**Announcement – Appointment of Managing Director**

The SGSPAA Board (Jemena/ Zinfra businesses) is pleased to announce that David Gillespie has been appointed as the Managing Director of the Group.

David has been acting in this role since September, and prior to that was CFO of the Group for a number of years.

Board Chair, Jiang Longhua, commented: “David’s deep experience in the Australian energy sector and in driving our business’ strategy and operational excellence is already well documented in his previous role as CFO.”

“His leadership skills and commercial experience in the growth and transformation of complex organisations is also the right mix to ensure that our Group plays a key role in Australia’s energy transition.”

David Gillespie added: “I am excited to be leading the Jemena and Zinfra teams during the next phase of Australia’s push to a low-carbon future. Both Jemena and Zinfra have the right mix of people, assets, and skills to contribute meaningfully to Australia’s energy transition and I am confident our Group will continue to perform strongly into 2024 and beyond.”

“I would also like to thank our teams for their continued support and ongoing commitment to delivering energy services and products safely and reliably for our 1.8 million customers across New South Wales, Victoria, and other parts of eastern and northern Australia.”
