LETTER TO SHAREHOLDERS

2. PROPOSED RATIFICATION OF THE 2023 RHC LOAN AGREEMENT

2.1 Overview

- 2.1.1 The Company had, at an extraordinary general meeting held on 27 April 2021 (the “**2021 EGM**”), obtained shareholders’ approval for entry into the 2021 RHC Loan Agreement. For details on the 2021 RHC Loan Agreement, Shareholders may refer to the Company’s circular dated 12 April 2021.
- 2.1.2 RHC is a company based in Al-Khobar (Eastern Province), Kingdom of Saudi Arabia and has been in business for around 40 years. It is a diversified group with operations spanning across the energy, industrial services, contracting, and real estate sectors. Through its subsidiaries and joint ventures, the company has established a presence in more than 10 countries, working in collaboration with international partners.
- 2.1.3 As at the Latest Practicable Date, RHC is a Controlling Shareholder of the Company, holding 723,106,389 Shares representing approximately 59.68% in the issued share capital of the Company. Accordingly, RHC and its associates are regarded as Interested Persons of the Company within the meaning defined in Rule 904 of the Catalist Rules, and transactions between the Company and the RHC Group are deemed IPTs within the meaning of Chapter 9 of the Catalist Rules.

2.2 2023 RHC Loan Agreement

- 2.2.1 On 1 January 2023, the Company entered into the 2023 RHC Loan Agreement with RHC. The 2023 RHC Loan Agreement was intended to supersede the 2021 RHC Loan Agreement and accordingly, was substantially on the same terms as the 2021 RHC Loan Agreement except that the limit on the RHC Advances had been increased to US\$132,572,058 under the 2023 RHC Loan Agreement.
- 2.2.2 Under the 2023 RHC Loan Agreement, the RHC Advances will continue to be unsecured, with no fixed repayment term but will bear interest, as it is required that such RHC Advances bear interest for compliance with the transfer pricing by-laws in the Kingdom of Saudi Arabia formally released on 15 February 2019 (the “**By-Laws**”). Based on the approval granted by shareholders at the 2021 EGM, it is agreed the RHC Advances will bear interest fixed at 5.00% until 31 March 2025.
- 2.2.3 Pursuant to the By-Laws, any related party transactions must be conducted on terms that are similar to comparable transactions between independent persons and be consistent with the arms’ length principle. The By-Laws are applicable from the reporting year ended 31 December 2018 onwards. The By-Laws enable the General Authority of Zakat and Tax of the Kingdom of Saudi Arabia to disregard the result of a controlled transaction where the terms, conditions or remunerations are not consistent with the arms’ length principle, such as where the shareholder advance is interest-free.
- 2.2.4 Under Rule 909(3) of the Catalist Rules, in the case of borrowing of funds from an interested person, the value of the transaction is the interest payable on the borrowing. As the RHC Advances have no fixed repayment term, the aggregate value at risk to the Group for the purpose of the IPT is not determinable.
- 2.2.5 Hence, for the purpose of determining the value at risk in relation to the RHC Advances, the Company is proposing to seek Shareholders’ ratification of the 2023 RHC Loan Agreement at the EGM on the following basis:
- (a) interest rate on the RHC Advances to be set at 8.00% per annum for a period of approximately 3 years commencing from 1 April 2025 to 30 April 2028 (the “**Specified Period**”);

LETTER TO SHAREHOLDERS

- (b) for the amount of RHC Advances of up to US\$132,572,058; and
 - (c) before the expiry of the Specified Period, to seek fresh approval from the Independent Shareholders on the determination of the applicable interest rate to charge on the RHC Advances for a subsequent 3-year period (or such period as may be proposed by the Company and approved by the Independent Shareholders).
- 2.2.6 The interest rate of 8.00% per annum over the Specified Period was arrived at pursuant to arm's length negotiation between the Company and RHC, taking into consideration the cost of funds by RHC and its subsidiaries. The Company had also appointed an IFA (as defined in paragraph 6.1 below) pursuant to Rule 921(4)(a) of the Catalist Rules to opine on, *inter alia*, whether the interest rate of 8.00% per annum over the Specified Period was on normal commercial terms and were not prejudicial to the interests of the Company and its Independent Shareholders.
- 2.2.7 The Company and RHC are of the view that fixing the interest rate over the Specified Period will give certainty of the interest expense for the Company for the duration and provides the opportunity at an appropriate juncture to review and adjust the interest rate to prevailing market rates. Furthermore, in light of the current geopolitical climate and trade policy changes, the Company is of the view that fixing the interest rate on the basis of a 3-year period (as opposed to the 5-year period previously sought) would be preferable to provide the Company with additional flexibility to react to the prevailing global conditions and market rates after the expiry of the Specified Period.
- 2.2.8 Based on the above, the value at risk of the RHC Advances as an IPT is determined to be approximately US\$32.7 million.
- 2.3 Proposed Shareholders' ratification of the 2023 RHC Loan Agreement**
 - 2.3.1 The Company proposes to seek Shareholders' ratification for the 2023 RHC Loan Agreement by way of the passing of Ordinary Resolution 1. If passed, the ratification will allow the Group to continue tapping on the facilities available as RHC Advances under the 2023 RHC Loan Agreement.
 - 2.3.2 Upon the passing of Ordinary Resolution 1, the Company will commence to accrue interest at the rate of 8.00% per annum on the outstanding RHC Advances over the Specified Period with effect from 1 April 2025.
 - 2.3.3 Before the expiry of the Specified Period, the Company will seek fresh approval from the Independent Shareholders on the determination of the applicable interest rate to charge on the RHC Advances for a subsequent 3-year period (or such period as may be proposed by the Company and approved by the Independent Shareholders).
 - 2.3.4 Based on the latest audited NTA for the financial year ended 31 December 2024 of US\$106.6 million, the amount of the value at risk of RHC Advances represents 30.7% of the latest audited NTA.
- 2.4 Rationale for the ratification**
 - 2.4.1 Following the 2021 RHC Loan Agreement, the management of the Company had made the prudent decision to increase the facility limit on the RHC Advances from US\$125 million (the "**Initial Facility Limit**") to US\$132,572,058 to bolster the Company's existing financial support for its operations. However, based on the financial and cash flow projections of the Company, management made the assessment that the Company would not need to utilise the RHC Advances beyond the Initial Facility Limit approved by Shareholders at the 2021 EGM, and had therefore not sought Shareholders' approval for the increased limit on the RHC Advances. As

LETTER TO SHAREHOLDERS

at the date of this Circular, the aggregate amount of RHC Advances utilised amounted to approximately US\$113.6 million, which is below the Initial Facility Limit.

- 2.4.2 Additionally, as there had not been any deviation from the original nature and obligations of the 2021 RHC Loan Agreement as approved by Shareholders, management determined that it was not necessary to enter into an amendment deed to the 2021 RHC Loan Agreement and hence elected to enter into the 2023 RHC Loan Agreement on substantially the same terms as the 2021 RHC Loan Agreement instead.
- 2.4.3 However, even though the Company does not have immediate plans to fully exhaust the increased limit of the RHC Advances available under the 2023 RHC Loan Agreement, as the Company is now seeking approval of the Independent Shareholders on the determination of the applicable interest rate as proposed on the RHC Advances for the Specified Period, the Board was thus of the view that it is prudent to concurrently seek Shareholders' approval for a ratification of the 2023 RHC Loan Agreement.
- 2.4.4 Furthermore, the 2023 RHC Loan Agreement is necessary in order for RHC to comply with the applicable laws and to ensure that the existing shareholder's advances from RHC will be deemed as valid, existing and binding obligations and not be disregarded by the Saudi Arabian authorities.
- 2.4.5 In the event that Shareholders' approval is not obtained, (a) RHC will not be in compliance with the applicable laws and may face legal or tax consequences such as monetary penalties, tax audits and investigations; and (b) RHC may not be able to extend further advances to the Company.
- 2.4.6 The RHC Advances had been beneficial to the Group and had provided the necessary financial support for the continuing operations of the Group in view of the challenging environment that the Group was operating in. Ratification of the 2023 RHC Loan Agreement will enable RHC to continue to provide the necessary financial support to the Group, if required.

3. PROPOSED RATIFICATION OF LOAN FACILITY NOVATION AGREEMENT

3.1 Overview

- 3.1.1 Subsequent to the entry into the 2023 RHC Loan Agreement, RHC had informed the Company of its intention to novate the 2023 RHC Loan Agreement to its subsidiary, RENG (the "**Novation**"), for RHC's corporate restructuring purposes. Pursuant to the 2023 RHC Loan Agreement, RHC has the sole right to novate the indebtedness to any party without the consent of the Company, with all terms, conditions and covenants to remain intact (including but not limited to approvals of management decision and control situations, pledge of shares and other movable assets and assignment of rights and other matters as stipulated in the 2023 RHC Loan Agreement).
- 3.1.2 RENG is a subsidiary of RHC, and RHC exercises full control over RENG. As at the date of this Circular, the shareholding in RENG held by RHC is approximately 99.998%. RENG offers services for the energy sector, especially in onshore marine, oilfield and safety and field risk management globally.
- 3.1.3 As at the Latest Practicable Date, RHC is a Controlling Shareholder of the Company, holding 723,106,389 Shares representing approximately 59.68% in the issued share capital of the Company. Accordingly, RHC and its associates (including RENG) are regarded as Interested Persons of the Company within the meaning defined in Rule 904 of the Catalist Rules, and transactions between the Company and the RHC Group are deemed IPTs within the meaning of Chapter 9 of the Catalist Rules.

LETTER TO SHAREHOLDERS

3.2 Loan Facility Novation Agreement

- 3.2.1 On 16 July 2023, the Company entered into the Loan Facility Novation Agreement with RHC and RENG.
- 3.2.2 Under the Loan Facility Novation Agreement, RHC had novated the 2023 RHC Loan Agreement to RENG along with its entire economic rights, but RHC's pre-consent shall be obtained by RENG to exercise the economic rights attached to the 2023 RHC Loan Agreement.
- 3.2.3 There are no material changes to the 2023 RHC Loan Agreement as a result of the Novation, except that: (a) the Company shall be liable to repay the novated facility (i.e. the RHC Advances outstanding) to RENG; and (b) commencing from 1 January 2024, all interest under the 2023 RHC Loan Agreement shall be paid to RENG.
- 3.2.4 As disclosed in Paragraph 2.2.4 above, under Rule 909(3) of the Catalist Rules, in the case of borrowing of funds from an interested person, the value of the transaction is the interest payable on the borrowing. As the RHC Advances have no fixed repayment term, the aggregate value at risk to the Group for the purpose of the IPT is not determinable.
- 3.2.5 Shareholders should note that there is no change to the value of the financial obligations of the Company arising from the Company's entry into the Loan Facility Novation Agreement, as there is only a change to the lender of RHC Advances from RHC to RENG commencing from 16 July 2023 onwards. Accordingly, there is correspondingly no change to the value at risk of the RHC Advances as an IPT, which is determined to be approximately US\$32.7 million as disclosed in Paragraph 2.2.5 above.

3.3 Proposed Shareholders' ratification of the Loan Facility Novation Agreement

- 3.3.1 The Company proposes to seek Shareholders' ratification for the Loan Facility Novation Agreement by way of the passing of Ordinary Resolution 2. If passed, the ratification will allow the Company to continue fulfilling its obligations under the 2023 RHC Loan Agreement and Loan Facility Novation Agreement respectively.
- 3.3.2 Based on the latest audited NTA for financial year ended 31 December 2024 of US\$106.6 million, the amount of the value at risk of RHC Advances represents 30.7% of the latest audited NTA.

3.4 Rationale for the ratification

- 3.4.1 As the Loan Facility Novation Agreement is required by RHC for its corporate restructuring, and RHC has the sole right under the 2023 RHC Loan Agreement to novate the indebtedness to any party without the consent of the Company, with all terms, conditions and covenants to remain intact (including but not limited to approvals of management decision and control situations, pledge of shares and other movable assets and assignment of rights and other matters as stipulated in the 2023 RHC Loan Agreement), the Company cannot refuse the Novation without breaching the terms of the 2023 RHC Loan Agreement.
- 3.4.2 Notwithstanding the Novation, as the financial obligations on the Company remains the same and there had not been any substantial departure from the nature and terms of the 2021 RHC Loan Agreement which had been approved by the Shareholders at the 2021 EGM, the Company had therefore not earlier sought approval or ratification on the Loan Facility Novation Agreement. However, the Board is of the view that it is prudent to seek Shareholders' approval for a ratification of the Loan Facility Novation Agreement as the Company is also concurrently seeking Shareholders' approval for a ratification of the 2023 RHC Loan Agreement.
- 3.4.3 In the event that Shareholders' approval is not obtained for ratification of the Loan Facility Novation Agreement, the Company would not be able to continue discharging its obligations in

LETTER TO SHAREHOLDERS

connection with the Loan Facility Novation Agreement without breaching Chapter 9 of the Catalist Rules.

6. OPINION OF THE INDEPENDENT FINANCIAL ADVISER

6.1 The Company has appointed ZICO Capital Pte. Ltd. as the Independent Financial Adviser (“IFA”) pursuant to Rule 921(4)(a) of the Catalist Rules to opine on whether the terms of the past IPTs that are to be ratified (i.e. the entry into 2023 RHC Loan Agreement and the entry into Loan Facility Novation Agreement respectively) had been carried out on normal commercial terms and were not prejudicial to the interests of the Company and its Independent Shareholders.

6.2 The following is an extract from Section 5 of the IFA Letter and should be read by Shareholders in conjunction with, and in the full context of, the full text of the IFA Letter. All terms and expressions used in the extract below shall have the same meanings as those defined in the IFA Letter unless otherwise stated. A copy of the IFA Letter is set out in Appendix B to this Circular. Shareholders are advised to read the IFA Letter in its entirety and carefully consider it in the context of this Circular before deciding on whether to vote in favour of the IPTs.

“OUR OPINION

In arriving at our opinion, we have taken into account the following factors which we consider to be relevant and to have a significant bearing on our assessment of the Proposed IPTs:

LETTER TO SHAREHOLDERS

- (a) *the rationale for the Proposed IPTs, specifically the fact that the RHC Advances have been beneficial to the Group and had provided the necessary financial support for the continuing operations of the Group. The Ratified 2023 RHC Loan Agreement would enable RHC to continue to provide the necessary financial support to the Group. Further, the Loan Facility Novation Agreement would enable the Group to be in compliance with the Ratified 2023 RHC Loan Agreement;*
- (b) *while the interest rate of 8.00% per annum applicable to the RHC Advances during the Specified Period is higher than the interest rates or distribution rates charged on the Group's existing borrowings and previous debt securities, the RHC Advances are unsecured, while the Group's existing debt facilities are secured against certain assets of the Group which will impact the applicable interest rates on these facilities;*
- (c) *while the RHC Advances do not have a fixed repayment term, the interest rate of 8.00% per annum is applicable to the RHC Advances during the Specified Period of approximately 3 years, commencing from 1 April 2025. APPENDIX B

14 April 2025

To: The Directors of Vallianz Holdings Limited (the “**Company**” and together with its subsidiaries, the “**Group**”) who are considered independent for the purposes of the Proposed IPTs (as defined herein)

Mr. Ling Yong Wah
Mr. Chong Chee Keong Chris
Mr. Kevin Wong Chee Fatt

(collectively, the “**Independent Directors**”)

Dear Sirs,

- (I) **THE PROPOSED RATIFICATION OF THE ENTRY INTO THE LOAN AGREEMENT DATED 1 JANUARY 2023 (“2023 RHC LOAN AGREEMENT”) ENTERED INTO BETWEEN THE COMPANY AND RAWABI HOLDING COMPANY LIMITED (“RHC” AND TOGETHER WITH ITS SUBSIDIARIES THE “RHC GROUP”) AS AN INTERESTED PERSON TRANSACTION; AND**
- (II) **THE PROPOSED RATIFICATION OF THE ENTRY INTO THE LOAN FACILITY NOVATION AGREEMENT DATED 16 JULY 2023 (“LOAN FACILITY NOVATION AGREEMENT”) ENTERED INTO BETWEEN THE COMPANY, RHC AND RAWABI ENERGY COMPANY LIMITED (“RENG”) AS AN INTERESTED PERSON TRANSACTION**

(THE 2023 RHC LOAN AGREEMENT AND LOAN FACILITY NOVATION AGREEMENT ARE COLLECTIVELY REFERRED TO AS THE “PROPOSED IPTS”)

*Unless otherwise defined or the context otherwise requires, all capitalised terms used in this letter shall have the same meaning as defined in the circular to shareholders of the Company (“**Shareholders**”) dated 14 April 2025 (the “**Circular**”).*

1. INTRODUCTION

- 1.1 The Company had, at an extraordinary general meeting held on 27 April 2021 (the “**2021 EGM**”), obtained Shareholders’ approval for entry into the loan agreement dated 19 June 2020 between the Company and RHC (“**2021 RHC Loan Agreement**”), for the provision of shareholder advances to the Group for working capital needs and to support the Group’s operations (“**RHC Advances**”), on the following terms:
 - (a) the interest rate on the RHC Advances will be initially set at 5.00% per annum for a period of 5 years, commencing from 1 April 2020, being the beginning of the Company’s financial year for the financial year ended 31 March 2021;
 - (b) the RHC Advances will amount to up to US\$125 million; and
 - (c) before the expiry of the 5-year period (i.e. by 31 March 2025), the Company will seek approval from its independent Shareholders (“**Independent Shareholders**”) on the determination of the applicable interest rate to charge on the RHC Advances for the next 5-year period.

APPENDIX B

- 1.2 On 1 January 2023, the Company entered into the 2023 RHC Loan Agreement with RHC. The 2023 RHC Loan Agreement was intended to supersede the 2021 RHC Loan Agreement and accordingly, was substantially on the same terms as the 2021 RHC Loan Agreement except that the limit on the RHC Advances had been increased to US\$132,572,058. Under the 2023 RHC Loan Agreement, the RHC Advances will continue to be unsecured, with no fixed repayment term but will bear interest, as it is required that such RHC Advances bear interest for compliance with the transfer pricing by-laws in the Kingdom of Saudi Arabia formally released on 15 February 2019 (the “**By-Laws**”). Based on the approval granted by Shareholders at the 2021 EGM, it was agreed the RHC Advances will bear interest fixed at 5.00% until 31 March 2025.
- 1.3 Subsequent to the entry into the 2023 RHC Loan Agreement, the Company had, on 16 July 2023, entered into the Loan Facility Novation Agreement with RHC and its subsidiary, RENG. As at the date of this letter, the shareholding in RENG held by RHC is approximately 99.998%. Under the Loan Facility Novation Agreement, RHC has novated the 2023 RHC Loan Agreement to RENG along with its entire economic rights, but RHC's pre-consent shall be obtained by RENG to exercise the economic rights attached to the 2023 RHC Loan Agreement.
- 1.4 RHC and its associates are regarded as interested persons of the Company (“**Interested Persons**”) within the meaning defined in Rule 904 of the Singapore Exchange Securities Trading Limited (“**SGX-ST**”) Listing Manual Section B: Rules of the Catalist (“**Catalist Rules**”), and transactions between the Company and the RHC Group are deemed interested person transactions within the meaning of Chapter 9 of the Catalist Rules. Please refer to Section 3.1 below for further details on RHC.
- 1.5 Under Rule 909(3) of the Catalist Rules, in the case of borrowing of funds from an interested person, the value of the transaction is the interest payable on the borrowing. As the RHC Advances have no fixed repayment term, the aggregate value at risk to the Group for the purpose of the interested person transaction is not determinable. Hence, for the purpose of determining the value at risk in relation to the RHC Advances, the Company is proposing to seek Shareholders’ ratification of the 2023 RHC Loan Agreement (“**Ratified 2023 RHC Loan Agreement**”) at its extraordinary general meeting to be held on 29 April 2025 (“**EGM**”) on the following basis:
- (a) interest rate on the RHC Advances to be set at 8.00% per annum for a period of approximately 3 years, commencing from 1 April 2025 to 30 April 2028 (the “Specified Period”);
 - (b) for the amount of RHC Advances of up to US\$132,572,058; and
 - (c) before the expiry of the Specified Period, to seek fresh approval from the Independent Shareholders on the determination of the applicable interest rate to charge on the RHC Advances for a subsequent 3-year period (or such period as may be proposed by the Company and approved by the Independent Shareholders).
- The Company is also proposing to seek Shareholders’ ratification for the Loan Facility Novation Agreement at the upcoming EGM. If passed, the ratification will allow the Company to continue fulfilling its obligations under the 2023 RHC Loan Agreement and Loan Facility Novation Agreement respectively.
- Further details on the Ratified 2023 RHC Loan Agreement and Loan Facility Novation Agreement are set out in the Circular and the ensuing sections of this letter (“**IFA Letter**”).
- 1.6 ZICO Capital Pte. Ltd. (“**ZICO Capital**”) has been appointed by the Company as the independent financial adviser (“**IFA**”) pursuant to Rule 921(4)(a) of the Catalist Rules to advise the Independent Directors on whether the Proposed IPTs are on normal commercial terms and are not prejudicial to the interests of the Company and its minority Shareholders.

APPENDIX B

3.2 Information on RENG

Information on RENG have been extracted from Section 3.1 of the Circular and are set out in italics below.

“RENG is a subsidiary of RHC, and RHC exercises full control over RENG. As at the date of this Circular, the shareholding in RENG held by RHC is approximately 99.998%. RENG offers services for the energy sector, especially in onshore marine, oilfield and safety and field risk management globally.

3.3 Salient terms of the Ratified 2023 RHC Loan Agreement

Salient terms of the RHC Advances, as extracted from the Ratified 2023 RHC Loan Agreement, are set below.

Lender	:	RENG
Borrower	:	The Company
Tenure	:	No fixed tenure
Loan facilities	:	Up to US\$132,572,058, comprising <ul style="list-style-type: none">• US\$32,572,058 under Tranche A (“Tranche A Facility”); and• US\$100,000,000 under Tranche B (“Tranche B Facility”)
Purpose	:	The Company shall utilise all amounts borrowed under: <ul style="list-style-type: none">• Tranche A Facility towards the repayment of existing loans as designated under the 2023 RHC Loan Agreement, and any other loan as designated by the Lender; and• Tranche B Facility for the purposes of financing general corporate requirements
Interest rate	:	The applicable interest rate stated in the utilisation request for the loan facilities and accepted by the Lender.

Based on the approval granted by Shareholders at the 2021 EGM, it was agreed the RHC Advances will bear interest fixed at 5.00% per annum until 31 March 2025.

Upon Shareholders’ approval to be obtained at the EGM for the Ratified 2023 RHC Loan Agreement, the RHC Advances will bear interest fixed at 8.00% per annum from 1 April 2025 until 30 April 2028

APPENDIX B

- Repayment** : No fixed repayment terms. Notwithstanding, RENG may at any time⁽¹⁾:
- (a) by notice to the Company terminate the availability of the RHC Advances with immediate effect;
 - (b) declare that all or part of any or all RHC Advances, together with accrued interest, and all other amounts accrued or outstanding be immediately due and payable, whereupon they shall become immediately due and payable;
 - (c) declare that all or part of any or all RHC Advances be payable on demand; and/or
 - (d) exercise any or all of its rights, remedies and powers under any of the 2023 RHC Loan Agreement and the related documents

Note:

- (1) Notwithstanding the above, the Group has obtained an undertaking for RHC to provide continuing financial support and other support as necessary to the Group so as to enable it to continue its operations for the next 15 months from the date of the Group's FY2024 financial statements and to continue to trade and meet its financial obligations and commitments. As part of the financial support, RHC and RENG will not demand the repayment of the RHC Advances.

As at the Latest Practicable Date, the total outstanding amount due by the Company to RHC Group in respect of the 2023 RHC Loan Agreement and outstanding interest on such principal drawn down amounted to approximately US\$113.6 million, representing 106.6% of the Group's latest audited net tangible assets ("**NTA**") as at 31 December 2024.

Assuming that the Company draws down the RHC Advances under the Ratified 2023 RHC Loan Agreement in full from the first available date, the maximum interest for the RHC Advances would be approximately US\$10.6 million per annum, representing approximately 10.0% of the Group's latest audited NTA as at 31 December 2024.

3.4 Interest rate

Upon Shareholders' approval to be obtained at the EGM for the Ratified 2023 RHC Loan Agreement, the RHC Advances will bear interest fixed at the rate of 8.00% per annum for the Specified Period, as it is required that such RHC Advances bear interest for compliance with the transfer pricing By-Laws in the Kingdom of Saudi Arabia.

Pursuant to the By-Laws, any related party transactions must be conducted on terms that are similar to comparable transactions between independent persons and be consistent with the arms' length principle. The By-Laws are applicable from the reporting year ended 31 December 2018 onwards. The By-Laws enable the General Authority of Zakat and Tax of the Kingdom of Saudi Arabia to disregard the result of a controlled transaction where the terms, conditions or remunerations are not consistent with the arms' length principle, such as where the shareholder advance is interest-free.

The interest rate of 8.00% per annum over the Specified Period was arrived at pursuant to an arm's length negotiation between the Company and RHC, taking into consideration the cost of funds by RHC and its subsidiaries.

Before the expiry of the Specified Period, the Company will seek fresh approval from the Independent Shareholders on the determination of the applicable interest rate on the RHC Advances for the next 3-year period (or such period as may be proposed by the Company and approved by the Independent Shareholders).

APPENDIX B

3.5 Ratification of the Loan Facility Novation Agreement

On 16 July 2023, the Company entered into the Loan Facility Novation Agreement with RHC and RENG, pursuant to which RHC had novated the 2023 RHC Loan Agreement to RENG along with its entire economic rights, but RHC's pre-consent shall be obtained by RENG to exercise the economic rights attached to the 2023 RHC Loan Agreement ("**Novation**").

There are no material changes to the 2023 RHC Loan Agreement as a result of the Novation, except that: (a) the Company shall be liable to repay the novated facility (i.e. the RHC Advances outstanding) to RENG; and (b) commencing from 1 January 2024, all interest under the 2023 RHC Loan Agreement shall be paid to RENG. However, the Board is of the view that it is prudent to seek Shareholders' approval for a ratification of the Loan Facility Novation Agreement as the Company is also concurrently seeking Shareholders' approval for the Ratified 2023 RHC Loan Agreement. Furthermore, if the entry into the Loan Facility Novation Agreement is not ratified, it would mean that the Company would not be able to continue discharging its obligations in connection with the Loan Facility Novation Agreement without breaching Chapter 9 of the Catalist Rules.

4 EVALUATION OF THE PROPOSED IPTS

In our evaluation of the Proposed IPTs, we have given due consideration to the following factors:

- (a) the rationale for the Proposed IPTs;
- (b) the financial performance and position of the Group;
- (c) comparison with existing borrowings and previous debt securities of the Group;
- (d) comparison with effective interest rates applicable to Broadly Comparable Companies;
- (e) comparison with recent IPTs involving loans or advances granted to companies listed on SGX-ST;
- (f) comparison with prevailing interest rates; and
- (g) other relevant considerations.

4.1 Rationale for the Proposed IPTs

It is not within our terms of reference to comment or express an opinion on the merits of the Proposed IPTs. Nevertheless, we have reviewed the Company's rationale for the Proposed IPTs set out in Sections 2.2, 2.4 and 3.4 of the Circular, which has been extracted and set out in *italics* below.

Rationale for the Ratified 2023 RHC Loan Agreement

"Following the 2021 RHC Loan Agreement, the management of the Company had made the prudent decision to increase the facility limit on the RHC Advances from US\$125 million (the "Initial Facility Limit") to US\$132,572,058 to bolster the Company's existing financial support for its operations. However, based on the financial and cash flow projections of the Company, management made the assessment that the Company would not need to utilise the RHC Advances beyond the Initial Facility Limit approved by Shareholders at the 2021 EGM, and had therefore not sought Shareholders' approval for the increased limit on the RHC Advances. As at the date of this Circular, the aggregate amount of RHC Advances utilised amounted to approximately US\$113.6 million, which is below the Initial Facility Limit."

APPENDIX B

Additionally, as there had not been any deviation from the original nature and obligations of the 2021 RHC Loan Agreement as approved by Shareholders, management determined that it was not necessary to enter into an amendment deed to the 2021 RHC Loan Agreement and hence elected to enter into the 2023 RHC Loan Agreement on substantially the same terms as the 2021 RHC Loan Agreement instead.

However, even though the Company does not have immediate plans to fully exhaust the increased limit of the RHC Advances available under the 2023 RHC Loan Agreement, as the Company is now seeking approval of the Independent Shareholders on the determination of the applicable interest rate as proposed on the RHC Advances for the Specified Period, the Board was thus of the view that it is prudent to concurrently seek Shareholders' approval for a ratification of the 2023 RHC Loan Agreement.

Furthermore, the 2023 RHC Loan Agreement is necessary in order for RHC to comply with the applicable laws and to ensure that the existing shareholder's advances from RHC will be deemed as valid, existing and binding obligations and not be disregarded by the Saudi Arabian authorities.

In the event that Shareholders' approval is not obtained, (a) RHC will not be in compliance with the applicable laws and may face legal or tax consequences such as monetary penalties, tax audits and investigations; and (b) RHC may not be able to extend further advances to the Company.

The RHC Advances had been beneficial to the Group and had provided the necessary financial support for the continuing operations of the Group in view of the challenging environment that the Group was operating in. Ratification of the 2023 RHC Loan Agreement will enable RHC to continue to provide the necessary financial support to the Group, if required."

It was further disclosed under Section 2.2.7 of the Circular that "The Company and RHC are of the view that fixing the interest rate over the Specified Period will give certainty of the interest expense for the Company for the duration, and provides the opportunity at an appropriate juncture to review and adjust the interest rate to prevailing market rates. Furthermore, in light of the current geopolitical climate and trade policy changes, the Company is of the view that fixing the interest rate on the basis of a 3-year period (as opposed to the 5-year period previously sought) would be preferable to provide the Company with additional flexibility to react to the prevailing global conditions and market rates after the expiry of the Specified Period."

Rationale for the ratification of the Loan Facility Novation Agreement

"As the Loan Facility Novation Agreement is required by RHC for its corporate restructuring, and RHC has the sole right under the 2023 RHC Loan Agreement to novate the indebtedness to any party without the consent of the Company, with all terms, conditions and covenants to remain intact (including but not limited to approvals of management decision and control situations, pledge of shares and other movable assets and assignment of rights and other matters as stipulated in the 2023 RHC Loan Agreement), the Company cannot refuse the Novation without breaching the terms of the 2023 RHC Loan Agreement.

Notwithstanding the Novation, as the financial obligations on the Company remains the same and there had not been any substantial departure from the nature and terms of the 2021 RHC Loan Agreement which had been approved by the Shareholders at the 2021 EGM, the Company had therefore not earlier sought approval or ratification on the 2023 RHC Loan Agreement. However, the Board is of the view that it is prudent to seek Shareholders' approval for a ratification of the Loan Facility Novation Agreement as the Company is also concurrently seeking Shareholders' approval for a ratification of the 2023 RHC Loan Agreement.

In the event that Shareholders' approval is not obtained for ratification of the Loan Facility Novation Agreement, the Company would not be able to continue discharging its obligations in connection with the Loan Facility Novation Agreement without breaching Chapter 9 of the Catalyst Rules."

FY2024 vs FP2023

The Group recorded revenue of approximately US\$497.9 million in FY2024, representing an increase of 132% from US\$214.7 million in FP2023. The growth in revenue was primarily driven by the shipyard and newbuild management services segment, largely due to the progress of newbuild projects in FY2024. Additionally, the expansion of the fleet in FY2024 enhanced revenue in the vessel chartering and management segment, supported by higher charter rates and improved vessel utilisation. Furthermore, there was a rise in regional demand for submersible barges. The vessel chartering and management segment and the shipyard and newbuild management services segment accounted for approximately 9% and 91% respectively of the Group’s revenue in FY2024, as compared to approximately 13% and 87% respectively in FP2023.

APPENDIX B

The Group registered a gross profit of US\$29.6 million in FY2024 which was US\$11.2 million or 61% higher than that of US\$18.4 million in FP2023. Both the vessel chartering and management segment and shipyard and newbuild management services segment recorded increases in gross profit, with the latter segment being the major contributor. The Group's vessel chartering and management segment registered a 24.9% gross margin in FY2024 as compared to a 31.1% gross margin in FP2023, of which the decline was primarily attributable to higher vessel operating costs and repair and maintenance expenses. Additionally, the shipyard and newbuild management services segment registered a decline in gross margin from 5.2% in FP2023 to 4.1% in FY2024, mainly due to higher project costs which were recognised based on actual costs incurred.

The Group recorded other income of US\$0.1 million in FY2024 as compared to a loss of US\$4.0 million in FP2023. The change was primarily driven by lower bad debts of US\$1.3 million written off and higher creditors written back of US\$1.3 million, which was partially offset by an impairment loss on remeasurement of asset held for sale of US\$0.6 million, lower interest income of US\$0.2 million and a higher net foreign exchange loss of US\$0.6 million in FY2024. In addition, the loss in FP2023 included a write-off of US\$2.9 million for a vessel under construction due to a change in design, which did not recur in FY2024.

The increase in administrative expenses by US\$3.0 million or 41% from US\$7.2 million in FP2023 to US\$10.2 million in FY2024 was mainly attributable to higher staff costs and professional fees. This is aligned with the increased volume of the Group's businesses.

Finance costs in FY2024 rose to US\$17.6 million, compared to US\$9.3 million in FP2023. This increase was primarily due to higher interest expenses resulting from the drawdown of advances from shareholders and lease liabilities, as new right-of-use assets were recognised. Additionally, a rise in bank interest rates during FY2024 further contributed to the overall increase in finance costs.

The exceptional gain of US\$19.2 million in FY2024 was primarily attributable to the gain on settlement of Series A convertible bonds and perpetual capital securities, amounting to US\$15.3 million and US\$5.6 million respectively. This was partially offset by a loss on the deconsolidation of subsidiaries amounting to US\$1.8 million. In contrast, the exceptional gain of US\$2.0 million in FP2023 comprised the gain of settlement of Series B convertible bonds.

As a result of the above, the Group registered a higher profit attributable to owners of the Company of US\$20.4 million in FY2024 as compared to US\$1.7 million in FP2023.

FP2023 vs 12M2023

The Group recorded revenue of approximately US\$214.7 million in FP2023, representing an increase of 44% from US\$149.2 million in 12M2023. The increase was mainly attributable to increase in number of newbuild projects in the shipyard and newbuild management services segment. The increase was partially offset by the decrease in the vessel chartering and management segment, as there was a lower volume of vessel management work. In addition, there was a lower number of projects in the region requiring submersible barges. The vessel chartering and management segment and the shipyard and newbuild management services segment accounted for approximately 13% and 87% respectively of the Group's revenue in FP2023, as compared to approximately 43% and 57% respectively in 12M2023.

The Group registered a gross profit of US\$18.4 million in FP2023 which was US\$6.1 million or 49% higher than that of US\$12.3 million in 12M2023, primarily contributed by the shipyard and newbuild management services segment. The Group's vessel chartering and management segment registered a 31.1% gross margin in FPM2023 as compared to a 12.3% gross margin in 12M2023, due mainly to higher average daily charter rates and tight control over costs in FP2023. The shipyard and newbuild management services segment recorded 5.2% gross margin in FP2023, which was consistent with its 5.2% gross margin in 12M2023.

APPENDIX B

Other losses, net, increased by approximately US\$1.8 million to US\$4.0 million in FP2023 from US\$2.2 million in 12M2023. This was mainly due to a US\$2.9 million write-off of a vessel under construction due to a change in design, partially offset by lower net foreign exchange loss of US\$0.6 million and higher miscellaneous other income of US\$0.3 million in FP2023.

The exceptional gain of US\$2.0 million in FP2023 pertained to partial redemption of convertible bonds, while the exceptional loss of US\$3.2 million in 12M2023 pertained to the disposal of a vessel during 12M2023.

As a result of the above, the Group registered a profit attributable to owners of the Company of US\$1.7 million in FP2023 as compared to a loss of US\$9.4 million in 12M2023.

As at 31 December 2024

The Group's total assets of US\$467.1 million as at 31 December 2024 was US\$19.5 million higher as compared to 31 December 2023. This was mainly attributable to the increase in right-of-use assets, from US\$5.6 million as at 31 December 2023 to US\$62.4 million as at 31 December 2024 due to addition of leased vessels, partially offset by depreciation expenses. Such increase was partially offset by a decrease in other receivables from US\$163.5 million as at 31 December 2023 to US\$125.6 million as at 31 December 2024, mainly due to the utilisation of down-payments and prepayments made to third-party suppliers for the construction of new vessels that is aligned with the progress of the newbuild projects and revenue recognised.

The Group's total liabilities of US\$383.7 million as at 31 December 2024 was US\$57.5 million lower as compared to 31 December 2023. This was mainly attributable to the decrease in total current and non-current borrowings from US\$125.4 million as at 31 December 2023 to US\$116.7 million as at 31 December 2024 due to the repayment of term loans, the full settlement of convertible bonds during FY2024, and the decrease in contract liabilities from US\$202.2 million as at 31 December 2023 to US\$91.4 million as at 31 December 2024 that is aligned with the progress of the newbuild projects and revenue recognised. Such decrease was partially offset by an increase in current and non-current lease liabilities from US\$5.6 million as at 31 December 2023 to US\$50.2 million as at 31 December 2024 due to new liabilities incurred in relation to acquisition of right-of-use assets.

APPENDIX B

As at 31 December 2023

The Group's total assets of US\$447.6 million as at 31 December 2023 was US\$179.9 million higher as compared to 31 March 2023. This was mainly attributable to the increase in other receivables, from US\$56.4 million as at 31 March 2023 to US\$163.5 million as at 31 December 2023 due to higher down-payments and prepayments made to third-party suppliers for the construction of new vessels, and the increase in property, plant and equipment from US\$74.7 million as at 31 March 2023 to US\$83.8 million as at 31 December 2023 due to the purchase of new vessel and equipment, drydock for certain vessels and leasehold improvements, partially offset by depreciation expense and write-off of a vessel under construction.

The Group's total liabilities of US\$441.2 million as at 31 December 2023 was US\$172.9 million higher as compared to 31 March 2023. This was mainly attributable to an increase in contract liabilities from US\$51.6 million as at 31 March 2023 to US\$202.2 million as at 31 December 2023 due to higher amounts of deposits received in advance for construction of new vessels, and an increase in other payables from US\$38.5 million as at 31 March 2023 to US\$51.1 million as at 31 December 2023, mainly due to accrued costs for newbuild vessels.

4.3 Comparison with existing borrowings and previous debt securities of the Group

For the purpose of our analysis, we have benchmarked salient terms of the Ratified 2023 RHC Loan Agreement with (i) the existing borrowings of the Group and (ii) the previous debt securities issued by the Group, namely the Convertible Bonds and Perpetual Securities (as defined below). In our analysis, we note that the timing, nature and structure of such borrowings and debt securities, as well as the then prevailing benchmark interest rates are inherently different. In addition, we noted that the Convertible Bonds and Perpetual Securities have been fully settled during FY2024. Accordingly, such comparisons are limited and are presented for general benchmarking and illustrative purposes only.

Notes:

- (1) The abovementioned term loans under the restructuring agreement are secured by (i) mortgage of the property, vessels and equipment of the Group; (ii) assignment of marine insurances in respect of some of the vessels mentioned in (i); (iii) assignment of earnings/charter proceeds in respect of certain vessels mentioned in (i); (iv) corporate guarantees from the Company; and (v) shares in subsidiary corporations incorporated in Singapore.
- (2) On 31 October 2023, the Company had entered into a settlement agreement with one bondholder to fully settle the Series B floating Convertible Bonds due 2029. Pursuant to the settlement agreement and in consideration of the payment of the settlement amount of US\$3,957,749 by the Company, the bondholder shall waive any and all claims and rights and title that it may have in respect of the Series B Convertible Bonds. The aforementioned settlement amount was fully paid by the Company on 31 October 2023.
- On 14 June 2024, the Company entered into a deed of settlement for the Series A floating Convertible Bonds due 2029, which was subsequently amended on 8 August 2024 and terminated with effect on and from 6 September 2024. On 27 September 2024, the Company entered into a deed of settlement on the replacement arrangements to fully settle the Series A Convertible Bonds (“**Replacement Deed**”). Pursuant to the terms of the Replacement Deed, the Company made full payment of the settlement amount of US\$30,040,051.69. The full settlement of Series A Convertible Bonds was completed on 5 December 2024 and the Series A Convertible Bonds have been irrevocably cancelled and are void, and with no further effect thereafter.
- (3) On 14 June 2024, the Company entered into a deed of settlement to fully settle the Perpetual Securities. The settlement was completed on 8 August 2024, pursuant to which the Company made payment of the settlement amount of US\$18.4 million, and all the rights, benefits, title and interests to the Perpetual Securities were discharged, reassigned and released.
- (4) Being the date on which the interest rate of 8.00% per annum on the RHC Advances will take effect. Pursuant to the Ratified 2023 RHC Loan Agreement, before the expiry of the Specified Period, the Company shall seek fresh approval from the independent Shareholders on the determination of the applicable interest rate to charge on the RHC Advances for the next 3-year period (or such period as may be proposed by the Company and approved by the Independent Shareholders).

APPENDIX B

Based on the table above, the interest rate of 8.00% per annum applicable to the RHC Advances during the Specified Period is higher than the interest rates or distribution rates charged on the Group's existing borrowings and previous debt securities.

It should also be noted that the abovementioned debt facilities were granted to the Group during 2021 to 2022, where the interest rate environment then may have differed significantly from current interest levels. Furthermore, the existing debt facilities of the Group set out above (other than the RHC Advances) are secured against certain assets of the Group, which will impact the applicable interest rates on these facilities.

We note that before the expiry of the Specified Period during which the interest rate of 8.00% per annum is applicable to the RHC Advances, the Company will seek fresh approval from the Independent Shareholders on the determination of the applicable interest rate to charge on the RHC Advances for the next 3-year period (or such period as may be proposed by the Company and approved by the Independent Shareholders). In this regard, we consider this to be reasonable taking into account that the Specified Period of approximately 3 years is shorter than the range of loan tenures of the Group's current outstanding fixed and floating interest rate loan facilities of between 5 to 8 years.

4.4 Comparison with effective interest rates applicable to Broadly Comparable Companies

For the purpose of our analysis, we have also benchmarked the interest rate of the RHC Advances during the Specified Period under the Ratified 2023 RHC Loan Agreement against publicly available information on similar rates charged to public companies listed on the SGX-ST operating within the integrated offshore marine solutions sector in Singapore (the "**Broadly Comparable Companies**").

We wish to highlight that the Broadly Comparable Companies are not exhaustive and may differ from the Company in terms of, *inter alia*, business activities, scale and size of operations, asset base, geographical spread, their exposure to benchmark interest rates, track record, financial performance, operating and financial leverage, creditworthiness, risk profile, future prospects, existing capital structure, assets available for securitisation and other relevant factors. External factors, such as the state of the economies and the conditions, including borrowing conditions of the markets in which the Broadly Comparable Companies operate in, during the point in time when loans are granted will also have significant impact on the terms of the loans. Further, none of the Broadly Comparable Companies are exactly comparable to the Company and the loans or debt financing arrangements available the Broadly Comparable Companies may require certain level of securitisation or collaterals. Accordingly, the Independent Directors should note that the below comparisons are necessarily limited and are intended to serve only as an illustrative guide.

APPENDIX B

Notes:

- (1) The market capitalisation of the Broadly Comparable Companies is presented as at close of trading on the Latest Practicable Date. Total debt and total debt/total shareholders' equity are based on the respective issuers' published financial statements and annual reports (where applicable), and excludes lease liabilities. Interest rate range across various debt financing arrangements are based on the respective issuers' annual reports for their latest audited financial year end.
- (2) Effective interest rate is extracted from Bloomberg L.P. based on the respective issuers' latest full year financial statements. Based on the computation extracted from Bloomberg L.P., effective interest rate is calculated based on the total interest incurred (including capitalised interest expenses) divided by the average short and long term debt of the respective Broadly Comparable Companies.
- (3) As the reporting currency of Atlantic Navigation Holdings (Singapore) Limited, Mermaid Maritime Public Company Limited and the Company is US\$, the total debt (excluding lease liabilities) has been translated into S\$ based on the exchange rate of US\$1: S\$1.362 as at 31 December 2024, as extracted from Bloomberg L.P.
- (4) As the reporting currency of Nam Cheong Limited is Ringgit Malaysia ("RM"), the total debt (excluding lease liabilities) has been translated into S\$ based on the exchange rate of RM1: S\$0.3045 as at 31 December 2024, as extracted from Bloomberg L.P.
- (5) Not meaningful as the amount is less than 0.01, and regarded as an outlier for the purposes of computing the high, low, median and average total debt/total shareholders' equity.
- (6) Regarded as an outlier for the purpose of computing the high, low, median and average effective interest rates.
- (7) Being the interest rate per annum for the RHC Advances which will take effect on 1 April 2025.
- (8) The effective interest rate of the Company is computed based on the weighted average interest rates of the Group's debt facilities for FY2024 (assuming that the interest rate for the RHC Advances is 8.00% per annum with effect from FY2024) divided by the average short and long term debt of the Company for FY2024 (excluding lease liabilities).

Based on the above, we note the following:

- (a) the total debt (excluding lease liabilities)/total shareholders' equity of the Company is within the range of, and higher than the average and median of the Broadly Comparable Companies;
- (b) the interest rate of the RHC Advances of 8.00% per annum for the Specified Period is within range of the interest rates applicable to the Broadly Comparable Companies across various debt financing arrangements; and
- (c) the effective interest rate of the Company of 6.58% per annum (assuming that the interest rate for the RHC Advances is 8.00% per annum with effect from FY2024) is within the range of, and below the average and median effective interest rates of the Broadly Comparable Companies.

4.5 Comparison with recent IPTs involving loans or advances granted to companies listed on SGX-ST

For the purpose of our analysis, we have also benchmarked the interest rate of the RHC Advances under the Ratified 2023 RHC Loan Agreement against publicly available information on selected IPTs involving loans or advances granted to public companies listed on the SGX-ST within the last 2 years (the "**Precedent Borrowers**").

We wish to highlight that the Precedent Borrowers are not exhaustive and may differ from the Company in terms of, *inter alia*, business activities, scale and size of operations, asset base, geographical spread, their exposure to benchmark interest rates, specific borrowing or lending terms and conditions, track record, financial performance, operating and financial leverage,

APPENDIX B

creditworthiness, risk profile, future prospects, existing capital structure and other relevant factors. External factors, such as the state of the economies and the conditions, including borrowing conditions of the markets in which the Precedent Borrowers operate in, during the point in time when loans are granted will also have significant impact on the terms of the loans. Further, none of the Precedent Borrowers are exactly comparable to the Company. Accordingly, the Independent Directors should note that the below comparisons are necessarily limited and are intended to serve only as an illustrative guide.

APPENDIX B

Company Name	Announcement date	Details	Interest rate (%)	Term	Security
Kim Heng Ltd	18 Sep 23	Shareholder loan of up to S\$7,000,000	8.5% per annum	2 years from disbursement date	The loan and any interest accrued thereon shall be secured by the security created or expressed to be created over certain vessels and a barge in favour of the lender

APPENDIX B

Oxpay Financial Limited	18 Jan 25 ⁽¹⁾	Convertible shareholder loan of up to S\$2,000,000	6.9%	24 months from the disbursement date of each tranche	Not stated
Luminor Financial Holdings Limited	1 Mar 25	Shareholder loan of up to S\$1,500,000	7.5%	24 months	The loan is unsecured but is made with full recourse against the company and its successors.
The Company	1 April 25⁽²⁾	Up to US\$132,572,058	8.0%	No fixed terms of repayment	Unsecured

Source: Announcements publicly released by the Precedent Borrowers on SGXNET.

Notes:

- (1) Being the date of entry into the revised convertible loan agreement by Oxpay Financial Limited.
- (2) Being the date on which the interest rate of 8.00% per annum on the RHC Advances will take effect.

Based on the above, we noted that the interest rate for the RHC Advances of 8.00% per annum pursuant to the Ratified 2023 RHC Loan Agreement during the Specified Period is within the range of interest rates charged for recent loans or advances granted as IPTs to the Precedent Borrowers.

APPENDIX B

4.6 Comparison with prevailing interest rates

We have also considered the prevailing interest rate environment as at the Latest Practicable Date, which may have an impact to the Group's potential borrowing rates:

- (a) In view that the RHC Advances are denominated in USD, we have benchmarked and considered that the interest rate of the RHC Advances of 8.00% per annum is above the United States banks prime lending rates of 7.50% per annum as at the Latest Practicable Date; and
- (b) as RHC and RENG have significant operations and business activities in the Kingdom of Saudi Arabia, and the interest rate of the RHC Advances have taken into consideration the cost of funds by RHC and RENG, we have benchmarked and considered that the interest rate of the RHC Advances of 8.00% per annum is above the Saudi Arabia Repo Rate, which has been fixed by the Saudi Central Bank at 5.00% per annum since December 2024.

4.7 Other relevant considerations

4.7.1 Refinancing alternatives and current borrowing environment

We understand that the Management had considered other financing alternatives *vis-à-vis* the current 2023 RHC Loan Agreement, and had represented that the Ratified 2023 RHC Loan Agreement remains the most efficient method of securing necessary financial support for the Group's continued operations. We also noted that the Group had, as at 31 December 2024, breached certain financial covenants imposed by two lenders of term loans, and have obtained waivers from these lenders for the breach until 31 December 2025. As at the Latest Practicable Date, the Group has not been served with any notices of events of default for any of its loans.

The Group has also, in the past, undertaken debt restructuring exercises in relation to the settlement of outstanding amounts owed to its lenders comprising financial institutions, interested parties and other third party lenders, pursuant to a proposed restructuring undertaken to extend the Group's debt maturity profile and provide sufficient operational and financial flexibility, and allow the Group to service its debts based on its expected future cash flows. In addition to the novation and conversion of outstanding principal amounts due under the Group's debt facilities into Convertible Bonds, the Group had also entered into settlement arrangements for its debt securities, particularly its Convertible Bonds and Perpetual Securities, which were completed as at FY2024.

The abovementioned breaches and prior debt restructuring exercises may hence limit the Group's availability to obtain refinancing alternatives, including loans and borrowings, within reasonable timeframes and with meaningful comparable features, such as security interest and repayment terms, as with the Ratified 2023 RHC Loan Agreement. Accordingly, any comparison by the Company across such refinancing alternatives with favourable terms are inherently limited. The Company had nonetheless assessed and concluded that the Ratified 2023 RHC Loan Agreement is the most efficient refinancing option which will allow the Group to achieve an optimal capital structure at minimal cost and time delay, without adversely impacting the Group's financial position and its flexibility in managing its working capital position.

The Management also represented that it expects the interest rate environment to remain volatile, clouded by various macroeconomic and geopolitical headwinds, including the imposition of trade tariffs and protectionist trade measures by various governments, weakened consumer sentiment, volatile oil prices, and heightened inflation expectations. Accordingly, the Group expects to continue operating within a difficult borrowing and volatile interest rate environment.

APPENDIX B

4.7.2 RHC's cost of funds

As set out in Section 3.4 of this IFA Letter, the interest rate of 8.00% per annum for the Specified Period was arrived at pursuant to an arm's length negotiation between the Company and RHC, taking into consideration the cost of funds of RHC Group.

In assessing RHC Group's cost of funds, we relied on and had considered information available to us as at the Latest Practicable Date being the domestic sukuk bonds issued by RHC during the past 3 years, and extracted from Bloomberg L.P.. As at the Latest Practicable Date, the outstanding sukuk bonds issued by RHC carry coupon rates ranging from 6.40% to 8.75% per annum, with maturity terms ranging from 2 to 4 years. We note that the interest rate of 8.00% per annum for the RHC Advances during the Specified Period falls within the range of coupon rates for RHC's outstanding sukuk bonds.

The Independent Directors should note that the above assessment may not include all of RHC's debt and borrowings, given that information on certain debt and/or borrowing facilities of RHC may not be disclosed or made publicly available for our use. Accordingly, the above assessment serves to facilitate general benchmarking of RHC's cost of funds, and may be inherently limited.

5 OUR OPINION

In arriving at our opinion, we have taken into account the following factors which we consider to be relevant and to have a significant bearing on our assessment of the Proposed IPTs:

- (a) the rationale for the Proposed IPTs, specifically the fact that the RHC Advances have been beneficial to the Group and had provided the necessary financial support for the continuing operations of the Group. The Ratified 2023 RHC Loan Agreement would enable RHC to continue to provide the necessary financial support to the Group. Further, the Loan Facility Novation Agreement would enable the Group to be in compliance with the Ratified 2023 RHC Loan Agreement;
- (b) while the interest rate of 8.00% per annum applicable to the RHC Advances during the Specified Period is higher than the interest rates or distribution rates charged on the Group's existing borrowings and previous debt securities, the RHC Advances are unsecured, while the Group's existing debt facilities are secured against certain assets of the Group, which will impact the applicable interest rates on these facilities;
- (c) while the RHC Advances do not have a fixed repayment term, the interest rate of 8.00% per annum is applicable to the RHC Advances during the Specified Period of approximately 3 years, commencing from 1 April 2025. Before the expiry of the Specified Period, the Company will seek fresh approval from the Independent Shareholders on the determination of the applicable interest rate to charge on the RHC Advances for the next 3-year period (or such period as may be proposed by the Company and approved by the Independent Shareholders). The Specified Period of approximately 3 years to which the interest rate of 8.00% per annum is applicable is shorter than the range of loan tenures of the Group's current outstanding fixed and floating interest rate loan facilities of between 5 to 8 years;
- (d) the interest rate of the RHC Advances of 8.00% per annum for the Specified Period is within range of the interest rates applicable to the Broadly Comparable Companies across various debt financing arrangements;
- (e) the effective interest rate of the Company of 6.58% per annum (assuming that the interest rate for the RHC Advances is 8.00% per annum with effect from FY2024) is within range of, and below the average and median effective interest rates of the Broadly Comparable Companies;

APPENDIX B

- (f) the interest rate for the RHC Advances of 8.00% per annum pursuant to the Ratified 2023 RHC Loan Agreement during the Specified Period is within the range of interest rates charged for recent loans or advances granted as IPTs to Precedent Borrowers;
- (g) the interest rate of 8.00% per annum for the RHC Advances during the Specified Period falls within the range of coupon rates for RHC's outstanding sukuk bonds; and
- (h) the refinancing alternatives available to the Group, as well as the current challenging borrowing environment, to which the Management had represented that the Ratified 2023 RHC Loan Agreement is the most efficient refinancing option which will allow the Group to achieve an optimal capital structure at minimal cost and time delay, without adversely impacting the Group's financial position and its flexibility in managing its working capital position.

We have carefully considered as many factors as we deem essential and balanced them before reaching our opinion. Accordingly, it is important that our IFA Letter, in particular, all the considerations and information which we have taken into account, be read in its entirety.

Having carefully considered the information available to us as at the Latest Practicable Date, we are of the opinion that the Proposed IPTs are on normal commercial terms and are not prejudicial to the interests of the Company and its minority Shareholders.

The Independent Directors should note that we have arrived at our recommendation based on information made available to us prior to and including the Latest Practicable Date. We assume no responsibility to update, review or reaffirm our opinion in light of any subsequent development after the Latest Practicable Date, unless otherwise stated.

We have prepared this IFA Letter pursuant to Rule 921(4)(a) of the Catalist Rules as well as for the use by the Independent Directors in connection with their consideration of the Proposed IPTs, but any recommendations made by the Independent Directors in respect of the Proposed IPTs shall remain their sole responsibility. Whilst a copy of this IFA Letter may be reproduced in the Circular, neither the Company, the Directors nor any other persons may reproduce, disseminate or quote this IFA Letter (or any part thereof) for any purposes (other than for the consideration of the Proposed IPTs) at any time and in any manner without the prior written consent of ZICO Capital.

This opinion is governed by, and construed in accordance with, the laws of Singapore, and is strictly limited to the matters stated herein and does not apply by implication to any other matter.

Yours faithfully
For and on behalf of
ZICO Capital Pte. Ltd.
