Growth: Ability to capitalise on overarching trend towards mixed-use precincts and integrated developments

- Increasing trend towards larger scale mixed-use precincts or integrated developments due to scarcity of land in prime locations
- Onset of COVID-19 is likely to accelerate the trend given a shift to more flexible work arrangements and an increased focus on health and wellness

Attractive proposition of integrated developments

- Captive ecosystem creates a more vibrant development, supported by a sustainable work-live-play culture
- Attractive proposition for both tenants and consumers given the comprehensive and complementary offerings
- In line with above, recent incentive schemes by URA encourage intensification, redevelopment and rejuvenation of existing older buildings in strategic areas and the CBD
