REVENUE

The Group revenue decreased by \$1.08 million or 3.54% from \$30.54 million in FP 2014 to \$29.46 million in FP 2015.

The contribution of the various business segments to revenue is illustrated below:

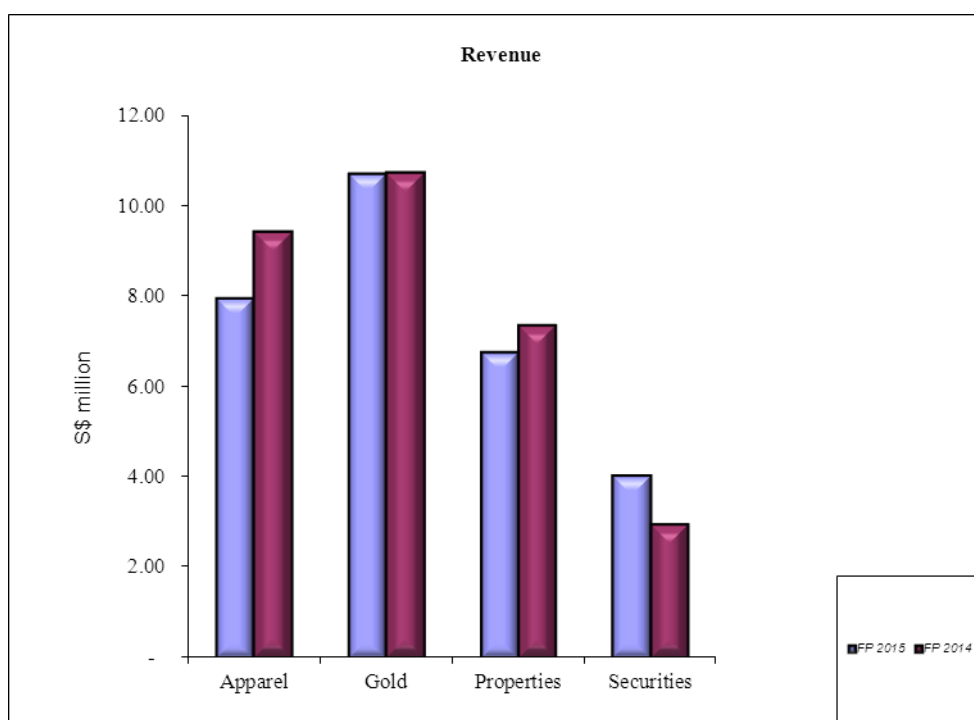

Revenue	FP 2015	FP 2014	Variance	
	\$ million	\$ million	\$ million	%
Apparel	7.95	9.45	(1.50)	-15.87%
Gold	10.71	10.75	(0.04)	-0.37%
Properties	6.78	7.37	(0.59)	-8.01%
Securities	4.03	2.96	1.07	36.15%

The revenue from apparel business was \$7.95 million in FP 2015 as compared to \$9.45 million in FP 2014. Of the \$7.95 million, Malaysian apparel business contributed \$6.68 million. The decrease in revenue was mainly attributed to the closure of three shops in Malaysia since FP 2014 and also increased competition.

The gold business recorded revenue of \$10.71 million in FP 2015 which was a drop of \$0.04 million from the \$10.75 million in FP 2014.

Rental revenue from the properties decreased to \$6.78 million in FP 2015 from \$7.37 million in FP 2014. The decrease was due to loss of rental income arising from sale of four properties.

The securities business recorded an increase in revenue of \$1.07 million from \$2.96 million in FP 2014 to \$4.03 million in FP 2015. This increase was the result of coupon payments and dividends received on the fixed income and equity securities purchased since the end of FP 2014.

PROFIT

The Group net profit decreased by \$2.66 million or 24.53% from \$10.84 million in FP 2014 to \$8.18 million in FP 2015.

The contribution from various business segments are illustrated below (the contributions are before interest, tax and unallocated expenses).

	FP 2015	FP 2014	Variance	
	\$ million	\$ million	\$ million	%
Apparel	(1.65)	1.01	(2.66)	nm
Gold	1.06	0.88	0.18	20.45%
Properties	8.74	5.99	2.75	45.91%
Securities	3.37	5.17	(1.80)	-34.82%

There was a loss of \$1.65 million from the apparel business in FP 2015 as compared to a profit of \$1.01 million in FP 2014. This was mainly due to decrease in revenue from this business on account of three shops closed in Malaysia and also on account of non-capitalisable expenses incurred on new property acquired for carrying out the apparel business in Malaysia. The foreign exchange loss on account of depreciating Malaysian Ringgit also contributed to the loss from this business.

Gold business recorded a marginal increase of \$0.18 million in profit from \$0.88 million in FP 2014 to \$1.06 million in FP 2015. Though the revenue from this business decreased in FP 2015, the higher gross profit margin in FP 2015 as compared to FP 2014 resulted in the increase in profits.

The contribution from properties segment increased by \$2.75 million from \$5.99 million in FP 2014 to \$8.74 million in FP 2015. In FP 2015, the profit was higher mainly on account of revaluation gain recorded on property held for sale as at 31 May 2015 and profit realised on the sale of another property.

Securities segment recorded a profit of \$3.37 million in FP 2015, which was \$1.80 million less than the profit of \$5.17 million in FP 2014. This decrease in profit was mainly attributed to the unrealized loss of \$3.04 million recorded on financial assets, at fair value through profit or loss i.e. the financial assets held for trading purpose as compared to an unrealized gain of \$1.77 million in FP 2014. At the same the realised profit of \$1.04 million on available-for-sale financial assets and the additional coupon payments and dividends received on the fixed income and equity securities purchased since the end of FP 2014 reduced the overall loss from this segment.

The income tax expense decreased to \$0.37 million in FP 2015 from \$1.01 million in FP 2014. This was due to the taxable profits being less in FP 2015 as compared to FP 2014.

Interest expenses increased by \$0.48 million from \$0.41 million in FP 2014 to \$0.89 million in FP 2015 on account of additional short term funds borrowed for acquisition of property in Malaysia and also purchase of fixed income and equity securities.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variation between it and the actual results

The third quarter results are in line with disclosures made in the previous announcement of results of the Group.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next reporting period and the next 12 months

The ongoing economic restructuring to force higher productivity by tightening the foreign labour workforce is hurting the retail and service industries hard with the pool of available retail and service workforce expected to shrink in size.

Despite the slowing gold business, this segment is expected to remain profitable.

The apparel business in Singapore is holding up well. However in Malaysia, the business is affected further by the intensifying competition, introduction of the GST and deteriorating value of the Ringgit and likely to be adversely affected compared to earlier expectation of profits.

Increasing labour costs and difficulty in obtaining staffs is deterring retailers from expanding, leading to strong downward pressure on rents.

Interest rates have increased and are expected to gradually move upwards which will result in higher interest expenses.

Market forces will determine the performance of the financial instruments sector in the next twelve months.
