Revenue increased over 2.5 times to S\$179.7 million in Q2 FY2018 from S\$69.4 million in Q2 FY2017 on the back of higher contributions from existing contracts as the Group ramped up projects. In line with the higher revenue, gross profit rose 33.2% to S\$8.6 million.

Higher contributions from existing projects drove the increase. The higher revenue, lifted Civmec’s net profit for 1H FY2018 to S\$10.7 million from S\$6.6 million for 1H FY2017.

The Australia-headquartered heavy engineering and construction services firm had an order book of S\$573.5 million as at 31 December 2018.

The Group expects to secure further contracts during the remainder of the calendar year amid strong tendering activity across its operating sectors in Australia.

As announced by the Federal Government on 25 November 2017, Civmec was a participant in the successful tender to build twelve Royal Australian Navy’s Offshore Patrol Vessels (“OPVs”). The Government also announced that Civmec will supply all the steel for the twelve OPVs and are in negotiations to finalise the contract for the Group’s part in the ten OPVs to be built in Western Australia.
