(1) Review of Operations

In this fiscal year, the United States economy has gradually recovered due to a steady recovery of employment environment, a rising trend of share prices and an improvement of personal consumption. European financial market has also regained stability. Meanwhile, in Asian economy including China, its prospects have been uncertain by the slowdown in the growth rate and unstable political situation.

In the Japanese economy, signs of upturn from the long deflationary trend are gradually shown by economic and fiscal policy of 'Abenomics'. However, the economic condition has still been uncertain because of a stagnation of personal consumption by the raising of the consumption tax.

Under the uncertain market condition, the MARUWA Group's business results during this fiscal year has stayed firm especially in the field of ceramic products for power modules. In the lighting equipment field, YAMAGIWA Corporation (called as YAMAGIWA hereafter) contributed to the sales. In addition, MARUWA and YAMAGIWA have developed and released new products together with their both technologies.

As a result, our consolidated net sales were 33,475 million yen (this is up 37.2% compared to the same period last fiscal year). Our operating income was 3,350 million yen (this is up 46.4% compared to the same period last fiscal year). Ordinary profit was 3,645 million yen (this is up 16.2% compared to the same period last fiscal year). Net income was 2,586 million yen (this is up 26.7% compared to the same period last fiscal year).

1. The Ceramic Components Division

The total sales for this business segment was 21,279 million yen (this is up 10.5% compared to the same period last fiscal year). Operating profit was 3,939 million yen (this is up 32.9% compared to the same period last fiscal year).

Energy saving market and environment-related products market are still brisk and the sales of ceramic products for HEV and LED remained strong. Moreover, general electronic parts for digital home appliances and products for semiconductor manufacturing equipment have generally recovered.

2. Lighting Equipment Division

The total sales for this business segment was 12,196 million yen (this is up 136.8% compared to the same period last fiscal year). Operating profit was 426 million yen (this is up 124.3% compared to the same period last fiscal year).

Reported sharply higher revenues because YAMAGIWA became a consolidated subsidiary in 2012. However, in profit, expenses contemporarily increased by rationalization of YAMAGIWA.

*Cautionary statements: the above forecasts are forward-looking statements involving risks and uncertainties.

Due to a number of factors, actual results may differ significantly from these estimates.

The outlook of the world economy is still uncertain because of economic slowdown of emerging markets including China and Ukraine crisis. It is anticipated that Japanese economy would still be under uncertain condition.

It is expected that an environment-related product market, which is identified as our growth strategy, would continue strong. Continuous expansion of LED lighting market and increasing demand in a luxury properties market, which is the most respective areas for YAMAGIWA, are also expected. We will continue to focus on development of new products and sales expansion by combining material and component technologies from MARUWA with brand power and solution providing from YAMAGIWA.

We forecast that consolidated net sales for the next fiscal year will be 36,500 million yen (up 9.0% compared to last fiscal year). In terms of operating income is expected to be 4,300 million yen (up 28.4% compared to last fiscal year), net income 2,700 million yen (up 4.4% compared to last fiscal year).

For capital investment, we will continue to invest energy saving, environmental-related, information, communication, medical and optical communication business to meet customers' needs. In addition, we have a plan to strengthen R&D with human resources and development of new value-added products.

MARUWA Group will strengthen the corporate structure and improve profitability, which will benefit all stakeholders, including shareholders.

(Cautionary statements about forecast)

The above forecasts are based on the present business environment and currently-available information, and including forward-looking statements involving risks and uncertainties. The reader is cautioned not to place reliance entirely on the above forecast for making investment decisions. Due to a number of factors, such as future economic situations and market environment changes, actual results may differ significantly from these estimates.

Depreciation	1,958	2,308	350	17.9%

Total assets as of this fiscal year were 49,569 million yen, up 8.7% compared to the end of last fiscal year. The main factor is the increase of cash and deposit. Total liabilities were 9,554 million yen, up 12.8% compared to the end of last fiscal year. The main factor is the increase of notes payable and accounts amount payable. Total net assets were 40,016 million yen, up 7.7% compared to the end of last fiscal year. The main factor is the increase of earned surplus.

As a result, capital ratio of this fiscal year were 80.7%, down 0.7 compared to the end of last fiscal year.

Cash from operating activities was 4,056 million yen, down 91 million yen compared to the end of last fiscal year.

Cash for investing activities was 1,927 million yen, down 1,512 million yen compared to the end of last fiscal year. The main factor is the decrease of purchase of tangible and fixed assets.

Cash from financing activities was 170 million yen (947 million yen purchase last fiscal year). The main factor is the increase of proceeds from sales of treasury stock.

As a result, the total cash from operating activities and investing activities exceeded cash for investing activities. Cash and cash equivalents by the end of fiscal year was 12,507 million yen, up 2,497 million yen compared to the end of last fiscal year.
