These Dealerships are owned and operated by MeGroup.

MANUFACTURING

DEALERSHIP

CHAIRMAN'S MESSAGE

Dear Shareholders,

I am pleased to present MeGroup Ltd.'s annual report for the financial year ended 31 March 2021 ("FY2021").

It was a unique and challenging year that we had to face. COVID-19 struck the global economy almost to a standstill. We were not spared, as the Malaysian government implemented several Movement Control Orders (MCO) to battle the pandemic and curb local infection rates. With every MCO issued, all non-essential businesses and operations had to halt, which meant our Manufacturing and Dealership businesses could not operate during those periods.

However, we persevered through, and achieved several positive developments.

Manufacturing

On top of obtaining new manufacturing projects from existing customers, we have also secured three new customers, all of which are globally renowned automotive brands. The new manufacturing contracts will see MeGroup produce and supply NVH components to these carmakers from calendar year 2021 until the end of each of the car model's production lifecycle.

Additionally, we began producing and supplying a mattress protection layer to a major mattress maker. Though small, this showcases our ability in leveraging on our capabilities and technical knowledge on insulation products, to successfully expand our product offering and customer base beyond the automotive sector.

In August 2020, we completed the move of our Mazda assembly plant from Batu Kawan in Pulau Pinang to Kulim Hi-tech Park in Kedah. The shift has allowed us to be closer to our customers and achieve some cost savings at the same time. We have also embarked on a green initiative and are in the midst of installing solar panels in our main manufacturing plant. By tapping on solar energy, we are effectively reducing our carbon footprint and overhead expenses. We are committed to manufacture components in a sustainable and environmentally friendly manner.

MR WONG CHEONG CHEE
Executive Chairman and CEO

"MOST RECENTLY, WE SECURED PROTON AS A NEW BRAND PRINCIPAL TO ADD TO OUR GROWING DEALERSHIP PORTFOLIO. THIS IS OUR FIRST PROTON DEALERSHIP OUTLET AND WE ARE EXPECTING IT TO COMMENCE OPERATIONS BY DECEMBER 2021. THIS LATEST AWARD INCREASES THE NUMBER OF BRANDS WE REPRESENT TO SEVEN, AND THE NUMBER OF DEALERSHIP OUTLETS TO 11"

Dealership

In November 2020, we completed the acquisition of MJN Motors Sdn Bhd ("MJN Motors") and now hold 80% interest in the subsidiary. MJN Motors operates the Group's Honda dealerships in Cheras and Kuala Selangor, Malaysia.

Over the course of the year, our first Mitsubishi outlet commenced showroom operations in August 2020 and began offering after-sales services in April 2021. Through the success of our first Mitsubishi dealership, we were subsequently awarded operating rights for a second Mitsubishi outlet. Located at Bandar Bukit Raja, it is expected to commence operations in 1QFY2022.

Though construction activities were delayed due to the MCO, we are pleased to have finally completed construction of the new 3S facility for our Honda Kuala Selangor dealership outlet. Business operations have commenced, and with the new and bigger facility, we are now able to receive more customers for after-sales services, transforming it into a 'one-stop shop' for automobile retail and service centre.

Most recently, we secured Proton as a new brand principal to add to our growing Dealership portfolio. This is our first Proton Dealership outlet and we are expecting it to commence operations by December 2021. This latest award increases the number of

brands we represent to seven, and the number of dealership outlets to 11 under the Ford, Honda, Hyundai, Mazda, Mitsubishi, Peugeot and Proton brands.

Dividend

In appreciation of the support and faith our shareholders have in us, we declared an interim dividend of RM0.012 or 1.2 Sen, and a special dividend of RM0.008 or 0.8 Sen per ordinary share to all our shareholders for FY2021. The interim and special dividends have been distributed to shareholders on 30 June 2021.

Words of Appreciation

Despite the headwinds faced in the past year, we have remained resilient and profitable.

We would like to express our gratitude to the Board for their wise counsel, providing valued guidance to MeGroup as we navigate in the current challenging business environment. We would also like to welcome Mr Chong Kwea Seng to our Board as an Independent Non-Executive Director. With his prior working experiences at Sime Darby, MeGroup will continue to benefit from his contributions to our Board.

The MeGroup team has worked hard and will continue to push forward to grind through this difficult period. I believe in our creative and innovative team, and trust that they will

be able to steer the Company on the path of sustainable growth. We are always on the lookout for opportunities, be it within the automotive sector or outside it, to create recurring income streams for the Group.

We are unable to predict how long this pandemic will last and what its full impact will be on the Group, however, we are optimistic that the automotive sector will remain in demand as it is considered a necessity in Malaysia.

I would like to take this opportunity to extend my sincere appreciation to the Group's shareholders, as we would not have made it here without your trust in us. I would also like to thank our business partners and associates, professional advisers, and above all, the entire MeGroup team. Your dedication has not gone unnoticed, and together, we will be able to see through this pandemic.

Yours sincerely,

Wong Cheong Chee
Executive Chairman and CEO

BUSINESS SEGMENTS

Manufacturing

The Group operates two plants comprising the Main Manufacturing Plant and the Thermobonded Felt Plant, in the Balakong area in Klang Valley of central Selangor, Malaysia. It also has an Assembly Line where it assembles automobile components for Mazda. This Assembly Line was shifted from Pulau Pinang to Kulim Hi-tech Park in Kedah so that it could be closer to its customer and achieve cost savings at the same time.

The Group's Manufacturing Business manufactures NVH and non-NVH components primarily for the automotive industry in Malaysia. Incorporated into various parts of an automobile, its NVH components include, but not limited to, headliners and engine insulation inners and outers. Its non-NVH components include parcel trays and board assembly decks.

In addition, MeGroup also manufactures a variety of Thermobonded Felts with a range of NVH properties that are used in the manufacturing of its NVH and non-NVH products.

The Group's products are developed and tailored to each customer's car marque and are usually supplied for the entire lifecycle of the car model. Today, MeGroup is an Approved Supplier for Honda Malaysia, Perodua Manufacturing Sdn. Bhd., Perodua Global Manufacturing Sdn. Bhd., Mazda Malaysia Sdn. Bhd., Perusahaan Otomobil Nasional Sdn. Bhd., Toyota Malaysia, Mitsubishi Motors Malaysia, Peugeot Malaysia, and Isuzu Malaysia.

It is also an Approved Supplier to Johnson Controls Hitachi, a Heating, Ventilation and Air-conditioning (HVAC) customer, whom the Group began supplying products to since January 2019. In addition to supplying materials to Johnson Controls Hitachi, MeGroup also produces and supplies a mattress protection layer to a renowned mattress maker. Though these project sizes are small, it showcases MeGroup's ability in successfully expanding its product offering and customer base beyond the automotive industry.

Apart from securing new projects from existing customers, the Manufacturing business was also able to secure several new project wins from other well-known automobile brands during the year.

Sound Test Lab

On delivering on its IPO promise, the Group set up its sound test lab in February 2020. MeGroup is still currently the only NVH supplier in Malaysia to have built its own research and development (R&D) lab to enhance and ensure quality control for all its product offering.

Solar Powered Manufacturing Plant

Upon conclusion of a pilot testing project to assess suitability and potential cost savings through the use of solar energy, the Group has embarked on its green initiative and began installing solar panels in the Main Manufacturing Plant. Tapping on solar energy will reduce the Manufacturing business' carbon footprint and overall overhead expenses at the same time.

Thermobonded Felt

MeGroup's Thermobonded Felts are made from a mixture of Thermoplastic Fibres and Non-Thermoplastic Fibres which are bonded together by the application of thermal heat. MeGroup's Thermoplastic and Non-Thermoplastic Fibres are sourced from suppliers in Malaysia, Thailand and Korea. By varying the composition of the Fibres, the Group is able to produce Thermobonded Felts with a range of properties to meet each customer's specific NVH requirements.

NVH Components and non-NVH Components

1. Engine compartment insulation

A range of engine compartment insulation components such as hood insulators and dash outer insulators. These components are incorporated into the hoods and engine casings of automobiles to reduce sound emission, vibrations, and heat generated from the engine into the environment and interior cabin of the automobile.

2. Under-body shielding systems

Under-body shielding systems are incorporated into the undercarriage of automobiles to provide insulation from external noise and vibrations to the interior cabin. Under-body shielding systems also influence the aerodynamic performance of an automobile.

3. Interior system insulation

Interior system insulation components such as inner dash systems are incorporated into the dashboard of automobiles to insulate the cabin from NVH emitted from the engine compartment.

4. Headliners

Its Assembly Line located at Kulim Hi-tech Park in Kedah, assembles headliners for Mazda.

5. Trunk systems

MeGroup manufactures trunk systems such as trunk floor and trunk side liners in a variety of coverings. The trunk systems are used to line the boots of an automobile.

BUSINESS SEGMENTS

Dealership

MeGroup commenced operations of its first Mitsubishi dealership outlet in August 2020, with after-sales services following later, in April 2021. Through the success of the first Mitsubishi outlet, the Dealership business subsequently secured operating rights for a second outlet located in Bandar Bukit Raja. The new outlet is expected to commence operations in the first quarter of financial year 2022.

Construction of the new 3S facility for the Group's Honda Kuala Selangor dealership outlet completed in December 2020, transforming it into a one-stop shop for automobile retail and service centre.

The Dealership business continues its steady expansion and adds a new brand principal to its growing portfolio. It was awarded its first Proton dealership in June 2021, and it is expected to commence 3S operations in December 2021, with 4S services to begin in June 2022. The Proton outlet will be the Group's largest automobile facility, located on a two-acre plot of land in Telok Panglima Garang, Selangor.

MeGroup now has 11 operating dealerships under seven brands – Ford, Honda, Hyundai, Mazda, Mitsubishi, Peugeot, and Proton. The Group continues to offer Mobility-as-a-Service through Flux, a car leasing platform, to capitalise on any unsold inventory.

During Malaysia's MCO, MeGroup improved its online footprint through social media platforms and other digital marketing strategies. It has also implemented an online appointment booking system for customers to make forward appointments to visit showrooms, in order to maintain and comply with proper safe distancing measures among customers in its premises.

OPERATIONS REVIEW

For FY2021, the Group's revenue decreased by 15.0% to RM208.9 million as compared to the preceding year (FY2020). The decrease in revenue was largely due to the implementation of Malaysia's MCO for one and a half months, to curb the COVID-19 infection rates in the country. During the MCO period, all non-essential businesses had to stop work, which meant the Group halted manufacturing processes and closed all its dealership showrooms and service centres.

In tandem with the decrease in revenue, gross profit for FY2021 decreased by 16.3%, from RM26.5 million in FY2020 to RM22.2 million in FY2021.

Gross profit margin for the manufacturing business reduced slightly from 28.1% in FY2020 to 25.7% in FY2021 due to an increase in raw material costs and overseas shipping costs during the pandemic. On the other hand, gross profit margin for the dealership business marginally increased from 7.5% in FY2020 to 8.0% in FY2021, mainly due to the increase in revenue from after-sales services. Overall, the Group's gross profit margin for FY2021 decreased marginally to 10.5%, as compared to 10.8% in FY2020.

Other income increased from RM0.6 million in FY2020 to RM1.3 million in FY2021 mainly due to the Malaysian government's Wage Subsidy Program, to assist companies who are impacted by the pandemic, to continue operations and keep their workforce employed.

The Group also reported a net gain of RM0.4 million in FY2021 mainly due to the gain on disposal of right-of-use assets and automobiles in the dealership business and realised foreign exchange gains.

Selling and distribution expenses decreased approximately RM0.4 million or 8.5% to RM4.2 million in FY2021 mainly due to a decrease in staff remunerations, advertising, and promotional expenses. Similarly, administrative expenses also decreased by approximately RM1.8 million or 10.3% to RM15.4 million in FY2021 mainly due to a decrease in staff costs, entertainment, travelling and accommodation expenses. Finance expenses decreased approximately RM0.8 million or 28.9% largely due to the decrease in interest expenses on lease liabilities and bank borrowings interest.

OPERATIONS REVIEW

Revenue FY2021

RM208.9 MIL

Gross Profit FY2021

RM22.0 MIL

Net Profit FY2021

RM0.8 MIL

Earnings before interest, tax, depreciation and amortisation (EBITDA) was RM11.7 million. Profit before income tax was RM2.0 million in FY2021 compared to RM2.3 million in FY2020. The 12.4% decrease was mainly due to the lower revenue recorded as a result of the MCO.

As at 31 March 2021, the Group's total assets stood at RM109.0 million as compared to RM105.6 million as at 31 March 2020. The increase was mainly due to an increase in right-of-use assets of approximately RM14.3 million.

The Group's total liabilities increased by 4.3% to RM63.8 million and was most attributed to an increase in trade and other payables as well as non-current borrowings.

The Group's total equity increased slightly to RM45.2 million as at 31 March 2021 as compared to RM44.4 million a year ago.

In FY2021, MeGroup's net cash generated from operating activities amounted to RM7.3 million as compared to RM17.0 million in FY2020. Board of Directors

As at the date of this Report, the Board comprises the following members:

With a view to achieving a sustainable and balanced development, the Company sees diversity at the Board level as an essential element in supporting the attainment of its strategic objectives and its sustainable development. CORPORATE GOVERNANCE REPORT

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

The positions of Chairman and Chief Executive Officer are held by Mr Wong. Although the roles and responsibilities for the Executive Chairman & CEO are vested in Mr Wong, major decisions are made in consultation with the Board which comprises a majority of Independent Non-Executive Directors. The Board believes that there are adequate measures in place against any uneven concentration of power and authority in one individual.

The Lead Independent Non-Executive Director is available to shareholders of the Company where they have concerns for which contact through normal channels of communications with the Executive Chairman & CEO and Management are inappropriate or inadequate.

The Board is of the view that the roles of the Executive Chairman & CEO, Executive Director and four Independent Non-Executive Directors are separate, thereby ensuring an appropriate balance of power between them and creating increased accountability in both the Board and Management, as well as enabling greater capacity of the Board for independent decision-making, without any concentration of power or influence residing in any individual.

The RC meets at least once a year and at other times as required, in accordance with its TOR. The RC comprises four members and all the members, including RC Chairman are independent. The Chairman of the RC reports formally to the Board on its proceedings after each meeting on all matters within its duties and responsibilities.

The Management, together with the RC, recommends the compensation for Independent Non-Executive Directors, taking into account factors such as time spent and the responsibilities of the Directors, the current market circumstances, long-term interest and risk policies of the Company, and the need to attract directors of experience and standing. The Independent Non-Executive Directors' fees are compared against market standards to ensure that they are in line with market norms and to ensure that their independence are not compromised.

CORPORATE GOVERNANCE REPORT

The members of the RC do not participate in any decisions concerning their own remuneration. Payment of Directors' fees is subject to shareholders' approval at the AGM. The RC and the Board are of the view that the fees of the current Independent Non-Executive Directors are adequate and not excessive.

The RC administers the MeGroup Scheme and the MeGroup PSP. The performance related elements of remuneration are designed to align the interests of Directors, Management and staff with those of shareholders and to link their rewards to corporate and individual performance. Details of the MeGroup Scheme and the MeGroup PSP can be found on pages 42 to 44 of the Annual Report in the Directors' Statement. The Company had not granted share options and awards to any employees and Directors under the MeGroup Scheme and the MeGroup PSP during FY2021.

Independent Non-Executive Directors receive basic Directors' fees and additional fees for serving as a Board Committees Chairman. Executive Directors do not receive Directors' fees. A long-term incentive scheme for Directors, Management and staff includes MeGroup Scheme and MeGroup PSP.

A total Directors' fees of S\$123,654.00 for FY2021 payable to Independent Non-Executive Directors will be recommended to shareholders for approval at the forthcoming AGM. The actual directors' fees paid out will be disclosed in the Company's Annual Report in the relevant financial year.

The Management, together with the RC, determines and recommends to the Board the compensation package of the Executive Directors, taking into account their experience and knowledge as well as the existing circumstances in the employment market.

The Company does not use contractual provisions to allow the Company to reclaim incentive components of remunerations from Executive Directors and key management personnel in exceptional circumstances of misstatement of financial results or misconduct resulting in financial loss to the Company. The Executive Directors owe a fiduciary duty to the Company. The Company should be able to avail itself to remedies against the Executive Directors in the event of such breach of fiduciary duties. The RC will review such contractual provisions as and when necessary.

The RC ensures that the remuneration packages for the Executive Directors and key management personnel are fair. The RC's recommendations are submitted to the entire Board for endorsement.

Each member of the RC shall abstain from voting on any resolutions and making any recommendations and/or participating in any deliberations of the RC in respect of his remuneration packages.

With regard to the remuneration of other key management personnel, the RC, together with the Management, reviews proposals which are made by the Executive Directors. The remuneration policy for the key management personnel takes into consideration the Company's performance, long-term interest and risk policies, as well as the responsibilities and performance of individual key management personnel. The latter is measured by goals and objectives set for each key management personnel in congruence with the Company's overall goals and objectives.

The NC and the RC have reviewed the terms of the service agreements for the Executive Directors and they are of the view that the Executive Directors have service agreements which include fair and reasonable terms for termination under appropriate notice and these service agreements are in line with market practices and are not overly generous. The Company has not engaged any remuneration consultants for FY2021 and will continue to monitor the need to engage external remuneration consultants going forward and where applicable, will review the independence of the external firm before any engagement.

C. ACCOUNTABILITY AND AUDIT

RISK MANAGEMENT AND INTERNAL CONTROLS

Principle 9: *The Board is responsible for the governance of risk and ensures that Management maintains a sound system of risk management and internal controls, to safeguard the interests of the Company and its shareholders.*

The Board acknowledges that it is responsible for the overall risk management and internal control framework but also recognises that all risk management and internal control systems contain inherent limitations and that no cost-effective internal control system will preclude all errors and irregularities, as a system is designed to manage rather than eliminate the risks of failure to achieve business objectives, and can only provide reasonable but not absolute assurance against misstatements or losses.

The Board and AC review regularly the adequacy and effectiveness of the Group's risk management and internal control systems, including but not limited to financial, operational, compliance and information technology controls. In particular, the Company has adopted a "Whistleblowing" policy to ensure that there are no irregularities in the Company's business dealings and that there is a system of integrity and reliability.

The Board has received assurance from each of the Executive Chairman & CEO and Group Financial Controller that the financial records of the Group for FY2021 have been properly maintained and the financial statements give a true and fair view of the Group's operations and finances.

In addition, the Executive Chairman & CEO and Executive Director have also given assurance to the Board that the risk management and internal control systems are adequate and effective in addressing the financial, operational, compliance and information technology risks.

The Board has reviewed and evaluated the adequacy and effectiveness of the Company's system of risk management and internal controls and work procedures and processes. Internal controls have been put in place to safeguard the shareholders' investment and the Company's assets, and to ensure that the Company's financial statements give a true and fair view of the Company's operations and finances.

Taking into account the Company's corporate structure and scope of operations and based on the internal controls established and maintained by the Group, works performed by the external and internal auditors, and reviews performed by Management, the Board, with the concurrence of the AC, is of the opinion that the Company's internal controls, addressing financial, operations, compliance and information technology risks, and risk management systems were adequate and effective as at 31 March 2021.

The audit of the accounts of the Company's subsidiaries in Singapore were performed by Nexia and the audit of the accounts of the Company's subsidiaries in Malaysia were performed by TKNP PLT, Malaysia. In accordance with Rule 716 of the Catalist Rules, the AC and the Board confirmed that they are satisfied that the appointment of different auditors for its subsidiaries would not compromise the standard and effectiveness of the audit of the consolidated financial statements. The Company has therefore acted in compliance with Rule 712, Rule 715 and 716 of the Catalist Rules.

The AC reviewed the independence and objectivity of the independent auditor as required under Section 206(1A) of the Companies Act and determined that the independent auditor was independent in carrying out their audit of the Group's financial statements.

CORPORATE GOVERNANCE REPORT

None of the members of the AC are a partner or director of Nexia or any other auditing firm or auditing corporation. The AC had also reviewed the scope and quality of the independent auditor's work before recommending the independent auditor to the Board for re-appointment.

After taking into account the resources and experience of Nexia and the audit engagement partner assigned to the audit, Nexia's other audit engagements, the size and complexity of the audit for the as well as the number and experience of the staff assigned by Nexia for the audit, the AC is of the view that Nexia is able to meet its audit obligations. Together with the Board, the AC recommends the re-appointment of Nexia at the forthcoming AGM.

The independent auditor briefs the AC members on the developments in accounting standards (where applicable) during AC meetings to keep the AC members abreast of changes to the accounting standards and issues which have a direct impact on financial statements. The AC has full access to the independent auditor and internal auditors without the presence of Management and is authorised to have full and unrestricted access to Management and all personnel, records, operations, properties, and other informational sources of the Company as required or desirable to properly discharge its responsibilities.

The AC has full discretion to invite any Director or executive officer to its meetings and has the authority to conduct or authorise investigations into any matters within its scope of responsibilities.

The AC and Management also review the Company's operational activities on an on-going basis to identify areas of material risks. The AC together with the Management and the internal and independent auditors will table all control issues and review the appropriate measures being recommended to mitigate areas of weaknesses highlighted to the Board during its half yearly meetings.

The Company has engaged Wensen Consulting (M) Sdn Bhd ("**Wensen**"), a suitably appointed qualified firm of accountants which meets the standards set by internationally recognised professional bodies including the Standards for the Professional Practice of Internal Auditing set by the Institute of Internal Auditors, to conduct an internal audit of the Company as well as to implement enterprise risk management ("**ERM**") initiatives within the Group to assist in determining whether the Group's checks and balances and control systems are adequate.

The Board formalized and approved an Enterprise Risk Management Framework. This risk framework has four principal risk categories, namely strategic, financial, operational and compliance risks.

The Group's risk management framework is aligned with the Committee of Sponsoring Organizations of the Treadway Commission (COSO) Internal Controls Integrated Framework.

Management is responsible for the effective implementation of risk management strategy, policies and processes to facilitate the achievement of business plans and goals within the risk tolerance established by the Board key business risks are proactively identified, addressed and reviewed on an ongoing basis.

Wensen has unfettered access to all the Company's documents, records, properties and personnel, including access to the AC. Wensen reports directly to the AC and provides reports to AC on a timely basis.

The AC is of the view that the Internal Audit function has adequate resources to perform its functions, is independent from the activities that it audits and has appropriate standing within the Group, and effective. In assessing the engagement of Wensen for the Internal Audit function, the AC ensured that the Internal Audit function is staffed with qualified and experienced personnel.

CORPORATE GOVERNANCE REPORT

Wensen's internal audit function is headed by the Executive Director, who is assisted by an audit team comprising of the Engagement Director, Managers and Consultants. The Executive Director, is a Chartered Member, Institute of Internal Auditors Malaysia (CIAM), Practicing Member of the Institute of Singapore Chartered Accountants (ISCA), a member of the Malaysian Institute of Accountants (MIA) and a Fellow Member of the Association of Chartered Certified Accountants (FCCA), with more than 20 years of experience in auditing while other team members are accounting graduates with a minimum qualification of a degree obtained from overseas and/or local universities.

The scope of the internal audit covers key aspects of the Group's internal controls established to address financial, operational, compliance and information technology risks. The internal auditor's activities are guided by Wensen's internal auditing methodology which is in line with the Standards for the Professional Practice of Internal Auditing set by The Institute of Internal Auditors.

At present, the Board relies on independent audit reports and management letters prepared by the independent auditor, Wensen's internal audit findings and ERM report on any material non-compliance or internal control weaknesses.

The AC has also set in place certain internal controls (for example, setting procedures for interested person transactions), risk management practices and sustainability practices, taking into consideration the risks which the Group is exposed to, the likelihood of occurrence of such risks, the costs of implementing the corresponding controls and the environmental and social interactions within the communities in which the issuers operate.

The Company may engage an external consultant to assist on the implementation of sustainability practices throughout the Group to assess and disclose the economic, environmental, social and governance ("**ESG**") aspects of the Group's performance and also to determine whether the Company conducts its business responsibly, particularly the ESG aspects.

The Group has considered sustainability as part of its strategic formulation and determined the material ESG factors most applicable to the Group. The Board oversees the management and monitoring of these factors, through internal reviews of the Group's sustainability performance.

The Company will issue its Sustainability Report in August 2021.

In the review of the Group's financial statements, the AC had discussed with the Management on the accounting principles that were applied and considered the clarity of key disclosures in the financial statements.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MEGROUP LTD.

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of MeGroup Ltd. (the "Company") and its subsidiary corporations (the "Group"), which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 31 March 2021, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows of the Group for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 51 to 113.

In our opinion, the accompanying consolidated financial statements of the Group and the statement of financial position of the Company are properly drawn up in accordance with the provisions of the Singapore Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards (International) ("SFRS(I)") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 March 2021 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group for the financial year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") *Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities* ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current financial year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MEGROUP LTD.

Key Audit Matters (continued)

Key audit matters

How our audit addressed the matter

Revenue recognition

(Refer to Notes 2.3 and 4 to the financial statements)

Revenue is recognised at an amount that reflects the consideration in the contracts to which the Group expected to be entitled in exchange for promised goods or services to the customers as and when the Group satisfied its performance obligation by transferring promised goods or services to the customers, which is when the customers obtains control of the goods or services at a point in time.

We focused on this area as there is a presumed high risk with regards to revenue recognition and inherent risk that revenue may not be recognised in the appropriate accounting period.

In obtaining sufficient audit evidence, the following procedures were carried out:

- Discussed with management on the key internal controls and processes involved in the revenue cycles and performed walkthrough to confirm our understanding.
- Tested the key internal controls to ascertain the reliabilities of the internal controls in place over the revenue cycle.
- Evaluated management's assessment of the application of SFRS(I) 15 *Revenue from Contracts with Customers*, in particular, the five-step model for each revenue stream.
- Reviewed significant sale contracts of the Group to assess whether revenue is recognised in accordance with the Group's accounting policies as disclosed in Note 2.3 to the financial statements.
- Performed test of detail, including cut-off procedures to ascertain that revenue was recorded in the appropriate accounting period.
- Reviewed credit notes issued subsequent to the financial year end to ascertain that revenue are appropriately recognised for the current financial year.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MEGROUP LTD.

Key Audit Matters (continued)

Key audit matters

How our audit addressed the matter

Expected credit losses on trade receivables

(Refer to Notes 2.14, 3(b), 13 and 29(b) to the financial statements)

As at 31 March 2021, the Group has trade receivables of RM13,480,037 representing 12% of the Group's total assets.

With reference to SFRS(I) 9 *Financial Instruments*, the Group apply the simplified approach (lifetime expected credit losses) for trade receivables.

The Group assesses periodically and as at the financial year end, the expected credit losses ("ECL") associated with its trade receivables. The Group determines ECL by making debtor-specific assessment of expected impairment loss for long overdue receivables, including assessing potential impact on the outbreak of COVID-19 pandemic. The Group assigns 100% expected credit loss rate for trade receivables past due more than 150 days.

As the ECL assessment on the trade receivables required significant management judgement and estimates in determining the credit risk of trade receivables, we determined this area to be a key audit matter.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

In obtaining sufficient audit evidence, the following procedures were carried out:

- Evaluated management's assessment and determination of the expected credit loss of the Group's trade receivables.
- Reviewed and tested the aging profile of trade receivables as at year end.
- Verified to subsequent receipts and any other evidence to support the recoverability of trade receivables.
- Reviewed the reasonableness of management estimation of expected credit loss of debtor-specific which are based on the historical information and loss experience for each category of customers and adjusted to reflect current and forward-looking information affecting the ability of the customers to settle the receivables, including the consideration of impacts from the COVID-19 pandemic.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MEGROUP LTD.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and SFRS(I), and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MEGROUP LTD.

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current financial year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement director on the audit resulting in this independent auditor's report is Chan Siew Ting.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. General information

MeGroup Ltd. (the "Company") is listed on Catalyst, the sponsor-supervised listing platform in Singapore Exchange Securities Trading Limited ("SGX-ST") and incorporated and domiciled in Singapore. The address of the Company's registered and principal place of business is located at 50 Raffles Place, #32-01 Singapore Land Tower, Singapore 048623.

The consolidated financial statements are presented in Malaysian Ringgit ("RM" or "MYR") except otherwise indicated.

The holding corporation of the Company is JCWW Holdings Pte. Ltd., a company incorporated and domiciled in Singapore.

The principal activity of the Company is investment holding. The principal activities of subsidiary corporations are described in Note 19 to the financial statements.

2. Significant accounting policies

2.1 Basis of preparation

These financial statements have been prepared in accordance with the Singapore Financial Reporting Standards (International) ("SFRS(I)") under the historical cost convention, except as disclosed in the accounting policies below.

The preparation of financial statements in conformity with SFRS(I) requires management to exercise its judgement in the process of applying the Group's accounting policies. It also requires the use of certain critical accounting estimates and assumptions. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3 to the financial statements.

Coronavirus (COVID-19) impact

The COVID-19 pandemic has affected almost all countries of the world, and resulted in border closures, production stoppages, workplace closures, movement controls and other measures imposed by the various governments. The Group's significant operations are in Malaysia which have been affected by the spread of COVID-19 in 2020.

Set out below is the impact of COVID-19 on the Group's financial performance reflected in this set of financial statements for the financial year ended 31 March 2021:

- (i) The Group has assessed that the going concern basis of preparation for this set of financial statements remains appropriate.
- (ii) In 2020, border closures, production stoppages and workplace closures have resulted in periods where the Group's operations were temporarily suspended to adhere to the respective governments' movement control measures. These have negatively impacted business production and volume in 2021, resulting in a negative impact on the Group's financial performance for 2021.
- (iii) The Group has considered the market conditions (including the impact of COVID-19) as at the reporting date, in making estimates and judgements on the recoverability of assets as at 31 March 2021. The significant estimates and judgement applied on impairment of trade receivables are disclosed in Note 3 to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Significant accounting policies (continued)

2.1 Basis of preparation (continued)

Coronavirus (COVID-19) impact (continued)

As the global COVID-19 situation remains very fluid as at the date these financial statements were authorised for issuance, the Group cannot reasonably ascertain the full extent of the probable impact of the COVID-19 disruptions on its operating and financial performance for the financial year ending 31 March 2022. If the situation persists beyond management's current expectations, the Group's assets may be subject to write downs in the subsequent financial periods.

Interpretations and amendments to published standards effective in 2020

On 1 April 2020, the Group has adopted the new or amended SFRS(I) and Interpretations of SFRS(I) ("INT SFRS(I)") that are mandatory for application for the financial year. Changes to the Group's accounting policies have been made as required, in accordance with the transitional provisions in the respective SFRS(I) and INT SFRS(I).

The adoption of these new or amended SFRS(I) and INT SFRS(I) did not result in substantial changes to the Group's accounting policies and had no material effect on the amounts reported for the current or prior financial years.

2.2 Group accounting

(a) *Subsidiary corporations*

(i) *Consolidation*

Subsidiary corporations are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiary corporations are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

In preparing the consolidated financial statements, transactions, balances and unrealised gains on transactions between group entities are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment indicator of the transferred asset. Accounting policies of subsidiary corporations have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests comprise the portion of a subsidiary corporation's net results of operations and its net assets, which is attributable to the interests that are not owned directly or indirectly by the equity holders of the Company. They are shown separately in the consolidated statement of comprehensive income, statement of changes in equity, and statement of financial position. Total comprehensive income is attributed to the non-controlling interests based on their respective interests in a subsidiary corporation, even if this results in the non-controlling interests having a deficit balance.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Significant accounting policies (continued)

2.2 Group accounting (continued)

(a) *Subsidiary corporations (continued)*

(ii) *Acquisition*

The acquisition method of accounting is used to account for business combinations entered into by the Group, other than those entities which are under common control.

The consideration transferred for the acquisition of a subsidiary corporation or business comprises the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred also includes any contingent consideration arrangement and any pre-existing equity interest in the subsidiary corporations measured at their fair values at the acquisition date.

Acquisition-related costs are expensed as incurred.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date.

On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree at the date of acquisition either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

The excess of (a) the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the (b) fair value of the identifiable net assets acquired is recorded as goodwill. Please refer to the paragraph "Intangible assets - Goodwill" for the subsequent accounting policy on goodwill.

Acquisitions of entities under common control have been accounted for using the predecessor accounting method. Under this method:

- The consolidated financial statements of the Group have been prepared as if the Group structure immediately after the transaction has been in existence since the earliest date the entities are under common control;
- The assets and liabilities are brought into the consolidated financial statements at their existing carrying amounts from the perspective of the controlling party;
- The consolidated statement of comprehensive income includes the results of the acquired entities since the earliest date the entities are under common control;
- The cost of investment is recorded at the aggregate of the nominal value of the equity shares issued, cash and cash equivalents and fair values of other consideration; and
- On consolidation, the difference between the cost of investment and the nominal value of the share capital of the merged subsidiary corporations are taken to merger reserve.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Significant accounting policies (continued)

2.2 Group accounting (continued)

(a) *Subsidiary corporations (continued)*

(iii) *Disposals*

When a change in the Group's ownership interest in a subsidiary corporation results in a loss of control over the subsidiary corporation, the assets and liabilities of the subsidiary corporation including any goodwill are derecognised. Amounts previously recognised in other comprehensive income in respect of that entity are also reclassified to profit or loss or transferred directly to retained profits if required by a specific Standard.

Any retained equity interest in the entity is remeasured at fair value. The difference between the carrying amount of the retained interest at the date when control is lost and its fair value is recognised in profit or loss.

Please refer to the paragraph "Investments in subsidiary corporations" for the accounting policy on investments in subsidiary corporations in the separate financial statements of the Company.

(b) *Transactions with non-controlling interests*

Changes in the Group's ownership interest in a subsidiary corporation that do not result in a loss of control over the subsidiary corporation are accounted for as transactions with equity holders of the Company. Any difference between the change in the carrying amounts of the non-controlling interest and the fair value of the consideration paid or received is recognised within equity attributable to the equity holders of the Company.

2.3 Revenue recognition

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Group satisfied a performance obligation by transferring a promised good and service to the customer, which is when the customer obtains control of the good and service. A performance obligation is satisfied at a point in time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

(a) *Sales of Noise, Vibration and Harshness ("NVH") components and other non-NVH components*

Revenue is recognised when the customer obtains control of the goods.

(b) *Sale of automobiles*

Revenue is recognised when the customer obtains control of the goods.

(c) *After-sales automobile services*

Revenue is recognised when the Group has rendered the services to customer.

(d) *Incentives received from distributors*

Incentives received from distributors is recognised upon the Group meeting the agreed target set by the distributors.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Significant accounting policies (continued)

2.3 Revenue recognition (continued)

(e) *Handling fees*

Handling fees are recognised when the related services is provided.

(f) *Agency fee income*

Agency fee income is recognised in the amount of any fee or commission to which it expects to be entitled in exchange for arranging services for other party.

(g) *Interest income*

Interest income is recognised using the effective interest method.

(h) *Dividend income*

Dividend income is recognised when the right to receive payment is established.

(i) *Management fee*

Management fee income is recognised when services is rendered.

2.4 Government grant

Grants from the government are recognised as a receivable at their fair value when there is reasonable assurance that the grant will be received and the Group will comply with all the attached conditions.

Government grants receivable are recognised as income over the periods necessary to match them with the related costs which they are intended to compensate, on a systematic basis. Government grants relating to expenses are shown separately as other income.

Government grants relating to assets are deducted against the carrying amount of the assets.

2.5 Borrowing costs

Borrowing costs are recognised in profit or loss using the effective interest method.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Significant accounting policies (continued)

2.6 Employee compensation

Employee benefits are recognised as an expense, unless the cost qualifies to be capitalised as an asset.

(a) *Defined contribution plans*

Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into separate entities such as the Employees' Provident Fund on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid. Significant accounting policies (continued)

(b) *Performance bonus*

The Group recognises a liability and an expense for performance bonus of Executive Chairman. The performance bonus is computed based on the Group's audited consolidated profit before deducting income tax expenses, non-recurring or one-off exceptional items, non-controlling interests of the Group and before paying profit sharing. The Group recognises a provision when contractually obliged to pay or when there is a past practice that has created a constructive obligation to pay.

(c) *Performance shares*

Benefits to employees including the directors are provided in the form of share-based payment transactions, whereby employees render services in exchange for shares or rights over shares ("equity-settled transactions"). The fair value of the employee services rendered is determined by reference to the fair value of the shares awarded or rights granted, excluding the impact of any non-market vesting conditions. These are fair valued based on the market price of entity's share on grant date. This fair value is charged to profit or loss over the vesting period of the share-based payment scheme, with the corresponding increase in equity. The value of the charge is adjusted in profit or loss over the remainder of the vesting period to reflect expected and actual quantities vested, with the corresponding adjustment made in equity.

Cancellations of grants of equity instruments during the vesting period (other than a grant cancelled by forfeiture when the vesting conditions are not satisfied) are accounted for as an acceleration of vesting, therefore any amount unrecognised that would otherwise have been charged is recognised immediately in profit or loss.

(d) *Share-based compensation*

The Group operates an equity-settled, share-based compensation plan. The value of the employee services received in exchange for the grant of options is recognised as an expense with a corresponding increase in the share option reserve over the vesting period. The total amount to be recognised over the vesting period is determined by reference to the fair value of the options granted on grant date. Non-market vesting conditions are included in the estimation of the number of shares under options that are expected to become exercisable on the vesting date.

At each reporting date, the Group revises its estimates of the number of shares under options that are expected to become exercisable on the vesting date and recognises the impact of the revision of the estimates in profit or loss, with a corresponding adjustment to the share option reserve over the remaining vesting period.

When the options are exercised, the proceeds received (net of transaction costs) and the related balance previously recognised in the share option reserve are credited to share capital account, when new ordinary shares are issued, or to the "treasury shares" account, when treasury shares are re-issued to the employees.

(e) *Short-term compensated absences*

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the reporting date.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Significant accounting policies (continued)

2.7 Income taxes

Current income tax for current and prior financial periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation, and considers whether it is probable that a tax authority will accept an uncertain tax treatment. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

A deferred income tax liability is recognised on temporary differences arising on investments in subsidiary corporations except where the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

A deferred income tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised.

Deferred income tax is measured:

- (i) at the tax rates that are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date; and
- (ii) based on the tax consequence that will follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amounts of its assets and liabilities.

Current and deferred income taxes are recognised as income and expense in profit or loss, except to the extent that the tax arises from a business combination or a transaction which is recognised directly in equity. Deferred tax arising from a business combination is adjusted against goodwill on acquisition.

2.8 Cash and cash equivalents

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents include cash on hand, deposits with financial institutions which are subject to an insignificant risk of change in value, and bank overdrafts. Bank overdrafts are presented as current borrowings on the statement of financial position. For cash subjected to restriction, assessment is made on the economic substance of the restriction and whether they meet the definition of cash and cash equivalents.

2.9 Inventories

Inventories are carried at the lower of cost and net realisable value. Cost is determined using the first-in, first-out method. The cost of finished goods and work-in-progress comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity). Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and applicable variable selling expenses.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2.10 Property, plant and equipment

(a) Measurement

(i) Property, plant and equipment

Property, plant and equipment are initially recognised at cost and subsequently carried at cost less accumulated depreciation and accumulated impairment losses.

(ii) Components of costs

The cost of an item of property, plant and equipment initially recognised includes its purchase price and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

(b) Depreciation

Freehold land is not depreciated. Depreciation on other items of property, plant and equipment is calculated using the straight-line method to allocate their depreciable amounts over their estimated useful lives as follows:

	<u>Useful lives</u>
Computers and office equipment	3 – 10 years
Tools and machinery	5 – 10 years
Furniture, electrical and fittings	5 – 10 years
Renovation and signboard	10 years
Automobiles	5 years
Buildings	50 years
Leasehold land	Over the remaining leased terms of 72 – 84 years

The residual values, estimated useful lives and depreciation method of property, plant and equipment are reviewed, and adjusted as appropriate, at each reporting date. The effects of any revision are recognised in profit or loss when the changes arise.

Construction-in-progress represents the cost of building under construction. When construction-in-progress are completed and are ready for their intended use, they are recognised as property, plant and equipment and depreciated over their useful lives.

Fully depreciated property, plant and equipment still in use are retained in the financial statements.

(c) Subsequent expenditure

Subsequent expenditure relating to property, plant and equipment that has already been recognised is added to the carrying amount of the asset only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. All other repair and maintenance expenses are recognised in profit or loss when incurred.

(d) Disposal

On disposal of an item of property, plant and equipment, the difference between the disposal proceeds and its carrying amount is recognised in profit or loss within "Other gains/(losses) – net".

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Significant accounting policies (continued)

2.11 Intangible assets

(a) Goodwill

Goodwill on acquisitions of subsidiary corporations and businesses, represents the excess of (i) the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over (ii) the fair value of the identifiable net assets acquired. Goodwill on subsidiary corporations is recognised separately as intangible assets and carried at cost less accumulated impairment losses.

Gains and losses on the disposal of subsidiary corporations include the carrying amount of goodwill relating to the entity sold.

(b) Customer relationship and licence

Customer relationship and licence are initially recognised at cost and are subsequently carried at cost less accumulated amortisation and accumulated impairment losses. These costs are amortised to profit or loss using the straight-line method over 6 years, which is the shorter of their estimated useful lives and periods of contractual rights.

2.12 Investments in subsidiary corporations

Investments in subsidiary corporations are carried at cost less accumulated impairment losses in the Company's statement of financial position. On disposal of such investments, the difference between disposal proceeds and the carrying amounts of the investments are recognised in profit or loss.

2.13 Impairment of non-financial assets

(a) Goodwill

Goodwill recognised separately as an intangible asset is tested for impairment annually and whenever there is indication that the goodwill may be impaired.

For the purpose of impairment testing of goodwill, goodwill is allocated to each of the Group's cash-generating units ("CGU") expected to benefit from synergies arising from the business combination.

An impairment loss is recognised when the carrying amount of a CGU, including the goodwill, exceeds the recoverable amount of the CGU. The recoverable amount of a CGU is the higher of the CGU's fair value less cost to sell and value-in-use.

The total impairment loss of a CGU is allocated first to reduce the carrying amount of goodwill allocated to the CGU and then to the other assets of the CGU pro-rata on the basis of the carrying amount of each asset in the CGU.

An impairment loss on goodwill is recognised as an expense and is not reversed in a subsequent period.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Significant accounting policies (continued)

2.13 Impairment of non-financial assets (continued)

- (b) *Intangible assets*
Property, plant and equipment
Right-of-use assets
Investments in subsidiary corporations

Intangible assets, property, plant and equipment, right-of-use assets and investments in subsidiary corporations are tested for impairment whenever there is any objective evidence or indication that these assets may be impaired.

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash inflows that are largely independent of those from other assets. If this is the case, the recoverable amount is determined for the CGU to which the asset belongs.

If the recoverable amount of the asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount.

The difference between the carrying amount and recoverable amount is recognised as an impairment loss in profit or loss.

An impairment loss for an asset other than goodwill is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of this asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior financial years.

A reversal of impairment loss for an asset other than goodwill is recognised in profit or loss.

2.14 Financial assets

- (a) *Classification and measurement*

The Group classifies its financial assets at amortised costs.

The classification of debt instruments depends on the Group's business model for managing the financial assets as well as the contractual terms of the cash flows of the financial asset.

The Group reclassifies debt instruments when and only when its business model for managing those assets changes.

At initial recognition

At initial recognition, the Group measures a financial asset at its fair value plus, transaction costs that are directly attributable to the acquisition of the financial asset.

At subsequent measurement

Debt instruments mainly comprise of cash and cash equivalents and trade and other receivables.

At subsequent measurement, debt instruments that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt instrument that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in interest income using the effective interest rate method.

2. Significant accounting policies (continued)

2.14 Financial assets (continued)

(b) Impairment

The Group assesses on a forward-looking basis the expected credit losses associated with its debt financial assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 29(b) details how the Group determines whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by the SFRS(I) 9 *Financial Instruments*, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

For cash and bank deposits and other receivables, the general 3 stage approach is applied. Credit loss allowance is based on 12-month expected credit loss if there is no significant increase in credit risk since initial recognition of the assets. If there is a significant increase in credit risk since initial recognition, lifetime expected credit loss will be calculated and recognised.

(c) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade date – the date on which the Group commits to purchase or sell the asset.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

On disposal of debt instrument, the difference between the carrying amount and the sales proceed is recognised on profit or loss. Any amount previously recognised in other comprehensive income relating to that asset is reclassified to profit or loss.

2.15 Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. They are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). Otherwise, they are presented as non-current liabilities.

Trade and other payables are initially recognised at fair value, and subsequently carried at amortised cost using the effective interest method.

2.16 Provisions

Provisions for other liabilities and charges are recognised when the Group has a present legal or constructive obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

2.17 Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset and there is an intention to settle on a net basis or realise the asset and settle the liabilities simultaneously.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Significant accounting policies (continued)

2.18 Borrowings

Borrowings are presented as current liabilities unless the Group has an unconditional right to defer settlement for at least 12 months after the reporting date, in which case they are presented as non-current liabilities.

Borrowings are initially recognised at fair value (net of transaction costs) and subsequently carried at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

2.19 Leases

When the Group is the lessee:

At the inception of the contract, the Group assesses if the contract contains a lease. A contract contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Reassessment is only required when the terms and conditions of the contract are changed.

(i) Right-of-use assets

The Group recognised a right-of-use asset and lease liability at the date which the underlying asset is available for use. Right-of-use assets are measured at cost which comprises the initial measurement of lease liabilities adjusted for any lease payments made at or before the commencement date and lease incentive received. Any initial direct costs that would not have been incurred if the lease had not been obtained are added to the carrying amount of the right-of-use assets.

These right-of-use assets is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

(ii) Lease liabilities

The initial measurement of lease liability is measured at the present value of the lease payments discounted using the implicit rate in the lease, if the rate can be readily determined. If that rate cannot be readily determined, the Group shall use its incremental borrowing rate.

Lease payments include the following:

- Fixed payment (including in-substance fixed payments), less any lease incentives receivables;
- Variable lease payment that are based on an index or rate, initially measured using the index or rate as at the commencement date;
- Amount expected to be payable under residual value guarantees;
- The exercise price of a purchase option if is reasonably certain to exercise the option; and
- Payment of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

For contract that contain both lease and non-lease components, the Group allocates the consideration to each lease component on the basis of the relative stand-alone price of the lease and non-lease component. The Group has elected to not separate lease and non-lease component for property leases and account these as one single lease component.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Significant accounting policies (continued)

2.19 Leases (continued)

(ii) Lease liabilities (continued)

Lease liability is measured at amortised cost using the effective interest method. Lease liability shall be remeasured when:

- There is a change in future lease payments arising from changes in an index or rate;
- There is a change in the Group's assessment of whether it will exercise an extension option; or
- There are modifications in the scope or the consideration of the lease that was not part of the original term.

Lease liability is remeasured with a corresponding adjustment to the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

(iii) Short term and low value leases

The Group has elected to not recognise right-of-use assets and lease liabilities for short-term leases that have lease terms of 12 months or less and leases of low value leases. Lease payments relating to these leases are expensed to profit or loss on a straight-line basis over the lease term.

(iv) Variable lease payments

Variable lease payments that are not based on an index or a rate are not included as part of the measurement and initial recognition of the lease liability. The Group shall recognise those lease payments in profit or loss in the periods that triggered those lease payments.

2.20 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are deducted against the share capital account.

2.21 Dividends to Company's shareholders

Dividends to the Company's shareholders are recognised when the dividends are approved for payment.

2.22 Currency translation

(a) Functional and presentation currency

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). The financial statements are presented in Malaysia Ringgit ("RM"), which is the functional currency of the Company.

(b) Transactions and balances

Transactions in a currency other than the functional currency ("foreign currency") are translated into the functional currency using the exchange rates at the dates of the transactions. Currency exchange differences resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rate at the reporting date are recognised in profit or loss. Monetary items include primarily financial assets and financial liabilities. However, in the consolidated financial statements, currency translation differences arising from borrowings in foreign currencies and other currency instruments designated and qualifying as net investment hedges and net investment in foreign operations, are recognised in other comprehensive income and accumulated in the currency translation reserve.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Significant accounting policies (continued)

2.22 Currency translation (continued)

(b) Transactions and balances (continued)

When a foreign operation is disposed of or any loan forming part of the net investment of the foreign operation is repaid, a proportionate share of the accumulated currency translation differences is reclassified to profit or loss, as part of the gain or loss on disposal.

All other foreign exchange gains and losses impacting profit or loss are presented in the statement of comprehensive income within "Other gains and losses – net".

Non-monetary items measured at fair values in foreign currencies are translated using the exchange rates at the date when the fair values are determined.

(c) Translation of Group entities' financial statements

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) assets and liabilities are translated at the closing exchange rates at the reporting date;
- (ii) income and expenses are translated at average exchange rates (unless the average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated using the exchange rates at the dates of the transactions); and
- (iii) all resulting currency translation differences are recognised in other comprehensive income and accumulated in the currency translation reserve. These currency translation differences are reclassified to profit or loss on disposal or partial disposal with loss of control of the foreign operation.

Goodwill and fair value adjustments arising on the acquisition of foreign operations are treated as assets and liabilities of the foreign operations and translated at the closing rates at the reporting date.

2.23 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Group's chief operating decision-maker whose members are responsible for allocating resources and assessing performance of the operating segments.

2.24 Financial guarantees

The Company has issued corporate guarantees to banks for bank borrowings of its subsidiary corporations. These guarantees are financial guarantees as they require the Company to reimburse the banks if the subsidiary corporations fail to make principal or interest payments when due in accordance with the terms of their borrowings. Intra-Group transactions are eliminated on consolidation.

Financial guarantee contracts are initially measured at fair value plus transaction costs and subsequently measured at the higher of:

- (a) premium received on initial recognition less the cumulative amount of income recognised in accordance with the principles of SFRS(I) 15; and
- (b) the amount of expected loss computed using impairment methodology under Note 2.14.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

3. Critical accounting estimates, assumptions and judgements

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under circumstances.

(a) Depreciation of property, plant and equipment

Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives. Management estimates the useful lives of these property, plant and equipment, except for freehold land and right-of-use assets, to be within 3 to 50 years.

The carrying amounts of the Group's property, plant and equipment as at 31 March 2021 is RM26,295,617 (2020: RM26,191,266). Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

If the actual useful lives of these property, plant and equipment had been 10% higher from management's estimates, the carrying amount of the property, plant and equipment would be an estimated RM316,015 (2020: RM255,292) lower.

The carrying amount of the Group's property, plant and equipment is disclosed in Note 16 to the financial statements.

(b) Impairment of trade receivables

Expected credit losses ("ECL") on trade receivables is probability-weighted estimates of credit losses which are determined by evaluating a range of possible outcomes and taking into account past events, current conditions and assessment of future economic conditions.

The Group measured the loss allowance of trade receivables at an amount equal to lifetime ECL by making debtor-specific assessment. A considerable amount of judgement is required in assessing the ECL which are determined by referencing to the Group's historical information and loss experience, customers' ability to pay and adjusted with forward-looking information. The information about the ECL on the Group's trade receivables is disclosed in Note 29(b) to the financial statements. The Group also evaluates the ECL on customers in financial difficulty separately. Based on management's evaluation, no loss allowance for trade receivables is recognised for the financial years ended 31 March 2021 and 2020.

The carrying amounts of trade receivables is disclosed in Note 13 to the financial statements.

(c) Net realisable value of inventories

A review is made periodically on inventories for excess inventory, obsolescence and declines in net realisable value below cost. These require management to estimate future demand for products and their selling prices. In any case, the realisable value represents the best estimate of the recoverable amount and is based on the most reliable evidence available at the end of the reporting date and inherently involves estimates regarding the future expected realisable value. The usual considerations for determining the amount to write-down including ageing analysis, utilisation of inventories, and the purpose of the inventories held, category and conditions of inventories and subsequent events.

In general, such an evaluation process requires judgement which may affects the carrying amount of inventories at the end of the financial year. Possible changes in these estimates could result in revisions to the valuation of inventories. The carrying amount of the inventories at the reporting date is disclosed in Note 15 to the financial statements. If the management's estimate on the realisable value of inventories had been lower by 5%, the Group would have reduced the carrying amount of inventories by RM600,741 (2020: RM768,954).

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

3. Critical accounting estimates, assumptions and judgements (continued)

(d) Leases

The application of SFRS(I) 16 requires the Group to exercise judgement and estimates in applying transition options and practical expedients, and in the determination of key assumptions used in measuring the lease liabilities. Key assumptions include lease terms and discount rates on the lease payments.

In determining the lease term, the Group considers all relevant facts and circumstances that create an economic incentive for the Group to exercise an extension option, or not to exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the Group is reasonably certain to exercise an option to extend the lease, or not to exercise an option to terminate the lease.

The lease payments are discounted using the rate implicit in the lease or the Group's incremental borrowing rate. This requires the Group to estimate the rate of interest that it would have to pay to borrow the funds to obtain a similar asset over a similar term.

The incremental borrowing rate applied to lease liabilities as at 31 March 2021 was ranged from 2.83% to 3.81% for leases of office space and buildings for the purpose of back office operation, car showrooms, warehouse and service centres. The carrying amount of lease liabilities of the Group as at 31 March 2021 was RM21,916,313 (2020: RM22,769,877) and is disclosed in Note 22 to the financial statements.

Changes in these assumptions may significantly impact the measurement of the lease liabilities. The accounting policies for leases are stated in Note 2.19 to the financial statements.

Beginning and end of financial year	376,541	376,541

The goodwill of RM376,541 is allocated to the Dealership business where the operations are held in Malaysia.

Impairment test for goodwill

In assessing whether an impairment is required, the carrying amount of the CGU is compared with its recoverable amount. The recoverable amount of the CGU was determined based on value-in-use. The value-in-use is determined based on financial budgets approved by management covering a five-year period using the growth rate stated below.

Key assumptions used for value-in-use calculations:

	Dealership business	
	2021	2020
	%	%
Growth rate ⁽¹⁾	5.0 – 10.0	4.5 – 15.0
Discount rate ⁽²⁾	15.6	15.6

(1) Revenue growth rate used for extrapolation of future revenue for the five-year period

(2) Pre-tax discount rate applied to pre-tax cash flow projection

These assumptions were used for the analysis of the CGU. The management estimates discount rate using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the CGU. The growth rate is based on past performance and expectations on market development.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

18. Intangible assets (continued)

(a) Goodwill (continue)

Based on the five-year projected cash flow, the recoverable amount of the CGU exceed its carrying amount. If the management's estimated growth rate used in the value-in-use calculation for this CGU had declined by 1%, or the estimated pre-tax discount rate applied to the discounted cash flows for this CGU had been raised to 19% (2020: 24%), the recoverable amount of the CGU would equal to the carrying amount.

(ii) Cash flow and fair value interest rate risks

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market interest rates. As the Group has no significant interest-bearing assets, the Group's income is substantially independent of changes in market interest rate. The Group's interest rate risk mainly arises from borrowings at floating interest rate. The Group manages its interest rate risk by keeping bank loans to the minimum required to sustain the operations of the Group.

The Group's borrowings at variable rates on which effective hedges have not been entered into are denominated mainly in MYR. If the MYR interest rate had been higher/lower by 0.50% (2020: 0.50%) with all other variables including tax rate being held constant, the profit after tax would have been lower/higher by RM95,262 (2020: RM90,255).

The Group and the Company are not exposed to changes in interest rate for fixed rate financial assets and financial liabilities.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

29. Financial risk management (continued)

(b) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group and the Company. The major classes of financial assets of the Group are cash and cash equivalent and trade and other receivables. The Group adopts the policy of dealing only with:

- Customers of appropriate credit standing and history, and obtaining sufficient collaterals where appropriate to mitigate credit risk; and
- High credit quality counterparties of at least 'A' rating by external credit rating companies.

The exposure to credit risk is controlled by setting limits on the exposure to individual customers and these are disseminated to the relevant persons concerned and compliance is monitored by management.

Credit exposure to individual counterparty is restricted by credit limits that are approved by the management based on ongoing credit evaluation. The counterparty's payment pattern and credit exposure are continuously monitored at the Group level by the management.

As the Group and the Company do not hold any collateral, the maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented on the statement of financial position, except as follows:

	Company	
	2021	2020
	RM	RM
Corporate guarantee provided to banks on certain subsidiary corporations' borrowings	21,450,000	14,450,000

The trade receivables of the Group comprise 3 debtors (2020: 2 debtors) that individually represented 8% - 11% (2020: 14% - 19%) of trade receivables.

Trade receivables

The Group applies the SFRS(I) 9 simplified model of recognising lifetime expected credit for all trade receivables.

In measuring the ECL, the trade receivables have been assessed on a collective basis as they possess shared credit risk characteristics. They have been grouped based on the days past due and different business segment.

In calculating the ECL, the Group considers the historical information and loss experience for each category of customers and/or counterparties and adjusts to reflect current and forward-looking information affecting the customer's ability to settle the receivables. However, given the short period exposed to credit risk, the impact of these forward-looking information has not been considered significant within the reporting period.

Trade receivables are written off when there is no reasonable expectation of recovery, such as debtor failing to engage in a repayment plan with the Group. The Group considers a financial asset as in default if the counterparty fails to make contractual payment within 150 days when they fall due and has shown indicators of financial difficulty, and writes off the financial asset when the Group has exhausted all means to retrieve the sum from the customers and/or counterparties. Where receivables are written off, the Group continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognised in profit or loss.

Non-trade amount due from related party and holding corporation

The Group applies the SFRS(I) 9 general model for measuring expected credit losses for its non-trade receivables from its related party and holding corporation.

The Group uses the 12-month expected credit losses approach to assess for impairment for the remaining outstanding amount. The assessment reflects a low credit risk exposure and there is no indication that the outstanding amount is not recoverable.

Financial guarantee contracts

The Company has issued financial guarantees to banks for borrowings of its subsidiary corporations. These guarantees are subject to the impairment requirements of SFRS(I) 9. The Company has assessed that its subsidiary corporations have strong financial capacity to meet the contractual cash flow obligations in the near future and hence, does not expect significant credit losses arising from these guarantees.

29. Financial risk management (continued)

(c) Liquidity risk

Prudent liquidity risk management includes maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities. At the reporting date, assets held by the Group for managing liquidity risk included cash and cash equivalents as disclosed in Note 12 to the financial statements.

Management monitors rolling forecasts of the liquidity reserve (comprises undrawn borrowing facility and cash and cash equivalents of the Group) on the basis of expected cash flow. This is generally carried out in accordance with the practice and limits set by the Board of Directors. These limits vary by location to take into account the liquidity of the market in which the entity operates.

The table below analyses non-derivative financial liabilities of the Group and the Company into relevant maturity groupings based on the remaining period from the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying amounts as the impact of discounting is not significant.

32. Events occurring after reporting date

On 31 May 2021, the Group through its subsidiary corporation, MJN Motors Sdn. Bhd., incorporated a 90%-owned subsidiary corporation in Malaysia, MJN Automart Sdn. Bhd. ("MJNAM") to hold the new Proton dealership awarded to the Group. The issued and paid-up capital of MJNAM amounted to RM100.

The above event is not expected to have a material effect to the Group for the financial year ending 31 March 2022.

33. New or revised accounting standards and interpretations

Below are the mandatory standards, amendments and interpretations to existing standards that have been published and are relevant for the accounting periods beginning on or after 1 April 2021 or later periods and which the Group has not early adopted:

Amendments to SFRS(I) 1-1 Presentation of Financial Statements: Classification of Liabilities as Current or Non-current (effective for annual periods beginning on or after 1 January 2023)

The narrow-scope amendments to SFRS(I) 1-1 Presentation of Financial Statements clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant). The amendments also clarify what SFRS(I) 1-1 means when it refers to the 'settlement' of a liability.

The amendments could affect the classification of liabilities, particularly for entities that previously considered management's intentions to determine classification and for some liabilities that can be converted into equity.

The Group does not expect any significant impact arising from applying these amendments.

Amendments to SFRS(I) 1-16 Property, Plant and Equipment: Proceeds before Intended Use (effective for annual periods beginning on or after 1 January 2022)

The amendment to SFRS(I) 1-16 Property, Plant and Equipment (PPE) prohibits an entity from deducting from the cost of an item of PPE any proceeds received from selling items produced while the entity is preparing the asset for its intended use. It also clarifies that an entity is 'testing whether the asset is functioning properly' when it assesses the technical and physical performance of the asset. The financial performance of the asset is not relevant to this assessment.

Entities must disclose separately the amounts of proceeds and costs relating to items produced that are not an output of the entity's ordinary activities.

The Group does not expect any significant impact arising from applying these amendments.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

33. New or revised accounting standards and interpretations (continued)

Amendments to SFRS(I) 1-37 Provisions, Contingent Liabilities and Contingent Assets: Onerous Contracts – Cost of Fulfilling a Contract (effective for annual periods beginning on or after 1 January 2022)

An onerous contract is a contract in which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the costs of fulfilling it and any compensation or penalties arising from failure to fulfil it. The amendment to SFRS(I) 1-37 clarifies that the direct costs of fulfilling a contract include both the incremental costs of fulfilling the contract and an allocation of other costs directly related to fulfilling contracts.

The Group does not expect any significant impact arising from applying these amendments.

34. Authorisation of financial statements

These financial statements were authorised for issued in accordance with a resolution of the Board of Directors of the Company on 7 July 2021.
