Suburban

▲ **0.4%**

Downtown

▲ **8.8%**
YoY

- Tenant sales increased YoY due to the two-month contribution from ION Orchard, partially offset by the ongoing AEI at IMM Building and increase outbound travel during school and year-end holidays. However, the inclusion of ION Orchard may not reflect a meaningful illustration of the overall retail trend in our portfolio. Excluding ION Orchard, tenant sales for the retail portfolio and downtown malls decreased ~1% YoY.
- Suburban malls showed resilient sales growth, especially in essential trades like Food & Beverages, Supermarkets, and Education, while Downtown malls were actively managed to navigate changing market demands through strategic new tenant acquisitions and unique event programming.

- Shopper traffic grew YoY primarily driven by the two-month contribution from ION Orchard, refreshed tenant mix across various malls and the AEI completion at CQ @ Clarke Quay. Excluding ION Orchard, shopper traffic for the retail portfolio expanded ~4% and downtown malls increased ~8% YoY.
- Stronger traffic growth in downtown malls was fuelled by tourist arrivals supported by a ramp-up of initiatives from the Singapore Tourism Board, more leisure activities in the central region, and increased openings of new concepts by tenants.
