QUARTERLY UPDATE PURSUANT TO RULE 1313(2) OF THE LISTING MANUAL

Introduction

Allied Technologies Limited (the “**Company**”, and together with its subsidiaries, the “**Group**”) was placed on the Watch-List pursuant to Rule 1311 of the Listing Manual (the “**Listing Manual**”) of the Singapore Exchange Securities Trading Limited (the “**SGX-ST**”) on 5 March 2014.

Pursuant to Rule 1313(2) of the Listing Manual, the Board of Directors of the Company (the “**Board**”) wishes to provide an update on the financial situation of the Company and the Group for the third quarter ended 30 September 2016 (“**3Q FY2016**”).

Update on Unaudited Financial Performance and Financial Position

In 3Q FY2016 and the nine months ended 30 September 2016 (“**9M FY2016**”) respectively, the Group recorded an unaudited net profit of S\$0.68 million and an unaudited net loss of S\$1.13 million. The net profit reported in 3Q FY2016 was mainly derived from the higher revenue achieved by the Group whereas the 9M FY2016 net loss was attributable to the loss-making subsidiaries in the People’s Republic of China.

The Group’s net assets as at 30 September 2016 had decreased by S\$3.52 million to S\$60.38 million as compared to 31 December 2015. The decrease is mainly attributable to the loss incurred by the Group in 9M FY2016 and adverse translation differences relating to the financial statements of the Group’s foreign subsidiaries.

For more details on the results and financial position of the Group for the period ended 30 September 2016, please refer to our separate announcement released on 14 November 2016.

Update on Future Direction

With continuing uncertainty over the strength and sustainability of the economic recovery of major global economies, the Group expects business conditions to remain challenging.

The Group expects to face more challenges ahead due to the increase in production costs across the region, stiff pricing competition and foreign currency movements. However, the Group will continue to explore all avenues for business opportunities to further improve the financial position of the Group. The Group will also endeavour to improve its production efficiency and reduce its operating costs.
