Revenue and Net Profit attributable to equity holders of the parent (“Net Profit”)

During the quarter under review (3Q14), revenues rose by 10.2% or US\$1.66 million to US\$11.26 million while Net Loss narrowed 14.9% or US\$0.13 million to US\$1.14 million. For the 9 months ended 31 March 2014, revenues rose marginally by 3.9% or US\$1.44 million to US\$38.9 million while Net Loss narrowed by 52.8% or US\$0.28 million to US\$0.25 million. In line with our previous financial performance trends, 3Q has always been our weakest quarter due mainly to shorter production days during the holiday season in the months of January / February.

More specifically:

- Sales to the Asia Pacific markets (specifically Korea and Japan) were significantly higher;
- Retail sales in Singapore were higher; and

Despite

- Lower retail sales in Vietnam (retail sales for Rossano remained weak) and
- Lower sales to the UK and US

Gross Profit fell by 10.5% or US\$0.27 million to US\$2.28 million. Gross margin fell by 6.3 percentage points to 20.3% due mainly to higher raw materials cost and direct production overheads in Vietnam and China (particularly wages).

Administrative expenses remained relatively unchanged, despite rising staff costs in Singapore and for our manufacturing plants, as we continued to practice good cost control measures. Selling and distribution expenses rose by 12.5% or US\$0.16 million to US\$1.4 million due to higher advertisement and promotional expenses for our Singapore retail business and sales compensation paid to our export customers.

Given the above, our Net Loss before tax improved marginally from US\$1.3 million to US\$1.26 million.

There was a share of loss by minority shareholders of Rossano and Metrolink of US\$0.06 million and US\$0.05 million respectively.

Our Net Loss also improved marginally from US\$1.27 million to US\$1.14 million in 3Q14, after the share of losses by minority shareholders.

Financial Position (31 March 2014 vs. 31 December 2013)

Assets

Current Assets fell by 7.9% or US\$2.2 million to US\$25.4 million. Significant movements in Current Assets during the period under review were as follows:

- Cash at bank (inclusive of fixed deposits) fell by US\$0.88 million to US\$1.60 million due mainly to repayment of bank loans.
- Trade receivables fell by US\$0.88 million to US\$4.03 million due to better collection cycle, which improved by 4 days to 28 days.

- Other receivables and prepayments fell by US\$0.64 million to US\$3.42 million due mainly to lower cash advances to trade suppliers.

Non-Current Assets fell by US\$0.21 million due mainly to depreciation of property, plant and equipment and amortization.

Liabilities

Current Liabilities fell by US\$1.06 million to US\$18.5 million due mainly to lower bank borrowings and customer deposits.

Shareholders' equity

Net asset or Equity attributable to shareholders fell by US\$1.16 million to US\$22.7 million as at 31 March 2014 due mainly to current period losses and lower currency translation reserve.

Minority interests

Minority interests ("MI"), reflecting the cumulative share of net assets by Metrolink Group's and Rossano's other shareholders, who own 49% and 30% of Metrolink Group and Rossano respectively, fell by US\$0.14 million to US\$0.91 million due mainly to losses recorded by Metrolink Group and Rossano.

Cash Flows (movements in 3Q14)

Net cash generated from operating activities was US\$0.54 million for 3Q14 due mainly to an improved working capital cycle as a result of faster turnaround time for receivables. Net cash used in investing activities was US\$0.14 million (net of proceeds from disposal) due mainly to purchase of new equipment. Net cash used in financing activities was US\$0.91 million due mainly to repayment of loans. Given these, net cash and cash equivalents fell by US\$0.02 million to US\$1.27 million as at 31 March 2014 (net of bank overdraft of US\$0.33 million).

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

The Board of Directors stated in the 2Q14 announcement that "the Group would expect to remain profitable in FY2014".

In line with our previous financial performance trends, 3Q has always been our weakest quarter due mainly to shorter production days during the holiday season in the months of January / February.

For 3Q14, Net Loss narrowed by 10.2% or US\$0.13 million to US\$1.14 million. For the 9 months ended 31 March 2014, Net Loss narrowed by 52.8% or US\$0.28 million to US\$0.25 million.

10. A commentary at the date of the announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

As seen in the previous trend, our sales to Asia Pacific market continues to grow at a faster pace compared to that in the US/EU. The growth is mainly attributable to our focused marketing efforts and the right product mix for this market segment, which works well. Meanwhile, we will continue to expand the fast-growing distribution business and have also worked on strategies to sustain sales in the US. However, demand for furniture in the UK and furniture retail business in Vietnam is expected to remain weak, which require us to re-allocate our resources.

While we are expanding our revenue base, there have been rising cost pressures in the countries where we have operations. The increasingly higher wages and material costs have eroded our operating margins and we are aware of the importance of managing our costs more cautiously.

Given the above:

- we are evaluating our capital expenditure budgets for new investments in equipment for higher efficiency and productivity so as to reduce dependency on labor;
- we are reducing our retail exposure in Vietnam with our plans to further shut down more retail locations and reduce the number of distribution channels in Vietnam (which are currently owned and managed by Rossano). Whilst this rationalization exercise aims to improve the Group's financial performance over a longer term, the Group will incur additional compensation and other one-off redundancy costs. We will also need to review assets and goodwill impairment for FY2014 given the loss-making status of Rossano; and
- we will continue to expand the furniture retail and distribution business in the PRC and other regions, enlarging our revenue base and reducing our market concentration risk.

The Group has significant investment and manufacturing facilities in Ho Chi Minh City, Vietnam. We thus need to caution that the recent anti-China riot in Vietnam could spark security concerns and disrupt production schedules. If the situation worsens, it will adversely affect our supply chain management and goods delivery from Vietnam, which will affect our financial performance. We are observing the situation very closely.

Given the above strategic moves for Rossano, the supply chain concerns in Vietnam and these highlighted risk factors, we caution that the Group may record additional asset impairment loss and may slip into loss for FY2014.
