PROFIT GUIDANCE ON THE UNAUDITED CONSOLIDATED FINANCIAL RESULTS FOR THE HALF YEAR ENDED 30 SEPTEMBER 2026

The Board of Directors of Chemical Industries (Far East) Limited (the "**Company**" and together with its subsidiaries, the "**Group**") wishes to announce that, following a preliminary review of the unaudited consolidated financial results for the 1st Half ended 30th September 2026 ("**FY2027"**), the Group is expected to report a loss.

The loss in the results for 1st Half FY2027 mainly stems from:

- High energy cost pegged to Brent Crude due to the ongoing middle eastern conflict;
- Supply chain disruption and increased cost of imported key raw materials
- Lower demand from Industrial segment badly impacted by the same middle east conflict with one customer declaring Force Majeure.

This profit guidance is based on preliminary assessment by the Board on current information available, including unaudited management accounts. Further details of the Group's financial performance will be disclosed when the Company announces its unaudited consolidated financial statements for the 1st Half financial year FY2027 on or before 13th November 2026.

In the meantime, shareholders and investors are advised to exercise caution when dealing in the Company's shares and securities. When in doubt about the action that they should take, they should seek advice from their stockbrokers, bankers, solicitors, accountants, tax advisers and/or other professional advisers.
