracts

The Group has no other current assets in relation to costs to fulfill contracts with customers. Costs are amortised to profit or loss as cost of sales on a basis consistent with the pattern of recognition of the associated revenue.

Based on the Group's assessment, the expected costs to complete the remaining construction contracts as at 30 September 2022 are expected to be completely recovered through contract revenue, hence no expected loss is recognised in the financial period ended 30 September 2022 (2021: RMB Nil).

7. EARNINGS (LOSS) PER SHARE

Basic and diluted loss per share is calculated by dividing the loss for the period attributable to owners of the Company by the weighted average number of ordinary shares outstanding during the financial period.

Diluted earnings per share are calculated by dividing profit for the period attributable to owners of the Company by the weighted average number of ordinary shares outstanding during the financial period plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares for diluted earnings per share computation respectively.

The following tables reflect the income and share data used in the computation of basic and diluted loss per share for the end of the period.

The Group	9 months ended

For details of the receivables from Sheng Yu (BVI) Limited, please refer to our announcement dated 18 January 2021 and 1 September 2021. The Guangzhou Arbitration Commission accepted our application for arbitration and we are waiting for their notice of court hearings. The arbitration commission is asking us to submit various additional information in several batches since January 2021 and we provide the information accordingly. The last court hearing was scheduled on 23 April 2022 but was postponed due to COVID-19 outbreak in China. Up to 31 October 2022, there are no news for new court hearing date. We are in the progress waiting for the notice of court hearings and until the results of the court hearing come out, we plan no further actions.

Deposits mainly related to the deposits that we are required to pay to the government bureaus in order to obtain their approval to commence development properties construction for Project Imbi and Bay One. These can only be recovered in two to three years when our existing development property projects are completed.

It has become prevalent in the construction industry in China that subcontractors are not paid in a timely manner despite agreed payment schedules. In response, the Company's subcontractors had demanded that the payment deadlines be brought forward, otherwise, these subcontractors will not proceed with the construction works of the Company's Bay One development project (the "Bay ONE Project"). In order to complete the Bay ONE Project as per schedule and to avoid any liability in relation to not meeting the relevant completion deadlines, the Company acceded to the demands of its subcontractors and made constructions cost prepayment accordingly. With the near hand over date of another 2 towers of Bay ONE Project, prepayments will be utilized on the construction works verified.

The increase in construction works and decrease in properties sales receivables are mainly due to the increase in construction works and decrease in properties sales in the period.

When the company granted construction works to subcontractors, the payment terms are usually based on the completion of work. The invoice will come in only after the construction work had been verified. During the construction progress, the company will estimate the work done by the subcontractors and provide for the accruals. The days between the actual construction works done and invoice date usually spread over a long period depending on the type of work for the construction work granted. The interest accrual is related to the loan interest payables to Huarong and Binhai.

17. SEGMENT INFORMATION

Management has determined the operating segments based on the reports reviewed by the Chief Executive Officer ("CEO"), designated as the Chief Operating Decision Maker ("CODM"), that are used to make strategic decisions, allocate resources, and assess performance.

The CEO considers the business from both a geographic and business segment perspective. Geographically, management manages and monitors the business in two primary geographic areas namely, Malaysia and People's Republic of China. From a business segment perspective, management separately considers the business activities in these geographic areas. All the geographic areas are engaged in property development activity.

The Group has 4 reportable segments, as described below, which are the Group's strategic business units. The strategic business units offer different services, and are managed separately because they require different marketing strategies. For each of the strategic business units, the CEO reviews the internal management reports on a quarterly basis. The following summary describes the operations in each of the Group's reportable segments:

Property development: Development of residential, commercial and other properties

Construction contract: Building structural projects and interior works for our jointly controlled operations and 3rd parties

Property investment : Leasing of investment properties to generate rental income and to gain from the appreciation in the value of the properties in the long term

Others: Provision of property management, trading and public utilities

OTHER INFORMATION

1. REVIEW

The condensed consolidated balance sheet of Debao Property Development Limited and its subsidiaries as at 30 September 2022 and the related condensed consolidated income statement and statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the nine months period then ended and certain explanatory notes have not been audited and reviewed.

2. *Whether the figures have been audited or reviewed and in accordance with which auditing standard or practice.*

Unaudited

3. *Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of a matter).*

Not applicable.

3A. *WHERE THE LATEST FINANCIAL STATEMENTS ARE SUBJECT TO AN ADVERSE OPINION, QUALIFIED OPINION OR DISCLAIMER OR OPINION: -*

(a) Updates on the efforts taken to resolve each outstanding audit issue.

(b) Confirmation from the Board that the impact of all outstanding audit issues on the financial statements have been adequately disclosed.

This is not required for any audit issue that is a material uncertainty relating to going concern.

(a)

Divestment of Profit Consortium Sdn. Bhd. ("Profit Consortium")

This disclaimer arose mainly due to the shares sales of Profit Consortium of remaining 1% not completed before year end and thus the auditors could not ascertain whether the provision for impairment were adequate.

Debao is currently finalizing the details with potential buyers. When finalised, it would provide adequate information to auditors for making adequate provision for the impairments.

Divestment of Poly Ritz Green (Malaysia) Sdn. Bhd. ("Poly Ritz")

This disclaimer arose mainly due to the buyer of Poly Ritz refusing to provide auditors the books and records after transfer date.

We confirmed with the auditors that as Poly Ritz was disposed during FY2019, they need not review the books and records of Poly Ritz in FY2021 to ascertain the consolidated results and thus the Debao considered this issue resolved as this disclaimer will not carry forward to FY2022

Litigation case involving key management of Foshan Nanhai Chuangxintian Hotel Management Co., Ltd. ("Chuangxintian")

Chuangxintian is an associated company of the Group. During the period from 9 June 2020 to 17 July 2020, the directors of Chuangxintian, who were appointed by the majority shareholder (the "Majority Shareholder") of Chuangxintian, were arrested for suspect scam cases by Commercial Criminal Investigation Department of Municipal Public Security Bureau of Guangzhou City, Guangdong Province, the People's Republic of China. The cases are currently in the progress of investigations as at the date of this report.

We contacted the Economic Investigation Team of Commercial Criminal Investigation Department of Municipal Public Security Bureau of Guangzhou City in October 2022 to check for the progress of the investigation but we did not get any updates from the police. As the directors of Chuangxintian are still not going through court proceedings and we are not the subject for investigation, it is the only procedure we are informed of the updates of the case.

6. *Review Performance of the Group*

Income statement

Revenue

The Group's revenue decreased by RMB 91.5 million, or 40%, from RMB 223.8 million in 3Q2021 to RMB 132.3 million in 3Q2022. This was mainly due to a decrease in construction revenue by 29.40 million and decrease in properties sales by 62.1 million in 9M2022.

The decrease in construction revenue are mainly due to work progress of the work sites and the decrease in properties sales are mainly due to the market sentiment.

Cost of Sales and Gross Profit

Cost of sales decreased by RMB 46.71 million, or 37%, from RMB 125.04 million in 3Q2021 to RMB 78.31 million in 3Q2022. This is mainly due to decrease in construction work done and properties sales in 3M2022.

Our overall gross profit margin decreased from 44.1% in 6M2021 to 40.8% in 9M2022 mainly as a result of the product mix.

Other Income (Expenses), net

Other income mainly includes interest income, miscellaneous expenses, surcharge income from property management services and other miscellaneous income offset by interest and other miscellaneous expenses.

Other income decreased by RMB 23.03 million from other income RMB 6.36 million in 3Q2021 to other expenses RMB - 16.67 million in 3Q2022. The decrease is mainly due to the one-off advertising income from building exterior wall and stall rental income in 9M2021 amounting to RMB 21.3 million.

Selling and Distribution Expenses

Selling expenses primarily include staff cost, advertising and promotion expenses, sales commissions, sales offices rental expenses and maintenance costs.

Selling expenses decreased by RMB 5.01 million, or 70%, from RMB 7.19 million in 3Q2021 to RMB 2.18million in 3Q2022. The decrease is mainly due to the decrease in properties sales in the period.

OTHER INFORMATION REQUIRED BY LISTING RULE APPENDIX 7C

FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2022

Administrative Expenses

Administrative expenses comprise various expenses such as salaries and staff-related expenses, utilities, depreciation charges for building and office equipment, telecommunication expenses, entertainment expenses, professional fees, travelling expenses and other general office overheads expenses.

Administrative expenses decreased by RMB 11.32 million or 44% from RMB 25.41 million in 3Q2021 to RMB 14.09 million in 3Q2022. It was mainly attributable to the Group's efforts to control the salary and staff expenses.

Finance Costs

Finance cost, net of capitalised interest, was lower at RMB 43.21 million in 3Q2022 vs. RMB 92.92 million in 3Q2021. It is mainly due to the Group's remaining loans with overall lower interest rate in 3Q2022. For loans from Huarong and Binhai which matured but not yet required to repay yet, we used the best lending rate as the law in Hong Kong and PRC required, which is 6% p.a. and 4.35% p.a. respectively and is lower than its original interest rate which makes the finance cost in 3M2022 lower than 3M2021.

Depreciation

Depreciation relates to the depreciation charge on our properties, plant and equipment.

Income Tax Expenses

Income tax includes statutory enterprise income tax and land appreciation tax ("LAT"). The decrease is mainly due to the decrease in revenue.

Currency Translation Difference

The Group has overseas subsidiaries in Hong Kong, Malaysia and Singapore. The translation differences arose from the difference in exchange rates on overseas assets and liabilities. The major components that caused translation difference (1) USD loan amounting to USD 150 million; (2) investment properties and development properties in Malaysian Ringgit; and (3) Other assets and liabilities in overseas currencies.

The currency translation loss in 9M2022 is mainly due to the appreciation of RMB against MYR and SGD which led to loss in Malaysia and Singapore assets, offset by the depreciation of RMB against USD which resulted in translation loss in our USD loan and liabilities.

Net Profit (Loss)

The Group recorded a net loss of RMB 22.5 million in 3Q2022, compared to a net loss of RMB 22.1 million in 3Q2021.

Statement of Financial Position as at 30 September 2022

Current Assets

Current assets comprise mainly development properties, cash and bank balances, restricted cash and cash equivalents, property held for sales and trade and other receivables. Current assets amounted to approximately RMB 1,531 million in 3Q2022 compared to approximately RMB 1,559 million in FY2021.

The largest components of our current assets were development properties, property held for sales and trade and other receivables, which stood at RMB 1,455 million, as compared to RMB 1,474 million in FY2021.

Development properties, which include the cost of land, interest capitalised, and related costs, accounted for approximately RMB 1,032 million compared to RMB 1,050 million a year ago. The increase in development properties is mainly due to the increased construction works done in Bay ONE, offset by the development properties sold.

Trade and other receivables stood at approximately RMB 401.4 million, which increased by 4.7 million compared to RMB 396.7 million in FY2021. The increase is mainly due to the increase in construction works receivables and properties sales receivable.

The Group's Net Working Capital (Current Assets - Current Liabilities) is negative largely due to the current loans which are payable in the next 12 months. Accordingly, the Group is in negotiations with the lenders to refinance the loan(s) as appropriate.

FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2022

Non-current assets

Non-current assets comprise mainly property, plant and equipment and investment properties. The amount stood at RMB 2,214.2 million compared to 2,217.4 million as at end of FY2021.

The net book value of investment properties was approximately RMB 2,189 million. These are held to generate rental income and/or for capital appreciation. Our investment properties comprise mainly our Debao Hotel Complex together with the adjacent land and underground car parks, commercial premises located in Debao Garden and Jiangnan Mingju, car parks located in Debao Garden, Tianjin Boulevard buildings and Sihui City Mall.

The Group will engage a licensed valuer to perform a valuation appraisal of its properties as part of the FY2021 audit.

Current liabilities

Trade and other payables, which mainly comprise amounts payable to contractors and suppliers and advance receipts from property development sales, stood at approximately RMB 643 million, approximately 15% lower than RMB 761.1 million as at 31 December 2021. The decrease in trade and other payables was mainly due to the settlement of payables for the construction works in Bay ONE.

Bank and Other Loans

Please refer to item 1(b)(ii).

Shareholders' equity

Equity is comprised of share capital, translation reserve, non-controlling interest and retained earnings. The non-controlling interest pertains to

- a) 32% shareholding held by the minority interest in a PRC subsidiary, Guangxi Hezhou De Neng Mining Co., Ltd;
- b) 42.2% shareholding held by the minority interest in a PRC subsidiary, Tianjin Hotel Street Co., Ltd;
- c) 60% shareholding held by the minority interest in a PRC subsidiary, Foshan Nanhai Chuang Xin Tian Hotel Management Co., Ltd;
- d) 19% shareholding held by the minority interest in a PRC subsidiary, Sihui Debao Jiangnan Mingju Property Development Co., Ltd; and

Shareholders' equity amounted to RMB 379.8 million, representing a decrease of RMB 117.3 million from RMB 497.1 million at 31 December 2021 due to the loss for the period and the translation loss incurred in this period.

Cash flow statement

The Group has a net cash outflow in operating activities of RMB 10.1 million in 9M2022, which comprise operating cash outflows before movements in working capital of RMB 72.8 million, in addition to net working capital used in operations of RMB 110.5 million and adjusted by net use of finance cost and interest received as well as income tax recovered of approximately RMB 1.5 million. The net working capital outflows were mainly due to net cash outflow by the increase in the development properties, and the decrease in trade and other payables.

The net cash inflow in investing activities is RMB 2.1 million.

The Group recorded a net cash inflow in financing activities of RMB 59.8 million during 9M2022. This was mainly due to the drawings in bank loans.

With the above, the Group has recorded a net decrease in cash and cash equivalents of RMB 10.1 million for 9M2022.

Market Outlook

As a result of the Government's policy to curb speculation, the property in Foshan average selling price has stabilised⁽ⁱ⁾. Transaction volumes are decreased from 2.1 million sqm in 2Q2022 to 2.0 million sqm in 3Q2022⁽ⁱ⁾.

In October 2022, we have replied SGX queries in relation to the dividend and delisting. The Group is making efforts to accumulate cash of SGD 749,997 to pay the 2017 dividend. At the same time, the Group is also trying to address the delisting issue.

Project Updates

Projects in Malaysia

1. Project Imbi ("The Landmark")

The Landmark is a development project of twin residential towers. The towers are located in the CBD of Kuala Lumpur, opposite Tun Razak Exchange. Each tower consists of 73 floors and there are 1338 high-end service apartments in total. The towers have 2 swimming pools, a library, a mini golf park, a BBQ area, sky park and butler services to its residents. It also has a skyline restaurant to provide high end catering for its residents and general public. We are concentrating our efforts in the completion of Bay ONE project first and expect to continue the development of Imbi project in FY2021 onwards.

Although Malaysia relaxed its Movement Control Order in May 2022, staff is still unable to apply for the necessary Malaysia VISA in PRC for travel purposes. The company will monitor the situation and will update shareholders when there are updates on the projects in Malaysia.
