GLOBAL INVACOM GROUP LIMITED
(Incorporated in the Republic of Singapore)
(Company Registration No. 200202428H)

Global Invacom raised approximately S$4.8 million from the Rights Issue to strengthen its financial position

Rights Issue managed by RHT Capital Pte. Ltd. and underwritten by Soochow Singapore Capital Markets (Asia) Pte. Ltd. with Maybank Securities Pte. Ltd. as sub-underwriter

---

Singapore, 4 September 2026 – Global Invacom Group Limited (the "**Company**", and together with its subsidiaries, collectively the "**Group**" or "**Global Invacom Group**") today announced the results of its renounceable partially-underwritten rights issue of new ordinary shares in the capital of the Company ("**Rights Shares**") at an issue price of S$0.035 for each Rights Share, on the basis of one (1) Rights Share for every two (2) existing shares held by entitled shareholders ("**Rights Issue**"). Valid acceptances and valid excess applications were received for a total of 112,749,406 Rights Shares, representing approximately 83.0% of the total number of Rights Shares available under the Rights Issue. The remaining Rights Shares have been underwritten by the underwriter to the Rights Issue who shall subscribe and/or procure subscribers for such remaining Rights Shares.

RHT Capital Pte. Ltd. is the manager of the Rights Issue, and Soochow Singapore Capital Markets (Asia) Pte. Ltd. is the underwriter to the Rights Issue with Maybank Securities Pte. Ltd. as its sub-underwriter.

Established for more than 40 years, Global Invacom Group specialises in innovative technology, products and solutions for the satellite ground equipment sector. The Group is a provider of multi-orbit, multi-band RF and terminal platforms for the global satellite ground network industry, serving defence, earth observation ("**EO**"), intelligence, surveillance and reconnaissance ("**ISR**") and satellite communications applications. The Group's product portfolio comprises transceivers (including the XRJ platform), antenna systems and gateways (including EO/ISR integrated ground systems), flat panel antenna solutions, and multi-orbit terminals (including the XY motorised platform).

The Board believes the satellite ground segment presents a significant and growing market opportunity. The total addressable market is estimated to grow from approximately US$1.9 billion in 2026 to approximately US$3.1 billion by 2030[1], driven by the expansion of non-geostationary orbit satellite constellations, increasing demand for multi-orbit and multi-band connectivity, and sustained growth in the defence and EO sectors.

The Company has undertaken the Rights Issue to fund the Group's development strategy across five priority investment areas: (i) EO and ground station integrated solutions; (ii) multi-band transceiver platform expansion; (iii) flat panel antenna ecosystem participation; (iv) multi-orbit terminal development; and (v) commercial go-to-market capability. The success of the Rights Issue will allow the Company to further invest in these strategic areas and strengthen the Group's working capital position.

The net proceeds will be used for research and development expenditure, specialist resource, general corporate expenses and working capital as disclosed in the Offer Information Statement dated 17

---

[1] Extracted from Novaspace Ground Segments Market Prospects Reports (dated 2022 & 2025) with appropriate sensitivity and industry judgement applied.

August 2026. The Company will make periodic announcements on the utilisation of the net proceeds as and when such proceeds are materially disbursed.

Gordon Blaikie, Chief Executive Officer of Global Invacom Group, commented: “The positive response from our shareholders is testament to our strategic vision and presence in the market. We would like to thank our shareholders for their support and trust in us. This investment will enable us to further cement our relevance in the evolving satcoms market and continue to innovate to ensure our solutions meet current and future market demands.”

The Company expects that the Rights Shares will be listed and quoted on the Mainboard of the Singapore Exchange Securities Trading Limited with effect from 9.00 a.m. on 9 September 2026.

- End of press release -

About Global Invacom Group Limited

Global Invacom Group comprises a number of companies specialising in innovative technology, products and solutions for the satellite ground equipment sector. Uniquely, the Group provides fully integrated manufacturing for most of its product lines providing additional quality and supply chain assurance to a global blue-chip customer base in the satellite communications, satellite TV and satellite navigation markets.

The Group has an established global presence with sales offices, research and development centres and manufacturing facilities across the world, including Singapore, China, Indonesia, the Philippines, Israel, and the UK.

Global Invacom Group Limited is listed on the Mainboard of the Singapore Exchange Securities Trading Limited.
