**ANNOUNCEMENT**

---

**PROFIT GUIDANCE FOR THE HALF YEAR ENDED 30 JUNE 2015**

---

The Board of Directors (the “Board”) of AEI Corporation Ltd (the “Company” together with its subsidiaries, the “Group”) wishes to announce that, following a preliminary review of the unaudited financial results for the half year ended 30 June 2015, the Group expects to report an operating loss for this period.

The losses were mainly due to lower sales achieved during the period as the worldwide demand from the HDD markets has weakened further and competition from overseas suppliers has become more intensified. The high raw material and operating cost during the period contributed further to the loss. Furthermore, the company has to write down the cost of the inventory as worldwide aluminium price and its premium starts to soften from the beginning of the second half of the year.

Our China subsidiary, Form Technik, is still operating at a loss as sales and demand slowed down in the automotive sector and cost of operation remains high.

The Company is in the process of finalizing the Group results and will provide further details of the Group’s performance when it announces its unaudited financial results for the period ended 30 June 2015.
