

IENTOVA REACHES AGREEMENT WITH THE FEDERAL ELECTRICITY COMMISSION (CFE) IN RELATION TO THE GUAYMAS – EL ORO PIPELINE AND THE SUR DE TEXAS – TUXPAN MARINE PIPELINE

Mexico City, August 27, 2019 – Infraestructura Energética Nova, S.A.B. de C.V., (“**IEnova**”) announces it has reached an agreement with the Federal Electricity Commission (“**CFE**”) in relation to the Transportation Service Agreements corresponding to the Guaymas – El Oro pipeline and the Sur de Texas – Tuxpan marine pipeline, the latter jointly developed with TC Energía.

This agreement establishes a new tariff structure and considers a 10-year extension for both contracts. Such agreements fulfill both parties’ interests, and provides benefits for the CFE, while maintaining the contracts’ integrity.

Additionally, CFE has committed to provide support to resume operations in the Guaymas – El Oro pipeline, as well as the commitment for the immediate start of commercial operations of the Sur de Texas – Tuxpan marine pipeline.

With these agreements, the parties will work together to take all the necessary actions to put an end the international arbitration processes corresponding to the beforementioned pipelines, as well as to provide certainty to their corresponding contracts.

IEnova reaffirms its commitment to continue investing in Mexico’s energy infrastructure, as well as to continue contributing to the country’s economic development and well-being of the Mexican people.
