MEDIA RELEASE

Koh Brothers Eco appoints construction and engineering veteran Paul Shin as CEO

SINGAPORE, 1 June 2016 – SGX-Catalist listed sustainable engineering solutions provider Koh Brothers Eco Engineering Limited ("Koh Brothers Eco", "許兄弟生态工程有限公司" or the "Company" and together with its subsidiaries, the "Group"), would like to announce that it has appointed Mr Shin Yong Seub (Paul) as its Chief Executive Officer ("CEO") with effect from today. Prior to his new appointment, Mr Shin was the Head of South East Asia for Samsung C&T Corporation.

"It is a privilege to be part of an organisation that delivers high quality services and solutions to the customers and to lead it into the next chapter of growth. We want to make a positive and meaningful impact in terms of innovation and execution and together, we will endeavour to break new ground in our area of expertise to make a difference." **said Mr Paul Shin, CEO of Koh Brothers Eco.**

Mr Koh Keng Siang, Non-Executive Chairman of Koh Brothers Eco commented: ***"We are pleased to have Paul on board as CEO of Koh Brothers Eco as we sharpen our competitive edge in a rapidly changing world and dynamic environment. We were looking for a leader to take Koh Brothers Eco into the next stage of growth, and Paul has the proven ability to translate vision and strategy into reality, while bringing teams together to drive results. With his rich experience in securing major infrastructure and building projects, I am confident that he will drive the Group forward to capitalise on opportunities ahead and enhance value to all the stakeholders."***

Mr Shin has built his career with Samsung Group and Samsung C&T Corporation in line with the growth of its engineering and construction business overseas. In his sterling 28-year career with them, he has accumulated invaluable and diversified experience having worked in various countries like Korea, Taiwan, Saudi Arabia, Indonesia and Singapore.

Mr Shin was the Head of South East Asia for Samsung C&T Corporation from 2010 to 2015. Prior to this, he was Vice President and General Manager of the Global Marketing and Operations Division of Samsung C&T Corporation at its Seoul Headquarters in Korea (2004 – 2009). From 1997 to 2004, Mr Shin held the appointment of General Manager for Samsung Corporation (E&C Group) in Singapore and Managing Director for Samsung Singapore's Regional Office for South East Asia.

Mr Shin has contributed to the Singapore Built Environment with major infrastructure and building projects that were secured and successfully completed. These projects include Kallang Paya Lebar Expressway C423, JTC Headquarters "The Summit", NTUC Headquarters Building, Biopolis, Singapore Changi Runway Pkg 1, Downtown and Thomson MRT Lines, and Jurong LNG Terminal among others. Mr Shin's other notable projects in the region include KL 118 Tower - the tallest in South East Asia and the Prai Combined Cycle Power Plant in Malaysia, Shatin Central MTR line in Hong Kong, Keppel International Finance Center in Jakarta, and Trung Son Hydro Dam and Hatin Formosa Steel Mill Deep Sea Port in Vietnam.

Mr Shin holds a Bachelor of Arts degree in International Business from Hankuk University of Foreign Studies in Korea, a Bachelor of Arts in Middle East Politics & Economics from King Saud University, and a Master's degree in International Business Administration from Korea University.

The Group had in January 2016 announced the proposed acquisition of building and civil engineering construction specialist, Koh Brothers Building & Civil Engineering (Pte.) Ltd. ("KBCE"). KBCE has a strong track record ranging from design and build to general construction for residential, commercial and institutional buildings, as well as infrastructure works.

Coupled with Koh Brothers Eco's expertise in environmental and sustainable engineering solutions, the Group will, upon completion of the acquisition of KBCE, be well-equipped to capitalise on emerging opportunities in the water and wastewater treatment and hydro-engineering sectors arising from an increased emphasis on water as a resource.

In conjunction with this restructuring exercise, Mr Fong Kim Seng will remain as a Director of Koh Eco Engineering Pte. Ltd. and various other subsidiaries under the Group.

-End-

Note to Media: This media release is to be read in conjunction with the announcement issued on SGXNET on the same date.

About Koh Brothers Eco Engineering Limited

Listed on the Singapore Exchange ("SGX") in 2006, Koh Brothers Eco Engineering Limited ("Koh Eco") today is a sustainable engineering solutions Group that provides engineering, procurement and construction ("EPC") services for water & wastewater treatment, hydro-engineering, bio-refinery and bio-energy projects.

Incorporated in Singapore in 1975, Koh Eco started out by providing EPC services for water & wastewater treatment projects as well as hydro-engineering projects and, today, its principal market is in Asia with projects from both the public and private sectors.

Its bio-refinery and bio-energy division under Oiltek Sdn. Bhd. specialises in a full range of conventional edible oil process plants as well as biodiesel, pre-treatment and winter fuel plants. Through a joint venture company, Oiltek Nova Bioenergy Sdn. Bhd., it also designs, builds and supplies biogas recovery systems to palm oil mill effluent plants in Malaysia and Indonesia.

Koh Eco has recently announced the proposed acquisition of Koh Brothers Building & Civil Engineering (Pte.) Ltd. ("KBCE") from Construction Consortium Pte. Ltd., a wholly-owned subsidiary of Koh Brothers Group Limited. Upon completion, it will enable Koh Eco to create a better platform to grow its construction business, including further exploration of opportunities in water and wastewater treatment and hydro-engineering. KBCE is engaged in the business of building and civil engineering construction, ranging from design and build to general construction for residential, commercial and Institutional buildings and infrastructure works.
