#### E. Notes to the condensed interim consolidated financial statements

#### 1. Corporate information

Isetan (Singapore) Limited (the Company) is incorporated and domiciled in Singapore and whose shares are publicly traded on the Mainboard of the Singapore Exchange. These are condensed interim financial statements as at and for the six months ended 30 June 2021 of the Company. The principal activities of the Company are to carry on the business of operating department stores, operating supermarkets, to trade in general merchandise and to earn rental income from its investment properties.

### 2. Basis of Preparation

The condensed interim financial statements for the six months ended 30 June 2021 have been prepared in accordance with SFRS(I) 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company's financial position and performance of the Company since the last annual financial statements for the year ended 31 December 2020.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1.

The condensed interim financial statements are presented in Singapore dollar which is the Company's functional currency.

#### 2.1. New and amended standards adopted by the Company

A number of amendments to Standards have become applicable for the current reporting period. The Company did not have to change its accounting policies or make retrospective adjustments as a result of adopting those standards.

The Company had early adopted the amendments to "SFRS(I) 16 Covid-19-Related Rent Concessions beyond 30 June 2021" on 1 January 2021. Amendment to SFRS(I) 16 Covid-19-Related Rent Concessions provided an optional practical expedient for lessees from assessing whether a rent concession related to COVID-19, resulting in a reduction in lease payments due on or before 30 June 2021, was a lease modification. On 31 March 2021, a further amendment was published to extend the date of the practical expedient from 30 June 2021 to 30 June 2022.

### 2.2. Use of judgements and estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements as at and for the year ended 31 December 2020.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

Note 16 - Critical judgement over the lease terms

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next interim period are included in the following notes:

Note 11 - Impairment of property, plant and equipment ("PPE") and Right-of-use ("ROU") assets

### 3. Seasonal operations

The Company is in the business of operating department stores, operating supermarkets, to trade in general merchandise and to earn rental income from its investment properties. Due to the seasonal nature of the department stores and supermarkets segments, higher revenues and operating profits are usually expected during the feastive seasons such as Christmas and Chinese new year.

### 4. Segment information

Management has determined the operating segments based on the reports reviewed by the Executive Committee ("Exco") that are used to make strategic decisions. The Exco comprises the Managing Director and certain key executives in charge of the various functional areas. Operating segments that have similar economic characteristics and similar nature of products and services are aggregated into a single reportable segment.

The Exco sees the business being organised into two reportable segments:

The Retail segment is involved in the business of retailing and operating of department stores and supermarkets.

The Property segment is mainly involved in the leasing of properties owned by the Company

Segment assets consist primarily of right-of-use assets, property, plant and equipment, inventories, receivables, investment properties and exclude cash and cash equivalents, investment in an associate, other investments at amortised cost, financial assets, at FVOCI and other assets. Segment liabilities comprise payables and provisions. Capital expenditures comprises additions to property, plant and equipment and investment properties.

There are no sales or other transactions between the reportable segments.

#### 11. Impairment

Continued losses in the Retail segment in the current financial period is an indicator of impairment of PPE and ROU assets.

For the purpose of impairment testing, the recoverable amounts of the PPE and ROU assets are determined based on the higher of value-in-use ("VIU") and fair value less costs to sell ("FVLCTS"), for the cash-generating-unit ("CGU") (i.e. retail store) to which the assets belong.

The recoverable amounts of the PPE and ROU assets in the loss-making retail stores are obtained based on the Value-in-use ("VIU") method. Value in use as at 30 June 2021 was determined similarly to the 31 December 2020 impairment test and was based on key assumptions which include the discount rate, growth rates and rental income assumptions.

The recoverable amount of the corporate assets under the Retail segment is based on the fair value less costs to sell ("FVLCTS") method, which was determined similarly to the 31 December 2020 impairment test.

No impairment loss was required for the carrying amounts of the PPE and ROU assets as at 30 June 2021.

### 13.1. Fair value measurement

The Company classifies financial assets measured at fair value using a fair value hierarchy which reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- a) Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- b) Inputs other than quoted prices included within Level 1 which are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- c) Inputs for the assets or liability which are not based on observable market data (unobservable inputs) (Level 3)

The following table presented the assets measured at fair value:

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in Level 1.

The financial instrument included in Level 3 comprises of an investment that does not have quoted prices from active markets for the fair value to be based on. Instead, the fair value is measured using the estimated EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortisation) multiplied by the EBITDA Multiple. The estimated EBITDA incorporates assumptions based on market conditions existing at the balance sheet date, and the EBITDA Multiple is derived from a set of comparable entities. The selection of the appropriate EBITDA Multiple requires judgement, considering qualitative and quantitative factors specific to the measurement at the balance sheet date.

#### 14. Investment Properties

The Company's investment properties consist of both commercial and industrial properties, held for long-term rental yields and/or capital appreciation and are not substantially occupied by the Company. They are leased to third parties under operating leases.

#### 15. Property, plant and equipment

During the six months ended 30 June 2021, the Company acquired assets amounting to \$782,000 (30 June 2020: \$4,125,000).

### 16. Right-of-Use assets

Extension option is included in the lease term if the lease is reasonably certain to be extended. In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise the extension option.

As at 30 June 2021, management has assessed that there were no changes in key judgements over the lease term as compared to 31 December 2020. The recoverable amounts of the PPE and ROU assets are obtained based on the VIU method and the discount rate used at 30 June 21 was 7.80% (30 June 2020: 7.80%). The growth rates and rental income assumptions applied in the VIU computations are based on the financial budgets prepared by management and the identification of CGU (retail store) is in line with the Company's strategic objective in managing the Retail segment.

#### 2. Review of performance of the Company

#### **Income Statement**

#### Overview

The Company generated a net profit of \$1,250,000 for the six months ended 30 June 2021 as compared to a loss of \$317,000 for the six months ended 30 June 2020 mainly due to the following:

#### Revenue

Revenue for the period ended 30 June 2021 ("1H 2021") was \$38,367,000, an increase of 12.84% over the corresponding period ("1H 2020"). The increase in Company revenue was due to the higher sale of goods from the retail segment, higher consignment income and higher rental income from the Isetan Wisma Atria investment property ("investment property"). The increase was mainly due to the stores being able to operate on a full six month basis for 1H 2021 as compared to the closure of the stores during the period 7 April to 18 June 2020 as well as the impact from the safe management measures implemented last year. The improved revenue in 1H 2021 was however affected by the discontinued operations of Jurong East store on 8 March 2020. Revenue from investment property correspondingly increased as well as compared to the same period last year where mandatory rental rebates were given to SME tenants in accordance with Government measures in response to the COVID-19 pandemic. However, the recovery in revenue was disrupted by the Phase 2 Heightened Alert measures from 16 May 2021.

#### Other income

Other income for 1H 2021 was \$4,011,000, a decrease of 56.94% over the corresponding period ("1H 2020"). The decrease in other income was mainly due to less income from finance leases under SFRS(I) 16, lower grant income from the government and lower rental concession income from landlord. These more than offset the new operating lease income from Isetan Scotts.

#### Other (losses)/gains - net

Other losses for the 1H 2021 was \$50,000, a decrease over the corresponding period ("1H 2020"). The decrease in other losses was mainly due to the decrease in impairment for other investments, at amortised cost.

### Changes in inventories of finished goods and purchases of inventories and related costs

Changes in inventories of finished goods for the 1H 2021 was \$341,000, a decrease of 67.18% over the corresponding period ("1H 2020"). The decrease was mainly due to increased sales in 1H 2021 as compared to 1H 2020 where stores were closed from 7 April 2020 to 18 June 2020.

### Purchases of inventories and related costs

Purchases of inventories and related costs for the 1H 2021 was \$14,524,000, an increase of 13.38% over the corresponding period ("1H 2020"). The increase was mainly due to stores operating on a full 6 months basis as compared to last year where stores were closed from 7 April 2020 to 18 June 2020 in the financial year ended 31 December 2020.

### **Employee compensation**

Employee compensation for the 1H 2021 was \$7,633,000, an increase of 2.39% over the corresponding period ("1H 2020"). The increase was mainly due to the increase in bonus provision in 1H 2021.

### Depreciation expense

Depreciation expense for the 1H 2021 was \$5,833,000, a decrease of 39.21% over the corresponding period ("1H 2020"). The decrease was mainly due to the impairment of right-of-use assets and property, plant and equipment provided in financial year ended 31 December 2020.

### Rental expense

Rental expense for the 1H 2021 was \$1,144,000, an increase of 16.97% over the corresponding period ("1H 2020"). The increase was mainly due to increase in gross turnover rent payment.

### Service charge expense

Service charge expense for the 1H 2021 was \$3,111,000, an increase of 39.19% over the corresponding period ("1H 2020"). The increase was mainly due to the rental rebates given by landlords in 1H 2020 but not in 1H 2021.

### Other expenses

Other expense for the 1H 2021 was \$7,447,000, an increase of 14.98% over the corresponding period ("1H 2020"). The increase was mainly due to the higher cost incurred for sales promotion, credit cards commissions and repair works performed.

#### **Balance Sheet**

The reduction in other investments, at amortised cost were mainly due to the bonds which had matured and placed in fixed deposit.

The reduction in right-of-use ("ROU") assets were mainly due to the depreciation charges for six months and de-recognition of ROU to recognise finance lease receivables.

Trade and other payables as at 30 June 2021 decreased by \$9,926,000 compared with 31 December 2020, mainly due to the repayment made to trade creditors.

The decrease in lease liabilities were mainly due to repayment made to the landlord.

#### **Statement of Cash Flows**

There was a decrease in cash and cash equivalents amounting to \$1,853,000 in 1H 2021, compared to a net decrease of \$6,171,000 in 1H 2020. This is mainly attributed to the repayment made to trade creditors offset by cash generated from maturity and early-redemption of our long term other investment.

Net cash used in operating activities of \$525,000 in 1H 2021 as compared to net cash used of \$13,316,000 in 1H 2020 resulted mainly due to increase in profit during the period and lower repayment made to trade creditors.

Net cash generated from investing activities for 1H 2021 was \$8,008,000 compared to net cash of \$15,463,000 generated in 1H 2020 which resulted due to reduction in cash inflows generated from maturity and early-redemption of investments.

3. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

No forecast was made previously.

4. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Company operates and any known factors or events that may affect the Company in the next operating period and the next 12 months

The retail environment remains challenging for the Company as new clusters of COVID-19 cases continue to emerge. As such, the Company still expects its sales revenue to be negatively impacted over the coming months. The duration and extent of this impact is difficult to predict at this point in time. Nevertheless, recent announcements by the Singapore Government regarding the country's transitioning to a new normal, with COVID-19 being treated as being endemic and travel anticipated to resume by end of the year is something that the Company can look forward.

Meanwhile, the Company will continue to focus on driving operational efficiency across its business, which includes leveraging on its online business to increase its product offerings and customers base as well as increase the channels for our customers to shop with peace of mind and convenience. The Company's stable balance sheet and liquidity position it well to take advantage of any new opportunities that may arise.

With regard to the Company's investment property, it was announced on the 11 Jun 2021, that the Company has appointed Savills (Singapore) Pte Ltd as the marketing agent to assist the Company to assess interest in the possible purchase of the Company's property located at Wisma Atria 435 Orchard Road Singapore 238877 ("Isetan Wisma Atria") and/or commence exploratory discussions with third parties for this purpose.

The lease of our Katong store will expire on 9 March 2022 as the negotiation with our landlord for a further extension of the lease did not yield a positive result. The company has no immediate plan to find a replacement store and will continue to maintain its retailing operations via its remaining stores at Shaw House, Tampines Mall and NEX. The financial effect of the eventual expiry of the lease for the current and next financial year cannot be reasonably estimated as at the date of this announcement.
