2. Whether the figures have been audited or reviewed and in accordance with which auditing standard or practice.

The figures have not been audited or reviewed by the auditors.

**3.** Where the figures have been audited or reviewed, the auditors' report (including any modifications or emphasis of a matter).

Not applicable.

- **3A.** Where the latest financial statements are subject to an adverse opinion, qualified opinion or disclaimer of opinion:-
  - (a) Updates on the efforts taken to resolve each outstanding audit issue.
  - (b) Confirmation from the Board that the impact of all outstanding audit issues on the financial statements have been adequately disclosed.

This is not required for any audit issue that is a material uncertainty relating to going concern.

Not applicable.

## 4. Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.

Except as disclosed in Note 5 below, the company has applied the same accounting policies and methods of computation in preparing this financial statement for the current accounting year compared with the most recently audited financial statements for the year ended 31 December 2018.

# 5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.

The Company adopted the mandatory standards, amendments and interpretations to existing standards that are relevant to the Company for annual accounting periods beginning on or after 1 January 2019 and which the Company did not previously opt to adopt earlier.

The adoption of the new/revised Singapore Financial Reporting Standards (International) ("SFRS(I)s"), SFRS(I) Interpretations and amendments to SFRS(I)s did not have any significant impact on the financial statements of the Company except for the following.

#### SFRS(I) 16 Leases (effective for annual periods beginning on or after 1 January 2019)

The Company has elected the simplified transition approach for transition to the new standard on leases. In accordance with the transition provisions in SFRS(I) 16, the new rules have been adopted with any effect of initially applying the new standard recognised on 1 January 2019. Comparatives for the 2018 financial year have not been restated.

In accordance with SFRS(I) 16, the Company has accounted for one property lease as a short-term lease which continues to be recognised on a straight-line basis as an expense item in the income statement.

For the remaining property leases, right-of-use assets are measured on transition at the amount of lease liabilities on adoption (adjusted for any prepaid or accrued lease expenses).

On 1 January 2019, the Company recognised right-of-use assets of approximately \$32,524,000 (net of provision for onerous rental contracts of \$1,350,000 and accrued lease expense of \$154,000) and lease liabilities of \$34,028,000 (after adjustments for prepayments and accrued lease payments recognised). The adoption of SFRS(I)16 on the Company's activities as a lessor has no significant impact on the quarterly results.

#### Change in accounting policy for the Company's investment in an associated company

Following the completion of strike-off of a subsidiary on 7 May 2018, the Company ceased to hold any investment in subsidiary and the Company level financial statements will be prepared for the financial year ended 31 December 2019. Accordingly, from 1 January 2019, as the Company is no longer able to qualify for exemption from applying the equity method of accounting to its investment in an associated company, the Company accounted for its

investment in an associated company in the financial statements using the equity method of accounting less impairment losses, if any.

Before 1 January 2019, the Company applied the exemption from equity accounting for its investment in an associated company as consolidated financial statements were prepared. As such, the investment in associated company was carried at cost less accumulated impairment losses in the Company's balance sheet.

In accordance with SFRS(I) 1-8 Accounting Policies, Changes in Accounting Estimates and Errors, the Company has accounted for the change in accounting policy retrospectively. The changes and modifications to comparative financial statements presentation are summarised below:

  - (a) any significant factors that affected the turnover, costs, and earnings of the company for the current financial year reported on, including (where applicable) seasonal or cyclical factors;
  - (b) any material factors that affected the cash flow, working capital, assets or liabilities of the company during the current financial year reported on.

#### **Review of Company Performance**

#### **Unaudited income Statement**

The Company made a loss before income tax of \$27,188,000 for the year ended 31 December 2019 ("FY2019") compared to a loss of \$13,715,000 for the year ended 31 December 2018 ("FY2018") mainly attributed to impairment losses on right-of-use assets and property, plant and equipment.

#### Revenue

Revenue for FY2019 was \$111,885,000, a decrease of 8.42% over FY2018. The decrease in revenue was due to lower sale of goods and consignment income from the retail segment, caused substantially by exiting brands due to store-wide renovation works done at the Company's flagship store at Shaw House. Majority of the renovation work was completed by end 2019 and the outstanding work will be expected to complete by June 2020.

#### Depreciation expense

Depreciation expense for FY2019 was higher than FY2018 due to the adoption of SFRS(I) 16 (Please refer to note 5). The capitalisation of leases as right-of-use assets and the consequent depreciation of these assets resulted in higher depreciation. Without this adoption, depreciation expense is estimated to be \$4,606,000 for FY2019 as compared to \$6,677,000 in FY2018; it is lower due to the impairment of property, plant and equipment ("PPE") in the previous year, resulting in lower PPE depreciation in FY2019.

#### **Rental expense**

Rental expense for FY2019 was lower than FY2018 due to the adoption of SFRS(I) 16 (Please refer to note 5). Without this adoption, the rental expense is estimated to be \$30,377,000 for FY2019 as compared to \$31,945,000 for FY2018. The Company has accounted for one property lease as a short-term lease which continues to be recognised on a straight-line basis as an expense item in the income statement.

#### Impairment loss

Losses in the retail segment is reflective of the continuing challenges in the retail industry. Accordingly, an impairment charge of \$\$3,808,000 on property, plant and equipment ("PPE") and \$22,658,000 on right-of-use assets ("ROU") (2018: Impairment charge of \$\$11,887,000 on PPE) was recorded to reduce the carrying value of these assets in the retail segment.

#### **Unaudited Balance sheet**

#### **Investment properties**

Investment properties increased by 22.45% from \$28,820,000 as at 31 December 2018 to \$35,289,000 at 31 December 2019 primarily due to reclassification of half of Kallang Pudding warehouse from property, plant and equipment to investment properties as management has intentions to lease out half of the building for rental income in the long term.

#### Right-of-use assets

Due to the adoption of SFRS(I) 16 from 1 January 2019, a right of use assets of \$64,654,000, after impairment of \$22,658,000 is recognised on the balance sheet as at 31 December 2019 (Please refer to note 5 for more details).

#### Lease liabilities

Due to the adoption of SFRS(I) 16 from 1 January 2019, lease liabilities of \$89,632,000 (of which \$19,892,000 are current liabilities and \$69,740,000 are non-current liabilities) have been recognised on the balance sheet as at 31 December 2019 (Please refer to note 5 for more details).

#### Trade and other payables

Trade and other payables under current liabilities had decreased by 4.85% from \$43,026,000 as at 31 December 2018 to \$40,938,000 at 31 December 2019. This is primarily due to decreases in purchasing activities for the year.

#### **Unaudited Statement of Cash Flows**

There was a net decrease in cash and cash equivalents amounting to \$11,387,000 in FY2019, compared to a smaller net decrease of \$7,021,000 in FY2018.

Net cash generated from operating activities increased from \$6,694,000 in FY2018 to \$20,848,000 in FY2019 mainly due to reclassification of rental expenses under operating activities as "payment of Interest element of lease liabilities" and "payment of finance lease liabilities" under financing activities. This reclassification, which followed the adoption of SFRS(I) 16 (please see note 5) also resulted in a net increase in cash used in financing activities of \$24,884,000 in FY2019 compared to \$2,063,000 in FY2018.

Net cash used in investing activities for FY2019 was \$7,351,000 compared to \$11,652,000 in FY2018 due to lesser amounts spent on purchases of financial assets.

# 9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

No forecast was made previously.

# 10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the company operates and any known factors or events that may affect the company in the next reporting period and the next 12 months.

With the current uncertain global economic climate not showing clear signs of resolution in the near future, combined with rising business costs and intense competition within the retail industry, the Company expects operating conditions will continue to be challenging in the next 12 months.

In addition, unforeseen circumstances such as the COVID-19 outbreak is expected to adversely affect the retail industry. The Company has and will continue to take measures as advised by the Ministry of Health to safeguard our employees and customers.

In view of the challenging environment in the retail industry, the Company will continue to actively review its business strategies and make changes as appropriate.

#### 11. Dividend

# 17. In the review of performance, the factors leading to any material changes in contributions to turnover and earnings by the business or geographical segments.

The retail segment continued to face stiff competition. Revenue for this segment declined 10.30% in FY 2019 as compared to FY 2018. Despite efforts to reduce operating expenses, net loss of the Company widened from \$13.715 million in FY 2018 to \$27.188 million in FY 2019 due to impairment losses of property, plant and equipment ("PPE"), right-of-use ("ROU") assets and provision for onerous contracts.
