Singapore, 24 February 2026 – Credit Bureau Asia Limited (“CBA”, “亚洲征信有限公司” and together with its subsidiaries, the “Group”), a leading player in the credit and risk information solutions market in Southeast Asia, is pleased to announce for the full year ended 31 December 2025 (“FY2025”), it recorded its best full year revenue of S\$60.1 million since inception. Net profit before tax (“NPBT”) remained relatively unchanged at S\$30.2 million, while profit after tax and minority interest (“PATMI”) is S\$10.7 million.

Overall, the Group FY2025 achieved the same results as last year, in spite of the challenging global economy. The slight reduction in PATMI is primarily due to the reduction of interest income as a result of the weak interest rate environment as well as from the effects of the weakening US dollar.

The FI Data business continued to show good growth in FY2025. Credit Bureau Singapore continues to outperform, and Credit Bureau Cambodia business is experiencing a positive turnaround in 2H2025 after slowing down in 1H2025.

Revenue for our non-FI Data business remained resilient. Though NPBT dipped slightly for FY2025, the non-FI Data business enjoyed a healthy rebound in 2H2025 as businesses around the world adjust to the changing global trade policy shifts.

Looking forward, the global business environment remains challenging and the Group is cautiously optimistic on growth in FY2026.

As announced previously, the Company will be undertaking a capital reduction and cash distribution exercise to return surplus capital to the tune of 9 Singapore cents per share back to shareholders.

Finally, the Board is recommending a final dividend of 2.2 Singapore cents per share, a 10% increase over the same period last year, bringing the total dividend payout for FY2025 to 4.2 Singapore cents per share.
