Comparison of 2nd quarter 2017 vs 2nd quarter 2016

In second quarter 2017, the Group's gross written premium declined by 7% to \$50.913 million due to lack of organic growth and new business, as well as timing difference in receipt and booking of statement of accounts. Net commission expense slid 36.8% to \$2.589 million in light of lower premium income and profit commission accrual. Net claims incurred rose 20.4% to \$9.1 million attributed to higher advised outstanding losses and IBNR loss reserve provision. As a consequence, an underwriting deficit of \$994,000 was recorded in the quarter under review. Net investment income rose \$759,000 or 27.5% to \$3.523 million on account of higher profit on sale of equity investments. Overall, the Group's profit before income tax of \$2.431 million was 12.9% lower than the \$2.791 million recorded in the corresponding quarter a year earlier.

Comparison of 6 months 2017 vs 6 months 2016

For the period ended 30 June 2017, the Group's gross written premium fell 2.2% to \$83.286 million attributed to lack of organic growth and new business, as well as timing difference in booking of statement of accounts. Net claims incurred decreased by 20% to \$12.817 million, equivalent to an incurred loss ratio of 52.8% (on net written premium), mainly because of lower advised outstanding losses and IBNR loss reserve provision. Reinsurance management expenses rose 15.4% to \$3.915 million due to exchange loss on revaluation of foreign-denominated assets, higher staff costs and computerisation expenses. In consequence, a higher underwriting surplus of \$1.728 million was achieved, compared to the \$556,000 surplus recorded in the corresponding period in 2016. Net investment income increased by 11.1% to \$5.778 million attributed mainly to higher profit on sale of equity investments. Overall, the Group's net profit before income tax rose 29.2% to \$7.667 million, compared to the \$5.932 million net profit before income tax achieved in the first six months last year.

In the opinion of the Directors, no item, transaction or event of a material and unusual nature has arisen in the interval between the balance sheet date and the date of this announcement which is likely to affect substantially the results of the operations of the Company and of the Group for the current financial year.

9. **Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

Not applicable.

10. **A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

The soft cycle continues to plague the (re)insurance industry. It will inhibit premium growth and have adverse impact on underwriting profitability. On the investment front, despite signs of economic recovery globally and improvement in investors' sentiment, the financial markets will remain volatile given the multitude of economic and geo-political uncertainties. A cautious stance will continue to be the best policy.
