The Company is working towards to convening a general meeting of the Company to seek the approval of its shareholders in relation to the disposal as contemplated under the equity transfer agreement;

Accordingly, the Company is seeking approval for operational expenses of the Group on a monthly basis as these need to be funded from the cashflows generated from the Sri Lanka mini hydro power plants operations. Due to the transition from OCBC to the Subscriber, and the Subscriber’s continued review of the progress of the restructuring, there have been some payment delays to service providers. The Company is working closely with the Subscriber to settle the Company’s payment arrears;

- (e) The Company is also working with Cosmic Marvel International Limited and the Subscriber to enter into a loan agreement on the terms and conditions as agreed in the Term Sheet (which was entered into between the Company and the Subscriber together with the New CSA). The hydro loan remains in default and regularising it is part of the Group's restructuring plan that the Company is working on; and
- (f) The Company continues to work with the relevant parties towards the trading resumption of its securities on the Catalist Board of the Singapore Exchange. The Company will make further announcements to update shareholders when there are material developments.

2. GOING CONCERN

As previously announced by the Company, failing to agree with the Subscriber in relation to the continuation of the New CSA through a further extension of the long stop date, coupled with the depletion of the unencumbered cash to sustain the Group's operations, the Company may have no means to continue as a going concern.
