Singapore, 18 August 2025 – SGX Mainboard-listed Oiltek International Limited (优特科技国际有限公司) ("**Oiltek**" or the "**Company**", and together with its subsidiaries, the "**Group**"), an established integrated process technology and renewable energy solutions provider, is pleased to announce that the Group has secured new contracts worth approximately RM74.3 million across global markets from Malaysia, Indonesia and Pakistan. With the new contract wins, the cumulative contracts secured to date in FY2025 amount to approximately RM136.2 million.

Mr Henry Yong Khai Weng (杨淳麟), Executive Director and CEO of Oiltek, said, *"These new contracts reinforce our position as a trusted global partner in integrated process technology and renewable energy solutions for the vegetable oil industry. Even in a volatile macroeconomic environment, our diversified geographical presence and innovative capabilities enable us to capture growth opportunities and strengthen our market share. Our focus remains on executing our long-term strategy to drive sustainable growth."*

The new contracts secured involve the following:

a) Design, fabrication, delivery, testing & commissioning of one new 200 metric tonnes per day ("**MTD**") physical refinery plant in Pakistan;
b) Design, fabrication, delivery, installation, testing & commissioning of one new anaerobic digester tank for an existing POME-Biogas Capture Plant in Malaysia;
c) Design, fabrication, delivery, installation, testing & commissioning of one new packing line in the texturization plant in Indonesia;
d) Design, fabrication, delivery, testing & commissioning of one new 10 tonnes per hour ("**TPH**") shortening plant in Indonesia; and
e) Building and infrastructure works & process plant installation works for a new palm oils & fats refinery complex in Malaysia.

With the addition of the new contracts, the Group's current order book amounts to approximately RM398.2 million and is expected to be fulfilled over the next 18 to 24 months, barring any unforeseen circumstances.

The new contracts are expected to have a positive impact on the Group's financial performance for the financial year ending 31 December 2025 ("**FY2025**").

None of the Directors and controlling shareholders of the Company, as well as their respective associates, has any interest, direct or indirect, in these new contracts, save for their shareholdings in the Company (if any).

End.

ABOUT OILTEK INTERNATIONAL LIMITED

Oiltek International Limited ("**Oiltek**" and together with its subsidiaries, the "**Group**"), an established integrated process technology and renewable energy solutions provider, specialises in the provision of reliable, innovative, diversified, and comprehensive range of refinery processes and engineering solutions for use across all different sectors of the vegetable oils industry value chain globally. The history of the Group can be traced back to its principal operating subsidiary, Oiltek Sdn. Bhd., which was incorporated in Malaysia on 1 December 1980. With over 44 years of track record, Oiltek has successfully designed, built and commercialised plants in more than 37 countries across 5 continents.

Oiltek was formerly listed on the Catalist of the Singapore Exchange Securities Trading Limited ("**SGX-ST**") on 3 March 2022 and has completed the transfer of its listing from Catalist to the Mainboard of the SGX-ST on 6 June 2025.

The Group operates three key businesses – Edible & Non-Edible Oil Refinery, Renewable Energy, and Product Sales and Trading.

For its Edible & Non-Edible Oil Refinery segment, the Group provides engineering, procurement, designing, construction and commissioning ("**EPCC**") services for edible and non-edible oil refining plants, downstream specialty products and processing plants; upgrading and retrofitting of existing facilities; and turnkey inside-battery-limits ("**ISBL**") and outside-battery-limits ("**OSBL**") infrastructure engineering.

For the Group's Renewable Energy segment, Oiltek provides services for renewable energy industries including EPCC of multi-feedstock biodiesel, enzymatic biodiesel, winter fuel, HVO feedstock (treated and refined POME oil) and palm oil mill effluent ("**POME**") biogas methane recovery plants; upgrading and retrofitting of existing facilities; and turnkey ISBL and OSBL infrastructure engineering which includes environmental solutions and integration into steam and power generation.

Oiltek's Product Sales and Trading segment generates recurring income for the Group, and its services include engineering component sales, agency and distributorship, and specialty chemical product trading.
