

BOUSTEAD GEOSPATIAL DIVISION RENEWS S\$60M GEOSPATIAL CONTRACT WITH SIGNIFICANT UPLIFT

SINGAPORE, 16 JUNE 2026

Boustead Singapore Limited (“Boustead” or the “Group”), a progressive global infrastructure-related engineering and technology group, is pleased to announce that its 88.2%-owned business unit, Esri Australia Pty Ltd (“Esri Australia”) has renewed the Division’s largest Enterprise Agreement contract to date of around S\$60 million¹, with an Australian federal government department. The [previous renewal](#) of this contract was in July 2023.

Boustead’s Geospatial Division is the exclusive distributor of the world-leading Esri ArcGIS platform in Singapore, Malaysia, Bangladesh, Brunei, Indonesia, Australia, Papua New Guinea and Timor-Leste, with a user base numbering over 8,000 organisations regionally across the Asia Pacific. ArcGIS is a comprehensive mapping and Geographic Information System (“GIS”) platform that allows users to create, manage, analyse, and share geographic data to better understand spatial patterns and relationships.

Boustead Geospatial Division Managing Director, Brett Bundock said, “This renewed enterprise agreement, now the largest in the Geospatial Division by contract value, reflects significant mutual investment and a long-term commitment to capability development. Furthermore, the agreement builds on strong momentum and provides a solid platform to deepen the partnership, with both parties aligned on sustaining a critical geospatial capability that our teams are well positioned to deliver.”

Brett added, “The adoption of GIS continues to accelerate, with platforms such as ArcGIS becoming a core component of modern enterprise capability. By embedding geospatial and location intelligence into decision-making, ArcGIS is helping organisations drive more informed decisions and operational effectiveness. This shift reflects the growing strategic importance of geospatial intelligence in building enduring capability.”

The renewed contract will see Esri Australia provide tens of thousands of Australian government employees with access to state-of-the-art GIS technology. It represents an extension with a significant uplift to the existing arrangement, which includes the provision of the Esri ArcGIS system and after-sales software support services.

To varying degrees, GIS solutions facilitate cross-agency, government, private sector and community information sharing and collaboration. This leading-edge approach to unlocking the value held within geospatial data repositories is crucial for enabling government and community groups to prepare for, respond to and recover from large-scale disasters – be they natural or human-made. In addition, the solutions allow for a more informed approach to urban and infrastructure planning and delivery.

The above contract is expected to have a positive material impact on the profitability and earnings per share of the Boustead Group in the current financial year ending 31 March 2027 (“FY2027”) but is not expected to have a material impact on the net tangible asset value per share for FY2027.

-- END OF COMPANY ANNOUNCEMENT --

About Boustead Singapore Limited

Established in 1828, Boustead Singapore Limited (SGX:F9D) is a progressive global Infrastructure-Related Engineering and Technology Group listed on the SGX Mainboard.

As Singapore's oldest continuous business organisation, we focus on the niche engineering and development of key infrastructure to support sustainable shared socio-economic growth. Our strong suite of engineering services under our Energy Engineering Division and Real Estate Solutions Division centres on energy infrastructure and smart, eco-sustainable and future-ready real estate developments.

In addition, we provide technology-driven transformative solutions to improve the quality of life for all walks of life. Our Geospatial Division provides professional services and exclusively distributes Esri ArcGIS technology – the world's leading geographic information system, smart mapping and location analytics enterprise platform – to major markets in the Asia Pacific. The enterprise platform develops digital infrastructure solutions and digital twins, empowering intelligent choices for nations, cities and communities and helps them address complex challenges both locally and globally. Enhanced planning and stewardship of vital infrastructure and resources are essential for ensuring economic resilience, safeguarding the environment and maintaining social accountability. Our Healthcare Division provides innovative medical solutions that address age-related chronic diseases and mobility issues, with a focus on rehabilitative care and sports science in the Asia Pacific.

With a vast global network stretching across Asia, Australia, Europe, Africa and the Americas, we are ready to serve the world. To date, we have an installed project base in 95 countries and territories globally.

Over the years, we have been a recipient of many reputable awards including the prestigious Forbes Asia 200 Best Under A Billion Award. In 2019, we were awarded the Most Transparent Company Award and Sustainability Award (Runner-Up) by the Securities Investors Association (Singapore). Between 2020 to 2025, we also ranked among Singapore's Best Employers, Singapore's Fastest Growing Companies, Asia-Pacific High-Growth Companies and Fortune Southeast Asia 500. We were also honoured with the Corporate Excellence & Resilience Award at the Singapore Corporate Awards 2021 Special Edition.
