Retail: Outlook

- Singapore's retail trade sector reversed from a 1.3% in 2023 to a 0.4% contraction in 2024, weighed down by more cautious spending amid high cost and global uncertainties^(1,2)
- Department stores' sales volume contracted 3.2% in 2024⁽¹⁾ as compared to the flat growth in 2023⁽³⁾
- Domestic retailers face lower gross margins and increased operating costs arising from the highly competitive trading environment
- Household sentiment could weaken amid dimming economic outlook and broadening global trade war⁽⁴⁾

Key Financial Highlights – FY2025

Revenue decreased 9.8% from S\$115.9m in FY2024 to S\$104.5m in FY2025, mainly due to:

- Lower sales from Retail Division's two department stores in Singapore, Metro Paragon & Metro Causeway, amid the challenges confronting Singapore's retail sector
- Lower contribution from sale of property rights of the residential development properties in Bekasi and Bintaro, Jakarta

FY2025 loss before tax of S\$219.8m (mainly due to non-cash fair value and impairment losses arising from its China real estate exposure), compared to FY2024 profit before tax (PBT) of S\$19.7m, lower by S\$239.5m, attributable to:

- Ongoing prolonged property sector headwinds in China, which resulted in: a) higher share of loss by S\$133.1m from its associate Top Spring due to fair value loss (net) on investment properties and operating loss (including impairment losses on its properties held for sale) and absence of negative goodwill (1)
 - b) higher fair value loss (net) by S\$88.0m and higher operating loss by S\$6.3m arising from China properties mainly held under associates and joint ventures
 - c) impairment of amounts due from associates of S\$32.9m relating to coinvestments with BGO
- higher fair value loss by S\$17.7m mainly from investment in MGSA
- lower operating results (including impairment on ROU assets) from retail by S\$9.0m Partially mitigated by:
- o share of higher net operating profit by S\$5.5m and fair value gains (net) by S\$36.8m from UK, Australia and Singapore properties held under associates and joint ventures
- o negative goodwill of S\$7.2m arising from the acquisition of an additional 25% equity stake in Fairbriar Real Estate Limited

Loss after tax of S\$224.7m in FY2025, compared to profit after tax of S\$14.6m in FY2024

(Loss)/Profit After Tax (S\$'M)

- Revenue decreased 14.6% from S\$65.7m in 2HFY2024 to S\$56.2m in 2HFY2025, mainly due to:

 - Lower contribution from sale of property rights of the residential development properties in Bekasi and Bintaro, Jakarta
- 2HFY2025 loss before tax of S\$226.8m (mainly due to non-cash fair value and impairment losses arising from its China real estate exposure), compared to FY2024 profit before tax (PBT) of S\$8.8m, lower by S\$235.6m, attributable to:
 - o Ongoing prolonged property sector headwinds in China, which resulted in: a) higher share of loss by S\$124.8m from its associate Top Spring due to fair value loss (net) on investment properties and operating loss (including impairment losses on its properties held for sale) and absence of negative goodwill (1) b) higher fair value loss (net) by S\$76.9m and higher operating loss by S\$16.1m arising from China properties mainly held under associates and joint ventures c) impairment of amounts due from associates of S\$32.9m relating to coinvestments with BGO
 - higher fair value losses by S\$16.5m mainly from investment in MGSA
 - lower operating results (including impairment on ROU assets) from retail by S\$6.6m Partially mitigated by:
 - o share of higher net operating profit by S\$2.4m and fair value gains (net) by S\$32.1m from UK, Australia and Singapore properties held under associates and joint ventures
 - o negative goodwill of S\$7.2m arising from the acquisition of an additional 25% equity stake in Fairbriar Real Estate Limited
- 2HFY2025 loss after tax of S\$228.2m, compared to 2HFY2024 profit after tax of S\$6.5m
