This reflects Venture's strong financial position and demonstrates our commitment to enhancing shareholder returns. Venture has a strong and consistent dividend track record - our disciplined approach to capital management enables us to deliver sustainable returns to shareholders while maintaining financial flexibility.

The dividends will be paid on 12 September 2025.

Outlook

Venture remains steadfast in executing our strategic priorities amid a dynamic and evolving global landscape. While there are ongoing uncertainties in the tariff environment and softness in the Lifestyle domain, we are encouraged by the momentum in business wins across multiple technology domains, which are driven by Venture's differentiating R&D capabilities and operational efficiency.

Our connected global operations and long-standing relationships with key partners enable us to co-create innovative products and supply chain solutions. We continue to invest in capabilities that support long-term growth and value creation, while expanding market share with our customers.

Looking ahead, we remain confident in our ability to turn volatility into opportunities. With a resilient business model and strong balance sheet, Venture is well-positioned to capture opportunities and deliver long-term value to all stakeholders.
