#### **1. Corporate information**

GMR Hyderabad International Airport Limited ('GHIAL', 'Company' or 'the Holding Company') is a Public Limited Company domiciled in India. The Holding Company along with its subsidiaries and joint ventures herein are collectively referred as "the Group". GHIAL was incorporated in 2002 under the provisions of the erstwhile Companies Act, 1956, having its registered office at GMR Aero Towers, Rajiv Gandhi International Airport, Shamshabad, Hyderabad – 500 108. The Holding Company is engaged in the business of providing Airport Management Services on a Build, Owned, Operate and Transfer, and only operate model. Presently, the Company is managing the operations of Rajiv Gandhi International Airport ("RGIA" or "Airport") at Hyderabad, India and the airport in Bidar in Karnataka, India. GMR Airports Limited ("GAL") a subsidiary of GMR Airports Infrastructure Limited (*formerly GMR Infrastructure Limited*) ("GIL"), holds majority shareholding in GHIAL.

The Group is engaged in operation of airport infrastructure and other allied service such as cargo handling, development of airport city and SEZ area near airport, trading of goods in duty free area of airport, security services, hospitality services, development of logistics park and maintenance, repair and overhaul facility (MRO) of aircraft near and around the RGIA.

#### **2.1 Basis of preparation**

These Unaudited Condensed Interim Consolidated Financial Statements comprises of the Unaudited Condensed Interim Consolidated Balance sheet as at 30 September 2025, the Unaudited Condensed Interim Consolidated Statement of Profit and Loss (including other comprehensive income), Unaudited Condensed Interim Consolidated Cash Flow Statement, Unaudited Condensed Interim Consolidated Statement of Changes in Equity and a summary of material accounting policies and other explanatory notes (collectively the "Condensed Interim Consolidated Financial Statements").

These Unaudited Condensed Interim Consolidated Financial Statements for the period ended 30 September 2025 have been prepared by the management for the purpose of submitting with the Singapore Stock Exchange.

These Unaudited Condensed Interim Consolidated Financial Statements have been prepared as per the recognition and measurement principles of Indian Accounting Standard (Ind AS) 34 "Interim Financial Reporting" issued by the Institute of Chartered Accountants of India (ICAI) and applicable Indian Accounting Standards prescribed under Section 133 of the Companies Act, 2013 ("the Act") and other accounting principles generally accepted in India. These Condensed Interim Consolidated Financial Statements do not include all the information and disclosures that would otherwise be required in a full set of financial statements and should be read in conjunction with the consolidated financial statements for the period ended 30 September 2025.

Accounting policies have been consistently applied, except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The Consolidated Financial Statements are presented in Indian Rupees ("Rupees" or "Rs." or "INR") and all the values are rounded to the nearest crore up to two decimal places, except per share data and when otherwise indicated.

#### **2.2 Material accounting policies**

The accounting policies followed in preparation of these Condensed Interim Consolidated Financial Statements are consistent with those followed in the most recent annual consolidated financial statements of the Group, i.e. for the year ended 31 March 2025.

The Group has followed the same accounting judgments, estimates and assumptions in preparation of these Condensed Interim Consolidated Financial Statements as those followed in preparation of the annual consolidated financial statements as at the year ended 31 March 2025.

**2.3 Basis of Consolidation****(i) Subsidiary**

Subsidiary includes the entity over which the Group has control. The Group controls an entity when it is exposed or has right to variable return from its involvement with the entity and has the ability to affect those returns through its power (that is, existing rights that give it the current ability to direct the relevant activities) over the entity. The Group re-assesses whether or not it controls the entity, in case the under-lying facts and circumstances indicate that there are changes to above mentioned parameters that determine the existence of control.

Subsidiary is fully consolidated from the date on which control is transferred to the Group, and they are deconsolidated from the date when control ceases.

**(ii) Joint ventures**

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. Joint ventures are accounted for from the date on which Group obtains joint control over the joint venture.

**(iii) Method of consolidation**

Accounting policies of the respective individual subsidiary, joint venture are aligned wherever necessary, so as to ensure consistency with the accounting policies that are adopted by the Group under Ind AS.

The financial statements of subsidiary are fully consolidated on a line-by-line basis. Intragroup balances and transactions, and income and expenses arising from intra-group transactions, are eliminated while preparing the said financial statements. The un-realised gains resulting from intra-group transactions are also eliminated. Similarly, the un-realised losses are eliminated, unless the transaction provides evidence as to impairment of the asset transferred.

The Group's investments in its joint venture is accounted for using the equity method. Accordingly, the investments are carried at cost as adjusted for post-acquisition changes in the Group's share of the net assets of investee. Any excess of the cost over the Group's share of net assets in its joint venture at the date of acquisition is recognised as goodwill. The goodwill is included within the carrying amount of the investment. The un-realised gains/losses resulting from transactions (including sale of business) with joint ventures are eliminated against the investment to the extent of the Group's interest in the investee. However, un-realised losses are eliminated only to the extent that there is no evidence of impairment.

At each reporting date, the Group determines whether there is objective evidence that the investment is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of investment and its carrying value.

**Entities considered in these financial statements as Subsidiaries are listed below:**

**2.5 Estimates**

While preparing the Condensed Interim Consolidated Financial Statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgements, estimates and assumptions made by the management, and will seldom equal the estimated results. The judgements, estimates and assumptions applied in the financial statements, including the key sources of estimation uncertainty, were the same as those applied in the Group's last annual financial statements for the period ended 30 September 2025. The only exceptions are the estimate of income tax liabilities which is determined in these Condensed Interim Consolidated Financial Statements using the estimated weighted average annual effective income tax rate applied to the pre-tax income of the interim period.

**3. Material accounting judgments, estimates and assumptions:**

The preparation of these Condensed Interim Consolidated Financial Statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

**a. Judgments**

In the process of applying the Group's accounting policies, management has made the following judgments, which has the effect on the amounts recognised in the Condensed Interim Consolidated Financial Statements:

**Non applicability of Service Concession Agreement (SCA)**

GHIAL had entered into Concession agreement with the MoCA, which gives GHIAL an exclusive right of development, design, financing, construction, commissioning, maintenance, operation and management of the Hyderabad Airport on a revenue sharing model for an initial term of 30 years, which can be extended by another 30 years at the option of GHIAL and GHIAL has exercised the same. Under the agreement, the MoCA has granted exclusive right and authority to perform some of the functions of the AAI being the functions of operation, maintenance, development, design, construction, upgradation, modernization, finance and management of the Airport and to perform services and activities at the airport constituting 'Airport activities' (regulated services) and 'Non-Airport activities' (non-regulated services). Airport activities are regulated and there is no control over determination of prices for the Airport activities, while charges for Non-Airport activities are determined at the sole discretion of GHIAL.

Appendix D to Ind AS 115 contains provisions to cover arrangements between public and private enterprises- referred to as service concession arrangement ("SCA"). An entity is required to evaluate applicability of SCA for its arrangement under public to private partnership based on SCA guidance. The applicability of service concession depends whether

the grantors control or regulates what services the operator must provide with the infrastructure, to whom it must provide them, and at what price; and also control the residual interest in the infrastructure.

GHIAL's management conducted detailed analysis to determine applicability of Appendix D of Ind AS 115. The concession arrangement has significant non-regulated revenues, which are apparently not ancillary in nature, as these are important from GHIAL, MoCA and users/passengers perspective. Further, the regulated and non-regulated services are substantially interdependent and cannot be offered in isolation. Airport premises is being used both for providing regulated services and for providing non-regulated services. Based on GHIAL's proportion of regulated and non-regulated activities, the directors have determined that over the concession period, the unregulated business activities drives the economics of the arrangement and contributes substantially to the profits of GHIAL and hence concluded that SCA does not apply in its entirety to GHIAL.

#### **Concession Fee:**

As per the Concession Agreement (CA) entered into by GHIAL with the MoCA in December 2004, GHIAL is required to pay concession fee to MoCA @ 4% on its gross revenue. As per Article 3.3.2 of CA, "Gross Revenue" is defined to include all pre-tax revenue of GHIAL with certain specified exclusions.

Management of the Company is of the view that the certain income/credits arising on adoption of Ind-AS was not in contemplation of parties in December 2004 when this Concession Agreement was signed/entered. Further, these income/credits in statement of profit and loss along with interest income on investment of part proceeds from borrowings earmarked for airport expansion project and adjusted from the value of capital work-in-progress, do not represent actual receipts from business operations, from any external sources and therefore, these incomes/ credits should not be treated as "Revenue" for calculation of concession fee payable. Accordingly, the Company, basis above and Legal Opinion, has provided the concession fee to MoCA based on Revenue as per the Ind AS financial statements after adjusting such incomes/credits.

#### **b. Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

#### **Discounting rate**

The Group has considered incremental borrowing rate of Airport sector as at transition date for measuring deposits, being financial assets and financial liabilities, at amortised cost till March 31, 2018. From period starting from April 01, 2018; management has considered revised incremental borrowing rate of airport sector for all the deposits given/received post March 31, 2018; and impact has been duly accounted in these Condensed Interim Consolidated Financial Statements.

#### **Defined benefit plans**

The cost of the defined benefit gratuity plan and other post-employment benefits and the present value obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend

to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

#### **Contingencies**

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Group, including legal, contractor, land access and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgment and the use of estimates regarding the outcome of future events.

#### **Fair value measurement of financial instruments**

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

#### **Taxes**

Deferred tax assets on unused tax losses and minimum alternate tax credit entitlement are recognised to the extent that it is probable that taxable profit will be available against which these amounts can be utilised. Significant management estimate is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

#### **Impairment of Cash Generating Unit (CGU):**

The Group reviews its carrying value of CGU, annually, or more frequently when there is an indication for impairment. For the purpose of impairment testing, estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and risks specific to the assets for assessing the value in use. The recoverable amount of an asset is greater of its value-in-use and its fair value less costs to sell.

#### **Impairment of financial asset**

The impairment provisions for financial assets are based on the assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

#### **Impairment of non-financial assets**

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounting cash flow (DCF) model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

#### **Change in accounting estimates**

During the current quarter, GHIAL reassessed the useful life of its assets based on recent developments, including expansion plans, trends in maintenance expenditure on operating assets and existing asset conditions. To support this assessment, management engaged an external agency to conduct a detailed technical study of the existing infrastructure facilities, analyzing wear and tear, present condition, and suitability to meet future capacity requirements.

In the view of above, Terminal & associated Buildings and other Buildings, which were previously expected to be used for 30 years from the date of availability for use, are now expected to be used for 50 years or until the end of the

concession period, whichever is earlier.

This change in estimate complies with the Airport Economic Regulatory Authority (AERA) order dated January 18, 2018 (Order No. 35/2017-18), as amended on April 9, 2018, which allows airport operators to choose a useful life of either 30 years or 60 years for buildings.

As a result of this change, Depreciation charge for the current half-year (April to September 2025) has decreased by ₹24.46 crores. and Depreciation for future periods will reduce by approximately ₹48.92 crores annually (₹12.23 crores quarterly).

\*\* Orders u/s 147 passed in case of AY 2015-16 & 2016-17 disallowing capital expenditure of Rs. 15.11 crore thereby reducing depreciation claim by Rs. 0.80 crore. Demand of Rs. 34.70 crore (including interest of Rs. 16.06 crore) is wrongly raised as against refund of Rs. 0.46 crore. The Company had filed an application for rectification of demand and appeal with Commissioner of Income Tax (Appeals).

Note: Tax liability on aforementioned disputed disallowance of expenses is currently not ascertainable.

(c) The Company had received a notice from the office of the Joint Commissioner of Labour for payment of Building and other construction workers' Welfare Cess @ 1% of the cost of construction of Airport Metropolitan amounting to Rs. 25.20 crore (March 31, 2025: Rs. 25.20 crore). The Company had received the stay order from Hon'ble High Court of Telangana against the said order in the earlier years.

(d) The Company had received notice dated January 19, 2013, from Hyderabad Metropolitan Water Supply & Sewerage Board for disconnection of water connection for non-payment of sewerage cess arrears. The Company had received the stay order against the said order in the earlier years. The sewerage cess outstanding including interest as at September 30, 2025 amounts to Rs. 6.57 crore (March 31, 2025: Rs. 6.57 crore).

(e) Utilization of funds from Passenger Service Fee (Security Component) Fund ("PSF(SC) Fund"):

(i) The Ministry of Civil Aviation (MoCA) had issued orders in 2014, requiring the Airport Operators to reverse the expenditure incurred from Passenger Service Fee (Security component) (PSF (SC)) Fund towards (a) procurement and maintenance of security systems/equipment; (b) construction of other long lived assets (refer note (ii) below) along with interest till date of reversal. The Company had utilised approximately Rs.142.00 crore towards the aforesaid expenses till March 31, 2018, excluding related maintenance expense, other costs and interest thereon which is presently unascertainable. The Comptroller & Auditor General, during their audits of PSF (SC) Fund, observed that the funds utilized by the Company is contrary to the directions issued by MoCA. Management is of the opinion that the utilisation of funds from PSF(SC) fund is consistent with the Standard Operating Procedures, guidelines and clarification issued by the MoCA from time to time on the subject of utilization of PSF (SC) funds.

As the above order, in management's opinion, is contrary to and inconsistent with SOPs, guidelines and clarification issued by the MoCA from time to time in this regard, the Company had challenged the said order vide a writ petition before the Hon'ble High Court of Andhra Pradesh. The Hon'ble High Court, vide its order dated March 03, 2014 followed by further clarifications dated April 28, 2014 and December 24, 2014, stayed the MoCA order with an undertaking that, in the event the decision of the writ petition goes against GHIAL it shall restore the PSF (SC) Fund to this extent.

The Hon'ble High Court of Telangana vide its order dated June 03, 2024 has allowed the writ petition filed by the Company and has set-aside the order of MoCA.

Based on the internal assessment, the management is of the view that the relevant timelines for filing further appeal by MoCA against the Hon'ble High Court order has expired, as no appeal has been filed by MoCA as on the date. Hence Management believes that there is no ambiguity in utilization of PSF(SC) Fund considering the favourable judgement by Hon'ble High Court of Telangana. Therefore no adjustments are required to be made in the accompanying financial results for the quarter ended 30 September 2025.

(f) Fuel surcharge adjustments (FSA) for the period from April 2008 to March 2010 amounting to Rs. 2.05 crore (March 31, 2025: Rs. 2.05 crore).

Based on the internal assessment and legal opinion, the Management is confident that, for the aforesaid mentioned contingent liabilities under paragraph (a) to (g) above, no further provision is required to be made as at March 31, 2025.

**V. Assumption used in estimating the fair values:**

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumption were used to estimate the fair values:

(a) Group enters into derivative financial instruments with various counterparties, principally financial institutions with investment grade credit ratings. Derivatives are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spreads between the respective currencies, interest rate curves and forward rate curves of the underlying commodity. As at September 30, 2025, the marked-to-market value of derivative asset positions is net of a credit valuation adjustment attributable to derivative counterparty default risk.

(b) The fair values of quoted mutual funds are based on price quotations at the reporting date.

(c) The fair value of borrowings is based on the traded price of the bond and the prevailing exchange rate.

(d) Management has assessed that cash and cash equivalent, trade receivables, trade payables, other bank balances, investments in commercial paper and other current liabilities balances approximate their carrying amounts largely due to the short-term maturities of these instruments, hence the carrying value is considered to be the same as its fair value.

**11 Fair Value Hierarchy**

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities as at the reporting date.

**12 Determination of aeronautical tariff**

GHIAL had filed an appeal, challenging the disallowance of pre-control period losses and foreign exchange loss on external commercial borrowings, classification of revenues from ground handling, cargo and fuel farm ("CGF") as aeronautical revenues and other issues for determination of aeronautical tariff for the First Control Period ("FCP") commencing from April 01, 2011 to March 31, 2016 by Airport Economic Regulatory Authority ("AERA").

In relation to determination of tariff for the Second Control Period ("SCP"), commencing from April 01, 2016 to March 31, 2021, AERA had issued a consultation paper on November 19, 2017. However, as the aforesaid consultation paper does not address the issues arising out of the FCP, including true up for shortfall of receipt vis-a-vis entitlement for the FCP, GHIAL had filed a writ petition and obtained a stay order from the Hon'ble High Court at Hyderabad in the month of February 2018 in respect of further proceedings in determination of tariff order for the SCP. The Adjudicating Authority, Telecom Disputes Settlement Appellate Tribunal (TDSAT), in its disposal order dated March 04, 2020 has directed AERA to reconsider the issues afresh while determining the aeronautical tariff for the Third Control Period commencing ("TCP") from April 01, 2021.

During the month of August 2021, AERA has issued Tariff Order ("the Order") effective from October 01, 2021 for the TCP commencing from April 01, 2021 to March 31, 2026. GHIAL in the month of September 2021, has filed an appeal against the Order with TDSAT, as the management is of the view that AERA has not considered the outstanding issues of FCP and SCP in determination of aeronautical tariff for the TCP as directed by TDSAT vide its ordered dated March 04, 2020, while continuing to charge the aeronautical tariff as determined by AERA.

During the previous year ended March 31, 2024, TDSAT has pronounced the Judgement and has adjudicated various issues raised by GHIAL including directing AERA to true up the pre-control period losses, to treat CGF as non-aeronautical revenue etc., in favour of GHIAL. However, TDSAT ruled in favor of AERA on certain other issues.

During the quarter ended 30 September 2024, AERA had filled an appeal in the Supreme Court against the TDSAT order. The matter is currently sub judice with the Honorable Supreme Court of India. Pending outcome of the ongoing litigation, the Company has applied aeronautical tariff as determined by AERA for the respective control period.

- 13** GHIAL has recognized, deferred tax asset comprising of Minimum Alternate Tax (MAT) credit entitlement and unabsorbed business losses aggregating to Rs. 686.19 crores (March 31, 2025: Rs. 682.72 crores) as at September 30, 2025. GHIAL based on the future taxable income expects to adjust these amounts against the projected taxable profits. The ultimate realisation of the deferred tax asset is dependent upon the generation of future taxable income projected by considering the applicable tariff order for the Third Control Period and the anticipated tariff orders for the subsequent control periods, estimated revenues and expenses of the business, scheduled reversals of deferred tax liabilities and tax planning strategy. As the recoverability of deferred tax assets is based on estimates of future taxable income including projected aeronautical tariff revenue which involved determination of applicable tariff orders by AERA and being a subject matter of litigations as detailed in note 11, any changes in such future taxable income could impact its recoverability. However, basis the sensitivity analysis performed, management believes that any reasonable possible change in the key assumptions would not effect the Company's ability to recover the deferred tax asset within the specified period as per the provisions of Income Tax Act, 1961.
