D. PRODUCT SUITABILITY

<p>WHO IS THIS PRODUCT SUITABLE FOR?</p> <ul style="list-style-type: none"> This product is <u>only</u> suitable for investors who believe that the price level of the Underlying Shares will increase and are seeking a short term leveraged exposure to the Underlying Shares. You should consider carefully whether Warrants are suitable for you in light of your experience, objectives, financial position and other relevant circumstances. Warrants are not suitable for inexperienced investors.

Key Product Features

	Further Information
<p>WHAT ARE YOU INVESTING IN?</p> <ul style="list-style-type: none"> You are investing in cash settled call warrants that may allow you to benefit from increase in the price level of the Underlying Shares, which are the ordinary shares of Oversea-Chinese Banking Corporation Limited. Information relating to the Underlying Shares may be obtained from the SGX-ST's website at www.sgx.com. 	<p>Please refer to the "Information relating to the Company" section in the Supplemental Listing Document.</p>

Calculation of Cash Settlement Amount

<p>The Cash Settlement Amount in respect of each Warrant shall be an amount (if positive) payable in the Settlement Currency equal to:</p> <p>(A) (i) the arithmetic mean of the closing prices of one Underlying Share (as derived from the daily publications of the SGX-ST subject to any adjustments to such closing prices determined by the Issuer to be necessary to reflect any capitalisation, rights issue, distribution or the like) for each Valuation Date LESS (ii) the Exercise Price (subject to adjustment as provided in the terms and conditions of the Warrants) MULTIPLIED by</p> <p>(B) the Conversion Ratio.</p> <p>WHAT WOULD YOU GAIN OR LOSE IN DIFFERENT SITUATIONS?</p> <ul style="list-style-type: none"> Best case scenario: The value of the Underlying Shares increases substantially resulting in a significant increase in the price of the Warrants. You would then sell the Warrants and realise a profit. The DMM is required to provide liquidity in the Warrants to ensure that there will generally be a market price available for the purchase and sale of the Warrants. Worst case scenario: If you buy the Warrants and the value of the Underlying Shares decreases sharply. If you have not sold the Warrants, you will lose your entire investment.

E. KEY RISKS

	Further Information
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <ul style="list-style-type: none"> Investment in the Warrants involves substantial risks, including market risk, liquidity risk and risk that the Issuer will be unable to satisfy its obligations under the Warrants. Investors should ensure that they understand the nature of all these risks before making a decision to invest in the Warrants. <p>PLEASE REFER TO THE LISTING DOCUMENTS FOR A COMPLETE LIST OF RISKS</p> <ul style="list-style-type: none"> The Risk Factors below are a summary of the Risk Factors set out in the Base Listing Document and the Supplemental Listing Document. 	<p>Please refer to the "Risk Factors" section set out in the Base Listing Document and in the Supplemental Listing Document for a complete list of risks and details of the risks.</p>

Market Risks

<ul style="list-style-type: none"> Market price of the Warrants may be affected by many factors

KEY TERMS SHEET Macquarie Bank Limited

02 APRIL 2026

<p>Warrants are volatile instruments and are subject to considerable fluctuations in value due to, including but not limited to, the level and volatility of the Underlying Shares, dividends and interest rate, the time remaining to expiry and the creditworthiness of the Issuer.</p> <ul style="list-style-type: none"> • You may lose your entire investment Changes in the price of the Underlying Shares can be unpredictable, sudden and large, resulting in the price of such shares moving in a direction which will negatively impact upon the return on investment. If the price of the Underlying Shares reaches a level such that the Cash Settlement Amount at expiry is less than or equal to zero, you will lose your entire investment. 	
Liquidity Risks	
<ul style="list-style-type: none"> • The secondary market may be illiquid DMM may be the only market participant buying and selling the Warrants. Therefore, the secondary market for the Warrants may be limited and you may not be able to realise the value of the Warrants. Please note that the bid-ask spread increases with illiquidity. As the Warrants are only exercisable on the Expiry Date, you will not be able to exercise your Warrants to realise value in the event that the trading in the Warrants becomes illiquid. 	
Product Specific Risks	
<ul style="list-style-type: none"> • Trading in the Warrants may be suspended If trading in the Underlying Shares on the SGX-ST is suspended, trading in the Warrants will also be suspended for a similar period. • Issuer may make adjustments to the terms and conditions of the Warrants You should note that an investment in the Warrants involves valuation risks in relation to the Underlying Shares. The value of the Underlying Shares may vary over time by reference to various factors, including corporate actions by the underlying company. Certain events relating to the Underlying Shares may require or permit the Issuer to make certain adjustments or amendments to the Conditions (including adjusting the Exercise Price and the Conversion Ratio). However, the Issuer is not required to make an adjustment for every event that affects the Underlying Shares and if an event occurs which does not require the Issuer to adjust the Conditions, the market price of the Warrants and the return upon exercise of the Warrants may be affected. No notice will be given if the Issuer determines that adjustments will not be made. 	
Issuer Related Risks	
<ul style="list-style-type: none"> • You are exposed to the credit risk of the Issuer The Warrants constitute direct, general and unsecured contractual obligations of the Issuer and of no other person, and rank on a parity with the Issuer's other unsecured contractual obligations and unsecured and unsubordinated debt other than indebtedness preferred by mandatory provisions of law. If you purchase the Warrants, you are relying upon the creditworthiness of the Issuer and have no rights under the Warrants against any other person. If the Issuer is unable to meet its obligations under the Warrants, you will lose your entire investment. The Issuer issues a large number of financial instruments, including Warrants, on a global basis and at any given time, the financial instruments outstanding may be substantial. A reduction in the rating, if any, accorded to the outstanding debt securities of the Issuer by any one of its rating agencies could result in a reduction in the trading value of the Warrants. The Issuer does not in any respect underwrite or guarantee the performance of any Warrant. As the Issuer is not incorporated in Singapore, any insolvency proceedings in respect of the Issuer will be subject to foreign insolvency laws and procedures. • Conflicts of interest may arise from the overall activities of the Issuer or its affiliates The Issuer and any of its affiliates are diversified financial institutions that engage in a wide range of commercial and investment banking, brokerage, funds management, hedging transactions and investment and other activities for their own account or the account of others. In addition, the Issuer and any of its affiliates, in connection with their other business activities, may possess or acquire material information or publish or issue research reports about the Underlying Shares. Such activities and information may involve or otherwise affect the Underlying Shares in a manner that may cause consequences adverse to investors in the Warrants or otherwise create conflicts of interests in connection with the issue of Warrants by the Issuer. • Hedging or market-making activities by the Issuer or its affiliates may affect the Warrants In connection with hedging or market-making activities or with respect to proprietary or other trading activities by the Issuer or its affiliates, the Issuer or its affiliates may enter into transactions in the Underlying Shares or related derivatives which may affect the market price, liquidity or value of the Warrants and which may affect the interests of investors in the Warrants.
