## CORPORATE PROFILE

Established in 1975, AP Oil International Ltd ("AP Oil") is a public company, listed on the Singapore Exchange in 2001, upgraded to the Main Board in 2003.

AP Oil started lubricant blending in 1981, setting up the first Singaporean owned lube plant in the Republic of Singapore. AP Oil Group currently has four manufacturing plants in Singapore and one joint venture plant in Vietnam. AP Oil makes world class lubricants that meet standards and specifications of international institutions and OEM requirements.

AP Oil Group is a leading lubricants and specialist chemicals manufacturer in the Asia Pacific, serving customers from more than 20 countries, including U.S.A., Greece, Australia, China, Japan, Middle East and ASEAN countries, etc.

## VISION

To be a reputable leader in the lubricants and specialty chemicals industries in the Asia Pacific region.

## MISSION

To deliver world class quality products and always provide better service, exceeding customer's expectations in the ever changing market requirements.

The infinity icon of the logo symbolizes a world of unlimited possibilities. This reflects our philosophy of “All Possibilities” (AP), our aspiration to create and explore endless business opportunities in the oil industry and beyond. Marine blue signifies resource and strength. The evolving shades of blue, conveying dynamism and mobility, depicts our creative energy and progressive spirit in pursuit of growth in the ever changing world. The green element underscores our commitment to environmental friendliness and corporate social responsibility.

公司标志的双环图像代表无穷大的境界，蕴含无限机遇。我们会在石油化工及集团经营的其他领域不断寻找无限商机，为争取优越表现而不懈地努力。海蓝色象征才智与资源。色调递变，青出于蓝，更胜于蓝，寓意日新月异世界中力争上游、创新进取的精神。青绿色代表和谐与融洽，凸显我们对环保与履行企业社会责任的承诺。

# ALL POSSIBILITIES

## THE POSSIBILITY OF PEOPLE

Behind our AP Oil brand is our heartware – the individuals who set wheels in motion. From the management, staff, stakeholders to partners, they are ambassadors representing the human spirit of our AP Oil brand. Empowered in spirit, body and mind, believing that the power of human energy has no boundaries, makes all things possible.

## THE POSSIBILITY OF PERFORMANCE

The pursuit of optimum performance remains at the heart of our business through constant research and development, we believe performance drives us forward in search of achieving the best.

Along with an innovative mindset running seamlessly throughout our organisation, we strive towards providing the best possible performance in sustaining the quality of life.

## THE POSSIBILITY OF PARTNERSHIP

AP Oil values the synergy of partnership – collaborating with our partners, friends and industry players, always. Through the mutual exchange of ideas, opinions and perspectives, we believe that all can be made possible when we work together.

More importantly, in our efforts to provide more efficient energy, we partner the environment to ensure a cleaner environment for all.

# OUR CORPORATE CULTURE

## 我们的企业文化

◆ DILIGENCE

◆ SINCERITY

◆ LOYALTY

◆ HARMONY

Diligence and devotion have been a hallmark of AP Oil's work forces.

Sincerity and fairness in all our dealings is what we believe in and practise everyday.

Loyalty to the Company and commitment to give the best in all our endeavours are traditions we adhere to and take pride in keeping.

Cordial teamwork always exists among all levels of staff members and this spirit of harmony is extended to business partners particularly customers with bona fide bonding, friendly and the best possible service.

This corporate culture, which has been tenderly nurtured from day one, is transcended from the boardroom to the shop floor.

It has stood AP Oil in good stead, enabling us to overcome challenges and to grow in the past decades and emerge as one of the leading lubricants and specialty chemical specialists in Asia Pacific.

勤奋努力和拚搏奉献一直是环球石油团队成员的特质。

以诚为本、公平互惠地处理所有事务，既是我们所信奉的目标，也是每天力行的常规。

忠于职守、精益求精是我们一向秉持的优良传统，我们对此引以为豪。

公司上下全体同仁协作无间，与业务夥伴融洽协作，尤其真诚地礼待顾客，力求为他们提供最优质的服务。

成立伊始，我们便悉心培植这一优良企业文化，时至今日，由上而下，已渗透到公司的各方面。

回望过去十年，它令集团受益无穷，使我们得以克服困难、茁壮成长，成为亚太地区领先的润滑油和特种化学品专家级企业之一。

# CHAIRMAN'S MESSAGE

## 主席献词

**Dear Shareholders,**

Global economies remained murky in the shroud of COVID-19 pandemic, further exacerbated by the Ukraine war that broke out in February 2022. International oil and gas prices have since doubled or trebled. With skyrocketing freight rates and raw material prices, business operation became extremely challenging.

Singapore's economic growth slowed down from 8.9% in the previous year to 3.6% in 2022. The total turnover of AP Oil Group increased slightly but net profit after tax was halved.

The Group has, in 2022, introduced a new state-of-the-art fully automatic bottle filling line for lubricating oils. This investment will boost productivity and save labour cost significantly. The other investment was purchase of a JTC factory by our subsidiary, GB Chemicals at SGD 1.62 million. The factory building has 3 floors with 15,000 square feet useable area and 18 years of lease remaining. These investments were funded internally.

Looking at 2023, China has relaxed pandemic curbs. Our two subsidiaries and a joint venture in Shanghai and Chongqing are gradually resuming normal operations. I have resumed business trips to our Ho Chi Minh City joint venture and planning visits to China soon.

Escalating bank interest rates significantly increase business costs. However, given our healthy reserves, we were thus able to save interest costs by making early repayment of the construction loan for our headquarters and have capacity to embark on new feasible business opportunities.

The China-United States rivalry appears to be intensifying while new geopolitical turmoils, dim prospects of peace in the Ukraine war and associated uncertainties point to a highly challenging environment ahead for businesses. The Management will adjust our short, medium-term developmental plans and strategies accordingly.

The Board of Directors has proposed to set the dividend for financial year 2022 at half a cent per ordinary share. Once again, we are deeply grateful to shareholders, business partners and friends for their support and concern for the Group throughout all these years.

Sincerest regards!

**Dr Ho Leng Woon**

## 主席献词

敬愛的各位股东：

全球冠病疫情依然笼罩下，2022 年二月爆发的俄乌战争，又给经济环境雪上加霜。国际石油天然气价格倍增，运费狂涨，原材料与营业成本也因此水涨船高。

在高度挑战的商业环境下，新加坡的经济增长从上一年的 8.9% 下降到 2022 年的 3.6%。环球石油集团的总营业额略有增加，净利却大幅减半了。

2022 年集团引进装置了一条最先进的全自动润滑油装罐生产线。这项大投资将会显著提高生产力且节省劳工成本。另一项投资是子公司 GB 化工以 162 万买下 JTC 厂房。该厂房三层楼总面积约一万五千方尺，还剩 18 年的契约，相信在租金不断攀升的大环境下，这项投资是个未雨绸缪的决策。

2023 年初，中国开始松绑疫情管控，集团在上海和重庆的两家子公司和一家联营企业正在逐步恢复正常运作。在越南胡志明市的联营工厂，疫情期间影响较小，我本人从去年 12 月开始已经恢复出差视事。

展望 2023 年的前景，中美两国的较劲似乎还在加剧，新的地缘政治动荡，俄乌战事的和平遥不可及，种种变数，估计对集团的经营环境都充满挑战。

银行不断大幅加息，对商业成本是一项莫大的负担。值得庆幸的是，由于集团有充裕的储备金，除了把原来建设新总部厂房的银行贷款全额还清以节省成本外，也有足够的流动资金可以调动，以及进行新的投资。寻找新的可行性商机是集团长期发展计划，也是我身为执行主席的主要任务之一。

应对国际与区域的时局变迁，集团的中长期发展计划与策略也会随著短期的战略而进行适当的调整。

董事部已建议把 2022 年度的股息订在每股新币半分。我们再次深深感谢股东及各商界夥伴和朋友们对集团的多年支持与爱戴。

衷心祝福大家！

# CEO'S MESSAGE

## 执行总裁献词

**Dear Shareholders,**

The year 2022 started veritably with a bang as war erupted in Ukraine. Economic sanctions against Russia – a major player in the oil ecosystem – swiftly followed, causing widespread disruption throughout the global oil supply chain. This resulted in higher commodity and energy costs, adding to the broad-based inflation that was taking hold globally.

To fight this runaway inflation, the solution that central banks have decided on was to raise interest rates. The US Federal Reserve hiked rates sharply through 2022 to hit highs not seen in 15 years. The direct and intended result of this is a global slowdown in economic activities.

Against this backdrop, the AP Oil Group grew revenue by 9.9% to S\$61.1 million. In a year of broad-based inflation, compounded by the Ukraine war, every raw material input cost went up. The tight workforce situation in Singapore also resulted in higher wage cost to ensure employee retention. Subsequently, gross profit fell by S\$1.2 million to S\$8.76 million.

As mentioned last year, the adverse business environment has not derailed our long term plans and we continue to invest in the future. The new filling and packaging machinery line has been delivered and commissioned. Solar panels generating a projected 180MWh annually has been installed on our new building. The commercial lease for our subsidiary GB Chemicals came to an end. A decision was taken to buy a property instead of renting. Hence, a JTC property with 18 years remaining on the lease was purchased.

As we enter into 2023, slower economic activity will limit selling prices and margins will be squeezed in the short term. These are challenging times of political and economic uncertainty, we will continue to manage the Group prudently, but we must not be overly conservative.

On behalf of the Board of Directors, Management and Staff of the AP Oil Group, I would like to thank our shareholders, customers, partners, bankers and suppliers for your strong and steadfast support.

This year we will finally be able to conduct a physical Annual General Meeting for the first time in many years. I look forward to meeting our shareholders. We have a lot to catch up on.

## 执行总裁献词

敬爱的各位股东，

2022年初的乌克兰战争导致西方国家对俄罗斯实行经济制裁。俄罗斯是世界石油天然气重要供应国，制裁引发了全球供应链紧张，相关原材料成本上涨，加剧了正在蔓延的全球通货膨胀。

为了制止通胀失控，各央行决定提高利率。2022年美联储多次大幅加息，将基准利率提高至15年来最高水平，直接导致全球经济活动放缓。

尽管面临诸多挑战，但集团营收在2022年增长了9.9%，达到6,100万新元。然而，俄乌战争引起的普遍通货膨胀，加上新加坡劳动力短缺、成本增加以及原材料价格上涨等因素，集团运营更具挑战，全年毛利因此减少至876万新元。

去年我曾提到，即使在市场逆境下，我们仍然坚持长期发展并继续投资于未来。2022年已启用新的全自动罐装生产线，并且完成了集团行政大楼屋顶上安装太阳能及储能工程项目，每年发电量可达180兆瓦，现已正式投运电网。此外，集团子公司GB化工的厂房租约已满，我们选择以现金直接买下了还有18年契约的JTC标准工厂。

预计2023年，经济活动放缓将不利市场销售，也会挤压利润率。政治和经济上的不确定将持续带来挑战。在非常时期，管理层会谨慎经营，但也不能过于保守。

我谨代表集团董事会、管理层及员工，向一直坚定支持我们的股东、商业夥伴、银行和供应商表示最真挚的感谢！

今年我们将举行实体股东周年大会，阔别多年，我非常期待能够再次与各位见面！

# REVIEW OF OPERATIONS

## 营运总结报告

In January 2023, AP Oil Pte Ltd commissioned a state-of-the-art, fully automated rotary filling line, to fill and pack lubricants into small bottles ranging from capacities of 1L to 5L. As part of the company's efforts to automate more of our processes, the line is equipped with an automatic case packer and robot arm palletizer, requiring minimal human intervention. This line is expected to increase our throughput for small packs by more than 3 times. To support higher throughput for the small packs, new blending and storage tanks were installed beside the filling line, with more control features to produce high quality products for our customers. We expect to have a higher overall annual blending capacity.

In February 2023, installation of solar panels was completed on the rooftop of our Administration building, to generate approximately 180 MWh of clean energy annually, sufficient to partially cover our energy usage. Beyond reducing carbon footprint, our exposure to fluctuating utility prices is partially reduced.

After a four years hiatus, due to the Covid-19 pandemic, the Group resumed its annual dinner in March 2023. The board, management and employees enjoyed the good and fun interaction with lots to catch up over dinner. It was at this event that Chairman presented a special 40 years' service award to a dedicated, diligent and valuable employee. The conduct and performance of this long service employee was highlighted, that epitomized the Group's core values of diligence, sincerity, loyalty and harmony.

集团全资子公司 APOPL 于 2023 年 1 月正式投产运营了一条世界级的全自动旋转灌装生产线，配备了自动化程度更高的调合工艺、全自动装箱机以及全自动机械臂码垛机，用于扩充成品润滑油 1L 至 5L 包装的整体产能。投产后，整体灌装产能有望增长 3 倍以上，可完全灵活满足合作夥伴对于不同工艺，不同类型产品日益增长的需求。

在集团行政大楼的屋顶上，年均发电量达 180 兆瓦的太阳能及储能项目于 2023 年 2 月正式投运并网。在阳光的照射下，这些光伏组件正为集团日常生产运营提供电力。该项目的运行不仅可以减少碳足迹，而且还能降低电力市场交易价格波动风险。

由于 Covid-19 大流行，期间中断了四年的集团年会于 2023 年 3 月在新加坡盛大召开。会上，各董事会成员、集团管理层领导及广大员工又一次欢聚一堂，共同庆祝丰收的喜悦。值得一提的是，在这次活动中，集团主席向一位敬业、勤奋和有价值的员工进行了表彰，并且颁发了「40 年服务特别纪念奖」。环球石油的发展离不开每一位员工，他们很好地将集团「勤、诚、忠、和」的核心价值观融入、渗透和体现到本职工作和日常学习之中。正是有了他们的勇担使命、薪火相传，为环球石油的高质量发展筑牢了深厚扎实的基础，激励著每一代环球人。

# REVIEW OF OPERATIONS

## 营运总结报告

### PERFORMANCE BY OPERATING SEGMENTS

#### MANUFACTURING

Manufacturing segment accounted for 65% or S\$39.7 million of the Group's revenue in FY 2022 (FY 2021: 49%, S\$27.5 million). Manufacturing comprises mainly blending of lubricating oils and specialty chemicals.

For lubricating oil, AP Oil Group operates three blending plants: two wholly owned in Singapore and one in a Vietnam joint venture (AP Saigon Petro) – these plants produce a wide range of lubricants for automotive, industrial and marine applications. Our lubricants are marketed mainly under the brand name of "AP Oil" and "SIN-O".

For specialty chemicals, these are produced by two of our wholly-owned subsidiaries namely A.I.M. Chemical Industries Pte Ltd and GB Chemicals Pte Ltd.

#### TRADING

Trading activities cover purchase and sale of raw materials used for lubricants and specialty chemicals manufacturing (mainly base oil and chemicals) and finished products purchased from third party.

This segment accounted for 35% or S\$21.5 million of the Group's revenue in FY 2022 (FY 2021: 51% or S\$28.1 million). The lower year-on-year revenue was mainly from lower base oil and finished product sales.

### 各业务部门业绩结果

#### 制造

制造部门在 2022 财年占集团总收入的 65%，达 3,966 万新元相比较 2021 财年为 49% 或 2,749 万新元。该部门业务主要由润滑油与特种化学品的制备构成。

在润滑油业务方面，集团现经营三家润滑油调配工厂。在新加坡有两家全资工厂，以及在越南有一家与 AP Saigon Petro 合资的工厂。这三家工厂生产各类润滑油产品，主要提供车辆、工业以及船只使用。我们的润滑油产品多以「AP Oil」和「SIN-O」两大品牌营销各地。

在特种化学品业务方面，则由两家全资子公司 — A.I.M 化工和 GB 化工负责生产。

#### 贸易

贸易部门主要涉及购买与销售用于生产润滑油与特种化学品所用的原材料（为基础油和化学品）以及购自第三方的成品。

# CORPORATE GOVERNANCE REPORT

The Board of Directors (the "Board") and its Management set high standards of corporate governance within the Company and its subsidiaries (collectively, the "Group"), and are committed to ensure that effective self-regulatory corporate practices exist to protect the interests of its shareholders and maximize long-term shareholder value.

The Group recognizes that good governance processes are essential for enhancing corporate sustainability. This report describes the Group's corporate governance structures and practices that were in place throughout the financial year ended 31 December 2022 ("FY2022").

The Board is pleased to confirm that for FY2022, the Group has adhered to the principles and provision as set out in the Code of Corporate Governance 2018 ("Code 2018"). Where there are deviations from the Code 2018, appropriate explanation is provided.

## A. BOARD MATTERS

### The Board's Conduct of its Affairs

**Principle 1: The Company is headed by an effective Board, which is collectively responsible and works with Management for the long-term success of the Company.**

Directors are fiduciaries who act objectively in the best interests of the Company and hold Management accountable for performance. The Board puts in place a code of conduct and ethics, sets appropriate tone-from-the-top, and desired organization culture; and ensures proper accountability within the Company. Directors are required to disclose any conflict or potential conflict of interest, whether direct or indirect, in relation to a transaction or proposed transaction with the Group as soon as is practicable after the relevant facts have come to his/her knowledge. Directors facing conflicts of interest voluntarily recuse themselves from discussion and decisions involving the issue of conflict.

The Company is headed by an effective Board, comprising individuals with experienced and diversified background and collectively leads and works with Management to achieve long-term success of the Company and Management remains accountable to the Board.

Directors understand the Company's business as well as their directorship duties. The Board decides on matters that require its approval and clearly communicates this to Management in writing. The matters that require Board approval are as follows, these are disclosed in the Company's annual report:

- Strategies and objectives of the Group;
- Overseeing the processes for evaluating the adequacy of internal controls, risk management, financial reporting and compliance;
- Announcement of half-year and full year results, and release of annual reports;
- Issuance of securities;
- Declaration of interim dividend and proposed final dividend;
- Convening of shareholders' meetings;
- Considering sustainability issues such as environmental and social factors as part of its strategic formulation;
- Material acquisition, investment, divestment or capital expenditure; and
- Corporate or financial restructuring.

# CORPORATE GOVERNANCE REPORT

The Board will review these matters on a periodic basis to ensure their relevance to the operations of the Group.

The principal function of the Board is to protect and enhance long-term value and returns for its shareholders. Besides carrying out its statutory responsibilities, the Board's role is to:

- a) Provide leadership, set aims, policies, strategies and ensure resources are in place to achieve the objectives of the Company;
- b) Establish a framework of prudent and effective controls which enables risks to be assessed and managed, including safeguarding of shareholders' interests and the Company's assets;
- c) Review management performance, funding requirements, expansion programs, capital investment and major acquisitions and divestments proposals;
- d) Identify the key stakeholder groups and recognize that their perceptions affect the Company's reputation;
- e) Set the Company's values and standards (including ethical standards), and ensure that obligations to shareholders and other stakeholders are understood and met;
- f) Consider sustainability issues, e.g. environmental and social factors, as part of its strategic formulation; and
- g) Assume responsibility for corporate governance.

All Directors are required to objectively discharge their duties and responsibilities at all times as fiduciaries and take decisions in the interests of the Company. To assist in the execution of its responsibilities, the Board has delegated some responsibilities to specific committees namely, the Nominating Committee ("NC"), the Remuneration Committee ("RC") and the Audit Committee ("AC"). The Board Committees operate under clearly defined terms of reference setting out their composition, authorities and duties, including reporting back to the Board. All the Board Committees are actively engaged and play an important role in ensuring good corporate governance in the Company. The Board Committees report their activities regularly to the Board and minutes of the Board Committee meetings are also regularly provided to the Board. The effectiveness of each Board Committee is also constantly monitored to ensure their continued relevance. The Board acknowledges that while these Board Committees have the authority to deal with certain issues and present their findings and decisions to the Board, the ultimate responsibility for these decisions lies with the Board. The key terms of reference and composition of each Board Committee can be found in this report.

A schedule of Board and Board Committee meetings to be held for the calendar year is provided to the Directors. The Board meets at least two times a year. In addition to the scheduled meetings, ah-hoc board briefings, conference calls and physical meetings are held as warranted by particular circumstance or as deemed appropriate by the Board members. To ensure maximum Board participation, the Company's Constitution permits meetings of the Directors to be conducted by telephone or other methods of simultaneous communication by electronic means. When a physical Board meeting is not possible, timely communication with members of the Board can be achieved through electronic means or via circulation of written resolutions for approval by the relevant members of the Board or Board committees.

# CORPORATE GOVERNANCE REPORT

The attendance of the Directors at meetings of the Board, Board Committees and Annual General Meeting ("AGM"), as well as the frequency of such meetings held during FY2022 are as follows:

Name of Director	Board		Audit Committee		Nominating Committee		Remuneration Committee		Annual General Meeting	
	No. of meetings	Attendance	No. of meetings	Attendance	No. of meetings	Attendance	No. of meetings	Attendance	No. of meetings	Attendance

Newly appointed directors undergo an orientation session, which include presentation by Management to familiarize them on the Group's businesses, operations and strategic directions. The new Director will also have the opportunity to visit the Group's operational facilities. The orientation program gives the new Director an understanding of the Group's businesses to assimilate into his new role. The Company will also provide a formal letter setting out the duties and obligations of a Director.

Directors are provided with continuous briefing and update in areas such as changes in company law, changes in SGX listing rules, corporate governance practices and changes in financial reporting standards, so as to enable them to make well-informed decisions. The details of update, briefing and training program attended by the Directors in FY2022 are as follows:

- the external auditors, RSM Chio Lim LLP, briefed the AC and the Board on the developments in financial reporting and governance standards; and
- the Chief Executive Officer updated the AC and the Board on business and strategic developments pertaining to the Group's businesses.

Directors are provided with opportunities to develop and maintain their skill and knowledge at the Company's expense. The details of training program attended by the Directors in FY2022 are as follows:

All Directors are required to declare their board representations. The Board is of the view that the effectiveness of each Director is best assessed by a qualitative assessment of the Director's contribution and his ability to devote sufficient time and attention to the Company's affairs. When a Director has multiple board representation, the NC will consider whether the Director is able to adequately discharge his duties as a director of the Company, taking into consideration the Director's number of listed Company board representations and other principal commitments. Acknowledging that a Director's ability to commit time to the Group's affairs is essential, the Board has set an internal limit on the maximum number of listed company board representations which any director may hold. The Board agrees that there should be no more than 4 directorships for a Director with full-time employment and 6 directorships for a Director with no full-time employment.

The Company makes available to all Directors its management accounts, cash flow projections, annual budget and other financial information. Directors are also informed on a regular basis as and when there are any significant developments or events relating to the Group's business operations. As a general rule, board papers are prepared and circulated to each Director in advance of each meeting. This is to give directors sufficient time to review and consider the matters to be discussed so that discussions can be more meaningful.

Management provides Directors with complete, adequate and timely information prior to meetings, and on an ongoing basis to enable them to make informed decisions and discharge their duties and responsibilities.

Directors have separate and independent access to management, the company secretary, and external advisors where concurred by the Chairman at the company's expense. The appointment and removal of the company secretary is a decision of the Board as a whole.

# CORPORATE GOVERNANCE REPORT

## Board Composition and Guidance

**Principle 2: The Board has an appropriate level of independence and diversity of thought and background in its composition to enable it to make decisions in the best interests of the Company.**

The Company endeavors to maintain a strong and independent element on the Board. As at the date of this report, two out of the six Board members are Independent Directors. The Board comprises the following members:

### Executive Directors

Dr Ho Leng Woon (Chairman)

Mdm Lau Woon Chan

Mr Ho Chee Hon (Chief Executive Officer)

Mr Chang Kwok Wah

### Non-Executive Directors

Mr Mah How Soon (Ma Haoshun) (Independent)

Mr Wan Kum Tho (Independent)

While the Chairman and the Chief Executive Officer are immediate family members, the Board is of the opinion that based on the Group's current size and operations, and the core competencies and experience of its members, it is not necessary to have Independent Directors make up a majority of the Board.

The Board has examined its composition, taking into account, inter alia, the Board Diversity Policy implemented by the Company, and is of the view that the two Independent Directors are appropriate for effective decision-making. All the Board Committees, listed in Principle 1, are chaired by an Independent Director, with the Independent Directors forming the majority in these committees. Decisions made at these Board Committees' meetings are by majority consensus. The Independent Directors evaluate the proposals submitted by Management and provide guidance on relevant aspects of the Group's business; including a majority requirement in the final decision-making process.

To strengthen the independence of the Board, Mr Mah How Soon (Ma Haoshun) was appointed as the Lead Independent Director. He is the principal liaison in the event that any issues arise between the Independent Directors and the Executive Directors. He is available to address the concerns of shareholders, employees or other persons in the event that interaction with the Executive Chairman and Chief Executive Officer fail to satisfactorily resolve their concerns or where such channel of communications is considered inappropriate.

The NC assesses on an annual basis whether or not a director is independent, taking into account the Code 2018 definition of an "independent" director and guidance on relationships, the existence of which would deem a director not to be independent.

In line with the guidance in the Code 2018, including the amendment of Provision 2.1 on 11 January 2023, the Board views an Independent Director as one who is independent in conduct, character and judgement, and has no relationship with the Company, its related corporation, its substantial shareholders or its officers that could interfere, or be reasonably perceived to interfere with the exercise of the Director's independent judgement in the best interest of the Company.

# CORPORATE GOVERNANCE REPORT

Each Independent Director is required to complete a Director's Independence Form annually to confirm his independence. For FY2022, the NC carried out a review on the independence of each Independent Director based on the foregoing consideration, the respective Director's Independence Form and their actual performance on the Board and Committees. Having carried out their review, the Board and the NC are satisfied that the two Directors, who are non-executive, are independent.

The Board recognizes that the Independent Directors may over time develop significant insights in the Group's businesses and operations, and continue to provide noteworthy and valuable contribution to the Board. The independence of the Independent Directors must be based on the substance of their professionalism, integrity, objectivity and not on the number of years which they have served on the Board.

There is no Independent Director who has served on the Board beyond nine years from the date of his first appointment.

The Independent Directors do not exercise Management function in the Group.

The Independent Directors meet for discussions as and when required, without the presence of Management or the Executive Directors to review any matters that must be raised privately and provide feedback to the Board as appropriate.

Management regularly puts up proposals or reports for the Board's approval, where appropriate for instance, proposals relating to specific proposed transactions or general business direction or strategy of the Group. Independent Directors evaluate the proposals made by Management, and where appropriate provide guidance to Management on relevant aspects of the Group's business. In addition, Independent Directors meet, at least once a year, in the meetings with the external auditors and internal auditors and on such other occasions as may be required.

The Board is of the opinion that its size of six Board members is both effective and efficient. The Board's structure, size and composition is reviewed annually by the NC who is of the view that the current size of the Board is appropriate, taking into account the nature and scope of the Group's operations, to facilitate effective decision making. Details of the Board members' qualifications and experience are presented in pages 10 to 13 of this Annual Report.

Having considered the areas of specialization and expertise of each Director, the NC is satisfied that the Board has an appropriate mix of expertise, experience and gender, and collectively possesses a range of competencies in legal, finance, business management and the requisite industry knowledge to lead the Company effectively, avoid group think and foster constructive debate. The Company considers that the Board's composition of Independent Directors provides effective contribution to the Board with a mix of knowledge and business contacts, including a broad in-depth business and commercial experience. This balance is particularly important to ensure that the strategies proposed by Management are fully examined and take into account the long-term interests of the Company.

The Company has adopted a Board Diversity policy which sets out its policy and framework for promoting diversity on the Board, to enhance its decision-making capability and be more effective in dealing with strategic change, to avoid groupthink and foster constructive debate. The Board Diversity policy is to consider Board candidates from diverse background with appropriate balance and mix of skills, knowledge, experience and other aspects of diversity such as gender and age. The Board recognizes that diversity of the Board is essential to contribute to sustainable development and growth of the Group. The Board diversity objectives include criteria of qualifications, experience,

# CORPORATE GOVERNANCE REPORT

skills, calibre, gender, attributes and abilities. The Company will adhere to its Board diversity objectives for any search of new Directors. The Board has one female Director and consists of Directors with ages ranging from 45 to 75 years, who have served on the Board for different tenures. The Board's combined business, management and professional experience, diversity of knowledge and expertise, provide the competencies for diverse and objective perspective on the Group's business and strategic direction.

The Board believes that its current board size and the existing composition of the Board Committees effectively serve the Group. It provides diversity and allow for informed and constructive discussion and effective decision making. The Board will continue to review opportunities to refresh the Board with a view to expanding the skills, experience and diversity of the Board as a whole.

## Chairman and Chief Executive Officer

**Principle 3: There is a clear division of responsibilities between the leadership of the Board and Management. No one individual has unfettered powers of decision-making.**

The Chairman and Chief Executive Officer of the Company are separate individuals but are however, immediate family members. The Chief Executive Officer of the Company, Mr Ho Chee Hon, is the son of Dr Ho Leng Woon, Chairman of the Company.

All major proposals and decisions are discussed and reviewed by the Board. The Chairman and Chief Executive Officer's performance and appointment to the Board is reviewed by the NC and their remuneration packages are reviewed by the RC. The AC, NC and RC consist of a majority of Independent Directors. The Board believes that there are sufficient strong and independent elements and safeguards in place against an uneven concentration of power and authority.

The Board sets out the division of responsibilities between the Chairman and the Chief Executive Officer.

The roles of the Chairman and Chief Executive Officer are separate and their responsibilities are clearly defined to ensure a balance of power and authority within the Company.

The Chief Executive Officer, Mr Ho Chee Hon, has full executive responsibilities of the overall business and operational decisions of the Company.

As Chairman of the Board, Dr Ho Leng Woon is responsible for leading the Board. The Chairman's duties and responsibilities include:–

- a) Leading the Board to ensure it is effective in its role;
- b) Setting direction and agenda for the Company to enable the Board to perform its duties responsibly;
- c) Ensuring the proper conduct of meetings and accurate documentation of the proceedings;
- d) Ensuring the smooth and timely flow of information between the Board and Management;
- e) Ensuring compliance with internal policies and guidelines of the Company and high standards of corporate governance;

# CORPORATE GOVERNANCE REPORT

- f) Ensuring effective communication with shareholders through investors' relationship channels and timely announcements of Company's development; and
- g) Encouraging constructive relations between the Board and Management as well as between all Directors.

The Board has a Lead Independent Director to provide leadership in situations where the Chairman is conflicted. The Lead Independent Director is available to shareholders where they have concerns. There were no query or request on any matters which requires the Lead Independent Director's attention in FY2022.

The Board is satisfied that a clear division of responsibilities between the leadership of the Board and the executives responsible for managing the Group's business and no one individual should have considerable concentration of power.

## Board Membership

**Principle 4: The Board has a formal and transparent process for the appointment and re-appointment of Directors, taking into account the need for progressive renewal of the Board.**

The NC is established for the purpose of ensuring that there is a formal and transparent process for all Board appointments. As at the date of this report, the NC comprises the following three members, majority of whom, including the Chairman, are independent directors:–

Mr Wan Kum Tho (Chairman) (Independent Director)  
 Mr Mah How Soon (Ma Haoshun) (Member) (Independent Director)  
 Mr Ho Chee Hon (Member) (Executive Director)

The NC has adopted written terms of reference defining its membership, administration and duties that include:

- a) to make recommendations on all Board appointments, including development of a set of criteria for Director appointments, which includes qualifications of director; ability to exercise sound business judgment, relevance to the Company and the industry and appropriate personal qualities;
- b) to re-nominate Directors having regard to the Director's contribution and performance (e.g. attendance, participation and critical assessment of issues deliberated upon by the Board) and/or replacement of the Chairman, the CEO and key management personnel;
- c) to determine annually whether or not a director is independent;
- d) to decide how the Board's performance may be evaluated and propose objective performance criteria, such as return on equity ("ROE"), revenue and profit growth, as well as making comparison with industry peers to the Board;
- e) to review training and professional development programs for the Board and its Directors; and
- f) to review the appointment of key management personnel, including the appointment criteria, which includes qualification, managerial competencies, proven track record, relevance to the Company and the industry and appropriate personal attributes.

# CORPORATE GOVERNANCE REPORT

The NC regards succession planning as an important part of corporate governance and has an internal process of succession planning for Directors and the Chief Executive Officer to ensure the progressive and orderly renewal of Board membership.

The NC is responsible for identifying candidates and reviewing all nominations for the appointment of new Directors. The search and nomination process will be through search companies, contacts and recommendations. The NC will review and assess candidates before making recommendation to the Board. In recommending new Directors to the Board, the NC takes into consideration the individual's qualification, skills, calibre and experience required to support the Group's business activities or strategies, the current composition and size of the Board, and strives to ensure that the Board has an appropriate balance of Independent Directors as well as Directors with the right profile of expertise, skills, attributes and ability. The NC will seek to refresh the Board membership progressively and in an orderly manner, to avoid losing institutional memory.

The role of NC also includes the reviewing of the re-nomination of Directors who retire by rotation, taking into consideration the Director's integrity, independence, contribution and performance. The Constitution of the Company currently requires one-third of the Directors to retire and subject themselves to re-election by the shareholders in every annual general meeting. All Directors of the Company shall retire from office at least once every three years. The Constitution of the Company also provides that a newly appointed Director must retire and submit himself for re-election at the next annual general meeting following his appointment. Thereafter, he is to be re-elected at least once every three years. A Director who is due for retirement shall abstain from voting on any resolution for re-nomination as a Director.

Pursuant to the one-third rotation rule, Mr Ho Chee Hon ("Mr Ho") and Mr Chang Kwok Wah ("Mr Chang") will be seeking for re-election under Regulation 107 of the Company's Constitution at the forthcoming AGM.

The NC is satisfied that the Directors retiring in accordance with the Company's Constitution at the forthcoming AGM are qualified for re-appointment by virtue of their skills, experience and contribution to Board affairs. The NC has recommended and the Board has agreed for Mr Ho and Mr Chang to retire and seek for re-election at the forthcoming AGM.

The Board recognizes the contribution of its Independent Directors who over time, have developed insight into the Group's businesses and operations and therefore able to provide invaluable contributions to the Group. As such, the Board has decided not to set a fixed term of office for its Independent Directors. As at the date of this Annual Report, none of the Independent Directors have served on the Board for more than nine years from the date of his first appointment.

The NC ensures that new Directors are aware of their duties and obligations. For re-nomination and re-appointment of Directors, the NC takes into consideration the competing time commitments faced by Directors and their ability to devote appropriate time and attention to the Group.

As at the date of this Report, the Company does not have any alternate Director.

# CORPORATE GOVERNANCE REPORT

Details of the Board members' Directorship as at the date of this report, including the year of initial appointment and election are disclosed below:

Apart from the foregoing, further information on each director are set out on page 10 to 13 of this Annual Report. In addition, information on shareholding held by each Director in the Company and its related corporations is found on page 47 of this Report.

# CORPORATE GOVERNANCE REPORT

## Board Performance

### **Principle 5: The Board undertakes a formal annual assessment of its effectiveness as a whole, and that of each of its Board Committees and individual Directors.**

The NC has decided unanimously, that the Directors will not be evaluated individually, as each member of the Board contributes in different aspects to the success of the Group, and therefore, it would be more appropriate to assess the Board as a whole. Following its review, the NC is of the view that the Board and its Board Committees operate effectively and each Director has been adequately contributing to the overall effectiveness and objectives of the Board.

The NC has adopted a process for assessing the performance of the Board as a whole. The performance evaluation exercise includes qualitative and quantitative factors including board structure, conduct of meetings, corporate strategy and planning, risk management and internal control, degree of compliance with the code of corporate governance, transparency in terms of disclosures and communication with shareholders.

The Board is of the opinion that the performance criteria should be geared toward evaluating the Board's performance in discharging its principal responsibilities, upholding high standards of corporate governance and strategic oversight of the Company's business rather than the specific performance of its share price and other financial indicators.

The NC will at the relevant time look into adopting guidelines for annual assessment of the contribution of each individual Director to the effectiveness of the Board and also the assessment of board committees. The Board has not engaged any external facilitator in conducting the assessment of the Board's performance. Where relevant, the NC will consider such engagement.

For FY2022, the following process was undertaken in relation to the evaluation of the performance of the Board as a whole:

a) Evaluation process

Each of the Directors has completed a Board Performance Evaluation Checklist, giving their individual assessment and evaluation of the Board's ability to meet the relevant criteria stated in the Board Performance Evaluation Checklist.

The results of such assessment and evaluation were collated by the corporate secretarial agent; and reviewed by the NC.

b) Determining directors' independence

Each Independent Director is required to complete a Director's Independence Form annually to confirm his independence. The form is drawn up based on the guideline provided in the Code. The NC has reviewed and is satisfied with the independence of the Independent Directors as mentioned in Principle 2 above.

c) Commitments of directors sitting on multiple boards

The Board has set an internal limit on the maximum number of listed company board representations which any Director may hold. The Board agrees that there should be no more than 4 directorships for a Director with full-time employment and 6 directorships for a Director with no full-time employment, as mentioned Principle 1 above. For FY2022, no Director had exceeded such limit.

# CORPORATE GOVERNANCE REPORT

## B. REMUNERATION MATTERS

### Procedures for Developing Remuneration Policies

**Principle 6: The Board has a formal and transparent procedure for developing policies on Director and executive remuneration, and for fixing the remuneration packages of individual Directors and key management personnel. No Director is involved in deciding his or her own remuneration.**

The Board establishes the RC for the purpose of ensuring that there is a formal and transparent process for developing policy and fixing the remuneration packages of individual Directors. As at the date of this report, the RC comprises the following three members, majority of whom, including the Chairman, are Independent Directors:–

Mr Wan Kum Tho (Chairman) (Independent Director)

Mr Mah How Soon (Ma Haoshun) (Member) (Independent Director)

Mr Ho Chee Hon (Member) (Executive Director)

The Board recognizes that the composition of the RC is not in accordance with the Code 2018 guidelines that RC should comprise of totally Independent Directors. However, the Board is of the view that the membership of Mr Ho Chee Hon is necessary to facilitate a more effective discussion on the remuneration packages of the Group's key executives. Apart from Mr Ho Chee Hon, the other two members (including Chairman) are Independent Directors. The presence of a strong independent element ensures that no individual has unfettered powers of decision.

The RC has adopted written terms of reference defining its membership, administration and duties. The duties of the RC are as follows:

- a) to review and recommend to the Board in consultation with senior management a framework of remuneration for the Executive Directors, Chief Executive Officer and key management personnel; and
- b) to recommend to the Board the Executive's and employees' share option schemes or any long term incentive scheme.

The RC has full authority to engage any external professional advice on matters relating to remuneration as and when the need arises. The expense of such services will be borne by the Company.

The RC will also review the Company's obligations arising in the event of termination of the Executive Directors and key management personnel's contracts of service, to ensure that such contracts of service contain fair and reasonable termination clauses.

The RC has access to external expert advice with regard to remuneration matters, if required. During the financial year, the RC did not require the service of an external remuneration consultant.

No Director shall participate in decisions relating to any remuneration, compensation or any form of benefits to be granted to him or her.

# CORPORATE GOVERNANCE REPORT

## Level and Mix of Remuneration

**Principle 7: The level of remuneration of the Board and key management personnel are appropriate and proportionate to the sustained performance and value creation of the Company, taking into account the strategic objectives of the Company.**

The Company has approved the remuneration framework for the Executive Directors and Chief Executive Officer on recommendation by the RC. The remuneration of the Executive Directors and Chief Executive Officer is structured to link rewards to corporate and individual performance, consists of a fixed component and a variable component that is performance related. The framework will cover basic salary, bonus and benefit in kind. In developing the framework, the RC has taken into consideration factors such as the Company's performance, economic conditions, market practices and the contribution to the Company.

The RC has adopted a framework to remunerate the Independent Directors based on their appointments, roles in respective committees and level of contribution, taking into account factors such as effort, time spent and responsibilities. The remuneration packages of the Independent Directors comprise a basic Director retainer fee and additional fee for appointment to Board Committees. While the remuneration framework of the Executive Director is not subject to shareholders' approval, the Directors' fees for the Independent Directors is subject to the approval of shareholders at the annual general meeting.

No Director is involved in deciding his own remuneration. Each of the RC members abstains from deliberation and voting in respect of his own remuneration.

The Company currently does not have any long-term scheme for the Executive Directors and key management personnel.

The RC has reviewed the level and structure of remuneration of key management personnel as appropriate and proportionate to the sustained performance and value creation of the Company, taking into account the strategic objectives of the Company.

## Disclosure on Remuneration

**Principle 8: The Company is transparent on its remuneration policies, level and mix of remuneration, and the procedure for setting remuneration and the relationships between remuneration, performance and value creation.**

Details of the remuneration of Directors and key management personnel for the year under review are reported below. During the year, there was no termination, retirement or post-employment benefits granted to any Director or key management personnel.

The Board believes that it is for the benefit of the Company that the actual remuneration of the Directors be kept confidential, due to the sensitive nature of such information.

The Company had entered into separate service agreement with each of the Executive Directors on a fixed term. The agreements are renewable upon expiry with mutual consent of the parties.

# CORPORATE GOVERNANCE REPORT

Remuneration band (\$\$)	Director	Salary including CPF (%)	Bonus Profit Sharing (%)	Fees (%)	Benefit in Kind (%)
300,000 to below 400,000	Dr Ho Leng Woon	76.0	17.3	–	6.7
	Mr Ho Chee Hon	79.6	17.8	–	2.6
200,000 to below 300,000	Mr Chang Kwok Wah	84.7	9.3	–	6.0
100,000 to below 200,000	Mdm Lau Woon Chan	82.7	17.3	–	–
Below 100,000	Mr Mah How Soon (Ma Haoshun)	–	–	100.0	–
	Mr Wan Kum Tho	–	–	100.0	–

The top five key management personnel's remuneration for FY2022 is disclosed in the table below:

Remuneration band (\$\$)	Number of key management personnel
200,000 to below 300,000	2
100,000 to below 200,000	3

The remuneration received by the Executive Directors and key management personnel takes into consideration, the individual's performance and contribution towards the overall performance of the Group for FY2022. Their remuneration is made up of fixed and variable compensation. The fixed compensation consists of a monthly basic salary, fixed allowance and annual wage supplement. The variable compensation is determined based on the achievement of corporate and individual performance objectives. For FY2022, the agreed corporate performance objectives of the Executive Directors and key management personnel were met.

The Company does not have any long-term incentive scheme for the Directors and key management personnel. Mr Ho Chee Hon, a substantial shareholder of the Company, is the Chief Executive Officer and the son of the Chairman, Dr Ho Leng Woon and the Executive Director, Mdm Lau Woon Chan. Apart from Mr Ho, there was no other employee who is an immediate family member of a Director, the Chief Executive Officer ("CEO") or a substantial shareholder, and whose remuneration was over S\$100,000 for FY2022.

In considering disclosure of remuneration of the top 5 key management personnel, the Company has regarded the industry conditions in which the Group operates as well as the confidential nature of such remuneration. The Company believes that detailed disclosure of the remuneration of each key management personnel on a name basis as recommended by the Code 2018 would be prejudicial to the Company's interests and hamper its ability to retain and nurture the Company's talent pool. The aggregate remuneration paid to the top 5 key management personnel of the Group (who are not Directors of the Company or the CEO) was S\$996,000 for FY2022.

The Board is of the opinion that the information as disclosed above would be sufficient for shareholders to have an adequate appreciation of the Company's compensation policies and practices and therefore does not intend to issue a separate remuneration report, the contents of which would be largely similar.

## C. ACCOUNTABILITY AND AUDIT

### Accountability

#### Risk Management and Internal Controls

**Principle 9: The Board is responsible for the governance of risk and ensures that Management maintains a sound system of risk management and internal controls, to safeguard the interest of the Company and its shareholders.**

The Board determines the nature and extent of the significant risks which the Company is willing to take in achieving its strategic objectives and value creation.

The Board is assisted by the Risk Management Committee ("RMC") which was formed, as part of the Group's efforts to strengthen its risk management processes and framework. The Group's risk profile which summarizes the material risks faced by the Group, the appropriate risk tolerance limits set for the respective risks and the countermeasures in place to manage or mitigate those risks were documented. On an annual basis, the RMC will review the key risks identified, considered the relevance of these risks, identify new risks which may arise and assess the internal controls in place to mitigate such risks. RMC will report to the Board and the Board members will then evaluate and provide their feedbacks to the RMC.

In addition, through the assistance of internal and external auditors, the AC reviews and reports to the Board on the adequacy of the Company's system of internal controls and risk management, including financial, operational and compliance and information technology controls and to risk management policies and systems established by the Management. In assessing the effectiveness of internal controls, the AC ensures that the key objectives are met, material assets are safeguard and reliable financial information is prepared in compliance with applicable internal policies, laws and regulations.

For FY2022, the Board has received assurances from the CEO and the Chief Financial Officer ("CFO") that the financial records have been properly maintained and the financial statements give a true and fair view of the Company's operations and finances. The Board has also received assurance from the CEO and CFO regarding the adequacy and effectiveness of the Company's risk management and internal control system.

In addition, the Board received assurances from managing directors of the Company's subsidiaries, namely, A.I.M. Chemical Pte Ltd and GB Chemicals Pte Ltd, regarding the adequacy and effectiveness of the Company's risk management and internal control system.

Based on the internal control policies and procedures established by the Group, work performed by the external and internal auditors as well as review performed by the RMC, the Board, with the concurrence of the AC, is of the opinion that the internal controls and risk management systems of the Group, addressing the financial, operational, compliance and information technology risks are adequate and effective as at 31 December 2022.

Financial risks, namely, credit, liquidity, interest rate and foreign currency and equity price risks are outlined in note 29 to the financial statements in pages 106 to 112 of this Annual Report. Guidelines for managing the financial risks include the following:

- (i) Minimize interest rate, credit and market risks for transactions;
- (ii) Maximize natural hedge to offset sales and costs and payables and receivables denominated in the same currency;

# CORPORATE GOVERNANCE REPORT

- (iii) Risk management transactions follow acceptable market practices; and
- (iv) Financial risk transactions are monitored and conducted by senior management.

Operational risks are identified and managed by Management through identification, advance planning, monitoring and mitigation action: the risks include raw materials supply, labor workforce, manufacturing operations, working capital and doubtful debts.

Compliance risks include legal, government regulations and safety and health standards. The safety measures are audited once a year; and no incident was reported in FY2022.

Information technology risks include availability of enterprise resource systems ("ERP") and access to operational and business data. Regular backups of ERP and other data are conducted, including storage for business continuity planning.

The Board remains committed to improve the Group's internal controls and risk management and will not hesitate to take necessary action to ensure its adequacy and effectiveness.

The global growth in 2023 is expected to be slower in the face of elevated inflation and higher interest rates, impacting developed economies with concerns of recession looming.

The Board expects the macro-business environment to be challenging in the months to come. For the Group, higher material costs will put pressure on gross margins; and higher depreciation from newly commissioned plant and machinery will increase overheads for the Group. However, with a healthy balance sheet, the Group has no need to borrow for working capital, hence not impacted in 2023 by higher interest cost. The Management will continue to seek out new business opportunities and strengthen existing market bases with the objective of enhancing profitability of the Group.

## Audit Committee

### **Principle 10: The Board has an AC with written terms of reference which discharges its duties objectively.**

As of the date of this Report, the AC comprises the following three members, majority of whom, including the Chairman, are independent directors:–

Mr Mah How Soon (Ma Haoshun) (Chairman) (Independent Director)  
Mr Wan Kum Tho (Member) (Independent Director)  
Mr Ho Chee Hon (Member) (Executive Director)

The profile of each member of the AC is set out on pages 11 to 13 of this report. Mr Mah How Soon (Ma Haoshun), Chairman of the AC, has many years of experience in finance and accounting. Other members of the AC possess experience in legal, finance, accounting and business management. The Board is of the view that the members of the AC are appropriately qualified, having accounting or related financial management expertise or experience as the Board interprets such qualification, to discharge their responsibilities. None of the members of the Audit Committee is a former partner or director of the Company's external or internal auditors.

The Board recognizes that the composition of the AC is not in accordance with the Code 2018 guidelines that the AC should comprise of entirely independent directors. However, for the same reasons stated under Principle 6 on page 30 of this Annual report, the Board is of the view that independence is not compromised as majority of the members of the AC are independent.

# CORPORATE GOVERNANCE REPORT

As a sub-committee of the Board of Directors, AC assists the Board in discharging their responsibility to safeguard the Group's assets, maintain adequate accounting records, and develop and maintain effective systems of internal control, with the overall objective of ensuring that our Management creates and maintains an effective control environment in the Group. The AC also reviews and supervises the internal audit functions of the Group.

AC provides a channel of communication between the Board, Management and the external auditors on matters relating to audit.

AC has adopted written terms of reference defining its membership, administration and duties. Duties and responsibilities of the AC include:

- a) reviewing the significant financial reporting issues and judgements so as to ensure the integrity of the financial statements of the Company and any announcements relating to the Company's financial performance;
- b) reviewing at least annually the adequacy and effectiveness of the Company's internal controls and risk management systems;
- c) reviewing the assurance from the CEO and the CFO on the financial records and financial statements;
- d) making recommendations to the Board on: (i) the proposals to the shareholders on the appointment and removal of external auditors; and (ii) the remuneration and terms of engagement of the external auditors;
- e) reviewing the adequacy, effectiveness, independence, scope and results of the external audit and the Company's internal audit function; and
- f) reviewing the policy and arrangements for concerns about possible improprieties in financial reporting or other matters to be safely raised, independently investigated and appropriately followed up on. The Company publicly discloses, and clearly communicates to employees, the existence of a whistle-blowing policy and procedures for raising such concerns.

The AC reviews the scope and results of the audit carried out by the external auditors, the cost effectiveness of the audit, and the independence and objectivity of the external auditors. The AC undertook a review of the independence and objectivity of the external auditors, RSM Chio Lim LLP ("RSM"), through discussions with the external auditors, as well as reviewing the non-audit services provided and the fees paid to them. A breakdown of the fees in total for audit and non-audit services is set out on page 113 of this annual report. Based on the review, the AC is of the opinion that RSM is independent for the purpose of the Group's statutory audit. In reviewing the nomination of RSM for re-appointment for the financial year ending 31 December 2023, the AC has considered the adequacy of resources, experience and competence of RSM, and has taken into account the Accounting and Corporate Regulatory Authority's (ACRA) Audit Quality Indicators Framework relating to RSM at the firm level and on the audit engagement level. Consideration was also given to the experience of the engagement partner and key team members in handling the audit. On the basis of the above, the AC is satisfied with the standard and quality of work performed by RSM. It has recommended to the Board the nomination of RSM for reappointment as external auditors at the forthcoming AGM of the Company.

The Company has complied with Rules 712, 715 and 716 of the Listing Manual issued by Singapore Exchange Securities Trading Limited in relation to the appointment of its external auditors.

# CORPORATE GOVERNANCE REPORT

The Company has outsourced the Internal Audit ("IA") function and engaged Crowe Horwath First Trust Risk Advisory Pte Ltd ("Crowe Horwath"), a top 10 audit and accounting firm in Singapore for this function. Crowe Horwath has assigned director Chia Shu Siang to lead the IA review. He has 20 years of professional experience in financial assurance and risk consulting services to multinational and listed companies, holds an Accountancy degree from Nanyang Technological University and a Certified Internal Auditor. The primary reporting line of the IA function is to the AC, which also decides on the appointment, termination, and remuneration of the IA function. This function has unfettered access to all the Company's documents, records, properties and personnel, including the AC, and has appropriate standing within the Company. The AC confirms that IA is independent, effective and adequately resourced.

The AC meets with the internal auditors and the external auditors, at least once a year, without the presence of Management, to have free and unfettered access to unfiltered information and feedback.

The AC concurs on the adequacy and effectiveness of the Company's internal controls and risk management systems.

In the event that any Director has a personal material interest in any contract or proposed contract or arrangement, he will abstain from reviewing that particular transaction or voting on the particular resolution.

In performing its functions, the AC has explicit authority to investigate any matter within its terms of reference, having full access to and co-operation by management and full discretion to invite any director or executive officer to attend meetings, and reasonable resources to enable it to discharge its function properly.

In FY2022, the AC reviewed with the Management and the external auditors, the results of the Group before submitting to the Board for approval and announcement of the financial results. The AC also reviewed the Group's financial condition, internal and external audit reports.

In the review of the financial statements, the AC has discussed with Management the accounting principles that were applied and their judgement of items that might have material impact to the financial statements. The following significant matters that may have material impact to the financial statements were discussed with Management and the External Auditor; and were reviewed by the AC:

Significant Matters	AC Review
Valuation of Investment in Chongqing Zongshen Financial Leasing Joint Venture	AC considered the approach and methodology applied in determining the fair value of the investment in the joint venture; and Management assessment and reasonableness of assumption and valuation determined by the external valuer. This item has been included as a Key Audit Matter in the independent auditor's report for FY2022.
Accounting for leases	From 1 January 2019, the Group adopted SFRS(I) 16 Leases accounting for the properties leased.  AC evaluated whether the lease agreements have been accounted in accordance with SFRS(I)16.  This accounting for leases has been included as a Key Audit Matter in the independent auditor's report for FY2022.

# CORPORATE GOVERNANCE REPORT

The AC is kept abreast by Management, the external and internal auditors on changes and updates to accounting standards, and other issues which could have a direct impact on the financial statements of the Group, if any.

The Company has also put in place a whistle-blowing policy and implemented procedures and arrangements by which staff may, in confidence, raise concerns about possible corporate improprieties in matters of financial reporting or other matters to the AC. All complaints or concerns raised will be dealt with, including anonymous complaints. The action taken will depend on the nature of the complaint. Initial enquiries will be made to determine whether an investigation is appropriate, and the form that it should take. If necessary, the AC will direct an independent investigation to be conducted on the complaint received. Details of the whistle blowing policy, together with the dedicated whistle blowing communication channels (such as emails address) have been made available to all employees. It has a well-defined process which ensures independent investigation of issues/concerns raised and appropriate follow-up action, and provides assurance that identity of whistleblower kept confidential and the whistleblower will be protected from reprisal within the limits of the law or victimization for whistle-blowing in good faith. Members of the public can also refer to the Company's website for the whistle-blowing arrangements.

The AC is responsible for oversight and monitoring of whistleblowing and will report to the Board on such matters at the Board meetings.

During FY2022, there were no complaints, concerns or issues received.

## Shareholder Rights and Conduct of General Meetings

**Principle 11: The Company treats all shareholders fairly and equitably, to enable them to exercise shareholder rights and have the opportunity to communicate their views on matters affecting the Company. The Company gives shareholders a balanced and understandable assessment of its performance, position and prospects.**

The Company provides shareholders with the opportunity to participate effectively in and vote at general meetings of shareholders and informs them of the rules governing meetings of shareholders.

The Company tables separate resolutions at general meetings of shareholders on each substantially separate issue unless the issues are interdependent and linked so as form one significant proposal. Where the resolutions are bundled, the Company explains the reasons and material implications in the notice of meeting.

All Directors attend general meetings of shareholders, and the external auditors are also present to address shareholders' queries about the conduct of audit and the preparation of the auditors' report. Directors' attendance at such meetings held is disclosed in Principle 1 of this report.

All resolutions at general meetings of the Company will be put to vote by poll so as to better reflect shareholders' shareholding interest and ensure greater transparency. The results of the poll voting on each resolution tabled will be announced after the general meetings via SGXNET and the Company's website.

The Board is of the view that absentia voting at the general meeting, can only be carried out, after careful study, to ensure the integrity of the information received by the Company and to authenticate the identity of shareholders in attendance on the web. Voting in absentia such as voting via mail, electronic mail or facsimile at the general meetings may only be possible following careful study to ensure that integrity of the information and authentication of the identity of shareholders through the web is not compromised.

# CORPORATE GOVERNANCE REPORT

The Company publishes minutes of general meetings of shareholders on its corporate website as soon as practicable. The minutes record substantial and relevant comments or queries from shareholders relating to the agenda of the general meeting, and responses by the Board and Management.

The Company does not have a fixed dividend policy. The frequency and quantum of dividend declared each year will take into consideration the Group's profit growth, cash position, projected capital requirements for business growth and other factors as the Board may deem appropriate. The Board of Directors has proposed a final tax exempt (one-tier) dividend of 0.50 cent per ordinary share for FY2022.

The Company's corporate governance practices promote fair and equitable treatment of all shareholders. To facilitate shareholders' ownership rights, the Company ensures that all material information is disclosed on a comprehensive and timely basis via SGXNET and the Company's website, especially information pertaining to the Group's business development and financial performance which could have a material impact on the share price of the Company, so as to enable shareholders to make informed decisions in respect of their investments in the Company.

Shareholders are informed of general meetings through notices published in the newspaper and the Company's announcements, press releases via SGXNET, the Company's website as well as through reports and circulars sent to all shareholders. They are given the opportunity to participate effectively and vote at general meetings of the Company, where relevant rules and procedures governing the meetings are clearly communicated.

The Constitution of the Company allows each shareholder to appoint up to two proxies to attend general meetings. Under the Companies Act 1967, a member who is defined as a "relevant intermediary" may appoint more than two proxies to attend and participate in general meetings. Relevant intermediary includes corporations holding licenses in providing nominee and custodial services and CPF Board which purchases shares on behalf of the CPF investors.

The Board views the AGM as the principal forum for dialogue with shareholders, being an opportunity for shareholders to raise questions pertaining to the resolutions tabled for approval and/or questions regarding the Company and its operations. The minutes of AGM which capture the attendance of Board members at the meeting, matters approved by shareholders and voting results will be prepared by the Company. The minutes of the AGM for FY2022 will be released to the SGX-ST within one (1) month from the date of AGM and shall be made available on the Company's website.

## Engagement with Shareholders

**Principle 12: The Company communicates regularly with its shareholders and facilitates the participation of shareholders during general meetings and other dialogues to allow shareholders to communicate their views of various matters affecting the Company.**

The Company provides avenues for communication between the Board and all shareholders, and discloses in its annual report the steps taken to solicit and understand the views of shareholders.

The Company has in place an investor relations policy which allows for an ongoing exchange of views so as to actively engage and promote regular, effective and fair communication with shareholders at the Company's general meetings.

The Company's investor relations policy sets out the mechanism through which shareholders may contact the Company with questions and through which the Company may respond to such questions.

# CORPORATE GOVERNANCE REPORT

The Company endeavors to communicate regularly, effectively and fairly with its shareholders. Timely, as well as, detailed disclosure is made to the public in compliance with SGX-ST guidelines. The Company does not practice selective disclosure. All price sensitive information is announced on the SGXNET on a timely basis.

Shareholders are kept informed of developments and performance of the Group through announcements published via SGXNET and the press when necessary as well as in the annual report. Other announcements are also made on an ad-hoc basis where applicable as soon as possible to ensure timely dissemination of the information to shareholders.

Shareholders are encouraged to attend and raise questions to the directors at the Company's general meetings. At these meetings, shareholders are given the opportunity to express their views and raise issues either formally or informally. These meetings provide opportunities for the Board to engage with shareholders and solicit their feedback. The Company's website at [www.apoil.com.sg](http://www.apoil.com.sg) is another channel to understand the views of the shareholders.

## Engagement with Stakeholders

**Principle 13: The Board adopts an inclusive approach by considering and balancing the needs and interests of material stakeholders, as part of its overall responsibility to ensure that the best interests of the Company are served.**

The Company has arrangements in place to identify and engage with its material stakeholder groups and to manage its relationships with such groups.

The Company discloses in its annual report its strategy and key areas of focus in relation to the management of stakeholder relationships during the reporting period.

The Company maintains a current corporate website to communicate and engage with stakeholders.

## D. DEALINGS IN SECURITIES

The Company has devised and adopted its own internal code of compliance on dealing in the securities of the Company (the "Code"). This code will provide guidance to the Group's directors and employees on their dealings in the Company's securities. The key guidelines are:

- Directors and key officers are prohibited from trading in the Company's securities during the period commencing one month before the announcement of the Company's half year and full year financial statements, and the prohibition ends on the day of the results announcement. In future, if the Company announces quarterly financial statements, the prohibition period will commence two weeks before the announcement of the Company's financial statement for each of the first three quarters; and one month before the announcement of the Company's full year financial statement and prohibition period shall end on the day of the results announcement.
- Directors and key officers should not deal in the Company's securities on short-term consideration.
- Directors and key officers are required to observe the insider trading laws under the Securities Industries Act at all times even when engaging in dealings of securities within the non-prohibitory periods. To monitor such share transactions, Directors and key officers are to report to the Company when they deal in the Company's securities.

The Company has complied with the Code for FY2022.

# CORPORATE GOVERNANCE REPORT

## E. INTERESTED PERSON TRANSACTIONS

The Company has adopted internal guidelines in respect of any transactions with interested persons and set out the procedures for review and approval of the Company's interested person transactions. The main objective is to ensure that all interested person transactions are conducted on arm's length basis and on normal commercial terms.

The AC has reviewed all interested person transactions for FY2022, and satisfied there was no interested person transaction entered into by the Group in excess of S\$100,000 during the financial year.

## F. MATERIAL CONTRACTS

Pursuant to Rule 1207(8) of the Listing Manual, the Company confirms there was no material contract entered into between the Company and its subsidiaries which involved the interests of any director or controlling shareholder, either subsisting at the end of the financial year or if not then subsisting, which was entered into since the end of the previous financial year.

## G. ADDITIONAL INFORMATION ON DIRECTORS NOMINATED FOR RE-ELECTION

# INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF AP OIL INTERNATIONAL LIMITED

## Report on the audit of the financial statements

### *Opinion*

We have audited the accompanying financial statements of AP Oil International Limited and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 31 December 2022, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows of the Group and the statement of changes in equity of the Company for the year then ended, and notes to the financial statements, including significant accounting policies and other explanatory information, as set out on pages 55 to 113.

In our opinion, the accompanying consolidated financial statements of the Group and the statement of financial position and the statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Companies Act 1967 (the "Act") and Singapore Financial Reporting Standards (International) ("SFRS(I)") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 December 2022 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group and the changes in equity of the Company for the year ended on that date.

### *Basis for opinion*

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements' section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### *Key audit matters*

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

# INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF AP OIL INTERNATIONAL LIMITED

## **Key audit matters** (Continued)

### **(a) Valuation of investment in equity interests of an unquoted entity**

Please refer to note 2A on the relevant accounting policy, note 2C on critical judgements, assumptions and estimation uncertainties, note 18B on investment in equity interests of unquoted entity at FVTPL, and the annual report on the section on the audit committee's views and responses to the reported key audit matters.

The Group and Company hold a 12.5% equity interests in Chongqing Zongshen Financial Leasing Company Limited ("Chongqing Zongshen Financial Leasing") and as part of the investment arrangement, the Company was also granted an option by the major shareholder of Chongqing Zongshen Financial Leasing whereby the Company has the right to sell to the major shareholder its equity interests in Chongqing Zongshen Financial Leasing (the "Option"). The exercise price of the Option shall be based on the higher of the Company's original capital contribution of RMB25,000,000 and the agreed market value at the time of the exercise of the Option.

The Group and Company accounted for the investment in Chongqing Zongshen Financial Leasing and the Option together as a hybrid instrument measured at fair value through profit or loss. To this end, management has engaged an external valuer to perform an independent valuation of this financial asset as at 31 December 2022.

The fair value was determined based on the adjusted net assets approach. As Chongqing Zongshen Financial Leasing is an unquoted entity, the valuation involved significant management judgement. Accordingly, it is considered as a key audit matter.

As part of our audit procedures, we evaluated the independence, objectivity and competency of the external valuer and read their terms of engagement to ascertain whether there are matters that might have affected the scope of their work and their objectivity. Together with our internal valuation specialists, we assessed the appropriateness of the valuation methodologies adopted and the reasonableness of assumptions applied. We also assessed the adjustments to the net assets, if any, and undertook further procedures by cross-checking the fair value against other valuation approaches to determine whether it is within acceptable range and, where necessary, held further discussions with management and the external valuer.

### **(b) Accounting for leases**

Please refer to note 2A on the relevant accounting policy, note 2C on critical judgements, assumptions and estimation uncertainties, note 14 on right-of-use assets, note 26 on lease liabilities, and the annual report on the section on the audit committee's views and responses to the reported key audit matters.

The Group leases a number of properties that are accounted for in accordance with SFRS(I) 16 *Leases*. Significant judgement is involved in establishing the underlying key assumptions to derive the value of the right-of-use assets and the related lease liabilities.

We have evaluated the Group's application of SFRS(I) 16 and the measurement of the resulting right-of-use assets and lease liabilities. In doing so, we have reviewed the respective lease agreements of the Group and assessed whether management had accounted for these leases in accordance with SFRS(I) 16. In particular, we have assessed the discount rates and the reasonableness of the assumptions in relation to the lease terms, taking into consideration the requirements of the conditional offer made to the Group for the extension of lease terms.

TO THE MEMBERS OF AP OIL INTERNATIONAL LIMITED

## ***Other information***

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## ***Responsibilities of management and directors for the financial statements***

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and SFRS(I), and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

## ***Auditor's responsibilities for the audit of the financial statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

# INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF AP OIL INTERNATIONAL LIMITED

## ***Auditor's responsibilities for the audit of the financial statements*** (Continued)

- b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- f) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on other legal and regulatory requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiaries incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Eu Chee Wei David.

# NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2022

## 1. GENERAL

AP Oil International Limited is incorporated in Singapore with limited liability and is listed on the Singapore Exchange Securities Trading Limited ("SGX-ST").

The Company is situated in Singapore. The registered office is at 18 Pioneer Sector 1, Singapore 628428.

The financial statements as at and for the reporting year ended 31 December 2022 comprise the Company and its subsidiaries (the "Group") and the Group's interests in equity-accounted investees.

The financial statements are presented in Singapore dollars and the amounts are rounded to the nearest thousand, unless otherwise stated.

The board of directors approved and authorised these financial statements for issue on the date of the statement by directors. The directors have the power to amend and reissue the financial statements.

The Company is an investment holding company.

The principal activities of the subsidiaries and joint ventures are set out in notes 16 and 17 respectively.

### Subsequent developments

There are no significant developments subsequent to the release of the Group's and the Company's preliminary financial statements, as announced on 27 February 2023, which would materially affect the Group's and the Company's operating and financial performance as of the date of these financial statements.

### War in Ukraine related disclosures

Management has considered the current economic conditions caused by the commodities inflation, as well as the war in Ukraine at the end of the reporting year and reviewed the probable impact and plausible downside scenarios. No material uncertainties were identified in connection with the reporting entity's ability to continue in operational existence for the near future.

### Statement of compliance with financial reporting standards

These financial statements have been prepared in accordance with the Singapore Financial Reporting Standards (International) ("SFRS(I)") and the related Interpretations to SFRS(I) ("SFRS(I) INT") as issued by the Singapore Accounting Standards Council. They are in compliance with the provisions of the Companies Act 1967 and also with the International Financial Reporting Standards ("IFRSs") issued by the International Accounting Standards Board ("IASB").

### Accounting convention

These financial statements are prepared on a going concern basis under the historical cost convention except where a financial reporting standard requires an alternative treatment (such as fair value) as disclosed where appropriate in these financial statements.

# NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2022

## 1. GENERAL (CONTINUED)

### Basis of preparation of financial statements

The preparation of financial statements in conformity with generally accepted accounting principles requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting year. Actual results could differ from those estimates. The estimates and assumptions are reviewed on an ongoing basis. Apart from those involving estimations, management has made judgements in the process of applying the entity's accounting policies. The areas requiring management's most difficult, subjective or complex judgements, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2C.

### Basis of presentation

The consolidated financial statements include the financial statements made up to the end of the reporting year of the Company and all of its subsidiaries. The consolidated financial statements are the financial statements of the Group (the parent and its subsidiaries) presented as those of a single economic entity and are prepared using uniform accounting policies for like transactions and other events in similar circumstances. All significant intragroup balances and transactions are eliminated on consolidation. Subsidiaries are consolidated from the date the Group obtains control of the investee and cease consolidation when the Group loses control of the investee.

Changes in the Group's ownership interest in a subsidiary that do not result in the loss of control are accounted for within equity as transactions with owners in their capacity as owners. The carrying amounts of the Group's interests and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. When the Group loses control of a subsidiary it derecognises the assets and liabilities and related equity components of the former subsidiary. Any gain or loss is recognised in profit or loss. Any investment retained in the former subsidiary is measured at fair value at the date when control is lost and is subsequently accounted as equity investments financial assets in accordance with the financial reporting standard on financial instruments.

The Company's separate financial statements have been prepared on the same basis, and as permitted by the Companies Act 1967, the Company's separate statement of profit or loss and other comprehensive income is not presented.

## 2. SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION

### 2A. Significant accounting policies

#### Revenue recognition

The financial reporting standard on revenue from contracts with customers establishes a five-step model to account for revenue arising from contracts with customers. Revenue is recognised at an amount that reflects the consideration to which the entity expects to be entitled in exchange for transferring goods or services to a customer (which excludes estimates of variable consideration that are subject to constraints, such as right of return exists, trade discounts, volume rebates and changes to the transaction price arising from modifications), net of any related sales taxes and excluding any amounts collected on behalf of third parties. An asset (goods or services) is transferred when or as the customer obtains control of that asset. As a practical expedient, the effects of any significant financing component is not adjusted if the payment for the good or service will be within one year.

#### Sale of goods

Revenue is recognised at a point in time when the performance obligation is satisfied by transferring a promised good or service to the customer. Control of the goods is transferred to the customer generally on delivery of the goods (in this respect, incoterms are considered).

#### Rendering of services

Revenue from service orders and term projects is recognised when the Group satisfies the performance obligation at a point in time generally when the significant acts have been completed and when transfer of control occurs or for services that are not significant transactions revenue is recognised as the services are provided.

#### Rental revenue

Rental revenue is recognised on a time-proportion basis that takes into account the effective yield on the asset on a straight-line basis over the lease term.

#### Other income

#### Dividend income

Dividend from equity instruments is recognised in profit or loss only when the Group's right to receive payment of the dividend is established; it is probable that the economic benefits associated with the dividend will flow to the entity; and the amount of the dividend can be measured reliably.

#### Interest income

Interest income is recognised using the effective interest method.

### 2A. Significant accounting policies (Continued)

#### Government grants

Government grants are recognised at fair value when there is reasonable assurance that the conditions attaching to them will be complied with and that the grants will be received. Grants in recognition of specific expenses are recognised in profit or loss on a systematic basis over the periods necessary to match them with the related costs that they are intended to compensate. The grant related to assets is presented in the statement of financial position by recognising the grant as deferred income that is recognised in profit or loss on a systematic basis over the useful life of the asset and in the proportions in which depreciation expense on those assets is recognised.

#### Employee benefits

Contributions to a defined contribution retirement benefit plan are recorded as an expense as they fall due. The entity's legal or constructive obligation is limited to the amount that it is obligated to contribute to an independently administered fund (such as the Central Provident Fund in Singapore, a government managed defined contribution retirement benefit plan). For employee leave entitlement the expected cost of short-term employee benefits in the form of compensated absences is recognised in the case of accumulating compensated absences, when the employees render service that increases their entitlement to future compensated absences; and in the case of non-accumulating compensated absences, when the absences occur. A liability for bonuses is recognised where the entity is contractually obliged or where there is constructive obligation based on past practice.

#### Borrowing costs

Borrowing costs are interest and other costs incurred in connection with the borrowings. Interest expense is calculated using the effective interest rate method. Borrowing costs are recognised as an expense in the period in which they are incurred except that borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset that necessarily take a substantial period of time to get ready for their intended use or sale are capitalised as part of the cost of that asset until substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

#### Foreign currency transactions

The functional currency of the Company is the United States dollar ("US\$") as it reflects the primary economic environment in which the entity operates.

Transactions in foreign currencies are recorded in the functional currency at the rates ruling at the dates of the transactions. At each end of the reporting year, recorded monetary balances and balances measured at fair value that are denominated in non-functional currencies are reported at the rates ruling at the end of the reporting year and fair value dates respectively. All realised and unrealised exchange adjustment gains and losses are dealt with in profit or loss except when recognised in other comprehensive income and if applicable deferred in equity such as qualifying cash flow hedges.

The presentation currency is the Singapore dollar ("S\$") as the financial statements are meant primarily for users in Singapore. Accordingly, assets and liabilities are translated at year end rates of exchange and the income and expense items for each statement presenting profit or loss and other comprehensive income are translated at average rates of exchange for the reporting year. The resulting translation adjustments (if any) are recognised in other comprehensive income and accumulated in a separate component of equity. The translation of US\$ amounts into S\$ amounts are included solely for the convenience of readers. The reporting year end rates used are US\$1 to S\$1.33 (2021: US\$1 to S\$1.34) which approximates the rate of exchange at the end of the reporting year. The average rate of exchange for the reporting year is US\$1 to S\$1.37 (2021: US\$1 to S\$1.34). Such translation should not be construed as a representation that the Singapore dollar amounts could be converted into US dollars at the above rate or other rate.

#### Translation of financial statements of other entities

Each entity in the Group determines the appropriate functional currency as it reflects the primary economic environment in which the relevant entity operates. In translating the financial statements of such an entity into the presentation currency for incorporation in the consolidated financial statements the assets and liabilities denominated in other currencies are translated at end of the reporting year rates of exchange and the income and expense items for each statement presenting profit or loss or other comprehensive income are translated at average rates of exchange for the reporting year. The resulting translation adjustments (if any) are recognised in other comprehensive income and accumulated in a separate component of equity until the disposal of that relevant entity.

#### Income tax

The income taxes are accounted using the asset and liability method that requires the recognition of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequence of events that have been recognised in the financial statements or tax returns. The measurements of current and deferred tax liabilities and assets are based on provisions of the enacted or substantially enacted tax laws; the effects of future changes in tax laws or rates are not anticipated. Tax expense (tax benefit) is the aggregate amount included in the determination of profit or loss for the reporting year in respect of current tax and deferred tax. Current and deferred income taxes are recognised as income or as an expense in profit or loss unless the tax relates to items that are recognised in the same or a different period outside profit or loss. For such items recognised outside profit or loss the current tax and deferred tax are recognised (a) in other comprehensive income if the tax is related to an item recognised in other comprehensive income and (b) directly in equity if the tax is related to an item recognised directly in equity. Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same income tax authority. The carrying amount of deferred tax assets is reviewed at each end of the reporting year and is reduced, if necessary, by the amount of any tax benefits that, based on available evidence, are not expected to be realised. A deferred tax amount is recognised for all temporary differences, unless the deferred tax amount arises from the initial recognition of an asset or liability in a transaction which (i) is not a business combination; and (ii) at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

A deferred tax liability or asset is recognised for all taxable temporary differences associated with investments in subsidiaries, associate and joint venture except where the Group is able to control the timing of the reversal of the taxable temporary difference and it is probable that the taxable temporary difference will not reverse in the foreseeable future or for deductible temporary differences, they will not reverse in the foreseeable future and they cannot be utilised against taxable profits.

#### Property, plant and equipment

Property, plant and equipment are carried at cost on initial recognition and after initial recognition at cost less any accumulated depreciation and any accumulated impairment losses. Depreciation is provided on a straight-line method to allocate the gross carrying amounts of the assets less their residual values over their estimated useful lives of each part of an item of these assets. The annual rates of depreciation are as follows:

Leasehold properties and improvements	–	Over terms of lease, ranging from 3.13% to 5.00% per annum
Plant and equipment	–	20% to 33 <sup>1</sup> / <sub>3</sub> % per annum

#### Property, plant and equipment (Continued)

An asset is depreciated when it is available for use until it is derecognised even if during that period the item is idle. Fully depreciated assets still in use are retained in the financial statements.

The gain or loss arising from the derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds, if any, and the carrying amount of the item and is recognised in profit or loss. The residual value and the useful life of an asset is reviewed at least at each end of the reporting year and, if expectations differ significantly from previous estimates, the changes are accounted for as a change in an accounting estimate, and the depreciation charge for the current and future periods are adjusted.

Cost also includes acquisition cost, borrowing cost capitalised and any cost directly attributable to bringing the asset or component to the location and condition necessary for it to be capable of operating in the manner intended by management. Subsequent costs are recognised as an asset only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss when they are incurred.

#### Right-of-use assets

The Group recognises right-of-use assets at commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Group at end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment.

The annual rates of depreciation are as follows:

Leased land	– Over terms of lease, ranging from 4.00% to 8.33% per annum
Leased property	– Over term of lease at 33⅓% per annum

### 2A. Significant accounting policies (Continued)

#### Leases of lessee

Where a lease arrangement is identified, a liability to the lessor is recognised as a lease obligation calculated at the present value of minimum lease payments. A corresponding right-of-use asset is presented in the statement of financial position. Lease payments are apportioned between finance costs and reduction of the lease liability so as to reflect the interest on the remaining balance of the liability. Finance charges are recorded as an expense. Right-of-use assets are depreciated over the shorter of the estimated useful life of the asset and the lease term. Leases with a term of 12 months or less and leases for low value assets are not recorded as a liability and lease payments are recognised as an expense in profit or loss on a straight-line basis over the lease term.

#### Leases of lessor

For a lessor each of lease is classified as either an operating lease or a finance lease. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease unless another systematic basis is representative of the time pattern of the user's benefit, even if the payments are not on that basis.

#### Subsidiaries

A subsidiary is an entity including unincorporated and special purpose entity that is controlled by the Group and the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The existence and effect of substantive potential voting rights that the Group has the practical ability to exercise (that is, substantive rights) are considered when assessing whether the Group controls another entity.

In the Company's separate financial statements, an investment in a subsidiary is accounted for at cost less any allowance for impairment. Impairment loss recognised in profit or loss for a subsidiary is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying value and the net book value of the investment in a subsidiary are not necessarily indicative of the amount that would be realised in a current market exchange.

#### Joint arrangements – joint venture

A joint arrangement (that is, either a joint operation or a joint venture, depending on the rights and obligations of the jointly controlling parties to the arrangement), is one in which the Group is party to an arrangement of which two or more parties have joint control, which is the contractually agreed sharing of control of the arrangement; it exists only when decisions about the relevant activities (that is, activities that significantly affect the returns of the arrangement) require the unanimous consent of the parties sharing control. In a joint venture, the parties with joint control have rights to the net assets of the arrangement.

In the consolidated financial statements, the accounting for investments in a joint venture is based on the equity method. Under the equity method, the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the investor's share of the investee's net assets. The carrying value and the net book value of the investment in the joint venture are not necessarily indicative of the amounts that would be realised in a current market exchange. The investor's profit or loss includes its share of the investee's profit or loss and the investor's other comprehensive income includes its share of the investee's other comprehensive income. Losses of a joint venture in excess of the Group's interest in the relevant joint venture are not recognised except to the extent that the Group has an obligation to fund the joint venture's operations or made payments on behalf of the joint venture. Unrealised gains resulting from transactions between the Group and a joint venture are eliminated in the financial statements only to the extent of the Group's interests in the joint venture. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of joint venture are changed where necessary to ensure consistency with the policies adopted by the Group. The Group discontinues the use of the equity method from the date that when its investment ceases to be a joint venture and accounts for the investment in accordance with SFRS(I) 9 from that date. Any gain or loss is recognised in profit or loss. Any investment retained in the former joint venture is measured at fair value at the date that it ceases to be a joint venture.

In the Company's separate financial statements, an investment in joint venture is accounted for at cost less any allowance for impairment. Impairment loss recognised in profit or loss for joint venture is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying value and the net book value of an investment in joint venture are not necessarily indicative of the amounts that would be realised in a current market exchange.

#### Business combinations

Business combinations are accounted for by applying the acquisition method. There were no acquisitions during the reporting year.

#### Goodwill

Goodwill is an asset representing the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognised. Goodwill recognised as of the acquisition date is measured as the excess of (a) over (b); (a) being the aggregate of: (i) the consideration transferred which generally requires acquisition-date fair value; (ii) the amount of any non-controlling interest in the acquiree measured in accordance with SFRS(I) 3 (measured either at fair value or as the non-controlling interest's proportionate share of the acquiree's net identifiable assets); and (iii) in a business combination achieved in stages, the acquisition-date fair value of the acquirer's previously held equity interest in the acquiree; and (b) being the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed measured in accordance with SFRS(I) 3.

After initial recognition, goodwill acquired in a business combination is measured at cost less any accumulated impairment losses. Goodwill is not amortised. Irrespective of whether there is any indication of impairment, goodwill and also any intangible asset with an indefinite useful life or any intangible asset not yet available for use are tested for impairment at least annually. Goodwill impairment is not reversed in any circumstances.

For the purpose of impairment testing and since the acquisition date of the business combination, goodwill is allocated to each cash-generating unit, or group of cash-generating units that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree were assigned to those units or group of units. Each unit or group of units to which the goodwill is so allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes and is not larger than a segment.

#### Inventories

Inventories are measured at the lower of cost (weighted average method) and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. A write down on cost is made where the cost is not recoverable or if the selling prices have declined. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of overheads based on normal operating capacity.

#### Carrying amounts of non-financial assets

Irrespective of whether there is any indication of impairment, an annual impairment test is performed at the same time every year on an intangible asset with an indefinite useful life or an intangible asset not yet available for use. The carrying amount of other non-financial assets is reviewed at each end of the reporting year for indications of impairment and where an asset is impaired, it is written down through profit or loss to its estimated recoverable amount. The impairment loss is the excess of the carrying amount over the recoverable amount and is recognised in profit or loss. The recoverable amount of an asset or a cash-generating unit ("CGU") is the higher of its fair value less costs to sell and its value in use. When the fair value less costs to sell method is used, any available recent market transactions are taken into consideration. When the value in use method is adopted, in assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). At each end of the reporting year non-financial assets other than goodwill with impairment loss recognised in prior periods are assessed for possible reversal of the impairment. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

#### Financial instruments

##### Recognition and derecognition of financial instruments

A financial asset or a financial liability is recognised in the statement of financial position when, and only when, the entity becomes party to the contractual provisions of the instrument. All other financial instruments (including regular-way purchases and sales of financial assets) are recognised and derecognised, as applicable, using trade date accounting or settlement date accounting. A financial asset is derecognised when the contractual rights to the cash flows from the financial asset expire or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the entity neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset. A financial liability is removed from the statement of financial position when, and only when, it is extinguished, that is, when the obligation specified in the contract is discharged or cancelled or expires.

At initial recognition the financial asset or financial liability is measured at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

##### Classification and measurement of financial assets

- (i) Financial asset classified as measured at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at fair value through profit or loss ("FVTPL"), that is (a) the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Typically trade and other receivables, bank and cash balances are classified in this category.

- (ii) Financial asset that is a debt asset instrument classified as measured at fair value through other comprehensive income ("FVTOCI")
- (iii) Financial asset that is an equity investment classified as measured at FVTOCI
- (iv) Financial asset classified as measured at FVTPL

All other financial assets are classified as measured at FVTPL. In addition, on initial recognition, management may irrevocably designate a financial asset as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

##### Classification and measurement of financial liabilities

Financial liabilities are classified as at FVTPL in either of the following circumstances:

- (i) The liabilities are managed, evaluated and reported internally on a fair value basis; or
- (ii) The designation eliminates or significantly reduces an accounting mismatch that would otherwise arise.

All other financial liabilities are carried at amortised cost using the effective interest method. Reclassification of any financial liability is not permitted.

#### Cash and cash equivalents

Cash and cash equivalents include bank and cash balances, on demand deposits and any highly liquid debt instruments purchased with an original maturity of six months or less. For the statement of cash flows the item includes cash and cash equivalents less cash subject to restriction.

#### Fair value measurement

The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When measuring the fair value of an asset or a liability, market observable data to the extent possible is used. If the fair value of an asset or a liability is not directly observable, an estimate is made using valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs (e.g., by use of the market comparable approach that reflects recent transaction prices for similar items, discounted cash flow analysis, or option pricing models refined to reflect the issuer's specific circumstances). Inputs used are consistent with the characteristics of the asset/liability that market participants would take into account. The Group's intention to hold an asset or to settle or otherwise fulfil a liability is not taken into account as relevant when measuring fair value.

Fair values are categorised into different levels in a fair value hierarchy based on the degree to which the inputs to the measurement are observable and the significance of the inputs to the fair value measurement in its entirety: Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs). Transfers between levels of the fair value hierarchy are recognised at the end of the reporting period during which the change occurred.

The carrying values of current financial instruments approximate their fair values due to the short-term maturity of these instruments and the disclosures of fair value are not made when the carrying amount of current financial instruments is a reasonable approximation of the fair value. The fair values of non-current financial instruments may not be disclosed separately unless there are significant differences at the end of the reporting year and in the event the fair values are disclosed in the relevant notes to the financial statements.

### 2B. Other explanatory information

#### Segment reporting

The Group discloses financial and descriptive information about its consolidated reportable segments. Reportable segments are operating segments or aggregations of operating segments that meet specified criteria. Operating segments are components about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing the performance. Generally, financial information is reported on the same basis as is used internally for evaluating operating segment performance and deciding how to allocate resources to operating segments.

### 2B. Other explanatory information (Continued)

#### Provisions

A liability or provision is recognised when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. A provision is made using best estimates of the amount required in settlement and where the effect of the time value of money is material, the amount recognised is the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense. Changes in estimates are reflected in profit or loss in the reporting year they occur.

### 2C. Critical judgements, assumptions and estimation uncertainties

The critical judgements made in the process of applying the accounting policies that have the most significant effect on the amounts recognised in the financial statements and the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting year, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities currently or within the next reporting year are discussed below. These estimates and assumptions are periodically monitored to ensure they incorporate all relevant information available at the date when financial statements are prepared. However, this does not prevent actual figures differing from estimates.

#### Investment in equity interests of unquoted entity

The fair value of this financial instrument is not based on quoted price in an active market. Therefore, there is significant measurement uncertainty involved in the measurement of fair value. Management has engaged an external valuer to perform an independent valuation of this investment as at 31 December 2022. The fair value was determined based on the adjusted net assets approach. The fair value are disclosed in note 18B to the financial statements.

#### Determination of lease term for leases

One of the subsidiaries of the Group leased a piece of land, located at 18 Pioneer Sector 1, Singapore 628428, from Jurong Town Corporation ("JTC") for a period of 44 years and 11 months from 1 February 1979 to December 2023. In 2017, JTC made a conditional offer to extend the lease term for an additional 20 years from 2024 to 2043, provided the designated subsidiaries, Alpha Pacific Petroleum (S) Pte Ltd ("APP") and/or AP Oil Pte Ltd ("APOPL"), make capital investments, comprising \$3,000,000 on plant and machinery; \$5,000,000 on building and civil works; and aggregate of \$10,556,000 on plant and machinery, and building and civil works, at the aforesaid premises by 4 January 2023.

As at 31 December 2022, the designated subsidiaries incurred \$2,833,000 on plant and machinery and \$9,469,000 on building and civil works. As at the date of this report, the Group did not meet the criteria for capital investment of \$3,000,000 on plant and machinery. Based on meetings held with JTC, management is of the view that the Group will be able to secure the 20 years lease renewal based on capital investments incurred. Accordingly, the extension of 20 years of the land lease has been used in determining the useful life of premise.

### 2C. Critical judgements, assumptions and estimation uncertainties (Continued)

#### Determination of lease term for leases (Continued)

For the purpose of measuring the right-of-use asset and the related lease liability, judgement is required in determining the lease term which is dependent on management's assessment as to whether it is reasonably certain that the requirements of the conditional offer from JTC can be met. The assumptions and carrying amounts of the right-of-use asset and the related lease liability are disclosed in notes 14 and 26 respectively.

#### Assessment of impairment of trade receivables

The trade receivables impairment assessment is subject to the expected credit loss ("ECL") model. The expected lifetime losses are recognised from initial recognition of these assets. These assets are grouped based on shared credit risk characteristics and the days past due for measuring the ECL. The allowance matrix is based on its historical observed default rates (over a period of certain months) over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date the historical observed default rates are updated and changes in the forward-looking estimates are analysed. The loss allowance was determined accordingly. The carrying amount is disclosed in the note on trade receivables.

## 3. RELATED PARTY RELATIONSHIPS AND TRANSACTIONS

The financial reporting standard on related party disclosures requires the Company to disclose: (a) transactions with its related parties; and (b) relationships between parents and subsidiaries irrespective of whether there have been transactions between those related parties. A party is related to another party if the party controls, or is controlled by, or can significantly influence or is significantly influenced by the other party.

The ultimate controlling parties are Dr Ho Leng Woon and Mdm Lau Woon Chan, directors and significant shareholders of the Company.

### 3A. Related party transactions

There are transactions and arrangements between the Group and related parties and the effects of these on the basis determined between the parties are reflected in these financial statements. The intercompany balances are unsecured without fixed repayment terms and interest-free unless stated otherwise. For any non-current balances and financial guarantees, no interest or charge is imposed unless stated otherwise.

The above amounts for key management compensation are for all the directors of the Company and of the subsidiaries.

## 4. FINANCIAL INFORMATION BY OPERATING SEGMENTS

### 4A. Information on reportable segments

Disclosure of information about operating segments, products and services, these geographical areas, and the major customers are made as required by SFRS(I) 8 *Operating Segments*. This disclosure standard has no impact on the reported financial performance or financial position of the Group.

For management purposes, the Group is organised into two operating segments as follows:

- (a) Manufacturing segment, which includes the manufacturing of a range of lubricating oil and specialty chemicals for industrial, automotive and marine applications, as well as the provision of oil blending services and rental of cleaning equipment to its customers; and
- (b) Trading segment, which includes trading in base oil, lubricant components, commodity chemicals etc.

## 4. FINANCIAL INFORMATION BY OPERATING SEGMENTS (CONTINUED)

### 4A. Information on reportable segments (Continued)

Such a structural organisation is determined by the nature of risks and returns associated with each business segment and defines the management structure as well as internal reporting system. It represents the basis on which management reports the primary segment information. They are managed separately because each business requires a different strategy.

Inter-segment sales are measured on the basis that the Group actually used to price the transfers. Internal transfer pricing policies of the Group are as far as practicable based on market prices. The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies.

	(590)	(610)

The realisation of the future income tax benefits from unutilised tax losses and capital allowances are available for an unlimited future period subject to the conditions imposed by law including the retention of majority shareholders as defined.

It is impracticable to estimate the amount expected to be settled or used within one year.

## 11. EARNINGS PER SHARE

Basic earnings per share is calculated by dividing profit attributable to owners of the Company for the year, net of tax by the weighted average number of shares outstanding during the reporting year. The following sets out the numerator and denominator used to calculate basic earnings per share of no par value:

	Group	
	2022 \$'000	2021 \$'000
<u>Numerator</u>		
Profit for the year attributable to owners of the Company	1,098	2,741
 <u>Denominator</u>		
Weighted average number of shares	164,531	164,531

Diluted earnings per share is the same as basic earnings per share as there were no potential dilutive ordinary shares existing during the respective reporting years.

## 12. DIVIDENDS

	Company	
	2022 \$'000	2021 \$'000
Final tax exempt (1-tier) dividends paid at 1.00 cent (2021: 0.50 cent) per share	<b>1,645</b>	823

On 27 February 2023, the directors proposed a final dividend of 0.50 cent per ordinary share, amounting to \$823,000. This dividend is subject to approval by shareholders at the forthcoming annual general meeting and has not been included as a liability in these financial statements. The proposed dividend is payable in respect of all ordinary shares in issue at the end of the reporting year and any new qualifying shares issued up to the date the dividend becomes payable. There are no income tax consequences of the dividends to the shareholders.

## 14. RIGHT-OF-USE ASSETS (CONTINUED)

Other information on leasing activities relating to right-of-use assets are summarised as follows:

	Leased land		Leased property	
	2022	2021	2022	2021
Number of right-of-use assets	3	3	–	1
Remaining term (range)	8 to 21 years	9 to 22 years	–	1.25 years
Remaining term (average)	16 years	17 years	–	1.25 years
Number of leases with extension options	2	2	–	1

The leases are for production facilities and office space. These leases include three parcels of land leased from JTC starting from 1 April 1981, 1 February 1979 and 29 February 2008, respectively, for a period of 60 years, 44 years 11 months and 22 years 10 months, respectively.

The lease rental is subject to an escalation clause but the amount of the rent increase is not to exceed a certain percentage.

There are restrictions or covenants imposed by the leases to sublet the asset to another party. The right-of-use asset can only be used by the lessee. Unless permitted by the owner, the leases prohibit selling or pledging the underlying leased assets as security. Typically, the leases are either non-cancellable or may only be cancelled by incurring a substantive termination fee.

Certain leases contain an option to purchase the underlying leased asset outright at the end of the lease, or to extend the lease for a further term. For leases over building, the leases require those properties in a good state of repair and return the properties in their original condition at the end of the lease. Insurance and maintenance fees on right-of-use assets are usually required under the lease contracts.

The current lease of the land located at 18 Pioneer Sector 1, Singapore 628428 expires in December 2023, and JTC made a conditional offer to APP to extend the lease term for an additional 20 years from January 2024 to December 2043 provided the designated subsidiaries, APP and/or APOPL make(s) capital investment, comprising \$3,000,000 on plant and machinery; \$5,000,000 on building and civil works; and aggregate of \$10,556,000 on plant and equipment and building and civil works at the aforesaid premise by 4 January 2023.

As at 31 December 2022, the designated subsidiaries incurred \$2,833,000 on plant and machinery and \$9,469,000 on building and civil works. As at the date of this report, the Group did not meet the criteria for capital investment of \$3,000,000 on plant and machinery. Based on meetings held with JTC, management is of the view that the Group will be able to secure the 20 years lease renewal based on the capital investments incurred. Accordingly, the extension of 20 years of the land lease has been used in determining the useful life of premise.

## 15. GOODWILL

	Group	
	2022 \$'000	2021 \$'000
At beginning and end of the year	409	409

Goodwill is allocated to a CGU for the purpose of impairment testing. This CGU represents the Group's investment in GB Chemicals Pte Ltd ("GB Chemicals"), a subsidiary of the Company (see note 16).

The goodwill is tested for impairment at end of the reporting year. An impairment loss is the amount by which the carrying amount of an asset or a CGU exceeds its recoverable amount. The recoverable amount of an asset or a CGU is the higher of its fair value less costs of disposal or its value in use. The recoverable amounts of CGU's have been measured based on the fair value less costs of disposal method or the value in use method as appropriate for the separate CGUs.

No impairment allowance was recognised by the Group as the carrying amount of the CGU was lower than its recoverable amount.

The value in use was determined by management. The key assumptions for value in use calculations are those regarding the discount rate, growth rate and expected changes to selling prices and direct costs during the year. Management estimates the discount rate using pre-tax rate that reflects current market assessments of the time value of money and risks specific to the CGU. The growth rate is based on industry growth forecasts. Changes in selling prices and direct costs are based on past practices and expectations of future changes in the market.

The impairment test has been carried out using a discounted cash flows model covering a five year period. Cash flow projections are made based on current year's results with 3% growth rate (2021: 3%). The estimated discount rate using pre-tax rate that reflects current market assessments at the risks specific to the CGU is 9.0% (2021: 8.0%).

Actual outcomes could vary from these estimates. If the revised estimated gross margin at end of the reporting year had been 10% less favourable than management's estimates, the goodwill would have to be fully impaired. If the revised estimated pre-tax discount rate applied to the discounted cash flows had been 10% less favourable than management's estimates, the recoverable amount would still be greater than the carrying value of the goodwill and no impairment for goodwill will be required. If the actual gross margin and pre-tax discount rate had been more favourable than management's estimates, management would not be able to reverse any impairment losses that arose on goodwill because SFRS(I) 1-36 does not permit reversing an impairment loss for goodwill.

The value in use is a recurring fair value measurement (level 3) determined by management. The quantitative information on value in use measurement using significant unobservable inputs for the CGU are consistent with those used for the measurement last performed.

The key man life insurance policy (life insurance settlement contract) is accounted under the investment method. The initial investment at the transaction price plus all initial direct external costs and the policy premiums and direct external costs to keep the policy in force are capitalised. A test for impairment is made if there is new or updated information that indicates that the expected proceeds (based on current interest rates) from the insurance policy will not be sufficient to recover the carrying amount of the investment plus anticipated undiscounted future premiums and capitalisable direct external costs, when the policy terminates. The impairment allowance is charged to profit or loss.

## 18. OTHER FINANCIAL ASSETS (CONTINUED)

### 18B. Investment in equity interests of unquoted entity at FVTPL (Continued)

In 2016, the Company entered into an agreement with three other parties to establish Chongqing Zongshen Financial Leasing in the PRC for the purpose of undertaking a financial leasing business. Pursuant to this agreement, the Company subscribed for 12.5% of the equity interests (unquoted) in Chongqing Zongshen Financial Leasing for RMB25,000,000.

At the same time, as part of this arrangement, the Company also entered into a supplementary agreement with all the above parties pursuant to which the major shareholder of Chongqing Zongshen Financial Leasing granted a put option to the Company whereby the Company, at its sole discretion, has the right to sell to the major shareholder all or part of its equity interest in Chongqing Zongshen Financial Leasing (the "Option"). The Option is exercisable from 1 January 2018 and shall be valid for as long as the Company holds the equity interests in Chongqing Zongshen Financial Leasing, and the exercise price shall be based on the higher of the Company's original capital contribution and the agreed market value at the time of exercise.

The Company accounted for this entire hybrid instrument as at FVTPL. The fair value of the financial asset at the end of the year, which is categorised within level 3 of the fair value hierarchy, was determined by an external valuer, Baker Tilly Consultancy (Singapore) Pte Ltd, based on the adjusted net assets approach.

At end of the year	<u>69</u>	<u>103</u>	<u>332</u>	<u>–</u>

The trade receivables are subject to the ECL model under the financial reporting standard on financial instruments. The methodology applied for impairment loss is the simplified approach to measuring ECL which uses a lifetime expected loss allowance for all trade receivables. The expected lifetime losses are recognised from initial recognition of these assets. These assets are grouped based on shared credit risk characteristics and the days past due for measuring the ECL. The allowance matrix is based on its historical observed default rates (over a period ranging from 12 months) over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

# NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2022

## 21. TRADE AND OTHER RECEIVABLES (CONTINUED)

Loss allowance for trade receivables was determined as follows:

	Gross amount		ECL rate		Loss allowance	
	2022 \$'000	2021 \$'000	2022 %	2021 %	2022 \$'000	2021 \$'000
<b>Group</b>						
Current	3,534	4,494	0.03	0.02	1	1
1 to 30 days past due	1,083	1,012	0.18	0.20	2	2
31 to 60 days past due	412	357	0.73	0.84	3	3
Over 60 days past due	703	279	8.96	34.77	63	97
	<b>5,732</b>	<b>6,142</b>			<b>69</b>	<b>103</b>

The trade receivables are considered to have low credit risk individually. The loss allowance as at 31 December 2022 was determined to be insignificant by management.

At each subsequent reporting date, an evaluation is made as to whether there is significant change in credit risk by comparing the debtor's credit risk at initial recognition (based on the original, unmodified cash flows) with the credit risk at reporting date (based on modified cash flows). Adjustment to loss allowance is made for any increase or decrease in credit risk.

As part of the process of setting customer credit limits, different credit terms are used. The average credit period generally granted to customers is between 30 to 90 days (2021: 30 to 90 days). However, certain customers may take a longer period to settle the amounts.

Concentration of trade receivable customers at end of reporting year:

	Group	
	2022 \$'000	2021 \$'000
Top 1 customer	763	1,411
Top 2 customers	1,424	2,013
Top 3 customers	<b>1,928</b>	<b>2,338</b>

Other receivables at amortised cost shown above are also subject to the ECL model under the financial reporting standard on financial instruments. Other receivables at amortised cost and which can be graded as low risk individually are considered to have low credit risk. At the end of the first reporting period a loss allowance is recognised at an amount equal to 12-month ECL because there has not been a significant increase in credit risk since initial recognition.

At each subsequent reporting date, an evaluation is made whether there is significant change in credit risk by comparing the debtor's credit risk at initial recognition (based on the original, unmodified cash flows) with the credit risk at the reporting date (based on modified cash flows). Adjustment to the loss allowance is made for any increase or decrease in credit risk.

# NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2022

## 21. TRADE AND OTHER RECEIVABLES (CONTINUED)

Other receivables are normally with no fixed terms and therefore there is no maturity. Other receivables due from related companies are regarded to be of low credit risk if they are guaranteed by the parent or a related company with the ability to settle the amount. Other receivables are regarded as of low credit risk if they have a low risk of default and the debtor has a strong capacity to meet its contractual cash flow obligations in the near term. The methodology applied for impairment loss depends on whether there has been a significant increase in credit risk.

The ordinary shares of no par value are fully paid, carry one vote each and have no right to fixed income. The Company is not subject to any externally imposed capital requirements.

### Capital management

In order to maintain its listing on the SGX-ST, the Company has to have share capital with a free float of at least 10% of the shares. The Company met the capital requirement on its initial listing and the rules limiting treasury share purchases mean it will automatically continue to satisfy that requirement, as it did throughout the reporting year. Management receives a report from the share registrar frequently on substantial share interests showing the non-free float to ensure continuing compliance with the 10% limit throughout the reporting year.

The objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for owners and benefits for other stakeholders, and to provide an adequate return to owners by pricing the sales commensurately with the level of risk. Management sets the amount of capital to meet its requirements and the risk taken. There were no changes in the approach to capital management during the reporting year.

Management manages the capital structure and makes adjustments to it where necessary or possible in the light of changes in conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, management may adjust the amount of dividends paid to owners, return capital to owners, issue new shares, or sell assets to reduce debt. Adjusted capital comprises all components of equity (that is, share capital and reserves).

There are no external borrowings. The debt-to-adjusted capital ratio does not provide a meaningful indicator of the risk of borrowings.

All reserves classified as retained earnings represent past accumulated earnings and are distributable. The other reserves are not available for cash dividends unless realised.

## 26. LEASE LIABILITIES (CONTINUED)

Only variable lease payments that depend on an index or a rate, or payments that vary to reflect changes in market rental rates, are included in the measurement of the lease liabilities. Such variable amounts that are unpaid at commencement date are included in the measurement of lease liabilities. Variable lease payments would also include extension options and termination options, and leases not yet commenced to which the lessee is committed. Variable lease payments that are based on revenue are recognised in profit or loss in the year in which the condition that triggers those payments occurs.

A summary of the maturity analysis of lease liabilities setting out the remaining contractual maturities is as follows:

## 26. LEASE LIABILITIES (CONTINUED)

The cash outflow for leases for the year ended 31 December 2022 are shown in the statement of cash flows.

Subsequent to initial measurement, the liabilities will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes to in-substance fixed payments. When the lease liabilities are re-measured, the corresponding adjustments are reflected in the right-of-use assets, or profit and loss if the right-of-use assets are already reduced to zero.

At reporting date, there were no commitments on leases which had not yet commenced.

The carrying amount is a reasonable approximation of the fair value measurement of the lease liabilities (Level 2).

Please also refer to note 14 for more information on the determination of lease term for the purpose of measuring lease liabilities.

### 29B. Financial risk management

The main purpose for holding or issuing financial instruments is to raise and manage the finances for the Group's operating, investing and financing activities. There are exposures to the financial risks on the financial instruments such as credit risk, liquidity risk and market risk comprising interest rate, currency risk and price risk exposures. Management has certain practices for the management of financial risks. The guidelines set up the short and long term objectives and action to be taken in order to manage the financial risks. The guidelines include the following:

- (i) Minimise interest rate, currency, credit and market risks for all kinds of transactions;

# NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2022

## 29. FINANCIAL INSTRUMENTS: INFORMATION ON FINANCIAL RISKS (CONTINUED)

### 29B. Financial risk management (Continued)

- (ii) Maximise the use of "natural hedge", favouring as much as possible the natural offsetting of sales and costs and payables and receivables denominated in the same currency and therefore put in place hedging strategies only for the excess balance. The same strategy is pursued with regard to interest rate risk;
- (iii) All financial risk management activities are carried out and monitored by senior management staff; and
- (iv) All financial risk management activities are carried out following acceptable market practices.

There have been no changes to the exposures to risk, as well as the objectives, policies and processes for managing the risk and the methods used to measure the risk.

### 29C. Fair value of financial instruments

The analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 are disclosed in the relevant notes to the financial statements. These include both the significant financial instruments stated at amortised cost and at fair value in the statement of financial position. The carrying values of current financial instruments approximate their fair values due to the short-term maturity of these instruments and the disclosures of fair value are not made when the carrying amount of current financial instruments is a reasonable approximation of the fair value.

### 29D. Credit risk on financial assets

Financial assets are potentially subject to concentrations of credit risk and failures by counterparties to discharge their obligations in full or in a timely manner. These arise principally from cash balances with banks, cash equivalents, receivables and other financial assets. The maximum exposure to credit risk is the total of the fair value of the financial assets at the end of the reporting year. Credit risk on cash balances with banks and any other financial instruments is limited because the counter-parties are entities with acceptable credit ratings. For ECL on financial assets, the general approach (three-stage approach) in the financial reporting standard on financial instruments is applied to measure the impairment allowance. Under this general approach the financial assets move through the three stages as their credit quality changes. On initial recognition, a day-one loss is recorded equal to the 12-month ECL unless the assets are considered credit impaired. However, the simplified approach (that is, to measure the loss allowance at an amount equal to lifetime ECL at initial recognition and throughout its life) permitted by the financial reporting standards on financial instruments is applied for financial assets that do not have a significant financing component, such as trade receivables.

For credit risk on trade receivables and other financial assets, an ongoing credit evaluation is performed on the financial condition of the debtors and an impairment loss is recognised in profit or loss. Reviews and assessments of credit exposures in excess of designated limits are made. Renewals and reviews of credits limits are subject to the same review process.

Cash and cash equivalents are also subject to the impairment requirements of the standard on financial instruments. There was no identified impairment loss.

## 29. FINANCIAL INSTRUMENTS: INFORMATION ON FINANCIAL RISKS (CONTINUED)

### 29E. Liquidity risk

Liquidity risk refers to the difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. It is expected that all the liabilities will be paid at their contractual maturity. The average credit period taken to settle trade payables is approximately 30 to 90 days (2021: 30 to 90 days). The other payables are with short-term durations. The classification of the financial assets is shown in the statements of financial position as they may be available to meet liquidity needs and no further analysis is deemed necessary. In order to meet such cash commitments the operating activities are expected to generate sufficient cash inflows.

The following table analyses non-derivative financial liabilities by remaining contractual maturity and based on undiscounted cash flows:

	Less than 1 year \$'000	1 – 5 years \$'000	Over 5 years \$'000	Total \$'000
<b>Group</b>

The undiscounted amounts on the borrowings with fixed and floating interest rates are determined by reference to the conditions existing at the reporting date.

The above are the contractual undiscounted cash flows and differ from the amount included in the statements of financial position. When the counterparty has a choice of when an amount is paid, the liability is included on the basis of the earliest date on which it can be required to pay. At end of reporting year, no claims on financial guarantees are expected.

### 29F. Interest rate risk

Interest rate risk exposure is mainly from changes in fixed interest rate and floating interest rates. The following table analyses the breakdown of the significant financial instruments by type of interest rates:

	Group		Company	
	2022 \$'000	2021 \$'000	2022 \$'000	2021 \$'000

<u>Financial liabilities (floating rate)</u>		
A hypothetical increase in interest rates by 100 basis points with all other variables held constant would decrease pre-tax profit for the year by	–	(53)

The effect on pre-tax profit on a variation in interest rate of financial liabilities is not significant.

The analysis has been performed for floating interest rate over a year for financial instruments. The impact of a change in interest rates on fixed interest rate financial instruments has been assessed in terms of changing of their fair value. The impact of a change in interest rates on floating interest rate financial instruments has been assessed in terms of changing of their cash flows and therefore in terms of the impact on net expenses. The hypothetical changes in basis points are not based on observable market data (unobservable inputs).

### 29G. Foreign currency risks

Foreign exchange risk arises on financial instruments that are denominated in a foreign currency, i.e., in a currency other than the functional currency in which they are measured. For the purpose of this financial reporting standard on financial instruments: disclosures, currency risk does not arise from financial instruments that are non-monetary items or from financial instruments denominated in the functional currency.

#### Sensitivity analysis for significant items

	Group		Company	
	2022 \$'000	2021 \$'000	2022 \$'000	2021 \$'000
A hypothetical 10% depreciation in exchange rate of functional currency against USD would have a favourable effect on profit before tax of	54	162	–	–
A hypothetical 10% depreciation in exchange rate of functional currency against SGD would have a favourable/(adverse) effect on profit before tax of	106	(684)	311	130

The above table shows sensitivity to a hypothetical 10% depreciation in the functional currency against the relevant non-functional foreign currencies. The sensitivity rate used is the reasonably possible change in foreign exchange rates. For similar appreciation of the functional currency against the relevant foreign currencies, there would be comparable impacts in the opposite direction.

The hypothetical changes in exchange rates are not based on observable market data (unobservable inputs). The sensitivity analysis is disclosed for each currency to which the Group has significant exposure at end of the reporting year. The analysis above has been carried out on the basis that there are no hedged transactions.

In management's opinion, the above sensitivity analysis is unrepresentative of the foreign currency risks as the historical exposure does not reflect the exposure in the future.

### 29H. Equity price risk

There are investments in equity shares or similar instruments. Such investments are exposed to both currency risk and market price risk arising from uncertainties about future values of the equity shares. The fair value of these equity shares and sensitivity analysis are disclosed in note 18.

# NOTICE OF ANNUAL GENERAL MEETING

- (b) (notwithstanding the authority conferred by this Resolution may have ceased to be in force) issue shares in pursuance of any Instrument made or granted by the Directors of the Company while this Resolution was in force,

provided that:

- (1) the aggregate number of shares (including shares to be issued in pursuance of the Instruments, made or granted pursuant to this Resolution) to be issued pursuant to this Resolution shall not exceed fifty per centum (50%) of the total number of issued shares (excluding treasury shares and subsidiary holdings) in the capital of the Company (as calculated in accordance with sub-paragraph (2) below), of which the aggregate number of shares and Instruments to be issued other than on a pro-rata basis to existing shareholders of the Company shall not exceed ten per centum (10%) of the total number of issued shares (excluding treasury shares and subsidiary holdings) in the capital of the Company (as calculated in accordance with sub-paragraph (2) below);
- (2) (subject to such manner of calculation as may be prescribed by the SGX-ST) for the purpose of determining the aggregate number of shares that may be issued under sub-paragraph (1) above, the total number of issued shares (excluding treasury shares and subsidiary holdings) in the capital of the Company shall be based on the total number of issued shares (excluding treasury shares and subsidiary holdings) in the capital of the Company at the time of the passing of this Resolution, after adjusting for:
  - (a) new shares arising from the conversion or exercise of any convertible securities;
  - (b) new shares arising from exercising share options or vesting of share awards, provided that such share options or share awards were granted in compliance with Part VIII of Chapter 8 of Listing Manual of the SGX-ST; and
  - (c) any subsequent bonus issue, consolidation or subdivision of shares,

and, in sub-paragraph (1) above and this sub-paragraph (2), "subsidiary holdings" has the meaning given to it in the Listing Manual of the SGX-ST;

Adjustments in accordance with sub-paragraph (2)(a) or sub-paragraph (2)(b) above are only to be made in respect of new shares arising from convertible securities, share options or share awards which were issued and outstanding or subsisting at the time of the passing of this Resolution.

- (3) in exercising the authority conferred by this Resolution, the Company shall comply with the provisions of the Listing Manual of the SGX-ST for the time being in force (unless such compliance has been waived by the SGX-ST) and the Constitution; and

# NOTICE OF ANNUAL GENERAL MEETING

- (4) unless revoked or varied by the Company in a general meeting, such authority shall continue in force until the conclusion of the next Annual General Meeting of the Company or the date by which the next Annual General Meeting of the Company is required by law to be held, whichever is earlier.”

# NOTICE OF ANNUAL GENERAL MEETING

## Notes:

1. A member of the Company (not being a relevant intermediary) is invited to attend physically, speak and vote at the Annual General Meeting ("AGM or Meeting"). **There will be no option for shareholders to participate virtually.** Printed copies of this notice of AGM ("Notice"), the proxy form and the FY2022 Annual Report will be sent to Shareholders. The documents will also be made available to Shareholders via publication on the Company's corporate website (<http://www.apoil.com.sg>) and on the SGX website (<https://www.sgx.com/securities/company-announcements>).

2. **Arrangements for participation in the AGM physically:**

Members (including CPF Investment Scheme ("CPFIS") and Supplementary Retirement Scheme ("SRS") investors) may participate in the AGM by:

- (a) attending the AGM in person;
- (b) submitting questions to the Chairman of the AGM in advance of, or at, the AGM; and/or
- (c) voting at the AGM
  - (i) themselves personally; or
  - (ii) through their duly appointed proxy(ies).

CPFIS and SRS investors who wish to appoint the Chairman of the AGM (and not third party proxy(ies)) as proxy to approach their respective CPF Agent Banks or SRS Operators to submit their votes. *Please see item 6 below for details.*

In the event members encountered Covid-19 like symptoms prior to the AGM, members are strongly encouraged to exercise social responsibility to rest at home and consider appoint a proxy(ies) to attend the AGM. We encourage members to mask up when attending the AGM.

3. **Submission of Instrument Appointing a Proxy ("Proxy Form") to Vote:**

- (a) A member who is not a relevant intermediary is entitled to appoint not more than two proxies to attend, speak and vote in his/her stead at the AGM. Where a member of the Company appoints more than one proxy, he/she shall specify the proportion of his/her shares to be represented by each such proxy, failing which, the nomination shall be deemed to be alternative.
- (b) A member who is a relevant intermediary is entitled to appoint more than two proxies to attend, speak and vote at the AGM, but each proxy must be appointed to exercise the rights attached to a different share or shares held by such member.

Pursuant to Section 181 of the Companies Act 1967 of Singapore, a relevant intermediary is either:

- (i) a banking corporation licensed under the Banking Act 1970 or its wholly-owned subsidiary which provides nominee services and holds shares in that capacity;
- (ii) a capital market services license holder which provides custodial services for securities under the Securities and Futures Act 2001 and holds in that capacity; or
- (iii) the Central Provident Fund ("CPF") Board established by the Central Provident Fund Act 1953, in respect of shares purchased on behalf of CPF investors.

4. A proxy need not be a member of the Company.
5. A member can appoint the Chairman of the AGM as his/her/its proxy but this is not mandatory.

If a member wishes to appoint the Chairman of the Meeting as proxy, such member (whether individual or corporate) must give specific instructions as to voting for, voting against, or abstentions from voting on, each resolution in the instrument appointing the Chairman of the Meeting as proxy. If no specific direction as to voting is given or in the event of any other matter arising at the Meeting and at any adjournment thereof, the Chairman of the Meeting will vote or abstain from voting at his discretion.

6. CPFIS/SRS investors who hold SGX shares through CPF Agent Banks/SRS Operators:

- (a) may vote at the AGM if they are appointed as proxies by their respective CPF Agent Banks/SRS Operators, and should contact their respective CPF Agent Banks/SRS Operators if they have any queries regarding their appointment as proxies; or
- (b) may appoint the Chairman of the AGM as proxy to vote on their behalf at the AGM, in which case they should approach their CPF Agent Banks/SRS Operators to submit their votes at least (7) working days prior to the date of AGM (i.e. by 2.00 p.m. on 18 April 2023) in order to allow sufficient time for their respective relevant intermediaries to in turn submit a proxy form to appoint the Chairman of the AGM to vote on their behalf by the cut-off date.

# NOTICE OF ANNUAL GENERAL MEETING

7. The Proxy Form, together with the power of attorney or other authority under which it is signed (if applicable) or a notarial certified copy thereof, must be submitted to the Company in the following manner:
  - (a) if by post, to the **Share Registrar of the Company**, Tricor Barbinder Share Registration Services, 80, Robinson Road, #11-02, Singapore 068898; (Opening Hours is 9 a.m. to 5.30 p.m., Mondays to Fridays (excluding Public Holidays)); or
  - (b) if by post, to the **Registered Office** of the Company at 18, Pioneer Sector 1, Singapore 628428/if by email to the Company, to email address [interns1@apoil.com.sg](mailto:interns1@apoil.com.sg)

in either case, **not less than 48 hours before the time for holding the AGM by 2.00 p.m. on 25 April 2023** and at any adjournment thereof.
8. A Shareholder who wishes to submit an instrument of proxy by (a) and (b) must first download the proxy form, which is available on SGX website at the URL <https://www.sgx.com/securities/company-announcements>, complete and sign the proxy form, before submitting it by post to the addresses provided above, or scanning and sending it by email to the email address provided above.
9. The Company shall be entitled to reject the instrument appointing a proxy or proxies if it is incomplete, improperly completed, illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointor specified in the instrument appointing a proxy or proxies (such as in the case where the appointor submits more than one instrument of proxy) and received after the cut-off at 2.00 p.m. on 25 April 2023. In the case of shares entered in the Depository Register, a Depositor's name must appear on the Depository Register maintained by The Central Depository (Pte) Limited as at 72 hours before the time fixed for holding the AGM in order for the Depositor to be entitled to appoint the proxy or proxies.
10. If the member is a corporation, the instrument appointing the proxy must be under seal or the hand of an officer or attorney duly authorised.
11. Completion and return of the Proxy Form by a member will not prevent him/her from attending, speaking and voting at the AGM if he/she so wishes. The appointment of the proxy(ies) for the AGM will be deemed to be revoked if the member attends the AGM in person and in such event, the Company reserves the right to refuse to admit any person or persons appointed under the relevant instrument appointing a proxy(ies) to the AGM.
12. **Submission of questions by members in advance of the AGM**
  - (a) if by email to the Company, to email address [interns1@apoil.com.sg](mailto:interns1@apoil.com.sg), if by post, to be lodged at the Company's registered address at 18, Pioneer Sector 1, Singapore 628428. Shareholders must provide the Company with their particulars (comprising full name (for individuals)/company name (for corporate), email address, contact number, NRIC/passport number/company registration number, shareholding type and number of shares held); and submit their questions using the question form provided in this Annual Report.
  - (b) The Company will address the substantial questions from Shareholders at the AGM and upload the Company's responses on the SGX website.
  - (c) The minutes of the AGM, including responses to substantial queries from the Shareholders, shall thereafter be published on SGX website, within one (1) month from the conclusion of the AGM.
  - (d) Investors who hold shares through relevant intermediaries as defined in Section 181(1C) of the Companies Act, including CPF and SRS Investors, can submit their questions in relation to any resolution set out in the Notice of AGM upon pre-registration, however, they should, in addition to pre-registering, approach their respective agents, including CPF Agent Banks and SRS Operators, as soon as possible, so that the necessary arrangements can be made by the relevant agents for their participation in the AGM.

**All questions must be submitted by 2.00 p.m. on 18 April 2023 to the Company.**
13. Important reminder. Any changes to the manner of conducting the AGM will be announced by the Company on SGXNet. Members are advised to check SGXNet regularly for any further updates.

## Personal Data Privacy:

By submitting an instrument appointing a proxy(ies) and/or representatives to attend, speak and vote at the Annual General Meeting and/or any adjournment thereof, a member of the Company (i) consents to the collection, use and disclosure of the member's personal data by the Company (or its agents) for the purpose of the processing and administration by the Company (or its agents) of proxies and representatives appointed for the Annual General Meeting (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the Annual General Meeting (including any adjournment thereof), and in order for the Company (or its agents) to comply with any applicable laws, listing rules, regulations and/or guidelines (collectively, the "Purposes"), (ii) warrants that where the member discloses the personal data of the member's proxy(ies) and/or representative(s) to the Company (or its agents), the member has obtained the prior consent of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the Purposes, and (iii) agrees that the member will indemnify the Company in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the member's breach of warranty.

# SUSTAINABILITY REPORT

## ABOUT THIS REPORT

This is AP Oil International Limited ("APOIL" or "Group") Sustainability Report, to present our Environmental, Social and Governance (ESG) performance for the period 1 January 2020 to 31 December 2022.

This report covers APOIL's ESG performance for business operations in Singapore and excludes overseas subsidiaries. Sustainability data included in the report pertains to three major subsidiaries namely AP Oil Pte Ltd, A.I.M. Chemical Industries Pte Ltd, and GB Chemicals Pte Ltd ("Major Subsidiaries"). These three companies contribute largely to the Group turnover operations and profitability.

### Reporting Framework

This report has been prepared in accordance with the GRI standards, a widely used framework for sustainability reporting worldwide. The report complies with the SGX-ST Listing Rules (711A and 711B) and the SGX Sustainability Reporting Guide. The report includes the GRI Index and TCFD Index to indicate the location of the relevant disclosures and includes climate-related disclosures, in accordance with the Group's operations and related to TCFD recommendations. We have used the GHG Protocol Corporate Accounting and Reporting Standard for measuring and reporting carbon emissions.

### Reporting Process

The Board provides direction to the Management in developing a sustainability strategy and report, and determines the ESG factors, climate-related risks and opportunities, and disclosure in the Sustainability Report. The Board is assisted by the Sustainability Committee ("Committee"), headed by the Group Chief Executive Officer and includes senior executives from APOIL and Major Subsidiaries. The Committee is responsible for content, scope and boundary for sustainability reporting and issues noted. The Major Subsidiaries have collected, verified and provided the ESG performance data for the Sustainability Report.

### Report Content and Quality

The report includes the materiality assessment for the ESG factors and the stakeholder's expectation. Potential ESG risks, opportunities and general sustainability trend have been taken into account. We have applied the principles of accuracy, clarity, comparability, reliability and timeliness to ensure report quality. Data contained in the report have been extracted from internal systems and records. Commonly used international measurement units have been used for presenting the information. Financial figures are in Singapore dollars.

### Assurance

Internal verification mechanism was used to ensure the accuracy of reported information. Our ESG performance data is reported in good faith and to the best of our knowledge. We have conducted an internal review of sustainability reporting processes and data included in this Sustainability Report.

### Feedback

We welcome stakeholders' comment and question regarding the content of this report, email to [enquiry@apoil.com.sg](mailto:enquiry@apoil.com.sg).

## STAKEHOLDER ENGAGEMENT

*We consider ongoing stakeholder engagement an important activity to develop effective management strategies and pursue sustainable business practices.*

Our approach to stakeholder engagement is to ensure that we have a good understanding of the key stakeholder concerns and expectation to develop practical business and sustainability strategies. We identify and prioritise based on the potential impact of our business on stakeholders or potential to affect our business through their views and action.

Our ongoing interaction and engagement with our customers, employees, regulators, suppliers, investors, and communities provide necessary insights to our materiality assessment in determining the most material ESG factors for sustainability reporting. We have attempted to address our stakeholders' expectations and concerns by including relevant material topics and disclosures throughout this Sustainability Report.

A summary of our stakeholder engagement across the Major Subsidiaries is presented below.

Stakeholders	Engagement methods	Key topics and concerns	How we meet expectations
<b>Customers</b> 	Regular meetings and visits, marketing activities, website, purchase agreements and ongoing telecommunication.	Provide high-quality products and reliable service, competitive prices, on-time delivery, compliant products, and protection of intellectual property.	Proactive customer service policy, stringent quality control processes, ensuring relevant international product certifications, compliance with applicable regulations, and securing necessary certification from Original Equipment Manufacturers.
<b>Employees</b> 	Regular team meetings, training workshops, standard operating procedures (SOPs), performance appraisals, emails and company events.	Stable employment, safe and conducive work environment, rewards and recognition for performance, personal development, and employment benefits.	Fair and transparent human resource policies, regular training, performance indicator incentives, performance appraisal and rewards.
<b>Suppliers and vendors</b> 	Regular meetings and visits, audits, request for quotation and purchase orders.	Fair payment terms, reasonable lead time, reasonable price and business growth.	Provide clear specification, prompt payment and fair payment term.

## SUSTAINABILITY STRATEGY

*Our sustainability strategy is to create value for society including our customers, employees, the environment, communities and shareholders.*

Our approach is rooted in APOIL corporate culture that promotes diligence, sincerity, loyalty and harmony. As the leading lubricants and specialty chemicals manufacturer and supplier, we have adopted international standards in the environmental, occupational health and safety, and product quality management. Our facilities have obtained ISO 14001 and ISO 45001 certifications that reflect commitment to protecting the environment and ensuring health and safety of our people.

We have conducted a comprehensive review of our sustainability approach, carried out a materiality assessment to reassess the environmental, social and economic impact, risks and opportunities. The focus is on the significant impact of respective business on the economy, environment and communities and how these impact shape stakeholders' views on the companies.

APOIL considered corporate values and long-term business goals, prioritised the most important topics based on their potential impact, risks and opportunities and the potential effect on the stakeholders.

### Board Statement

AP Oil is committed to carry out its business activities in a socially and environmentally responsible manner. The Group is committed to deliver world-class quality products and services to meet customers' ever-changing requirements.

The Board has considered sustainability issues in strategy formulation. The Board has determined and endorsed the material ESG factors included in this report. The Board also provides oversight of Management; and monitoring of the material ESG factors, identified by the Committee, through periodic review of the sustainability performance.

## ESG Goals and Targets

With this Sustainability Report, we have mapped out the ESG performance data for the past three years. Our broad goal is to minimise the potential risk and impact of our business on the environment, people and communities. We have presented our sustainability goals in this report.

# SUSTAINABILITY REPORT

## Management Systems

We benchmark our sustainability management practices against international standards. Our commitment to quality, health and safety and environmental management is reflected in the certification received by the Group. Some of the important certification includes:

- ISO 9001:2015;
- ISO 14001:2015;
- ISO 45001:2018; and
- bizSAFE Level Star

## Sustainability Governance

Sustainability is governed at the Board level of APOIL. The Board guides the management on addressing critical environmental, social and governance issues.

The Board is assisted by the Sustainability Committee headed by the Group Chief Executive Officer. The Committee includes representatives from the main business units and functions. A cross-functional team has the responsibility for collecting and verifying performance data for the material ESG factors. A project coordinator assists the Group Chief Executive Officer in steering the process for Sustainability Report.

## ENVIRONMENT

*Our approach is to minimise the potential environmental impact, risk and hazard associated with our operations.*

As a leading lubricant and specialty chemicals business, we recognise environmental management and resources conservation as integral to our business. Our environmental policy is to ensure continual improvement in managing significant impact and to meet all environmental legislation that relate to the Company.

Our facilities are certified to the ISO 14001 Standards which provides a sound basis to build our environmental efforts. We are committed to demonstrating our continual improvement by reducing resources consumption, ecological risks and wastage.

Our periodic environmental review aims to identify material aspects, associated environmental impact, risks, hazards and opportunities with regard to the related operations. The process includes a comprehensive risk assessment covering air pollution and emission, water contamination, hazardous and non-hazardous waste, resource depletion, noise and odour, and potential hazards.

Our environmental efforts focus on energy, pollution and emissions, water, waste, chemical and oil spills. Based on the systematic review, we establish goals and targets for the most material environmental topics.

We regularly review our environmental performance to assess the effectiveness of our policies and programs. The environmental data presented in this report refers to the Singapore-based facilities of the Major Subsidiaries.

# SUSTAINABILITY REPORT

## Energy

We use electricity for lighting and operating plant equipment, fuel in our vehicles and forklifts. Our policy is to minimise energy consumption and to reduce our impact on the environment whilst striving to achieve operational cost efficiency.

When procuring, we consider the energy efficiency of equipment at the time of purchase. This focus transcends throughout the business to the micro level of using energy efficient light bulbs to minimise consumption.

Through ongoing awareness programmes, we encourage our employees to adopt energy conservation habits. The habits that we promote include turning off the equipment when not in use, regular maintenance of the machine, switching off lights before leaving meeting rooms and other work areas, setting the airconditioned temperature to a comfortable 23-25 degree Celsius, and keeping the doors and windows of airconditioned rooms closed at all times.

We monitor our energy usage to identify opportunities for reduction.

## Greenhouse Gas (GHG) Emissions and Climate-Related

The Group has identified climate-related risks and opportunities as follows:

Climate-related risks and opportunities	Potential financial impact
<b>Technology</b>	
<ul style="list-style-type: none"> <li>Transition costs to lower emissions technology</li> </ul>	<ul style="list-style-type: none"> <li>Capital investments in technology development</li> <li>Costs to adopt/deploy new practices and processes</li> </ul>
<b>Market</b>	
<ul style="list-style-type: none"> <li>Increased cost of raw materials</li> </ul>	<ul style="list-style-type: none"> <li>Increase production costs due to escalating input prices (eg. energy, water) and output related (eg. waste treatment)</li> </ul>
<b>Resource efficiency</b>	
<ul style="list-style-type: none"> <li>Use of energy efficient equipment</li> <li>Use of recycling</li> </ul>	<ul style="list-style-type: none"> <li>Reduced operating costs (eg. efficiency gains, energy cost reduction through solar panels)</li> </ul>
<b>Energy source</b>	
<ul style="list-style-type: none"> <li>Use of lower-emission source of energy</li> <li>Use of renewable energy</li> </ul>	<ul style="list-style-type: none"> <li>Reduced operational costs, exposure to fossil fuel/ natural gas price increase</li> </ul>

# SUSTAINABILITY REPORT

To address the climate change impact the Group supports the Paris Agreement to mobilise global efforts for limiting the temperature rise to below 2°C from pre-industrial levels to mitigate the risks of climate change. We are committed to reduce the carbon footprint of our business activities.

The GHG emissions resulting from our operations can be attributed mainly to the use of electricity, diesel and petrol consumption. Our policy is to optimise the use of these energy sources to reduce our carbon footprint. As part of reducing the GHG emissions, the Group invested in a solar system with a capacity of 145.5 kWp. The system is expected to commence producing renewable energy in 2023.

We currently measure and monitor our carbon dioxide emissions under scope-1 and scope-2 as set out in the GHG Protocol. Our carbon emissions footprint is presented below:

Carbon Dioxide (CO <sub>2</sub> ) Emission (t)	2020	2021	2022
Mobile	78	75	77
Stationary	41	37	41
<b>Scope 1</b>	119	112	118
Purchased Electricity	214	208	204
<b>Scope 2</b>	214	208	204
<b>Total</b>	333	320	322

## Water

We use water for cleaning the vessels and general washing. Our approach is to conserve water by minimizing the use and recycling or reusing when practical.

In Singapore, we buy water from the Public Utilities Board (PUB), the national agency responsible for ensuring a sustainable and efficient water supply.

We have implemented several water conservation measures. These measures include water-saving devices, recycling water in cooling systems, and minimizing use of water in washing. We ensure water pipes and valves are adequately maintained, and leaks are promptly repaired.

We have also implemented the necessary measures to prevent accidental contamination of water due to unintentional chemical and oil spills.

We measure and monitor our water usage to assess our performance together with other environmental metrics.

## Wastewater

Wastewater is generated in our chemicals manufacturing facilities as a result of washing or cleaning of vessels. We dispose wastewater through licensed contractors in accordance with the local regulations.

# SUSTAINABILITY REPORT

## Waste Management

Our policy is to reduce, reuse and recycle waste to minimise the impact on the environment as well as to improve our resource efficiency.

Waste generated in our facilities includes both hazardous and non-hazardous waste. The primary sources of hazardous waste from our operations include chemical waste such as cleaning solvents, additives, lubricants, oils, greases and paints, contaminated cleaning wipes, chemical containers, steel drums, plastic containers, batteries from forklift trucks, wooden pallets, carton boxes, packaging material and general office waste.

To reduce waste, we focus on minimizing wastage of production raw materials by ensuring that the final product specifications are correct.

We have implemented procedures for segregating waste by source of generation and by type. We store waste in designated and clearly marked areas. All hazardous waste is appropriately sealed or enclosed to prevent accidental spillage or contamination. We ensure safe disposal of waste by engaging licensed waste management contractors.

We recycle and reuse steel drums and plastic containers. Rejected drums and containers are returned to respective vendors for recycling or safe disposal. Wooden pallets are reused in our facilities as long as they are serviceable after which they are disposed as general waste. Waste carton boxes are reused for packaging or sent for recycling by contractors.

## Chemical Spill

Handling of chemicals and oil involves risk of a spill that may cause water contamination and hazardous waste. Our target is zero spill on land or drainage, by taking preventive measures and ensuring emergency preparedness.

We place dispersants and spill control kits at designated points to manage accidental spills. The production and engineering department are responsible to ensure spill kits are always ready and accessible. We have implemented yearly chemical and oil spill drill to enable our people respond quickly and safely in the event of a spill, and to minimise the damage to the environmental. There was no incident of a significant spill in the reported period.

## Employee Awareness

We believe employees play a crucial role in preventing and managing environmental risks. We have an ongoing employee education program to promote environmental awareness. The production and engineering departments periodically review work instruction and method to minimise hazards.

## Environmental Compliance

The Group is committed to complying with applicable environmental regulations as well as international standards which we subscribe. Our target is zero incidents of non-compliance. Our production and engineering department has implemented a comprehensive environmental control program and regularly inspects the sites for potential pollution or impacts.

There was no incident of non-compliance with environmental laws in the reported period.

## PEOPLE

*We are committed to developing human capital by attracting and retaining passionate talent and building a culture of learning, diligence, sincerity, harmony and teamwork.*

Our people play a crucial role in building our ability to deliver world-class products and services to our customers. Our policies are designed to attract, retain and develop passionate and talented people.

Diligence, devotion, loyalty, harmony and teamwork are part of our corporate values. These values have enabled APOIL to overcome challenges and to grow in the past decades and emerge as one of the leading lubricant and specialty chemical specialists in the Asia Pacific.

Our most significant workplace topics include occupational health and safety, diversity, employee development, performance management and well-being of our employees. We regularly review the effectiveness of our human resource policies.

The employee data provided in this report covers the Singapore operations of the Major Subsidiaries.

# SUSTAINABILITY REPORT

## Employment

As at 31 December 2022, we employed 103 people in Singapore, was 98 in the prior year. Production, clerical and other non-executive jobs accounted for 34% of our workforce.

## Diversity

We believe workplace diversity enrich our decision making and enable us to serve diverse markets and customers more effectively. We seek to build and promote a diverse and professional talent pool. Our human resource policies support an equal opportunity for all based on merit. Our workforce includes different nationality to make it culturally diverse.

In 2022, women represented 33% of our workforce even though it's challenging to attract women employees to work in chemicals manufacturing operation.

## Hiring

Our policy is to hire on merit and qualification. In 2022, we hired 27 new employees, 9 were women; 30% was below the 30 years age group; 63% in the 30 to 50 years age group and balance 7% was above 50 years of age.

## Training

Our policy is to encourage ongoing training to ensure our employees have required skills to serve our customers efficiently. We provide both in-house and external training opportunities to our employees.

## Employee Engagement & Benefits

We follow open door policy whereby employees have access to Management to discuss their concerns and ideas. We actively engage our people through their participation in the environmental health and safety (EHS) committee and ongoing safety briefing sessions and environmental awareness campaigns. Employees are also engaged through conventional means of communication such as internal memos, notice boards and emails. Our permanent staff members enjoy an array of benefits and competitive wages. New employees attend orientations job training as part of transition program.

## Performance Management

We drive performance by promoting teamwork, encouraging open communication, and providing regular feedback. We periodically assess the performance and skills of our employees to ensure suitable rewards, promotions and personal development.

We have implemented a performance management system across the Group that covers all permanent employees. Employees participate in twice a year performance appraisal to assess and discuss their performance.

## Employee Turnover

Our policies are aimed at retaining talent. Our retention strategies include competitive benefits, attractive rewards for performance, opportunities for learning and growth and providing a respectful working environment.

# SUSTAINABILITY REPORT

The employee departures in 2021 and 2022 at the Major Subsidiaries were:

	Employee Departure			
	2021	2021	2022	2022
	Male	Female	Male	Female
AP Oil	14	3	7	7
A.I.M. Chemical	3	1	Nil	Nil
GB Chemicals	11	4	6	4

## Health and Safety

Employee safety is a top priority for us. We are committed to providing a healthy and safe workplace for our people. Our occupational health and safety policy is to minimise the health and safety risks arising from our workplace. Our goal is zero injury in the workplace.

Our facilities maintain ISO 45001 certification reflecting our commitment to international standards of occupational health and safety. We have maintained BizSafe Star certification from the Workplace Safety and Health Council, Singapore. Senior management reviews our health and safety performance on a monthly basis.

Our Group have established Workplace Safety and Health (WSH) Committee in each Major Subsidiary, chaired by the respective managing director or chief executive officer, with representatives from various functions. The Committee meet regularly to review safety performance and develop improvement plans.

From the comprehensive safety risk assessment, we have implemented measures to prevent injuries and accidents. Routine maintenance of machinery and equipment is an essential part of our safety management.

Our employees receive ongoing safety training and briefings. Employees in production are required to use appropriate personal protective equipment when carrying out various tasks.

We are working toward improving worksite design and removing risk factors that lead to musculoskeletal injuries and allowing for improved human performance and productivity.

There were no fatal accidents and no reportable incidents of occupational disease during the reported period.

## Human Rights

We are committed to respecting the rights of our people as provided for in the national laws and internationally recognised principles. Our policies prohibit child labour, forced labour and discrimination. We respect our employees' right to freedom of association and collective bargaining. We do not have collective bargaining agreement with a union.

There was no incident of child labour, forced labour or discrimination in the reported period.

## CUSTOMERS

*We are committed to providing products and services of world-class quality to our customers.*

As a leading lubricants and specialty chemicals supplier in the Asia Pacific, we focus on strict quality management to meet and even exceed customers' expectation. Our organisation is certified to ISO 9001 standards to ensure consistent quality of our management processes.

There is a global trend of growing concerns on the safe use of chemicals, and the potential impact of chemicals manufacturing and transportation on health and safety of people and the environment. Ensuring product safety, the safety of our people and communities, and protecting the environment are top priorities of APOIL.

Our facilities are also certified to ISO 14001 and ISO 45001 to assure customers that our products are made in the environmentally responsible manner and by adhering to international safety standards. We adopt an integrated approach to quality, safety and environmental assurance to all our products and services to ensure consistency in performance.

# SUSTAINABILITY REPORT

Our AP products are formulated and quality controlled to meet standards and specifications of international institutions such as API, SAE, ISO, NLGI, DIN, JASO and ACEA.

We also obtained certification from major Original Equipment-Manufacturers, namely Volvo and MTU for some of our finished products.

Our laboratories are well equipped with advanced equipment capable of providing comprehensive technical assurance and services.

We regularly engage our customers through formal and informal methods to seek their feedback to improve our customer service.

Through training and conferences, we share knowledge and technical specification with our customers.

On request, we can provide MSDS, name, manufacturer, batch code and product specification for the products sold to the customers. Bulk of our products are classified as non-Dangerous goods. For assurance of product quality, we are ISO 9001:2015 certified.

There were no incidents of non-compliance concerning the health and safety of our products in 2022.

## Research and Development

We invest in research to develop innovative solutions for customers and to provide superior quality products. We have five laboratories, four in Singapore and one in Vietnam, for R&D and quality assurance. Two of our laboratories are equipped with Inductively Coupled Plasma Atomic Emission Spectrometers for the analysis of metal elements to enhance research and development capability.

Our R&D team comprising qualified chemists and engineers focus on upgrading the quality of existing products, and formulate new products to meet the evolving market demand.

R&D activities concentrate on developing customised lubricants for specific customer needs and improving the operational efficiency and cost-effectiveness. Product innovation and upgrading in specialty chemicals are other areas of our applied research.

Our marketing and technical service teams work closely with customers to identify areas of improvement. The insights gained from customer engagement helps our R&D team to improve or design and formulate new products to meet customers' unique requirements.

## Suppliers

We work closely with our suppliers to ensure quality and timely delivery. Our significant purchases mainly include raw materials and packaging materials.

# SUSTAINABILITY REPORT

## COMMUNITY

AP Oil is committed to be a responsible corporate citizen, to minimise the impact of our business operations on the community and the environment. We ensure our manufacturing plants adhere to strict environmental health and safety standards to protect our employees and the neighbouring communities.

## ECONOMIC PERFORMANCE

*We are committed to creating long-term sustainable value for our shareholders and stakeholders.*

Our detailed financial performance is provided in the Annual Report under the financial statements. A summary of our economic performance, extracted from our financial statements, is provided

below in line with the GRI Standards.

If you have shares registered in your name in the Register of Members, you should insert that number of shares. If you have shares entered against your name in the Depository Register and shares registered in your name in the Register of Members, you should insert the aggregate number of shares. If no number is inserted, this form of proxy will be deemed to relate to all the shares held by you.
2. A member of the Company who is not a relevant intermediary is entitled to appoint not more than two proxies to attend, speak and vote on his/her behalf at the Annual General Meeting. Where a member of the Company appoints more than one proxy, he/she shall specify the proportion of his/her shares to be represented by each such proxy, failing which, the nomination shall be deemed to be alternative.
3. Pursuant to Section 181 of the Companies Act 1967 of Singapore, any member of the Company who is a relevant intermediary is entitled to appoint one or more proxies to attend, speak and vote at the Annual General Meeting. A relevant intermediary is either:
  - (i) a banking corporation licensed under the Banking Act 1970 or its wholly-owned subsidiary which provides nominee services and holds shares in that capacity;
  - (ii) a capital market services license holder which provides custodial services for securities under the Securities and Futures Act 2001 and holds in that capacity; or
  - (iii) the Central Provident Fund ("CPF") Board established by the Central Provident Fund Act 1953, in respect of shares purchased on behalf of CPF investors.

An investor who buys shares using CPF monies ("CPF Investor") and/or SRS monies ("SRS Investor") (as may be applicable) may attend and cast his vote(s) at the Annual General Meeting in person. CPF and SRS Investors who are unable to attend the Annual General Meeting but would like to vote, may inform their CPF and/or SRS Approved Nominees to appoint the Chairman of the Meeting to act as their proxy, in which case, the CPF and SRS Investors shall be precluded from attending the Annual General Meeting.

4. The instrument appointing a proxy or proxies, duly executed, must be submitted to the Company in the following manner:
  - (a) if by post, to the **Share Registrar of the Company, Tricor Barbinder Share Registration Services, 80, Robinson Road, #11-02, Singapore 068898**; (Opening Hours is 9 a.m. to 5.30 p.m., Mondays to Fridays (excluding Public Holidays)); or
  - (b) if by post, to the **registered office of the Company at 18 Pioneer Sector 1, Singapore 628428**/if by email to the Company, to email address **interns1@apoil.com.sg**

in either case, at least 48 hours before the time fixed for the Annual General Meeting, i.e. **2.00 p.m. on 25 April 2023**.

A member who wishes to submit an instrument of proxy must first download, complete and sign the proxy form, before submitting it by post to the address provided above, or sending it by email to the email address provided above.

5. The instrument appointing a proxy or proxies must be under the hand of the appointor or his attorney duly authorised in writing. Where the instrument appointing a proxy or proxies is executed by a corporation, it must be executed under its common seal or signed on its behalf by an attorney duly authorised in writing or by an authorised officer of the corporation.
6. Where an instrument appointing a proxy or proxies is signed on behalf of the appointer by an attorney the letter or power of attorney (or other authority) or a duly certified copy thereof must (failing previous registration with the Company) be lodged with the instrument of proxy, failing which the instrument may be treated as invalid.
7. A corporation which is a member may by resolution of its directors or other governing body authorise such person as it thinks fit to act as its representative at the Annual General Meeting.
8. Completion and return of the Proxy Form by a member will not prevent him/her from attending, speaking and voting at the Annual General Meeting if he/she so wishes. The appointment of the proxy(ies) for the Annual General Meeting will be deemed to be revoked if the member attends the Annual General Meeting in person and in such event, the Company reserves the right to refuse to admit any person or persons appointed under the relevant instrument appointing a proxy(ies) to the Annual General Meeting.
9. The Company shall be entitled to reject the instrument appointing a proxy or proxies if it is incomplete, improperly completed or illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointor specified in the instrument appointing a proxy or proxies.
