For the financial year ended 31 December 2015 ("FY15"), the Group reported revenue of \$52.5 million, a decrease of 9% from \$57.8 million in the corresponding period in 2014 ("FY14"). However, for the three months ended 31 December 2015 ("4Q15"), the Group reported revenue of \$11.0 million, a decrease of 33% from \$16.4 million from the corresponding period in 2014 ("4Q14"). This decrease across the Board is due to weaker business environment as compared to prior period.

Gross profit decreased from \$5.7 million in FY14 to \$2.8 million in FY15. PCB operations posted a gross profit of \$3.3 million which was partially offsetted by Mechanical drilling and Routing segment's gross loss of \$0.6 million. The gross loss from Mechanical drilling and Routing arises from fixed manufacturing expenses such as labour cost, electricity and depreciation.

On a quarterly basis, a gross profit of \$0.2 million was reported for 4Q15. This slight gross profit was due to decrease in PCB operations revenue in 4Q15, coupled with high fixed manufacturing expenses.

The Group reported a net loss of \$8.4 million for 4Q15 and net loss of \$17.6 million for 4Q14.
