INDUSTRY OVERVIEW

Situation

Amid a confluence of factors from the Covid-19 pandemic and the 5G push to big data, there is an acceleration towards cloud computing worldwide.

Pain Point

With the Covid-19 pandemic and countries around the world at various stages of lockdowns, the global IT supply chain has been thrown into disarray. Channel partners find it increasingly harder to source for customized IT solutions and services during the work-from-home period.

More Demand Drivers

- High growth in cloud services fuels demand for equipment and services during the transition period
- Stepped up cloud adoption will propel demand for asset disposal, maintenance works and newer equipment

Solution

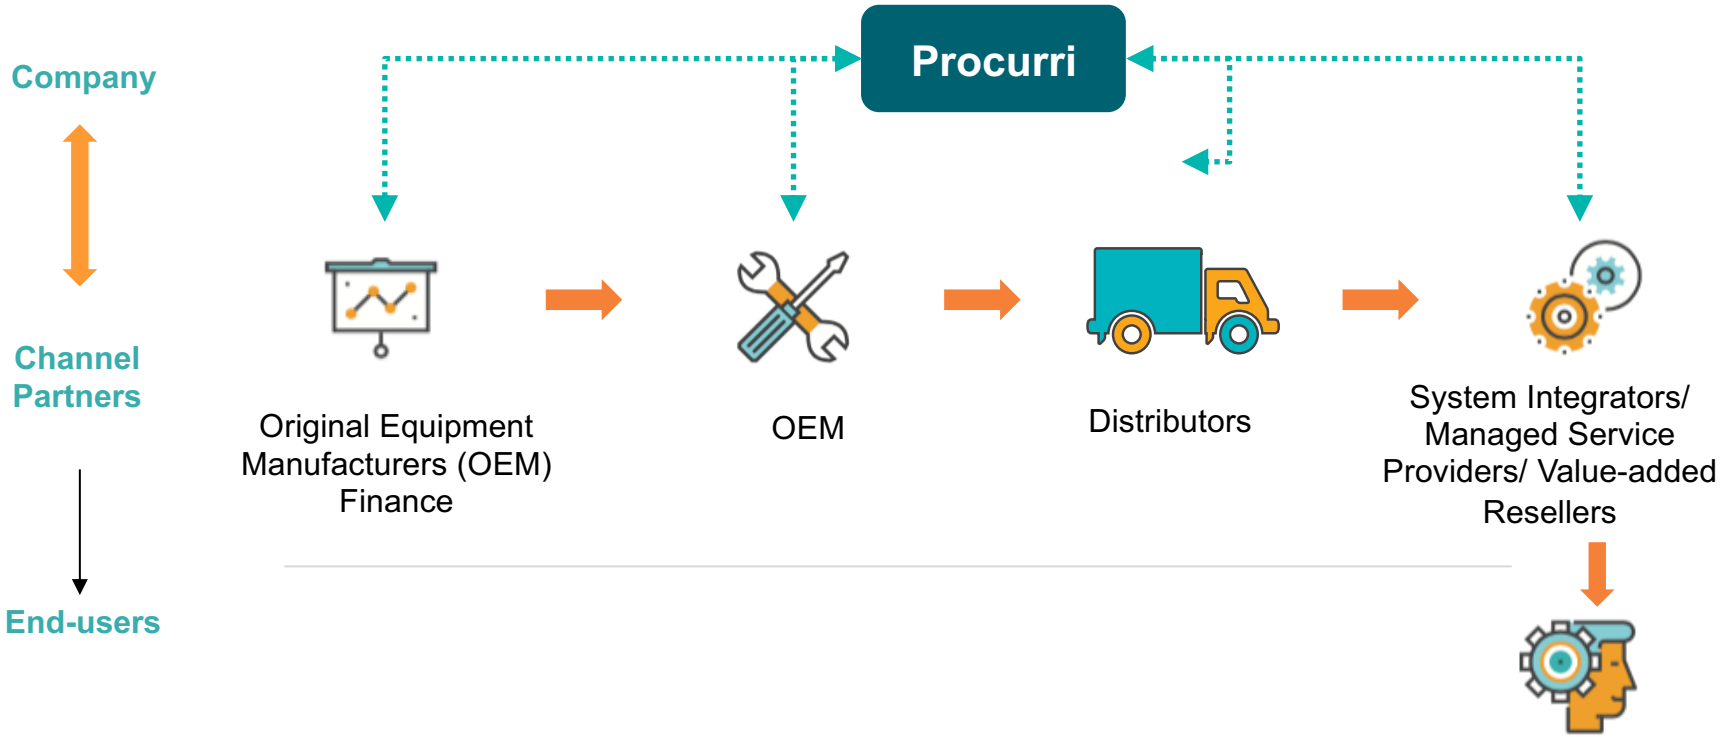

As an independent provider of IT equipment and solutions, Procurri capitalises on the growing demand by:

- ✓ Acting as a **market maker** for **middle lifecycle** equipment
- ✓ Extending **multi-brand** offerings for **previous generation** equipment and services
- ✓ Offering **customised** solutions and services for unique channel demands
- ✓ Offering **integrated** IT solutions and services at a cost-friendly package
- ✓ Pivoting as a **trusted partner** in an otherwise unregulated market
- ✓ Leveraging on a **global** distribution and services network

Slow start in 2020 after the termination of Park Place transaction	Park Place's unsolicited bid for Procurri's third-party maintenance business was eventually scrapped due to the challenge of arriving at the right price and structure. Customers were unclear on the implications and held back on their orders.
