Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of Bangkok Dusit Medical Services Public Company Limited

I have reviewed the accompanying consolidated statement of financial position of Bangkok Dusit Medical Services Public Company Limited and its subsidiaries as at 30 June 2015, the related consolidated statements of income and comprehensive income for the three-month and six-month periods ended 30 June 2015, the related consolidated statements of changes in shareholders' equity and cash flows for the six-month period ended 30 June 2015, as well as the condensed notes to the consolidated financial statements, and have also reviewed the separate financial information of Bangkok Dusit Medical Services Public Company Limited for the same period. Management is responsible for the preparation and presentation of this interim financial information in accordance with Accounting Standard No. 34 Interim Financial Reporting. My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of Review

I conducted my review in accordance with Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Accounting Standard No. 34 Interim Financial Reporting.

Bangkok Dusit Medical Services Public Company Limited and its subsidiaries

Notes to consolidated interim financial statements

For the three-month and six-month periods ended 30 June 2015

1. General information

1.1 Corporate information

Bangkok Dusit Medical Services Public Company Limited (“The Company”) is a public company incorporated and domiciled in Thailand. The Company is principally engaged in hospital business. The registered address is at 2, Soi Soonvijai 7, New Petchburi Road, Bang Kapi, Huaykwang, Bangkok.

1.2 Basis for the preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard 34 (revised 2014) “Interim Financial Reporting”, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, income statement, comprehensive income, changes in shareholders’ equity, and cash flows in the same format as that used for the annual financial statements and disclosure of condensed notes to interim financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language interim financial statements.

1.3 Basis of consolidation

These interim consolidated financial statements include the financial statements of Bangkok Dusit Medical Services Public Company Limited and its subsidiaries (“the Group”) and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2014. There have been changes in the structure of the subsidiaries during the period as discussed in Note 7 to the financial statements.

1.4 New financial reporting standards

During the period, the Company has adopted the revised and new financial reporting standards issued by the Federation of Accounting Professions which become effective for fiscal years beginning on or after 1 January 2015. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Company and its subsidiaries' financial statements. However, some of these standards involve changes to key principles, which are summarised below:

TAS 19 (revised 2014) Employee Benefits

This revised standard requires that the entity recognise actuarial gains and losses immediately in other comprehensive income while the existing standard allows the entity to recognise such gains and losses immediately in either profit or loss or other comprehensive income, or to recognise them gradually in profit or loss.

This revised standard does not have any impact on the financial statements as the Company and its subsidiaries already recognise actuarial gains and losses immediately in other comprehensive income.

TFRS 10 Consolidated Financial Statements

TFRS 10 prescribes requirements for the preparation of consolidated financial statements and replaces the content of TAS 27 *Consolidated and Separate Financial Statements* dealing with consolidated financial statements. This standard changes the principles used in considering whether control exists. Under this standard, an investor is deemed to have control over an investee if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns, even if it holds less than half of the shares or voting rights. This important change requires the management to exercise a lot of judgement when reviewing whether the Company and its subsidiaries have control over investees and determining which entities have to be included in preparation of the consolidated financial statements.

The management of the Company reviewed whether the Company has control over investees in accordance with the principles of this standard and determined that the Company has control over 4 companies, formerly considered associates, which are Bangkok Helicopter Services Co., Ltd., S.R. Property Investment Co., Ltd., Siem Reap Land Investment Co., Ltd. and Phnom Penh First Property Co., Ltd. As a result, such companies are deemed to be subsidiaries of the Group and have to be included in the consolidated financial statements from the date on which the Company assumed control (the date on which the Company invested in these entities). The Company restated the prior period's financial statements, presented as comparative information, to reflect the effect of this change. The cumulative effect of changes in accounting policies is presented in Note 2 to the financial statements.

TFRS 13 Fair Value Measurement

This standard provides guidance on how to measure fair value and stipulates disclosures related to fair value measurement. Entities are to apply the guidance under this standard if they are required by other financial reporting standards to measure their assets or liabilities at fair value. The effects of the adoption of this standard are to be recognised prospectively.

This standard does not have any significant impact on the Company's and its subsidiaries' financial statements.

1.5 Significant accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2014, except for the changes in accounting policies as a result of the adoption of new and revised standards, as discussed in note 1.4 to the financial statements.

2. Cumulative effects of changes in accounting policies due to the adoption of new financial reporting standards

As described in Note 1.4 and Note 1.5 to the financial statements, during the current period, the Company and its subsidiaries have changed some of their accounting policies, as a result of the adoption of new financial reporting standards. The cumulative effect of the change has been separately presented in the statements of changes in shareholders' equity.

The amounts of adjustments affecting the statements of financial position and the statements of comprehensive income are summarised below.

Convertible debentures agreement contains obligations and certain limitations which the Company must comply with, as specified in the offering circular of the bonds. On 19 September 2014, the convertible debentures were listed on the Singapore Exchange Securities Trading Limited.

Thai Accounting Standard No. 107 “Financial Instruments: Disclosure and Presentation”, requires the issuer of convertible debentures to present the debentures’ liability and equity components separately in the statement of financial position. Therefore, upon issuing the convertible debentures, the Company separated these components, determining the liability component by discounting the stream of future payments of principal and interest at the prevailing market rate. The carrying amount of the equity component was then determined by deducting the liability component from the total carrying value of the convertible debenture.

The liability component is presented at amortised cost until the conversion or maturity of the debentures. The value of the equity component determined upon the issue of the debentures does not change in subsequent periods.

21. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as the executive committee.

The Company and its subsidiaries have two reportable segments that are hospital operations and other businesses that support hospital business including central lab, manufacturer and distributor of medicine and pharmaceutical products, assets management for healthcare business, restaurant and distribution of health food products and facility management, accounting services, technology and information service, training business, health insurance and life insurance broker. These two segments have similar economic characteristics. They both have common customer group, similar service provision methods and similar management.

In addition, the operations of the Company and its subsidiaries are carried on in the geographical areas of Thailand and overseas.

As hospital operation is the main business segment and the segment information that has been considered based on a quantitative basis is over 90 percent of the total population both operational and geographical areas. For this reason, the management considers to aggregate operating segments into one operating segment of hospital operation. As a result, all of the revenues, operating profits and assets as reflected in these financial statements pertain to the aforementioned reportable operating segment and geographical areas.

For the six-month periods ended 30 June 2015 and 2014, the Company and its subsidiaries has no major customer with revenue of 10 percent or more of its revenues.

22. Financial instruments measured at fair value

The Company and its subsidiaries use the market approach to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards, except that the cost approach or income approach is used when there is no active market or when a quoted market price is not available.

Fair value hierarchy

In applying the above-mentioned valuation techniques, the Company and its subsidiaries endeavor to use relevant observable inputs as much as possible. TFRS 13 *Fair Value Measurement* establishes a fair value hierarchy categorising such inputs into three levels as follows:

Level 1 - Use of quoted market prices in an observable active market for such assets or liabilities

Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly

Level 3 - Use of unobservable inputs such as estimates of future cash flows

As of 30 June 2015, the Company and its subsidiaries had the following assets that were measured at fair value using different level of input as follow.

	(Unit: Thousand)	
	Consolidated financial statements	Separate financial statements
	Level 1	Level 1
Financial assets measured at fair value		
Investment in available-for-sale	804,475	670,469

During the current period, there were no transfers within the fair value hierarchy.

23. Interest rate swap contract and forward exchange contract that are not measured at fair value

23.1 Interest rate swap contract

Interest rate swap contract is entered into to manage exposure to fluctuations in interest rate.

On 4 April 2014, the Company entered into a nine-year interest rate swap contract with a financial institution by converting the interest rate of fixed rate per annum to fixed rate for the first 4 years and floating rate based on Fixed Deposit Rate plus fixed rate per annum for the last 5 years on the debentures balance as described in Note 14. Then, on 15 October 2014, the Company agreed with the financial institution to change interest rate whereby they agreed to reduce the interest rate in the first year and to change the interest rate from floating rate in the fifth and the sixth year to a fixed rate, with the interest rate of other years maintained as same as specified in the contract.

(Unaudited but reviewed)

On 17 June 2015, the Company entered into a ten-year interest rate swap contract with a financial institution by converting the interest rate of fixed rate per annum to floating rate based on 3-month BIBOR minus the fixed rate per annum on the debentures balance as described in Note 14.

Net fair value

The net fair value of interest rate swap contract at the statements of financial position date was:

	(Unit: Million Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	30 June 2015	31 December 2014	30 June 2015	31 December 2014
Fair value of interest rate swap contract – asset				
(liabilities)	(47.0)	70.6	(47.0)	70.6

Fair value of interest rate swap contract has been calculated using rate quoted by the financial institution as if the contract was terminated at the statements of financial position date.

23.2 Forward exchange contract

As at 30 June 2015 and 31 December 2014, a subsidiary company has the outstanding balance of forward exchange contracts as follows:

Balance as at	Foreign currency	Amount sold	Contractual exchange rate for amount sold (Baht per foreign currency unit)
