Changes to the Group's accounting policies have been made as required, in accordance with the transitional provisions in the respective FRS. The adoption of these amended FRS did not result in substantial changes to the accounting policies of the Group and the Company and is not expected to have a material effect on the amounts reported for the current or prior financial years.

5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.

Overview

The Group's revenue is largely derived from project-oriented businesses and as such, quarterly results would not accurately reflect the full-year's performance. Full-year to full-year comparisons are more appropriate for analytical purposes.

For 1Q FY2018, the Group registered revenue of \$90.3 million, total profit of \$6.0 million and profit attributable to equity holders of the Company ("net profit") of \$2.9 million. Revenue was 21% lower year-on-year, while total profit and net profit were 43% and 58% lower year-on-year respectively. The swing from other gains in 1Q FY2017 to other losses in 1Q FY2018 was mainly due to currency exchange effects, which had a significant dampening effect on total profit and net profit. After adjusting for other gains/losses net of non-controlling interests, net profit would be 25% lower year-on-year.

Net profit declined at a faster pace than total profit due to higher contributions by Boustead Projects Limited to total profit, which resulted in the dilutive effect of the higher non-controlling interests on net profit.

| HQ Activities | 0.4 | 0.1 | +300 |
| Group Total | 90.3 | 113.7 | -21 |

Note: Any differences in summation are due to rounding differences.

Each division's revenue performance for 1Q FY2018 is summarised below.

The depressed state of the global oil & gas industries continued to adversely impact revenue at the Energy-Related Engineering Division, which was 29% lower year-on-year at \$18.6 million. Final investment decisions on major oil & gas capital expenditures, especially for greenfield developments continued to be deferred.

Faced with a challenging industrial real estate sector in Singapore, the Real Estate Solutions Division (under Boustead Projects) registered revenue that was 25% lower year-on-year at \$45.7 million, with lower revenue contributions from both the design-and-build and leasing businesses.

Although revenue at the Geo-Spatial Technology Division was 3% lower year-on-year at \$25.7 million, demand for the division's products and solutions remained firm across Australia and parts of South East Asia.

1Q FY2018 Group Profitability

Despite the Group's gross profit for 1Q FY2018 declining 8% year-on-year to \$33.0 million, the overall gross margin for 1Q FY2018 improved to 36% compared to 32% in 1Q FY2017. Nonetheless, gross margin pressure remains present.

Other losses for 1Q FY2018 were \$1.6 million, mainly due to currency exchange losses of \$1.7 million. This contrasted with other gains for 1Q FY2017 of \$0.9 million.

Total overhead expenses for 1Q FY2018 marginally declined 3% year-on-year to \$22.4 million (selling and distribution expenses of \$7.4 million and administrative expenses of \$14.9 million) as the Group continued to apply prudent cost management measures.

Finance expenses for 1Q FY2018 fell 28% year-on-year to \$0.5 million following the scheduled repayment of borrowings by Boustead Projects in relation to the industrial leasehold portfolio.

Share of loss of an associated company and joint ventures for 1Q FY2018 increased to \$1.0 million, largely due to the elimination of construction and project management profits attributable to projects which Boustead Projects has entered into with an associated company and joint ventures.

Profit before income tax ("PBT") for 1Q FY2018 decreased 39% year-on-year to \$8.5 million, mainly driven by lower other income, higher other losses and higher share of loss of an associated company and joint ventures. A breakdown of PBT by divisions is provided as follows.

| | PBT | | Favourable/ (Unfavourable) |
|----------------------------|-----------|-----------|-------------------------------|
| Division | 1Q FY2018 | 1Q FY2017 | Change |
| | \$'m | \$'m | % |

| Real Estate Solutions | 7.1 | 7.3 | -4 |
| Geo-Spatial Technology | 4.6 | 5.9 | -22 |
| | 9.3 | 15.0 | -38 |
| HQ Activities | (0.8) | (1.1) | +27 |
| Group Total | 8.5 | 13.9 | -39 |

NM - not meaningful

The Energy-Related Engineering Division experienced its first quarterly loss before income tax – since the global oil & gas recession began three years' ago – in 1Q FY2018, which was significantly aggravated by \$1.3 million in currency exchange losses due to large exposure to USD, captured under other losses – net.

Total profit for 1Q FY2018 decreased 43% year-on-year to \$6.0 million. The Group's effective tax rate in 1Q FY2018 was 29% compared to 24% in 1Q FY2017.

Net profit for 1Q FY2018 decreased 58% year-on-year to \$2.9 million, based on reasons mentioned earlier.

^{*} Includes \$1.3m in currency exchange losses in 1Q FY2018.

1Q FY2018 Statement of Cash Flows

During 1Q FY2018, cash and cash equivalents (after taking into account the effects of currency translation) rose by \$22.5 million to \$299.0 million, largely driven by strong cash flows provided by operating and investing activities.

Net cash inflow for operating activities amounted to \$6.7 million, after accounting for a negative change in working capital of \$3.8 million. Net cash inflow for investing activities amounted to \$17.7 million, mainly due to the receipt of \$26.1 million in proceeds from the disposal of available-for-sale financial assets, primarily for Boustead Projects' interest in TripleOne Somerset sold in March 2017, partially offset by \$4.4 million in purchase of available-for-sale financial assets and \$3.7 million in loans to an associated company and joint ventures. Net cash outflow for financing activities amounted to \$1.7 million, mainly for \$1.6 million in scheduled repayment of borrowings by Boustead Projects in relation to the industrial leasehold portfolio.

Statement of Financial Position

At the end of 1Q FY2018, the Group's financial position remained healthy.

Under assets, cash and cash equivalents climbed to \$299.0 million, a modest increase from \$276.5 million at the end of FY2017. Total trade receivables, other receivables and prepayments declined, mainly due to the steady collection of trade receivables and the earlier mentioned receipt of proceeds from the disposal of an available-for-sale financial asset. Net contracts work-in-progress rose to \$23.9 million due to uninvoiced work completed for clients. Total available-for-sale financial assets increased to \$75.0 million, largely due to investment allocations made as part of the Group's Cash Management Programme.

Under liabilities, total borrowings decreased to \$86.8 million following the scheduled repayment of borrowings by Boustead Projects in relation to the industrial leasehold portfolio.

The Group's net asset value per share strengthened to 62.5 cents at the end of 1Q FY2018 from 61.7 cents at the end of FY2017, while the net cash position (i.e. net of all bank borrowings) improved to \$212.2 million at the end of 1Q FY2018, translating to a net cash per share position of 40.6 cents. In addition, the Group held \$76.0 million in available-for-sale financial assets and financial assets held for trading at the end of 1Q FY2018, of which almost three quarters of the amount is highly liquid.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

None.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The Group's current order book backlog stands at about \$209 million (unrecognised project revenue remaining at the end of 1Q FY2018 plus the total value of new orders secured since then), of which \$72 million is under the Energy-Related Engineering Division and \$137 million is under the Real Estate Solutions Division.

The current macro economic environment continues to be highly challenging and competitive, with a great amount of uncertainty contributed by global political events. In light of this, the Group will continue to apply prudent cost management measures.

Given the Group's healthy net cash position of \$212.2 million and available-for-sale financial assets and financial assets held for trading of \$76.0 million, and wide range of financing options, the Group continues to uphold an excellent position to capitalise on any good acquisition and investment opportunities that may arise.

While the Group believes it will continue to be profitable in FY2018, the normalised levels of profit will not be comparable to that of FY2017.
