HRnetGroup's EASEJobs Supports Careers & Skills Passport, Advancing Singapore's Career Health Movement

The Board of Directors of HRnetGroup Limited (the **"Company"** and together with its subsidiaries, the "Group") is pleased to announce that one of its brands in Singapore, EASEJobs, has partnered with Singapore's **Ministry of Manpower (MOM)** and **SkillsFuture Singapore (SSG),** to support Singapore's **Careers & Skills Passport** on its platform. EASEJobs is one of only three job search platforms in Singapore to offer this integration, reinforcing the Group's position in digital recruitment and its commitment to skills-first hiring.

The Careers & Skills Passport, jointly developed by MOM and SSG, allows individuals to securely store and share verified records of skills, employment history, education, and certifications. This development helps employers streamline recruitment processes and hire job seekers with confidence. As **Careers & Skills Passport** evolves, EASE Jobs will continue to enhance its platform capabilities in tandem with MOM and SSG.

"Through EASEJobs' integration with the Careers & Skills Passport, HRnetGroup is advancing its development of digital recruitment solutions. This strategic initiative supports Singapore's national skills-first agenda and strengthens the long-term growth potential and market competitiveness of our platform."

- Adeline Sim, Executive Director and Chief Corporate Officer

The integration aligns with the **Career Health SG initiative**, which aims to build resilient careers for workers and provide employers with access to a wider talent pool through skills-first hiring practices. It reflects HRnetGroup's ongoing commitment to innovation, human capital development, and strategic support for national workforce objectives.
